Approximate date of commencement of proposed sale to the public: Promptly after the effective date of this registration statement.

If any securities being registered on this Form are to be offered on a delayed or continuous basis pursuant to Rule 415 under the Securities Act of 1933, check the following box. ☐

If this Form is filed to register additional securities for an offering pursuant to Rule 462(b) under the Securities Act, please check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. ☐

If this Form is a post-effective amendment filed pursuant to Rule 462(c) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. ☐

If this Form is a post-effective amendment filed pursuant to Rule 462(d) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

(Check one):

Large accelerated filer ☐
Non-accelerated filer ☒

Accelerated filer ☐
Smaller reporting company ☒
Emerging growth company ☒

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 7(a)(2)(B) of the Securities Act. ☐

CALCULATION OF REGISTRATION FEE

Title of Each Class of Securities To Be Registered	Amount to be Registered	Proposed Maximum Offering Price per Unit ⁽¹⁾	Proposed Maximum Aggregate Offering Price ⁽¹⁾	Amount of Registration Fee
Units, each consisting of one Class A ordinary share, \$0.0001 par value, and one-third of one warrant ⁽²⁾	23,000,000 Units	\$ 10.00	\$ 230,000,000	\$ 25,093
Class A ordinary shares, par value \$0.0001 per share (the "ordinary shares"), included in the Units ⁽³⁾	23,000,000 Shares	—	—	— ⁽⁴⁾
Warrants to purchase ordinary shares included in the Units ⁽³⁾	7,666,666 Warrants	—	—	— ⁽⁴⁾
Total			\$ 230,000,000	\$ 25,093

(1) Estimated solely for the purpose of calculating the registration fee under Rule 457(a).

(2) Includes 3,000,000 units, consisting of 3,000,000 Class A ordinary shares and 1,000,000 warrants, which may be issued upon exercise of a 45-day option granted to the underwriters to cover over-allotments, if any.

(3) Pursuant to Rule 416 under the Securities Act, there are also being registered an indeterminable number of additional securities as may be issued to prevent dilution resulting from share sub-divisions, share capitalizations or similar transactions.

(4) No additional registration fee is payable pursuant to Rule 457(g).

The registrant hereby amends this Registration Statement on such date or dates as may be necessary to delay its effective date until the registrant shall file a further amendment which specifically states that this Registration Statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933, as amended, or until the Registration Statement shall become effective on such date as the Securities and Exchange Commission, acting pursuant to said Section 8(a), may determine.

Subject to Completion, dated , 2021

PRELIMINARY PROSPECTUS

\$200,000,000
Aurora Acquisition Corp.
20,000,000 Units

Aurora Acquisition Corp. is a Cayman Islands exempted company newly incorporated as a blank check company for the purpose of effecting a merger, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses, which we refer to as our initial business combination. We have not selected any potential business combination target, and we have not, nor has anyone on our behalf, initiated any substantive discussions, directly or indirectly, with any potential business combination target with respect to an initial business combination with us. While we may pursue an initial business combination target in any stage of its corporate evolution or in any industry or sector, we intend to focus our search on technology and media companies in Europe, the Middle East and Africa.

This is an initial public offering of our securities under the Securities Act of 1933, as amended, or the Securities Act. Each unit has an offering price of \$10.00 and consists of one Class A ordinary share and one-third of one warrant. Each whole warrant entitles the holder thereof to purchase one Class A ordinary share at a price of \$11.50 per share, subject to adjustment, as described herein. Only whole warrants are exercisable. The warrants will become exercisable on the later of 30 days after the completion of our initial business combination and 12 months from the closing of this offering, and will expire five years after the completion of our initial business combination or earlier upon redemption or liquidation, as described in this prospectus. The underwriters have a 45-day option from the date of this prospectus to purchase up to 15% of additional units to cover over-allotments, if any.

We will provide our public shareholders with the opportunity to redeem all or a portion of their Class A ordinary shares upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account (excluding any amounts then on deposit in the trust account that are allocable to the Novator private placement shares) described below calculated as of two business days prior to the consummation of our initial business combination, including interest (net of taxes payable), but excluding any interest earned on the funds held in the trust account that are allocable to the Novator private placement shares, divided by the number of then outstanding Class A ordinary shares, subject to the limitations described herein. If we are unable to complete our initial business combination within 24 months from the closing of this offering, we will redeem 100% of our Class A ordinary shares and Novator private placement shares for cash, subject to applicable law and certain conditions as further described herein.

Our initial shareholders, which include our sponsor, own an aggregate of 6,625,000 Class B ordinary shares (up to 750,000 shares of which are subject to forfeiture depending on the extent to which the underwriters' over-allotment option is exercised), which will automatically convert into Class A ordinary shares at the time of our initial business combination on a one-for-one basis. Only holders of Class B ordinary shares will have the right to appoint directors in any election held prior to or in connection with the completion of our initial business combination.

Our sponsor, Novator Capital Sponsor Ltd., an affiliate of Novator Capital (Guernsey) Ltd., has agreed to purchase 4,000,000 warrants (or 4,400,000 warrants if the underwriters' over-allotment option is exercised in full), each exercisable to purchase one Class A ordinary share at \$11.50 per share, at a price of \$1.50 per warrant, in a private placement of warrants that will close concurrently with the closing of this offering. We refer to these warrants as the private placement warrants.

Additionally, our sponsor, as well as certain of our directors and executive officers, have agreed to purchase 3,500,000 units, at a price of \$10.00 per unit for an aggregate purchase price of \$35,000,000 in a private placement that will close concurrently with the closing of this offering. The gross proceeds of the Novator private placement will be deposited into the trust account. We refer to these units as the Novator private placement units. The Novator private placement units are identical to the units being sold in this offering, subject to certain limited exceptions described in this prospectus. Our sponsor, as well as directors and executive officers of our Company, have agreed to waive their redemption rights with respect to the Class A ordinary shares included in the Novator private placement units in connection with the completion of our initial business combination.

Currently, there is no public market for our units, Class A ordinary shares or warrants. We intend to apply to have our units listed on the Nasdaq Capital Market, or Nasdaq, under the symbol "AURC.U" on or promptly after the date of this prospectus. We cannot guarantee that our securities will be approved for listing. We expect our Class A ordinary shares and warrants comprising the units to begin separate trading on the Nasdaq under the symbols "AURC" and "AURC WS," respectively, on the 52nd day following the date of this prospectus unless the representative of the underwriters permits earlier separate trading and we have satisfied certain conditions.

We are an "emerging growth company" under applicable federal securities laws and will be subject to reduced public company reporting requirements.

Investing in our securities involves a high degree of risk. You should carefully review and consider the section entitled "Risk Factors" beginning on page 35 of this prospectus. Investors will not be entitled to protections normally afforded to investors in Rule 419 blank check offerings.

Neither the U.S. Securities and Exchange Commission, or the SEC, nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

	Per Unit	Total ⁽¹⁾
Price to public	\$ 10.00	\$200,000,000
Underwriting discounts and commissions ⁽¹⁾	\$ 0.55	\$ 11,000,000
Proceeds to us (before expenses)	\$ 9.45	\$189,000,000

- (1) Includes \$0.35 per unit, or \$7,000,000 in the aggregate (or up to \$8,050,000 in the aggregate if the underwriters' over-allotment option is exercised in full) payable to the underwriters for deferred underwriting commissions to be placed in a trust account located in the United States as described herein and will only be payable upon consummation of our initial business combination. Does not include certain fees and expenses payable to the underwriters in connection with this offering. See also "Underwriting" for a description of compensation and other items of value payable to the underwriters.

Of the proceeds we receive from this offering, the sale of the Novator private placement units and the sale of the private placement warrants described in this prospectus, \$235 million, or \$265 million if the underwriters' over-allotment option is exercised in full (\$10.00 per unit in either case), will be deposited into a segregated trust account located in a U.S.-based trust account with Continental Stock Transfer & Trust Company acting as trustee. The proceeds deposited in the trust account could become subject to the claims of our creditors, if any, which could have priority over the claims of our public shareholders and holders of the Novator private placement shares.

The information in this preliminary prospectus is not complete and may be changed. We may not sell these securities until the underwriters are offering the units to the public on a firm commitment basis. The underwriters expect to deliver the units to the purchasers of the units on or about May 12, 2021. This preliminary prospectus is not an offer to sell these securities in any state or jurisdiction where the offer or sale is not permitted.

No offer or invitation to subscribe for any securities is being made to the public in the Cayman Islands.

Barclays

Prospectus dated , 2021

You should rely only on the information contained in this prospectus. We have not, and the underwriters have not, authorized anyone to provide you with different or additional information, and neither we nor the underwriters take any responsibility for any other information others may give to you. We are not, and the underwriters are not, making an offer to sell securities in any jurisdiction where the offer or sale is not permitted. You should not assume that the information contained in this prospectus is accurate as of any date other than the date on the front of this prospectus.

SUMMARY

This summary highlights certain information about us, this offering and selected information contained elsewhere in this prospectus. Because this is only a summary, it does not contain all of the information that may be important to you or that you should consider before investing in our ordinary shares. You should read the entire prospectus carefully, especially the information under “Risk Factors” set forth in this prospectus. This prospectus contains forward-looking statements, based on current expectations and related to future events and our future financial performance, that involve risks and uncertainties. Our actual results may vary materially from those discussed in the forward-looking statements as a result of various factors, including, without limitation, those set forth under “Risk Factors,” as well as other matters described in this prospectus. See “Cautionary Notice Regarding Forward-Looking Statements.”

Unless otherwise stated in this prospectus, references to:

- “amended and restated memorandum and articles of association” are to the amended and restated memorandum and articles of association of our company to be in effect upon completion of this offering;
- “Companies Law” are to the Companies Law (2020 Revision) of the Cayman Islands as the same may be amended from time to time;
- “founder shares” are to our Class B ordinary shares initially issued in a private placement prior to this offering and the Class A ordinary shares that will be issued upon the automatic conversion of the Class B ordinary shares at the time of our initial business combination as described herein;
- “initial shareholders” are to holders of our founder shares prior to this offering;
- “management” or our “management team” are to our executive officers and directors;
- “Novator private placement” are to the private placement to our sponsor, directors and executive officers of Novator private placement units occurring concurrently with the closing of this offering;
- “Novator private placement shares” are to the Class A ordinary shares included in the Novator private placement units;
- “Novator private placement units” are to the units to be issued to our sponsor, directors and executive officers in a private placement of units simultaneously with the closing of this offering, which private placement units are identical to the units being sold in this offering, subject to certain limited exceptions as described in this prospectus, between the date hereof and the closing of the offering, the number of Novator private placement units to be acquired by each of our sponsor and our executive officers, directors, and nominees, will be determined;
- “Novator private placement warrants” are to the warrants included in the Novator private placement units;
- “ordinary shares” are to our Class A ordinary shares;
- “private placement warrants” are to the warrants issued to our sponsor in a private placement simultaneously with the closing of this offering;
- “public shareholders” are to the holders of our public shares, including our sponsor, initial shareholders and management team, and their respective affiliates, to the extent that our initial shareholders and/or members of our management team purchase public shares, provided that each initial shareholder’s and member of our management team’s status as a “public shareholder” shall only exist with respect to such public shares;
- “public shares” are to our Class A ordinary shares sold as part of the units in this offering (whether they are purchased in this offering or thereafter in the open market);
- “public warrants” are to the redeemable warrants sold as part of the units in this offering (whether they are purchased in this offering or thereafter in the open market);
- “sponsor” are to Novator Capital Sponsor Ltd., an affiliate of Novator Capital (Guernsey) Ltd.;

- “warrants” are to our warrants, which include the public warrants, the private placement warrants and the Novator private placement warrants; and
- “we,” “us,” “Company” or “our Company” are to Aurora Acquisition Corp.

Any forfeiture of shares described in this prospectus will take effect as a surrender of shares for no consideration of such shares as a matter of Cayman Islands law. Any conversion of the Class B ordinary shares described in this prospectus will take effect as a compulsory redemption of Class B ordinary shares and an issuance of Class A ordinary shares as a matter of Cayman Islands law. Any share dividends described in this prospectus will take effect as share capitalizations as a matter of Cayman Islands law.

We prospectively refer to agreements between us and our sponsor, initial shareholders, and members of our management team as having been entered into; such agreements are expected to be executed prior to the consummation of this offering.

In addition, unless we indicate otherwise, the information in this prospectus assumes that the underwriters have not exercised their over-allotment option.

General

We are a new blank check company incorporated on October 7, 2020 as a Cayman Islands exempted company for the purpose of effecting a merger, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses. We have not selected any potential business combination target and we have not, nor has anyone on our behalf, engaged in any substantive discussions, directly or indirectly, with any business combination target with respect to an initial business combination with us.

While we may pursue an initial business combination target in any stage of its corporate evolution or in any industry or sector, we intend to focus our search on Europe, the Middle East and Africa technology and media, or EMEA Technology and Media, companies.

There has been a significant and increasing volume of transaction activity in the EMEA Technology and Media sector in recent years, and we believe that by raising capital now, we can be in a position to opportunistically take advantage of this trend and as acquisition opportunities arise.

According to *Dealogic*, between 2010 and December 2020, there has been approximately \$975 billion of transaction volume, involving approximately 559 deals of over \$500 million in enterprise value in the EMEA Technology and Media industry. According to *Dealogic*, transaction activity by volume and value has been growing, with \$362 billion in 226 transactions taking place between 2011 and 2015. Subsequently, transaction value grew 56% to \$564 billion and transaction volume grew 34% to 302 transactions from January 1, 2016 through December 31, 2020.

In addition, over the past years, there has been significant increase in value of private investments, including private equity and venture capital, into European companies, which we believe will continue to drive significant transaction activity in the coming years. According to *Invest Europe*, the total equity amount invested in European companies increased 10% year-on-year to €94 billion in 2019—the highest level of investment ever recorded, with 27% of this investment directed into the ICT (information and communications technology) sector. According to *Invest Europe*, European venture capital investment reached €10.6 billion in 2019, reflecting 19% year-on-year growth and marking uninterrupted growth in that segment since 2013.

We believe that the EMEA Technology and Media industry, as part of the Global TMT industry, is in the midst of change, with deal activity fueled by a drive towards scale and consolidation, corporate portfolio realignment and optimization, technological disruption and convergence. We believe Aurora Acquisition Corp. provides an ideal platform to take advantage of this potential deal flow.

Our management team and board of directors have significant experience in the EMEA Technology and Media industry and specifically in sourcing, acquiring, growing and monetizing these types of companies. We believe this experience makes us exceptionally well suited to identify, negotiate and successfully execute an initial business combination with the ultimate goal of generating attractive returns for our shareholders.

Our Sponsor

We have a strong sponsor, Novator Capital Sponsor Ltd., which forms part of Novator Partners LLP, or Novator, of which Mr. Björgólfsson, the chairman of our board of directors, is founder. Our sponsor will provide us with valuable strategic, operational, product management, analytical, financial, transactional, communications, legal, and other expertise and networks that we will leverage as we seek to identify and execute a business combination and drive future value for the combined business.

Novator is an alternative investment firm founded by Mr. Björgólfsson in 2004, specializing in investing in companies that have the potential to disrupt markets across the global telecommunications, media and technology industries, or Global TMT Industry. As of November 2019, Novator had approximately €3 billion of assets under management. Through its private capital, deep sector experience and strong track record, Novator has generated growth and returns from recognizing unique market opportunities.

Novator focuses on developing strong management teams in each of its portfolio companies and while granting them the autonomy to create value, maintains a supervisory role, principally through representation on the boards of its portfolio companies. Accordingly, Novator has an investment model and track record which we believe is well-suited to a “special purpose acquisition” company. Novator differentiates itself from many other private equity companies or investment firms in concentrating on complex situations, either by virtue of their structure or their cross-border nature. To create value, Novator undertakes the restructuring or “de-risking” of investment opportunities through re-financing, combining acquired assets with existing businesses, through sale to strategic or financial buyers, or through public listing.

Geographically, Novator has a history of identifying opportunities in underserved markets that other firms typically shy away from. Novator’s longstanding approach is to back local management teams in building dynamic challenger brands, or to build new companies with its own teams, hand-picked for their operational excellence. Novator is an active, engaged and knowledgeable investor with a flexible approach to driving value for all stakeholders.

Novator’s current portfolio includes investments in telecommunications operators WOM S.A., or WOM (Chile, Colombia), Nova (Iceland) hf., media and technology companies such as Food Tech company Deliveroo SP Ltd. or Deliveroo, Artificial Intelligence company Play Fusion Ltd., global multiplayer video game company Zwift Inc., or Zwift, technology company Stripe Inc., among others. Novator’s successful track record of exits includes telecommunications operators TurkNet İletişim Hizmetleri A.Ş. in Turkey, Netia S.A., or Netia, in Poland, Elisa Corp. in Finland, Fortinet S.A. in Romania, Bulgarian Telecommunications EAD d/b/a Vivacom, PLAY Communications S.A., or PLAY, in Poland, Be.Live Studios Ltd., video game company CCP hf., or CCP, and cloud software company Greencloud ehf.

Novator has its operative headquarters in London, with additional offices in Luxembourg, Switzerland, Iceland and Cyprus.

During 2020, Mr. Björgólfsson launched a new division of Novator, Novator Capital Advisors LLP, or Novator Capital, of which our Chief Investment Officer and Head of Legal, Mr. Prabhu Narasimhan, is chief executive officer.

Novator Capital expects to meaningfully grow its asset portfolio over the next year. Novator Capital was formed by three partners, two of which are Mr. Björgólfsson (as chairman and founder) and Mr. Narasimhan (as chief executive officer). Novator Capital forms a new division of Novator and operates independently of it, while having the same back office support (in-house tax, treasury, finance and legal teams) across the Novator office network available to it.

Management Team and Board of Directors

Our leadership team will be led by Thor Björgólfsson as the Chairman of our board of directors, one of the pre-eminent investors in the Global TMT Industry and Iceland’s first billionaire, as recognized by *Forbes* in 2007.

Mr. Björgólfsson, through Novator, which he founded in 2004, has a long and successful track record of founding, investing in, operating and transforming global businesses within the telecommunications and technology sectors.

Novator focuses on investments in telecommunications and technology businesses in Europe and emerging markets. Mr. Björgólfsson and Novator have invested in, operated and transformed telecommunications operators in Poland and Chile, and currently maintain controlling stakes in two leading telecommunications operators in Latin America.

Examples of notable investments made by Mr. Björgólfsson and Novator include:

- **PLAY:** the acquisition and launching (in 2005 and 2007), development, listing (in 2017) and exit of PLAY (in 2020), a mobile telecommunications operator in Poland. The initial public offering of PLAY in 2017 was launched with a market capitalization of €2.2 billion and enterprise value of €3.9 billion, and PLAY distributed in excess of €330 million in dividends to its shareholder over the following three years. As of 2020, PLAY had 15 million customers, operating revenue of PLN 7 billion (approximately \$2 billion) and approximately 2,800 employees;
- **WOM Chile:** the acquisition of Nextel Chile in 2015, which was rebranded to WOM, and subsequent development to a 6 million subscriber business. In 2019, revenues generated were calculated at approximately 505 billion Chilean Pesos (approximately \$689 million) with a workforce of approximately 1,500. WOM is expected to expand its operations further in Latin America with the launch of WOM Colombia following Novator's acquisition of Avantel SA in Colombia; and
- **Zwift:** an initial investment by Novator in Zwift (a multiplayer online cycling and running physical training platform) in November 2016, followed by further participation in a Series B funding round of approximately \$120 million. Since launching in 2015, Zwift has seen over 2.5 million accounts registered across 190 countries. The current valuation of Zwift as of September 2020 exceeded \$1 billion.

Arnaud Massenet is our Chief Executive Officer. Mr. Massenet and Mr. Björgólfsson have known each other for approximately ten years, having formed a friendship and informal working relationship through their common interest and passion in investing in innovative ventures including biotech, e-commerce, and clean energy. Mr. Massenet and Mr. Björgólfsson, having collaborated through the sharing of information, analyses, thoughts, and views in relation to various investment opportunities, began to co-invest approximately three to four years ago. Some examples of their co-investments include Enpal Ltd., Cybin Inc., and Ozon Holdings plc. Additionally, both Mr. Massenet and Mr. Björgólfsson are seed-investors in Climate-Tech, a clean energy venture founded by a common acquaintance of them both, Emmanuel Desousa.

Mr. Massenet himself has a strong track record of founding, operating and investing in technology companies. He co-founded online fashion e-commerce platform, The Net-a-Porter Group Ltd., or Net-a-Porter (1999 – 2015), over two decades ago, largely self-financing the business together with Compagnie Financière Richemont S.A., or Richemont Group. He was an active board member for more than 10 years, involved in all important strategic decisions including creation of the Outnet.com, Mr. Porter Ltd., or Mr. Porter, Porter Magazine Ltd., or Porter Magazine, finally culminating in a 2-step sale in 2010 and 2015 to the Richemont Group.

In addition, Mr. Massenet is the chairman and Founder of Grip Ltd., or Grip, an AI company specializing in organizing virtual conferences for corporates and match making for exhibitors. He is also the chief executive officer and director of De Pury Ltd., an online platform for contemporary culture and auctions of contemporary art.

With any special purpose acquisition company, successful deal negotiation, implementation, diligencing and sourcing lead are each essential. Mr. Prabhu Narasimhan, our Chief Investment Officer and Head of Legal, has over 15 years of experience doing just that. As a lawyer at three global law firms, two as partner, including Mayer Brown LLP, or Mayer Brown (2006 – 2008), White & Case LLP, or White & Case (2008 – 2019) and Baker & McKenzie LLP, or Baker & McKenzie (2019 – 2020), Mr. Narasimhan has served as a key advisor to a number of alternative investment firms, family offices and private equity funds on global multi-billion mergers and acquisitions and banking transactions, advising on all transactional aspects (mergers and acquisitions, bank finance, tax, structuring and execution).

Mr. Björgólfsson and Mr. Narasimhan have partnered with each other since they met in 2014 with Mr. Narasimhan serving as Mr. Björgólfsson and Novator's primary legal advisor. Together, they explored the creation of a dynamic multi-asset investment firm with a developed markets focus, investing in both public

and private financial instruments, in addition to selectively undertaking pre-initial public offering private equity investments, most particularly in media and technology. Mr. Narasimhan, together with a third partner, co-founded such investment firm in 2020, Novator Capital.

Mr. Björgólfsson, Mr. Massenet and Mr. Narasimhan, will be supported by Caroline Harding, our Chief Financial Officer who serves on our board of directors. Ms. Harding is qualified as a Chartered Accountant. From 2017 through October 2019, Ms. Harding was the chief financial officer for Weybourne Limited, Sir James Dyson's family office, where she was a member of a team that oversaw a multi-billion pound portfolio of investments.

Our strong leadership team, which is able to draw upon a breadth of market-leading investor experience, a sophisticated model suited to special purpose acquisition companies and a depth of infrastructure and support offered by Novator, is complemented by an equally experienced and sophisticated group of independent directors (who sit on our board alongside Mr. Björgólfsson and Ms. Harding) with a breadth of experience in a variety of sectors, which includes Mr. Mittal, Mr. Edelstein and Ms. Desai. They are well-positioned to contribute their global perspectives on the technology and media industries and a complementary approach to investment strategy.

Mr. Mittal, while not a member of the leadership team, will offer key strategic advice to our Company. Mr. Mittal has a wealth of experience in the telecommunications and technology sectors through his position as Founder of Unbound Capital Ltd., or Unbound, and a director of Bharti Global Ltd., or Bharti Global, the Bharti family office. Unbound is a globally focused long term technology investment arm that aims to build and back technology companies. Select investments include Databricks Inc., or Databricks, mPharma Data Inc., or mPharma and FreightHub GmbH, or FreightHub. Bharti Global has numerous investments in the telecommunications, technology, energy and hospitality sectors. Previously, Mr. Mittal was an investor at Softbank Group Corp., or Softbank (2016 – 2017) and prior to that, Mr. Mittal was an assistant director at Better Capital PCC Ltd., or Better Capital (2014 – 2015), a private equity firm based in London.

Mr. Mittal's recent successes most notably include the successful bid by a UK Government consortium led by Bharti Global for the acquisition of OneWeb, a satellite operator. Through this successful bid that business is expected to commence building a broadband mega constellation that will provide enhanced broadband and other services to mobile and fixed terminals in countries around the world. This new venture has the potential to extend the reach of the technology and telecommunications sector beyond what has been seen before through OneWeb's aims to offer high speed, low latency wireless broadband access to billions of people across the globe, especially in rural areas through a constellation of satellites in low earth orbit.

Mr. Edelstein serves on our board of directors. Mr. Edelstein was formerly the president of NBCUniversal International Studios, or NBCUniversal International, where he helped build the international studio into a respected content player in the international market producing premium television shows for global audiences including Downton Abbey. During his tenure, the division created more than 1,100 hours of original content and garnered numerous awards including 18 Emmys, three Golden Globes and six BAFTAS.

Ms. Desai serves on our board of directors. Ms. Desai brings a unique combination of strategic, operating and financial experience, with her earlier role as Principal in Apax Partners LLP, or Apax Partners, where she invested in the media industry globally, complemented by her recent experience as group chief operating officer and chief executive officer of emerging markets at FremantleMedia Ltd., or FremantleMedia, and as chief operating officer of Hit Entertainment Ltd., or Hit Entertainment.

Our management team is committed to and invested in the success of our Company, not only through a commitment of their time and shared experience, but also through aligning incentives with our Company from a monetary perspective. Mr. Björgólfsson (through Novator Capital), Mr. Massenet and Mr. Narasimhan are each expected to provide co-investment in our equity and provide "at-risk capital". In total, our sponsor, and certain of our directors and executive officers will be providing \$35 million in respect of the Novator private placement units and \$6 million in respect of the private placement warrants.

The past performance of our management team or their respective affiliates is not a guarantee either (i) that we will be able to identify a suitable candidate for our initial business combination or (ii) of success

with respect to any business combination we may consummate. You should not rely on the historical record of our management team's or their respective affiliates' performance as indicative of our future performance. Our management team and their affiliates have been involved with a large number of public and private companies in addition to those identified above, not all of which have achieved similar performance levels. See "Risk Factors—Past performance by our management team or their affiliates may not be indicative of future performance of an investment in us or in the future performance of any business that we may acquire."

Business Strategy

Media and content consumption have been on the rise over the past years, changing the way individuals and businesses behave and consume products and services. The primary drivers of this change are related to a number of self-reinforcing trends taking place in the technology and telecommunications sector, making access to the internet easier, more mobile, and more ubiquitous. Specifically, the sharp rise in the use of smartphones and other smart and connected devices, such as connected TVs, set-top-boxes and gaming consoles, has led to more content being created for these devices, more usage and consequentially more network traffic. Each year, new devices with increased capabilities are introduced and adopted in the market. In turn, telecommunications operators and internet service providers have and are taking advantage of technologies such as 4G, 5G and fiber-to-the-home access, in order to offer end-users increasingly higher broadband speeds.

We expect these mega-trends to continue and that the traditional distinctions among telecommunications, technology and media will continue to blur, driven by consumers' increasing need for connectivity. We believe there are deep synergies driving this convergence as telecommunications infrastructure, technological platforms and applications, and media content and entertainment become ever-more inter-dependent. For example, as consumers upgrade to newer and more advanced mobile devices with higher bandwidth speeds and improved security capabilities, they dramatically expand their use of new digital technologies such as telemedicine and video conferencing. Consumers are also utilizing a greater variety of media formats, such as social media, marketplaces and e-commerce, video streaming, non-linear video, interactive content and cloud / social gaming. The COVID-19 pandemic has further accelerated the shift to online and mobile shopping and content consumption, including in previously underpenetrated segments of the population. Finally, the expansion and increased sophistication of the digital ecosystem are introducing new challenges and opportunities for hardware and software technology companies to optimize and deliver converged solutions to both B2B and B2C users.

Our management team's objective is to generate attractive returns and create value for our shareholders by identifying attractive investment opportunities that could benefit from the addition of capital, management expertise, industry know-how and strategic insight. We expect to leverage the operational expertise and extensive sector knowledge of our management team and board of directors to identify and complete our initial business combination with a quality company that fits our criteria for value creation through our involvement. Based on our core competencies to target companies that leverage catalysts in the marketplace for superior growth, we believe that we can generate attractive returns for our shareholders.

Our acquisition strategy will focus broadly on the EMEA Technology and Media sectors with an emphasis on companies that have the potential to disrupt markets across these industries.

We intend to focus on both the media and the technology sectors, both of which are broad in scope. While we do not have a specific and committed sub-sector for a future investment, we find that the following select sub-segments of the EMEA Technology and Media industry are examples of areas benefitting from strong underlying trends, have a good fit within the broader convergence theme of telecommunications, media and technology and where we are able to leverage our leadership team's experience, including the following:

- E-Commerce: online market place, advertising technology;
- Social Media: matchmaking / AI, social platforms;
- Gaming: video, mobile and online gaming;
- Streaming: companies in the music and / or sport industry ecosystem;
- Content: visual graphics;

- Hardware: extended reality—AR/VR, communications infrastructure;
- B2B Software: big data applications, Operating Support Systems, security / cybersecurity; and
- Consumer Software: visualisation technology, mobility and auto technology.

We intend to source initial business combination opportunities by utilizing our management team's, board of directors' and sponsor's extensive networks and relationships with top venture firms looking to efficiently scale their winning portfolio companies and partner with private equity firms looking to build further business value in the EMEA Technology and Media sectors. We expect that a universe of potential targets will be identified through a series of criteria to filter the most attractive and actionable opportunities in our available time horizon. This universe is supplemented by the network that we collectively and uniquely possess from years of experience developing relationships with the C-suite of our generation, other EMEA Technology and Media investors and family offices. This is coupled with our team's substantial deal experience, where they have worked cooperatively with targets and companies to develop and execute financings on a primary and secondary basis, using different parts of the capital structure and financial structuring to support dividend recapitalizations and other corporate financing strategies to drive the returns of stakeholders.

Business Combination Criteria

Consistent with our business strategy, we have developed the following criteria and guidelines that we believe are important in selecting the most attractive business combination target. We intend to use these guidelines, combined with our management team's experience and expertise, to methodically identify, filter and select our potential target companies. While we intend to utilize these criteria in evaluating business combination opportunities, we expect that no individual criterion will entirely determine a decision to pursue a particular investment opportunity. Further, we remain flexible to pursue any unique media and technology opportunity that may not meet one or more of these criteria.

Our detailed process and our strong deal-sourcing expertise and experience will allow us to assess potential target companies, from core network and traditional media assets to advanced technologies with momentum and showing potential for rapid acceleration. We will capitalize on the experience and resources of our management team and board of directors, who are active in the EMEA Technology and Media sectors to identify potential target companies based on size and progress towards a tailwind product or service.

Together, our management team and board of directors are in a strong position to attract a large pool of potential target companies from which they can select the best investment opportunities. Characteristics and attributes of the companies we will seek to target include:

- attractive market and competitive dynamics;
- compelling long-term growth prospects;
- leadership in technology driven transformation;
- high barriers to entry for new entrants;
- low or manageable risks of technological obsolescence;
- defensible position in intellectual property;
- strong recurring revenues;
- attractive steady-state margins;
- high incremental margins;
- favorable environmental, social and corporate governance characteristics;
- opportunities for operational improvement; and
- opportunities for further consolidation.

These criteria and characteristics are not intended to be exhaustive. Any evaluation relating to the merits of a particular initial business combination may be based, to the extent relevant, on these general

guidelines as well as other considerations, factors and criteria that our management team may deem relevant. In the event that we find an opportunity that has characteristics more compelling to us than the characteristics described above, we would pursue such opportunity.

Competitive Strengths

We anticipate offering the following benefits to our business combination partner:

- Partnership with our management team members who have extensive and proven track records of founding, scaling, operating, advising and investing in market-leading TMT companies;
- Access to our network of leading industry executives, entrepreneurs, and investors;
- Increased company profile and visibility with customers and preferred vendor relationships;
- Infusion of cash and ongoing access to public capital markets;
- Listed public currency for future acquisitions and growth;
- Ability for management to retain control and focus on growing the business; and
- Opportunity to motivate and retain employees using share-based compensation.

In offering these benefits to our business combination partner, we intend to leverage the following sources of competitive strengths in seeking to achieve our business strategy:

- Management team's industry knowledge and contacts;
- Deal flow sourcing and business development resources available from our sponsor and its affiliates;
- Management team's experience and reputation in sourcing opportunities;
- Extensive relationships within the private equity community (a potential source of deal flow);
- Management team's demonstrated ability to create value for their shareholders; and
- Strong track record of operational excellence.

Our key differentiators, therefore, when compared to other special purpose acquisition companies for any business combination partner and investor, include:

- the key support we will have from our sponsor as a member of the Novator group of companies, backed by our Chairman, Mr. Björgólfsson;
- a management team with a breadth of experience in their own key sub-sectors but with clear alignment as to how the success of our Company is to be achieved; and
- clarity of focus on targeted sectors with renowned and experienced founders, alongside a management team formed of market-leading entrepreneurs in the TMT sectors combined with leaders in professional services with a longstanding track record of diligencing, negotiating and executing global multi-billion dollar mergers and acquisitions transactions.

Our Acquisition, Investment and Post-Closing Process

In evaluating a prospective target business, we expect to conduct a due diligence review which may encompass, among other things, meetings with incumbent management and employees, document reviews, interviews of customers and suppliers, inspection of facilities, as applicable, as well as a review of financial, operational, legal and other information which will be made available to us. If we determine to move forward with a particular target, we will proceed to structure and negotiate the terms of the business combination transaction.

The time required to select and evaluate a target business and to structure and complete our initial business combination, and the costs associated with this process, are not currently ascertainable with any degree of certainty. Any costs incurred with respect to the identification and evaluation of, and negotiation with, a prospective target business with which our initial business combination is not ultimately completed will result in our incurring losses and will reduce the funds we can use to complete another business

combination. Our Company will not pay any consulting fees to members of our management team, or any of their respective affiliates, for services rendered to or in connection with our initial business combination.

Our Business Combination Process

Members of our management team and our independent directors will directly or indirectly own founder shares, Novator private placement units and/or private placement warrants, and may own units, Class A ordinary shares and public warrants following this offering and, accordingly, may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination. Further, each of our executive officers and directors may have a conflict of interest with respect to evaluating a particular business combination if the retention or resignation of any such executive officers and directors was included by a target business as a condition to any agreement with respect to our initial business combination.

While they are not required to commit their full time to our affairs, both our chief executive officer, Mr. Massenet, and our chief investment officer, Mr. Narasimhan, expect to commit a significant amount of their working time to our Company. Our executive officers are not obligated to contribute any specific number of hours per week to our affairs. Our independent directors also serve as executive officers and board members for other entities. If our executive officers' and directors' other business affairs require them to devote substantial amounts of time to such affairs in excess of their current commitment levels, it could limit their ability to devote time to our affairs which may have a negative impact on our ability to complete our initial business combination.

Each of our executive officers and directors presently has, and any of them in the future may have additional, fiduciary or contractual obligations to another entity pursuant to which such executive officer or director is or will be required to present a business combination opportunity to such entity. Accordingly, if any of our executive officers or directors becomes aware of a business combination opportunity which is suitable for an entity to which he or she has then current fiduciary or contractual obligations, he or she will honor his or her fiduciary or contractual obligations to present such business combination opportunity to such other entity, subject to their fiduciary duties under Cayman Islands law. Our amended and restated memorandum and articles of association provide that, to the fullest extent permitted by applicable law: (i) no individual serving as a director or an executive officer shall have any duty, except and to the extent expressly assumed by contract, to refrain from engaging directly or indirectly in the same or similar business activities or lines of business as us; and (ii) we renounce any interest or expectancy in, or in being offered an opportunity to participate in, any potential transaction or matter which may be a corporate opportunity for any director or executive officer, on the one hand, and us, on the other. We do not believe, however, that the fiduciary duties or contractual obligations of our executive officers or directors will materially affect our ability to complete our initial business combination.

Our sponsor and our executive officers and directors may sponsor or form other special purpose acquisition companies similar to ours or may pursue other business or investment ventures during the period in which we are seeking an initial business combination and even before we have entered into a definitive agreement regarding our initial business combination.

Initial Business Combination

As required by Nasdaq rules, our initial business combination will be approved by a majority of our independent directors. Nasdaq rules require that we must complete one or more business combinations having an aggregate fair market value of at least 80% of the value of the assets held in the trust account (excluding the deferred underwriting commissions and taxes payable on the interest earned on the trust account) at the time of our signing a definitive agreement in connection with our initial business combination. Our board of directors will make the determination as to the fair market value of our initial business combination. If our board of directors is not able to independently determine the fair market value of our initial business combination, we will obtain an opinion from an independent investment banking firm or an independent accounting firm with respect to the satisfaction of such criteria. While we consider it unlikely that our board of directors will not be able to make an independent determination of the fair market value of our initial business combination, it may be unable to do so if it is less familiar or experienced with the business of a particular target or if there is a significant amount of uncertainty as to the value of a target's

assets or prospects. There is no limitation on our ability to raise funds privately, or through loans in connection with our initial business combination.

We anticipate structuring our initial business combination either (i) in such a way so that the post-transaction Company in which our public shareholders own shares will own or acquire 100% of the equity interests or assets of the target business or businesses, or (ii) in such a way so that the post-transaction Company owns or acquires less than 100% of such interests or assets of the target business in order to meet certain objectives of the target management team or shareholders, or for other reasons. However, we will only complete an initial business combination if the post-transaction Company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act of 1940, as amended, or the Investment Company Act. Even if the post-transaction Company owns or acquires 50% or more of the voting securities of the target, our shareholders prior to the initial business combination may collectively own a minority interest in the post-transaction Company, depending on valuations ascribed to the target and us in the initial business combination. For example, we could pursue a transaction in which we issue a substantial number of new shares in exchange for all of the outstanding capital stock, shares or other equity interests of a target. In this case, we would acquire a 100% controlling interest in the target. However, as a result of the issuance of a substantial number of new shares, our shareholders immediately prior to our initial business combination could own less than a majority of our outstanding shares subsequent to our initial business combination. If less than 100% of the equity interests or assets of a target business or businesses are owned or acquired by the post-transaction Company, the portion of such business or businesses that is owned or acquired is what will be taken into account for purposes of Nasdaq's 80% of net assets test. If the initial business combination involves more than one target business, the 80% of net assets test will be based on the aggregate value of all of the transactions and we will treat the target businesses together as the initial business combination for purposes of a tender offer or for seeking shareholder approval, as applicable.

We are not prohibited from pursuing an initial business combination with a company that is affiliated with our sponsor, executive officers or directors, or completing the business combination through a joint venture or other form of shared ownership with our sponsor, executive officers or directors. In the event we seek to complete an initial business combination with a target that is affiliated with our sponsor, executive officers or directors, we, or a committee of independent directors, would obtain an opinion from an independent investment banking firm or an independent accounting firm that such an initial business combination is fair to our Company from a financial point of view.

Corporate Information

Our principal executive offices are located at Ugland House, Grand Cayman, KY1-1104, Cayman Islands. Additionally, our sponsor has granted us office space at 20 North Audley Street, London, W1K 6LX, United Kingdom.

We are a Cayman Islands exempted company. Exempted companies are Cayman Islands companies conducting business mainly outside the Cayman Islands and, as such, are exempted from complying with certain provisions of the Companies Law. As an exempted company, we have applied for and received a tax exemption undertaking from the Cayman Islands government that, in accordance with Section 6 of the Tax Concessions Law (2018 Revision) of the Cayman Islands, for a period of 20 years from the date of the undertaking, no law which is enacted in the Cayman Islands imposing any tax to be levied on profits, income, gains or appreciations will apply to us or our operations and, in addition, that no tax to be levied on profits, income, gains or appreciations or which is in the nature of estate duty or inheritance tax will be payable (i) on or in respect of our shares, debentures or other obligations or (ii) by way of the withholding in whole or in part of a payment of dividend or other distribution of income or capital by us to our shareholders or a payment of principal or interest or other sums due under a debenture or other obligation of us.

Implications of Being an Emerging Growth Company

We qualify as an "emerging growth company" as defined in the Jumpstart Our Business Startups Act enacted in April 2012, or the JOBS Act, and may take advantage of reduced reporting requirements that are otherwise applicable to public companies. These provisions include, but are not limited to:

- being permitted to present only two years of audited financial statements and only two years of related Management’s Discussion and Analysis of Financial Condition and Results of Operations in our filings with the SEC;
- not being required to comply with the auditor attestation requirements in the assessment of our internal control over financial reporting;
- reduced disclosure obligations regarding executive compensation in periodic reports, proxy statements and registration statements; and
- exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved.

We may take advantage of these provisions until the last day of our fiscal year following the fifth anniversary of the date of the first sale of our ordinary shares pursuant to this offering. However, if certain events occur before the end of such five-year period, including if we become a “large accelerated filer,” our annual gross revenues exceed \$1.07 billion or we issue more than \$1.0 billion of non-convertible debt in any three-year period, we will cease to be an emerging growth company before the end of such five-year period.

In addition, Section 107 of the JOBS Act provides that an “emerging growth company” can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. We have elected to take advantage of the extended transition period for complying with new or revised accounting standards and acknowledge such election is irrevocable pursuant to Section 107 of the JOBS Act.

Additionally, we are a “smaller reporting company” as defined in Item 10(f)(1) of Regulation S-K. Smaller reporting companies may take advantage of certain reduced disclosure obligations, including, among other things, providing only two years of audited financial statements. We will remain a smaller reporting company until the last day of the fiscal year in which (1) the market value of our ordinary shares held by non-affiliates exceeds \$250 million as of the prior June 30, or (2) our annual revenues exceeded \$100 million during such completed fiscal year and the market value of our ordinary shares held by non-affiliates exceeds \$700 million as of the prior June 30.

The Offering

In making your decision on whether to invest in our securities, you should take into account not only the backgrounds of the members of our management team, but also the special risks we face as a blank check company and the fact that this offering is not being conducted in compliance with Rule 419 promulgated under the Securities Act. You will not be entitled to protections normally afforded to investors in Rule 419 blank check offerings. You should carefully consider these and the other risks set forth in the section below entitled “Risk Factors.”

Units offered by us	20,000,000 units, at \$10.00 per unit, each unit consisting of: • one Class A ordinary share; and • one-third of one warrant.
Nasdaq symbols	Units: “AURC.U” Class A ordinary shares: “AURC” Warrants: “AURC WS”
Over-allotment option	We have granted the underwriters an option exercisable up to 45 days after the closing of this offering to purchase up to an additional 15% of units being sold in this offering on the same terms as the other units being purchased by the underwriters from us.
Total units outstanding before this offering	0
Number of Novator private placement units to be sold in the Novator private placement	3,500,000 units
Total units outstanding after this offering and the Novator private placement	23,500,000 units (or 26,500,000 units assuming that the underwriters exercise their over-allotment option in full)
Total ordinary shares outstanding immediately prior to the completion of this offering	6,625,000 Class B ordinary shares
Total ordinary shares outstanding immediately after this offering and the Novator private placement	29,375,000 Class A ordinary shares and Class B ordinary shares (or 33,125,000 Class A ordinary shares and Class B ordinary shares assuming that the underwriters exercise their over-allotment option in full and in all cases no founder shares are forfeited by the original shareholders).
Number of private placement warrants to be sold in a private placement of warrants simultaneously with this offering	4,000,000 warrants (or 4,400,000 warrants assuming that the underwriters exercise their over-allotment option in full)
Number of warrants to be outstanding after this offering, the sale of private placement warrants and the Novator private placement	11,833,332 warrants (or 13,233,332 warrants assuming that the underwriters exercise their over-allotment option in full)

Trading commencement and separation of Class A ordinary shares and warrants	The units are expected to begin trading on or promptly after the date of this prospectus. The Class A ordinary shares and warrants comprising the units will begin separate trading on the 52nd day following the date of this prospectus unless the representative of the underwriters informs us of its decision to allow earlier separate trading, subject to our having filed the Current Report on Form 8-K described below and having issued a press release announcing when such separate trading will begin. Once the Class A ordinary shares and warrants commence separate trading, holders will have the option to continue to hold units or separate their units into the component securities. Holders will need to have their brokers contact our transfer agent in order to separate the units into Class A ordinary shares and warrants. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. Accordingly, unless you purchase at least three units, you will not be able to receive or trade warrants.
Separation of Class A ordinary shares and warrants	In no event will the Class A ordinary shares and warrants be traded separately until we have submitted to the SEC a report on Form 8-K which includes an audited balance sheet reflecting our receipt of the gross proceeds at the closing of this offering. We will submit the Form 8-K report promptly after the closing of this offering. If the underwriters' over-allotment option is exercised following the initial submission of such report on Form 8-K, a second or amended report on Form 8-K will be submitted to provide updated financial information to reflect the exercise of the underwriters' over-allotment option.
Exercisability of warrants	Each whole warrant offered in this offering is exercisable to purchase one Class A ordinary share. Only whole warrants are exercisable. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. We structured each unit to contain one-third of one warrant, with each whole warrant exercisable for one Class A ordinary share, as compared to units issued by some other similar blank check companies which contain whole warrants exercisable for one whole share, in order to reduce the dilutive effect of the warrants upon completion of a business combination, which we believe makes us a more attractive business combination partner for target businesses. The private placement warrants and Novator private placement warrants will be exercisable on the same terms as the warrants offered as part of the units.
Exercise price of warrants	\$11.50 per Class A ordinary share, subject to adjustments as described herein. In addition, if (x) we issue additional Class A ordinary shares or equity-linked securities for capital raising purposes in connection with the closing of our initial business combination at an issue price or effective issue price of less than \$9.20 per

Exercise period of warrants	Class A ordinary share (with such issue price or effective issue price to be determined in good faith by our board of directors and, in the case of any such issuance to our initial shareholders or their affiliates, without taking into account any founder shares held by our initial shareholders or such affiliates, as applicable, prior to such issuance), or the “Newly Issued Price”, (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of our initial business combination, and (z) the volume weighted average trading price of our Class A ordinary shares during the 10 trading day period starting on the trading day after the day on which we consummate our initial business combination (such price, the “Market Value”) is below \$9.20 per share, the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the Newly Issued Price, and the \$18.00 per share redemption trigger price described below under “Redemption of warrants when the price per Class A ordinary share equals or exceeds \$18.00” will be adjusted (to the nearest cent) to be equal to 180% of the higher of the Market Value and the Newly Issued Price, and the \$10.00 per share redemption trigger price described adjacent to the caption “Redemption of warrants when the price per Class A ordinary share equals or exceeds \$10.00” will be adjusted (to the nearest cent) to be equal to the higher of the Market Value and the Newly Issued Price. The warrants will become exercisable on the later of: • 30 days after the consummation of an initial business combination; and • 12 months from the closing of this offering; provided, in each case, that we have an effective registration statement under the Securities Act covering the Class A ordinary shares issuable upon exercise of the warrants and a current prospectus relating to them is available and such shares are registered, qualified or exempt from registration under the securities, or blue sky, laws of the state of residence of the holder (or we permit holders to exercise their warrants on a cashless basis under the circumstances specified in the warrant agreement). If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws. We are not registering the Class A ordinary shares issuable upon exercise of the warrants at this time. However, under the terms of the warrant agreement, we will agree that as soon as practicable, but in no event later than 30 days after the closing of our initial business combination, we will use our best efforts to file with the SEC a registration statement covering the Class A ordinary shares issuable upon exercise of the warrants. After the filing of such registration statement, we will use our best efforts to cause the effectiveness thereof as soon as reasonably practicable and to maintain a current prospectus relating to those Class A ordinary shares until the
-----------------------------	--

Redemption of warrants when the price per Class A ordinary share equals or exceeds \$18.00	warrants expire or are redeemed, as specified in the warrant agreement. If a registration statement covering the Class A ordinary shares issuable upon exercise of the warrants is not effective by the 60th day after the closing of the initial business combination, warrant holders may, until such time as there is an effective registration statement and during any period when we will have failed to maintain an effective registration statement, exercise warrants on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act or another exemption, provided that such cashless exercise is permitted under the laws of our corporate jurisdiction. The warrants will expire at 5:00 p.m., New York City time, five years after the completion of our initial business combination. On the exercise of any warrant, the warrant exercise price will be paid directly to us and not placed in the trust account. Once the warrants become exercisable, we may redeem the outstanding warrants (other than the private placement warrants and the Novator private placement warrants): • in whole and not in part; • at a price of \$0.01 per warrant; • upon a minimum of 30 days’ prior written notice of redemption, which we refer to as the 30-day redemption period; and • if, and only if, the last sales price of our Class A ordinary shares equals or exceeds \$18.00 per share (as adjusted for share sub-divisions, dividends, reorganizations, recapitalizations and the like) for any 20 trading days within a 30-trading day period ending on the third trading day prior to the date on which we send the notice of redemption to the warrant holders. We will not redeem the warrants unless an effective registration statement under the Securities Act covering the Class A ordinary shares issuable upon exercise of the warrants is effective and a current prospectus relating to those Class A ordinary shares is available throughout the 30-day redemption period, except if the warrants may be exercised on a cashless basis and such cashless exercise is exempt from registration under the Securities Act. None of the private placement warrants or Novator private placement warrants will be redeemable by us so long as they are held by our sponsor, directors, executive officers or their permitted transferees.
Redemption of warrants when the price per Class A ordinary share equals or exceeds \$10.00	Once the warrants become exercisable, we may redeem the outstanding warrants (other than the private placement warrants and the Novator private placement warrants):

- in whole and not in part;
- at \$0.10 per warrant upon a minimum of 30 days' prior written notice of redemption provided that holders will be able to exercise their warrants on a cashless basis prior to redemption and receive that number of shares determined by reference to the table set forth under "Description of Securities—Warrants—Public Shareholders' Warrants" based on the redemption date and the "fair market value" of our Class A ordinary shares (as defined below) except as otherwise described in "Description of Securities—Warrants—Public Shareholders' Warrants"; and
- if, and only if, the closing price of our Class A ordinary shares equals or exceeds \$10.00 per share (as adjusted for adjustments to the number of shares issuable upon exercise or the exercise price of a warrant as described under the heading "Description of Securities—Warrants—Public Shareholders' Warrants"—Anti-dilution Adjustments") for any 20 trading days within the 30-trading day period ending three trading days before we send the notice of redemption to the warrant holders.

The "fair market value" will mean the average reported closing price of the Class A ordinary shares for the 10 trading days ending on the third trading day prior to the date on which the notice of redemption is sent to the holders of warrants. We will provide our warrant holders with the final fair market value no later than one business day after the 10 trading day period described above ends. In no event will the warrants be exercisable in connection with this redemption feature for more than 0.361 Class A ordinary shares per warrant (subject to adjustment).

No fractional Class A ordinary shares will be issued upon redemption. If, upon redemption, a holder would be entitled to receive a fractional interest in a share, we will round down to the nearest whole number of the number of Class A ordinary shares to be issued to the holder. See the section entitled "Description of Securities—Warrants—Public Shareholders' Warrants" for additional information.

Founder shares

On December 9, 2020, our sponsor subscribed for and purchased 5,750,000 founder shares (or Class B ordinary shares) which issuance was reflected on the register of members of our Company in exchange for a capital contribution of \$25,000, or approximately \$0.004 per share. During February 2021, we effectuated a share dividend of 1,006,250 Class B ordinary shares and subsequently issued a cancellation for 131,250 Class B ordinary shares resulting in an aggregate of 6,625,000 founder shares issued and outstanding and held by our sponsor. Prior to the initial investment in our Company of \$25,000 by our sponsor, our Company had no assets, tangible or intangible. The per share price of the founder shares was determined by dividing the amount contributed to our Company by the number of founder shares being issued.

The founder shares are identical to the Class A ordinary shares included in the units being sold in this offering, except that:

- only holders of Class B ordinary shares will have the right to appoint directors in any election held prior to or in connection with the completion of our initial business combination;
- the founder shares are subject to certain transfer restrictions, as described in more detail below;
- the founder shares are entitled to registration rights;
- our initial shareholders have entered into a letter agreement with us, pursuant to which they have agreed to (i) waive their redemption rights with respect to their founder shares, Novator private placement shares and public shares in connection with a shareholder vote to approve an amendment to our amended and restated memorandum and articles of association to modify the substance and timing of our obligation to provide for the redemption of our public shares in connection with an initial business combination or to redeem 100% of our public shares and Novator private placement shares if we have not consummated an initial business combination within 24 months from the closing of this offering; and (ii) waive their rights to liquidating distributions from the trust account with respect to their founder shares and if we fail to complete our initial business combination within 24 months from the closing of this offering, although they will be entitled to liquidating distributions from the trust account with respect to any public shares and Novator private placement shares they hold if we fail to complete our initial business combination within the prescribed time frame; and (iii) vote any founder shares and Novator private placement shares held by them and any public shares purchased during or after this offering (including in open market and privately-negotiated transactions) in favor of our initial business combination. If we submit our initial business combination to our public shareholders for a vote, we will complete our initial business combination only if we obtain the approval of an ordinary resolution under Cayman Islands law, which requires the affirmative vote of a majority of the shareholders who attend and vote at a general meeting of our Company. As a result, in addition to our initial shareholders' founder shares and Novator private placement shares, we would need 5,312,501 or approximately 26.6% of the 20,000,000 public shares sold in this offering to be voted in favor of an initial business combination in order to have our initial business combination approved (assuming all outstanding shares are voted and the over-allotment option is not exercised); and
- the founder shares are automatically convertible into our Class A ordinary shares concurrently with or immediately

Transfer restrictions on founder shares	following the consummation of our initial business combination on a one-for-one basis, subject to adjustment pursuant to certain anti-dilution rights, as described below. Furthermore, our initial shareholders have agreed not to transfer, assign or sell any of their founder shares and any Class A ordinary shares issuable upon conversion thereof until the earlier to occur of: (i) one year after the completion of our initial business combination and (ii) the date following the completion of our initial business combination on which we complete a liquidation, merger, share exchange or other similar transaction that results in all of our shareholders having the right to exchange their ordinary shares for cash, securities or other property. Notwithstanding the foregoing, if the closing price of our Class A ordinary shares equals or exceeds \$12.00 per share (as adjusted for share subdivisions, share capitalizations, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, the founder shares will be released from the lockup.
Founder shares conversion and anti-dilution rights	The founder shares will automatically convert into Class A ordinary shares concurrently with or immediately following the consummation of our initial business combination on a one-for-one basis, subject to adjustment for share sub-divisions, share capitalizations, reorganizations, recapitalizations and the like, and subject to further adjustment as provided herein. In the case that additional Class A ordinary shares or equity-linked securities are issued or deemed issued in connection with our initial business combination, the number of Class A ordinary shares issuable upon conversion of all founder shares will equal, in the aggregate, 20% of the total number of Class A ordinary shares outstanding after such conversion (after giving effect to any redemptions of Class A ordinary shares by public shareholders), including the total number of Class A ordinary shares and Novator private placement shares issued, or deemed issued or issuable upon conversion or exercise of any equity-linked securities or rights issued or deemed issued, by the company in connection with or in relation to the consummation of the initial business combination. The total number of Class A ordinary shares for purposes of the foregoing calculation expressly excludes any equity-linked securities exercisable for or convertible into Class A ordinary shares issued, or to be issued, to any seller in the initial business combination and any private placement warrants issued to our sponsor, executive officers or directors upon conversion of working capital loans; provided that such conversion of founder shares will never occur on a less than one-for-one basis. The term “equity-linked securities” refers to any debt or equity securities that are convertible, exercisable or exchangeable for our Class A ordinary shares issued in a financing transaction in connection with our initial business

Novator private placement units	combination, including but not limited to a private placement of equity or debt. Our sponsor and certain of our directors and officers have committed, pursuant to a written agreement, to purchase an aggregate of 3,500,000 Novator private placement units, at a price of \$10.00 per unit (\$35,000,000 in the aggregate), in a private placement that will close simultaneously with the closing of this offering. The purchase price of the Novator private placement units will be added to the proceeds of this offering and the private placement warrants to be held in the trust account described below such that an amount equal to \$235 million (or \$265 million if the underwriter's over-allotment option is exercised in full) of the proceeds from this offering, the private placement warrants and the Novator private placement are held in the trust account. If we do not complete our initial business combination within 24 months from the closing of this offering, the proceeds from the Novator private placement units (along with the proceeds from the sale of the units in this offering) held in the trust account will be used to fund the redemption of our public shares and Novator private placement shares (subject to the requirements of applicable law), and our warrants (including the private placement warrants and Novator private placement warrants) will expire worthless. In the event of a liquidation prior to our initial business combination, the warrants (including, for the avoidance of doubt, the private placement warrants and the Novator private placement warrants) will expire worthless. The Novator private placement units are identical to the units being sold in this offering, except that: • the Novator private placement units are subject to certain transfer restrictions, as described in more detail herein; • the holders of our Novator private placement units, including our sponsor and our directors and executive officers have entered into a letter agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to their Novator private placement shares in connection with the completion of our initial business combination; • pursuant to a letter agreement, our sponsor, directors and executive officers have agreed to vote all of the shares held by them, including any public shares purchased during or after this offering (including in the open market and privately negotiated transactions) in favor of our initial business combination. As a result, in addition to the founder shares and Novator private placement shares, we would need only 5,312,501 or 26.6% (assuming all outstanding shares are voted and the underwriter's over-allotment option is not exercised), of the 20,000,000 public shares included in this offering to be voted in favor of an initial business combination in order to have our initial business combination approved. Assuming only the minimum
---------------------------------	---

Transfer restrictions on Novator private placement units (or the components thereof)	number of shares representing a quorum are voted and the underwriter's over-allotment option is not exercised, in addition to the founder shares and Novator private placement shares we would not need any of the 20,000,000 public shares sold in this offering to be voted in favor of an initial business combination in order to have our initial business combination approved; and the Novator private placement units and securities included therein are entitled to registration rights.
Transfer restrictions on Novator private placement shares	Except as described herein, our sponsor, directors and executive officers have agreed not to transfer, assign or sell any of their Novator private placement units until the earlier to occur of (i) one year after the completion of our initial business combination and (ii) the date following the completion of our initial business combination on which we complete a liquidation, merger, share exchange or other similar transaction that results in all of our shareholders having the right to exchange their ordinary shares for cash, securities or other property.
Appointment of directors; voting rights	Our sponsor, directors and executive officers have agreed not to transfer, assign or sell any of their Novator private placement shares until the earlier to occur of: (i) one year after the completion of our initial business combination or (ii) subsequent to our initial business combination, (x) if the last reported sale price of our Class A ordinary shares equal or exceeds \$12.00 per share (as adjusted for share splits, share dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, or (y) the date on which we complete a liquidation, merger, capital share exchange or other similar transaction that results in all of our shareholders having the right to exchange their shares for cash, securities or other property (except as described under the section of this prospectus entitled "Principal Shareholders—Restrictions on Transfers of Founder Shares, Private Placement Warrants, Novator Private Placement Warrants, Novator Private Placement Shares and Novator Private Placement Units.") Any permitted transferees will be subject to the same restrictions and other agreements of our initial shareholders with respect to any founder shares. We refer to such transfer restrictions throughout this prospectus as the lock-up.
	Only holders of our founder shares will have the right to appoint directors in any election held prior to or in connection with the completion of our initial business combination. Holders of our public shares and Novator private placement shares will not be entitled to vote on the appointment of directors during such time. These provisions of our amended and restated memorandum and articles of association may be

	amended by a special resolution passed by a majority of at least 90% of our ordinary shares voting in a general meeting. With respect to any other matter submitted to a vote of our shareholders, including any vote in connection with our initial business combination, except as required by law, holders of our founder shares, holders of our public shares and holders of the Novator private placement shares will vote together as a single class, with each share entitling the holder to one vote.
Private placement warrants	Our sponsor has committed to purchase an aggregate of 4,000,000 private placement warrants, each exercisable to purchase one Class A ordinary share at \$11.50 per share, at a price of \$1.50 per warrant, in a private placement of warrants that will close simultaneously with the closing of this offering. If we do not complete our initial business combination within 24 months from the closing of this offering, the private placement warrants will expire worthless. The private placement warrants and Novator private placement warrants will be non-redeemable and exercisable on a cashless basis so long as they are held by our sponsor, directors, officers or their permitted transferees (except as described below under “Principal Shareholders—Transfers of Founder Shares, Private Placement Warrants and Novator Private Placement Warrants”). If the private placement warrants are held by holders other than our sponsor, directors, officers or their permitted transferees, the private placement warrants and Novator private placement warrants will be redeemable by us and exercisable by such holders on the same basis as the warrants included in the units being sold in this offering.
Transfer restrictions on private placement warrants and Novator private placement warrants	The private placement warrants (including the Class A ordinary shares issuable upon exercise of the private placement warrants) and Novator private placement warrants will not be transferable, assignable or salable until 30 days after the completion of our initial business combination (except, among other limited exceptions as described under “Principal Shareholders—Transfers of Founder Shares, Private Placement Warrants and Novator Private Placement Warrants,” to our executive officers and directors and other persons or entities affiliated with our sponsor or its permitted transferee).
Proceeds to be held in trust account	Nasdaq rules provide that at least 90% of the gross proceeds from this offering, the sale of the Novator private placement units and sale of the private placement warrants be deposited in a trust account. Of the net proceeds we will receive from this offering, the sale of the Novator private placement units and the sale of the private placement warrants described in this prospectus, \$235 million, or \$265 million if the underwriters’ over-allotment option is exercised in full (\$10.00 per unit in either case), will be deposited into a segregated U.S.-based trust account with Continental Stock Transfer & Trust Company acting as trustee, after deducting \$4,000,000 in underwriting discounts and commissions payable upon the

	closing of this offering (or \$4,600,000 if the underwriters' over-allotment option is exercised in full) and an aggregate of \$1,000,000 to pay fees and expenses in connection with the closing of this offering and for working capital following the closing of this offering, not including the additional \$1,000,000 to be held in trust as described herein. The proceeds to be placed in the trust account include \$7,000,000 (or up to \$8,050,000 if the underwriters' over-allotment option is exercised in full) in deferred underwriting commissions. Except with respect to interest earned on the funds held in the trust account that may be released to us to pay our taxes, if any, the proceeds from this offering, the sale of the private placement warrants and sale of the Novator private placement units will not be released from the trust account until the earliest of (a) the completion of our initial business combination, (b) the redemption of our public shares and Novator private placement shares if we are unable to complete our initial business combination within 24 months from the closing of this offering, subject to applicable law, or (c) the redemption of our public shares properly submitted in connection with a shareholder vote to amend our amended and restated memorandum and articles of association (i) to modify the substance or timing of our obligation to provide for the redemption of our public shares in connection with an initial business combination or to redeem 100% of our public shares and Novator private placement shares if we have not consummated an initial business combination within 24 months from the closing of this offering or (ii) with respect to any other provisions relating to shareholders' rights or pre-initial business combination activity. The proceeds deposited in the trust account could become subject to the claims of our creditors, if any, which could have priority over the claims of our public shareholders and holders of Novator price placement shares.
Anticipated expenses and funding sources	Unless and until we complete our initial business combination, no proceeds held in the trust account will be available for our use, except for the withdrawal of interest to pay our income taxes, if any. The proceeds held in the trust account will be invested only in U.S. government treasury obligations with a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act, which invest only in direct U.S. government treasury obligations. We estimate the interest earned on the trust account will be approximately \$235,000 per year, assuming an interest rate of 0.1% per year; however, we can provide no assurances regarding this amount. Unless and until we complete our initial business combination, we may pay our expenses only from: the net proceeds of this offering, the sale of the Novator private placement units and the sale of the private placement warrants not held in the trust account, which will be approximately \$1,000,000 in working capital after the payment of approximately \$1,000,000 in expenses

Conditions to completing our initial business combination	relating to this offering (other than underwriting commissions); and any loans or additional investments from our sponsor or an affiliate of our sponsor, although they are under no obligation to advance funds or invest in us, and provided any such loans will not have any claim on the proceeds held in the trust account unless such proceeds are released to us upon completion of our initial business combination. Nasdaq rules require that we must complete one or more business combinations having an aggregate fair market value of at least 80% of the value of the assets held in the trust account (excluding the deferred underwriting commissions and taxes payable on the interest earned on the trust account) at the time of our signing a definitive agreement in connection with our initial business combination. Our board of directors will make the determination as to the fair market value of our initial business combination. If our board of directors is not able to independently determine the fair market value of our initial business combination, we will obtain an opinion from an independent investment banking firm or an independent accounting firm with respect to the satisfaction of such criteria. While we consider it unlikely that our board of directors will not be able to make an independent determination of the fair market value of our initial business combination, it may be unable to do so if it is less familiar or experienced with the business of a particular target or if there is a significant amount of uncertainty as to the value of a target's assets or prospects. There is no limitation on our ability to raise funds privately, or through loans in connection with our initial business combination. We anticipate structuring our initial business combination either (i) in such a way so that the post-transaction Company in which our public shareholders and holders of Novator private placement shares will own or acquire 100% of the equity interests or assets of the target business or businesses, or (ii) in such a way so that the post-transaction Company owns or acquires less than 100% of such interests or assets of the target business in order to meet certain objectives of the target management team or shareholders, or for other reasons. However, we will only complete an initial business combination if the post-transaction Company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act. Even if the post-transaction Company owns or acquires 50% or more of the voting securities of the target, our shareholders prior to the initial business combination may collectively own a minority interest in the post-transaction Company, depending on valuations ascribed to the target and us in the initial business combination. For example, we could pursue a transaction in which we issue a substantial number of new shares in exchange for all of the outstanding capital stock, shares or
--	--

Permitted purchases of public shares and public warrants by our affiliates	other equity interests of a target. In this case, we would acquire a 100% controlling interest in the target. However, as a result of the issuance of a substantial number of new shares, our shareholders immediately prior to our initial business combination could own less than a majority of our outstanding shares subsequent to our initial business combination. If less than 100% of the equity interests or assets of a target business or businesses are owned or acquired by the post-transaction Company, the portion of such business or businesses that is owned or acquired is what will be taken into account for purposes of Nasdaq's 80% of net assets test. If the initial business combination involves more than one target business, the 80% of net assets test will be based on the aggregate value of all of the transactions and we will treat the target businesses together as the initial business combination for purposes of a tender offer or for seeking shareholder approval, as applicable. If we seek shareholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our sponsor, initial shareholders, directors, executive officers or their affiliates may purchase public shares or public warrants in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination. The purpose of any such purchases of shares could be to vote such shares in favor of the initial business combination and thereby increase the likelihood of obtaining shareholder approval of the initial business combination or to satisfy a closing condition in an agreement with a target that requires us to have a minimum net worth or a certain amount of cash at the closing of our initial business combination, where it appears that such requirement would otherwise not be met. The purpose of any such purchases of shares could be to vote such shares in favor of the initial business combination and thereby increase the likelihood of obtaining shareholder approval of the initial business combination or to satisfy a closing condition in an agreement with a target that requires us to have a minimum net worth or a certain amount of cash at the closing of our initial business combination, where it appears that such requirement would otherwise not be met. The purpose of any such purchases of public warrants could be to reduce the number of public warrants outstanding or to vote such warrants on any matters submitted to the warrant holders for approval in connection with our initial business combination. Any such purchases of our securities may result in the completion of our initial business combination that may not otherwise have been possible. In addition, if such purchases are made, the public "float" of our Class A ordinary shares or warrants may be reduced and the number of beneficial holders of our securities may be reduced, which may make it difficult to maintain or obtain the quotation, listing or trading of our securities on a national securities exchange.
---	--

Redemption rights for public shareholders upon completion of our initial business combination	We will provide our public shareholders with the opportunity to redeem all or a portion of their public shares upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account (excluding any amounts then on deposit in the trust account that are allocable to the Novator private placement shares) calculated as of two business days prior to the consummation of our initial business combination, including interest earned on the funds held in the trust account (excluding any interest earned on the funds held in the trust account that are allocable to the Novator private placement shares) and not previously released to us to pay our taxes, divided by the number of then outstanding public shares, subject to the limitations and on the conditions described herein. The amount in the trust account is initially anticipated to be \$10.00 per public share and per Novator private placement share. The per share amount we will distribute to investors who properly redeem their shares will not be reduced by the deferred underwriting commissions we will pay to the underwriters. There will be no redemption rights upon the completion of our initial business combination with respect to our warrants. Our initial shareholders have entered into agreements with us, pursuant to which they have agreed to waive their redemption rights with respect to their founder shares, Novator private placement shares and any public shares they may acquire during or after this offering in connection with the completion of our initial business combination.
Manner of conducting redemptions	We will provide our public shareholders with the opportunity to redeem all or a portion of their Class A ordinary shares upon the completion of our initial business combination either (i) in connection with a general meeting called to approve the initial business combination or (ii) by means of a tender offer. The decision as to whether we will seek shareholder approval of a proposed initial business combination or conduct a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors such as the timing of the transaction and whether the terms of the transaction would require us to seek shareholder approval under the law or stock exchange listing requirement. Under Nasdaq rules, asset acquisitions and share purchases would not typically require shareholder approval while direct mergers with our Company where we do not survive and any transactions where we issue more than 20% of our outstanding ordinary shares or seek to amend our amended and restated memorandum and articles of association would require shareholder approval. If we structure an initial business combination with a target company in a manner that requires shareholder approval, we will not have discretion as to whether to seek a shareholder vote to approve the proposed initial business combination. We may conduct redemptions without a shareholder vote pursuant to the tender offer rules of the SEC unless shareholder

approval is required by law or stock exchange listing requirements or we choose to seek shareholder approval for business or other legal reasons. So long as we obtain and maintain a listing for our securities on Nasdaq, we will be required to comply with such rules.

If a shareholder vote is not required and we do not decide to hold a shareholder vote for business or other legal reasons, we will, pursuant to our amended and restated memorandum and articles of association:

- conduct the redemptions pursuant to Rule 13e-4 and Regulation 14E of the Exchange Act, which regulate issuer tender offers; and
- file tender offer documents with the SEC prior to completing our initial business combination which contain substantially the same financial and other information about the initial business combination and the redemption rights as is required under Regulation 14A of the Exchange Act, which regulates the solicitation of proxies.

Upon the public announcement of our initial business combination, we or our sponsor will terminate any plan established in accordance with Rule 10b5-1 to purchase our Class A ordinary shares in the open market if we elect to redeem our public shares through a tender offer, to comply with Rule 14e-5 under the Exchange Act.

In the event we conduct redemptions pursuant to the tender offer rules, our offer to redeem will remain open for at least 20 business days, in accordance with Rule 14e-1(a) under the Exchange Act, and we will not be permitted to complete our initial business combination until the expiration of the tender offer period. In addition, we will not redeem any public shares unless our net tangible assets will be at least \$5,000,001 either immediately prior to or upon consummation of our initial business combination and after payment of underwriters' fees and commissions (so that we are not subject to the SEC's "penny stock" rules) or any greater net tangible asset or cash requirement which may be contained in the agreement relating to our initial business combination. If public shareholders tender more shares than we have offered to purchase, we will withdraw the tender offer and not complete the initial business combination.

If, however, shareholder approval of the transaction is required by law or stock exchange listing requirements, or we decide to obtain shareholder approval for business or other legal reasons, we will, pursuant to our amended and restated memorandum and articles of association:

- conduct the redemptions in conjunction with a proxy solicitation pursuant to Regulation 14A of the Exchange Act, which regulates the solicitation of proxies, and not pursuant to the tender offer rules, and
- file proxy materials with the SEC.

In the event that we seek shareholder approval of our initial business combination, we will distribute proxy materials and, in connection therewith, provide our public shareholders with the redemption rights described above upon completion of the initial business combination.

If we seek shareholder approval, we will complete our initial business combination only if a majority of the outstanding ordinary shares voted are voted in favor of the initial business combination. A quorum for such meeting will consist of the holders present in person or by proxy of outstanding shares of the company representing a majority of the voting power of all outstanding shares of our Company entitled to vote at such meeting. Our initial shareholders and holders of Novator private placement shares will count toward this quorum and pursuant to the letter agreement, our initial shareholders, our sponsor and directors and executive officers have agreed to vote their founder shares, any public shares purchased during or after this offering (including in open market and privately negotiated transactions) and Novator private placement shares in favor of our initial business combination. For purposes of seeking approval of the majority of our outstanding ordinary shares voted, non-votes will have no effect on the approval of our initial business combination once a quorum is obtained. As a result, in addition to our initial shareholders' founder shares and Novator private placement shares, we would need 5,312,501 or approximately 26.6%, of the 20,000,000 public shares sold in this offering to be voted in favor of an initial business combination (assuming all outstanding shares are voted and our initial shareholders do not purchase any public shares) in order to have our initial business combination approved (assuming the over-allotment option is not exercised). We intend to give approximately 30 days (but not less than 10 days nor more than 60 days) prior written notice of any such meeting, if required, at which a vote shall be taken to approve our initial business combination. These quorum and voting thresholds, and the voting agreements of our initial shareholders, may make it more likely that we will consummate our initial business combination. Each public shareholder may elect to redeem its public shares irrespective of whether they vote for or against the proposed transaction.

Our amended and restated memorandum and articles of association will provide that we may not redeem our public shares unless our net tangible assets are at least \$5,000,001 either immediately prior to or upon consummation of our initial business combination and after payment of underwriters' fees and commissions (so that we are not subject to the SEC's "penny stock" rules) or any greater net tangible asset or cash requirement which may be contained in the agreement relating to our initial business combination. For example, the proposed initial business combination may require: (i) cash consideration to be paid to the target or its owners, (ii) cash to be transferred to the target for working capital or other general corporate purposes or (iii) the retention of cash to satisfy other conditions in accordance with the terms of the proposed initial business combination. In the event the

Limitation on redemption rights of shareholders holding 20% or more of the public shares if we hold shareholder vote	aggregate cash consideration we would be required to pay for all Class A ordinary shares that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed initial business combination exceed the aggregate amount of cash available to us, we will not complete the initial business combination or redeem any shares, and all Class A ordinary shares submitted for redemption will be returned to the holders thereof.
	Notwithstanding the foregoing redemption rights, if we seek shareholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated memorandum and articles of association provide that a public shareholder, together with any affiliate of such shareholder or any other person with whom such shareholder is acting in concert or as a “group” (as defined under Section 13 of the Exchange Act), will be restricted from redeeming its shares with respect to more than an aggregate of 20% of the public shares, without our prior consent. We believe the restriction described above will discourage shareholders from accumulating large blocks of shares, and subsequent attempts by such holders to use their ability to redeem their shares as a means to force us or our management to purchase their shares at a significant premium to the then-current market price or on other undesirable terms. Absent this provision, a public shareholder holding more than an aggregate of 20% of the public shares could threaten to exercise its redemption rights against a business combination if such holder’s shares are not purchased by us, our sponsor or our management at a premium to the then-current market price or on other undesirable terms. By limiting our shareholders’ ability to redeem to no more than 20% of the public shares, we believe we will limit the ability of a small group of shareholders to unreasonably attempt to block our ability to complete our initial business combination, particularly in connection with a business combination with a target that requires as a closing condition that we have a minimum net worth or a certain amount of cash. However, we would not be restricting our shareholders’ ability to vote all of their shares (including all shares held by those shareholders that hold more than 20% of the public shares) for or against our initial business combination.
Release of funds in trust account on closing of our initial business combination	On the completion of our initial business combination, the funds held in the trust account will be used to pay amounts due to any public shareholders who exercise their redemption rights as described above under “Redemption rights for public shareholders upon completion of our initial business combination,” to pay the underwriters their deferred underwriting commissions, to pay all or a portion of the consideration payable to the target or owners of the target of

Redemption of public shares, Novator private placement shares and distribution and liquidation if no initial business combination	our initial business combination and to pay other expenses associated with our initial business combination. If our initial business combination is paid for using equity or debt securities or not all of the funds released from the trust account are used for payment of the consideration in connection with our initial business combination, we may apply the balance of the cash released to us from the trust account for general corporate purposes, including for maintenance or expansion of operations of post-transaction businesses, the payment of principal or interest due on indebtedness incurred in completing our initial business combination, to fund the purchase of other companies or for working capital. Our amended and restated memorandum and articles of association provide that we will have only 24 months from the closing of this offering to complete our initial business combination. If we are unable to complete our initial business combination within such 24-month period, we will: (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares and the Novator private placement shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (less up to \$100,000 of interest to pay liquidation expenses and net of taxes payable), divided by the number of then outstanding public shares and Novator private placement shares, which redemption will completely extinguish public shareholders' rights and holders of Novator private placement shares' rights as shareholders (including the right to receive further liquidation distributions, if any) and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining shareholders and our board of directors, liquidate and dissolve in each case to our obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law. There will be no redemption rights or liquidating distributions with respect to our warrants, which will expire worthless if we fail to complete our initial business combination within the 24-month time period. Our initial shareholders, sponsor, and directors and executive officers have entered into agreements with us, pursuant to which they have waived their rights to liquidating distributions from the trust account with respect to their founder shares if we fail to complete our initial business combination within 24 months from the closing of this offering. However, our initial shareholders, our sponsor, and directors and executive officers will be entitled to liquidating distributions from the trust account with respect to any public shares they acquire in or after this offering and the Novator private placement shares if we fail to complete our initial business combination within the allotted 24-month time frame.
--	---

Limited payments to insiders	The underwriters have agreed to waive their rights to their deferred underwriting commission held in the trust account in the event we do not complete our initial business combination within 24 months from the closing of this offering and, in such event, such amounts will be included with the funds held in the trust account that will be available to fund the redemption of our public shares and Novator private placement shares. Our sponsor, executive officers and directors have agreed, pursuant to a written agreement with us, that they will not propose any amendment to our amended and restated memorandum and articles of association to modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering, unless we provide our public shareholders with the opportunity to redeem their Class A ordinary shares upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (net of taxes payable), divided by the number of then outstanding public shares, subject to the limitations described above under “Limitations on redemptions.” For example, our board of directors may propose such an amendment if it determines that additional time is necessary to complete our initial business combination. In such event, we will conduct a proxy solicitation and distribute proxy materials pursuant to Regulation 14A of the Exchange Act seeking shareholder approval of such proposal and, in connection therewith, provide our public shareholders with the redemption rights described above upon shareholder approval of such amendment. There will be no finder’s fees, reimbursements or cash payments made by us to our sponsor, executive officers or directors, or our or their affiliates for services rendered to us prior to or in connection with the completion of our initial business combination, other than the following payments, none of which will be made from the proceeds of this offering and the sale of the Novator private placement units held in the trust account prior to the completion of our initial business combination: • Repayment of up to an aggregate of \$300,000 in loans made to us by our sponsor to cover offering-related and organizational expenses; • Payment of \$10,000 per month for office space, secretarial and administrative services provided to us by our sponsor; • Reimbursement for any out-of-pocket expenses related to identifying, investigating, negotiating and completing an initial business combination; and • In order to finance transaction costs in connection with a business combination or for other matters, our sponsor or an affiliate of the initial shareholders or certain of our directors and officers may, but are not obligated to,
-------------------------------------	---

	loan our company funds as may be required. If we complete a business combination, we would repay these loans, without interest, out of the proceeds of the trust account released to us, or at the lender's discretion, up to a maximum of \$1,500,000 of such loans (including loans made in connection with a business combination, the payment of offering expenses or otherwise) may be convertible into warrants of the post-business combination entity at a price of \$1.50 per warrant. These warrants would be identical to the private placement warrants. Otherwise, these loans would be repaid only out of funds held outside the trust account. In the event that a business combination does not close, we may use a portion of proceeds held outside the trust account to repay these loans, but no proceeds held in the trust account would be used to repay these loans. Except for the foregoing, the terms of such loans, if any, have not been determined and no written agreements exist with respect to such loans. • Payments for professional services to Caroline Harding, the chief financial officer under two compensation arrangements, including one in her role as chief financial officer and the other for her service on our board of directors. If we do not have sufficient funds to make the payments due to Ms. Harding as set forth herein professional services provided by her, we may borrow funds from our sponsor or an affiliate of the initial shareholders or certain of our directors and officers to enable us to make such payments. See "Executive Officer and Director Compensation."
Audit Committee	We will establish and maintain an audit committee. Among its responsibilities, the audit committee will review on a quarterly basis all payments that were made to our sponsor, executive officers or directors, or our or their affiliates and monitor compliance with the other terms relating to this offering. If any noncompliance is identified, then the audit committee will be charged with the responsibility to promptly take all action necessary to rectify such noncompliance or otherwise to cause compliance with the terms of this offering. For more information, see the section entitled "Management—Committees of our board of directors—Audit Committee."
Use of Proceeds	We intend to use substantially all of the funds held in the trust account, including any amounts representing interest earned on the trust account (less deferred underwriting commissions) to complete our initial business combination. See "Use of Proceeds."

RISKS

We are a blank check company that has conducted no operations and has generated no revenues. Until we complete our initial business combination, we will have no operations and will generate no operating revenues. In making your decision whether to invest in our securities, you should take into account not only the background of our management team, but also the special risks we face as a blank check company. This offering is not being conducted in compliance with Rule 419 promulgated under the Securities Act. Accordingly, you will not be entitled to protections normally afforded to investors in Rule 419 blank check offerings. For additional information concerning how Rule 419 blank check offerings differ from this offering, see “Proposed Business—Comparison of This Offering to Those of Blank Check Companies Subject to Rule 419.” You should carefully consider these and the other risks set forth in the section entitled “Risk Factors” of this prospectus.

SUMMARY FINANCIAL DATA

The following table summarizes the relevant financial data for our business and should be read with our financial statements, which are included in this prospectus. We have not had any significant operations to date, so only balance sheet data is presented.

	December 31, 2020	
	Actual	As Adjusted
Balance Sheet Data:		
Working capital (deficiency) ⁽¹⁾	\$(552,663)	\$ 229,005,000
Total assets ⁽²⁾	\$ 562,663	\$ 236,005,000
Total liabilities	\$ 557,663	\$ 7,000,000
Value of ordinary shares subject to possible redemption ⁽³⁾	\$ —	\$(224,004,990)
Shareholders' equity ⁽⁴⁾	\$ 5,000	\$ 5,000,010

- (1) The "as adjusted" calculation includes \$235,000,000 cash held in trust from the proceeds of this offering, the sale of the Novator private placement units and the sale of the private placement warrants, plus \$1,000,000 in cash held outside the trust account, plus \$5,000 of actual shareholder's equity as of December 31, 2020, less \$7,000,000 of deferred underwriting commissions.
- (2) The "as adjusted" calculation includes \$235,000,000 cash held in trust from the proceeds of this offering, the sale of the Novator private placement units and the sale of the private placement warrants, plus \$1,000,000 in cash held outside the trust account, plus \$5,000 of actual shareholder's equity as of December 31, 2020.
- (3) The "as adjusted" calculation equals the "as adjusted" total assets, less the "as adjusted" total liabilities, less the "as adjusted" shareholder's equity, which is set to approximate the minimum net tangible assets threshold of at least \$5,000,001.
- (4) Excludes 19,064,254 public shares which are subject to redemption in connection with our initial business combination. The "as adjusted" calculation equals the "as adjusted" total assets, less the "as adjusted" total liabilities, less the value of shares that may be redeemed in connection with our initial business combination.

The "as adjusted" information gives effect to the sale of the units in this offering, the sale of the Novator private placement units and the sale of the private placement warrants, and the payment of the estimated expenses of this offering and assumes no exercise of the underwriters' over-allotment option. The "as adjusted" total assets amount includes the \$235,000,000 held in the trust account (which would be \$265,000,000 if the underwriters' over-allotment option is exercised in full) for the benefit of our public shareholders, which amount will be available to us only upon the completion of our initial business combination within the 24 months completion window.

CAUTIONARY NOTICE REGARDING FORWARD-LOOKING STATEMENTS AND RISK FACTOR SUMMARY

Some of the statements contained in this prospectus may constitute “forward-looking statements” for purposes of the federal securities laws. Our forward-looking statements include, but are not limited to, statements regarding our or our management team’s expectations, hopes, beliefs, intentions or strategies regarding the future. In addition, any statements that refer to projections, forecasts or other characterizations of future events or circumstances, including any underlying assumptions, are forward-looking statements. The words “anticipate,” “believe,” “continue,” “could,” “estimate,” “expect,” “intends,” “may,” “might,” “plan,” “possible,” “potential,” “predict,” “project,” “should,” “would” and similar expressions may identify forward-looking statements, but the absence of these words does not mean that a statement is not forward-looking. The forward-looking statements contained in this prospectus are based on our current expectations and beliefs concerning future developments and their potential effects on us. There can be no assurance that future developments affecting us will be those that we have anticipated. These forward-looking statements involve a number of risks, uncertainties (some of which are beyond our control) or other assumptions that may cause actual results or performance to be materially different from those expressed or implied by these forward-looking statements. These risks and uncertainties include, but are not limited to:

- the use of proceeds not held in the trust account or available to us from interest income on the trust account balance;
- our ability to complete our initial business combination;
- our public securities’ potential liquidity and trading;
- our ability to consummate an initial business combination due to the uncertainty resulting from the recent COVID-19 pandemic and other events (such as terrorist attacks, natural disasters or a significant outbreak of other infectious diseases);
- our ability to select an appropriate target business or businesses;
- our financial performance following this offering;
- the trust account not being subject to claims of third parties;
- our pool of prospective target businesses;
- our expectations around the performance of a prospective target business or businesses;
- our success in retaining or recruiting, or changes required in, our executive officers, key employees or directors following our initial business combination;
- our executive officers and directors allocating their time to other businesses and potentially having conflicts of interest with our business or in approving our initial business combination;
- the ability of our executive officers and directors to generate a number of potential business combination opportunities;
- our potential ability to obtain additional financing to complete our initial business combination;
- the lack of a market for our securities; or
- the other risks and uncertainties discussed in “Risk Factors” and elsewhere in this prospectus.

Should one or more of these risks or uncertainties materialize, or should any of our assumptions prove incorrect, actual results may vary in material respects from those projected in these forward-looking statements. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required under applicable securities laws.

RISK FACTORS

An investment in our securities involves a high degree of risk. You should consider carefully all of the risks described below, together with the other information contained in this prospectus, before making a decision to invest in our units. If any of the following events occur, our business, financial condition and operating results may be materially adversely affected. In that event, the trading price of our securities could decline, and you could lose all or part of your investment.

Risks Relating to Our Search for, and Consummation of or Inability to Consummate, a Business Combination

We are a recently formed blank check company with no operating history and no revenues, and you have no basis on which to evaluate our ability to achieve our business objective.

We are a recently formed blank check company incorporated under the laws of the Cayman Islands with no operating results, and we will not commence operations until obtaining funding through this offering. Because we lack an operating history, you have no basis upon which to evaluate our ability to achieve our business objective of completing our initial business combination. We have no plans, arrangements or understandings with any prospective target business concerning a business combination and may be unable to complete our initial business combination. If we fail to complete our initial business combination, we will never generate any operating revenues.

Our public shareholders may not be afforded an opportunity to vote on our proposed initial business combination, and even if we hold a vote, holders of our founder shares and Novator private placement shares will participate in such vote, which means we may complete our initial business combination even though a majority of our public shareholders do not support such a combination.

Under certain specific circumstances, we may choose not to hold a shareholder vote to approve our initial business combination unless the business combination would require shareholder approval under applicable law or stock exchange listing requirements. In such case, the decision as to whether we will seek shareholder approval of a proposed business combination or will allow shareholders to sell their shares to us in a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors, such as the timing of the transaction and whether the terms of the transaction would otherwise require us to seek shareholder approval. Even if we seek shareholder approval, the holders of our founder shares and Novator private placement shares will participate in the vote on such approval. Accordingly, we may complete our initial business combination even if holders of a majority of our ordinary shares do not approve of the business combination we complete. Assuming only the minimum number of shares representing a quorum are voted and the underwriter's over-allotment option is not exercised, in addition to the founder shares and Novator private placement shares we would not need any of the 20,000,000 public shares sold in this offering to be voted in favor of an initial business combination in order to have our initial business combination approved. See the section entitled "Proposed Business—Shareholders May Not Have the Ability to Approve Our Initial Business Combination" for additional information.

Your only opportunity to affect the investment decision regarding a potential business combination may be limited to the exercise of your right to redeem your shares from us for cash.

Under certain specific circumstances, at the time of your investment in us, you will not be provided with an opportunity to evaluate the specific merits or risks of our initial business combination. Since our board of directors may complete a business combination without seeking shareholder approval, public shareholders may not have the right or opportunity to vote on the business combination, unless we seek such shareholder vote. Accordingly, your only opportunity to affect the investment decision regarding our initial business combination may be limited to exercising your redemption rights within the period of time (which will be at least 20 business days) set forth in our tender offer documents mailed to our public shareholders in which we describe our initial business combination.

If we seek shareholder approval of our initial business combination, our sponsor, initial shareholders and management team have agreed to vote in favor of such initial business combination, regardless of how our public shareholders vote.

Our initial shareholders will own shares representing 30.566% of our outstanding ordinary shares immediately following the completion of this offering and the sale of the Novator private placement units

(assuming that the underwriters exercise their over-allotment option in full). Accordingly, if we seek shareholder approval of our initial business combination, the agreement by our initial shareholders to vote in favor of our initial business combination will increase the likelihood that we will receive the requisite shareholder approval for such initial business combination.

Pursuant to the letter agreement, our initial shareholders, sponsor, and directors and executive officers have agreed to vote their founder shares, Novator private placement shares and any public shares purchased during or after this offering (including in open market and privately negotiated transactions), in favor of our initial business combination. As a result, in addition to our initial shareholders' founder shares and the Novator private placement shares owned by our sponsor, and directors and executive officers, we would need 5,312,501 or approximately 26.6%, of the 20,000,000 public shares sold in this offering to be voted in favor of an initial business combination in order to have our initial business combination approved (assuming all outstanding shares are voted and the over-allotment option is not exercised). Accordingly, if we seek shareholder approval of our initial business combination, the agreement by our initial shareholders, our sponsor, and directors and executive officers to vote in favor of our initial business combination will increase the likelihood that we will receive the requisite shareholder approval for such initial business combination.

Our independent registered public accounting firm's report contains an explanatory paragraph that expresses substantial doubt about our ability to continue as a "going concern."

The report of our independent registered public accounting firm on our financial statements includes an explanatory paragraph stating that our ability to continue as a going concern is dependent on the consummation of this offering. However, our management has determined that our Company has access to funds that are sufficient to fund our working capital needs until the earlier of the consummation of this offering or a minimum of one year from the date of issuance of these financial statements. The financial statements do not include any adjustments that might result from our inability to consummate this offering or our ability to continue as a going concern. Moreover, there is no assurance that we will consummate our initial business combination. These factors raise substantial doubt about our ability to continue as a going concern.

The ability of our public shareholders to redeem their shares for cash may make our financial condition unattractive to potential business combination targets, which may make it difficult for us to enter into a business combination with a target.

We may seek to enter into a business combination transaction agreement with a prospective target that requires as a closing condition that we have a minimum net worth or a certain amount of cash. If too many public shareholders exercise their redemption rights, we would not be able to meet such closing condition and, as a result, would not be able to proceed with the business combination. Furthermore, in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 (so that we are not subject to the SEC's "penny stock" rules). Consequently, if accepting all properly submitted redemption requests would cause our net tangible assets to be less than \$5,000,001 upon completion of our initial business combination and after payment of underwriters' fees and commissions, or such greater amount necessary to satisfy a closing condition as described above, we would not proceed with such redemption and the related business combination and may instead search for an alternate business combination. Prospective targets will be aware of these risks and, thus, may be reluctant to enter into a business combination transaction with us.

The ability of our public shareholders to exercise redemption rights with respect to a large number of our shares may not allow us to complete the most desirable business combination or optimize our capital structure.

At the time we enter into an agreement for our initial business combination, we will not know how many shareholders may exercise their redemption rights, and therefore will need to structure the transaction based on our expectations as to the number of shares that will be submitted for redemption. If our initial business combination agreement requires us to use a portion of the cash in the trust account to pay the purchase price, or requires us to have a minimum amount of cash at closing, we will need to reserve a portion of the cash in the trust account to meet such requirements, or arrange for third party financing. In addition, if a larger number of shares are submitted for redemption than we initially expected, we may need to

restructure the transaction to reserve a greater portion of the cash in the trust account or arrange for third party financing. Raising additional third party financing may involve dilutive equity issuances or the incurrence of indebtedness at higher than desirable levels. The above considerations may limit our ability to complete the most desirable business combination available to us or optimize our capital structure. The amount of the deferred underwriting commissions payable to the underwriters will not be adjusted for any shares that are redeemed in connection with an initial business combination. The per-share amount we will distribute to shareholders who properly exercise their redemption rights will not be reduced by the deferred underwriting commission and after such redemptions, the amount held in trust will continue to reflect our obligation to pay the entire deferred underwriting commissions. The above considerations may limit our ability to complete the most desirable business combination available to us or optimize our capital structure.

The ability of our public shareholders to exercise redemption rights with respect to a large number of our shares could increase the probability that our initial business combination would be unsuccessful and that you would have to wait for liquidation in order to redeem your shares.

If our initial business combination agreement requires us to use a portion of the cash in the trust account to pay the purchase price, or requires us to have a minimum amount of cash at closing, the probability that our initial business combination would be unsuccessful is increased. If our initial business combination is unsuccessful, you would not receive your pro rata portion of the trust account until we liquidate the trust account. If you are in need of immediate liquidity, you could attempt to sell your shares in the open market; however, at such time our shares may trade at a discount to the pro rata amount per share in the trust account. In either situation, you may suffer a material loss on your investment or lose the benefit of funds expected in connection with your exercise of redemption rights until we liquidate or you are able to sell your shares in the open market.

The requirement that we complete our initial business combination within 24 months after the closing of this offering may give potential target businesses leverage over us in negotiating a business combination and may limit the time we have in which to conduct due diligence on potential business combination targets as we approach our liquidation deadline, which could undermine our ability to complete our initial business combination on terms that would produce value for our shareholders.

Any potential target business with which we enter into negotiations concerning a business combination will be aware that we must complete our initial business combination within 24 months from the closing of this offering. Consequently, such target business may obtain leverage over us in negotiating a business combination, knowing that if we do not complete our initial business combination with that particular target business, we may be unable to complete our initial business combination with any target business. This risk will increase as we get closer to the timeframe described above. In addition, we may have limited time to conduct due diligence and may enter into our initial business combination on terms that we would have rejected upon a more comprehensive investigation.

We may not be able to complete our initial business combination within 24 months after the closing of this offering due to factors beyond our control, in which case we would cease all operations except for the purpose of winding up and we would redeem our public shares and Novator private placement shares and liquidate, in which case our public shareholders and holders of Novator private placement shares may receive only their pro rata portion of the funds in the trust account that are available for distribution to public shareholders and holders of Novator private placement shares, and our warrants will expire worthless.

We may not be able to find a suitable target business and complete our initial business combination within 24 months after the closing of this offering. Our ability to complete our initial business combination may be negatively impacted by general market conditions, volatility in the capital and debt markets and other market risks that are not in our control. For example, the outbreak of the coronavirus, or COVID-19, continues to impact both the U.S. and global economy (including business revenue generation, logistics and supply chain, consumer demand and travel restrictions), and, while the extent of the impact of the outbreak on us will depend on future developments, it could limit our ability to complete our initial business combination, including as a result of increased market volatility, decreased market liquidity and third-party financing being unavailable on terms acceptable to us or at all. Additionally, the outbreak of COVID-19 and its ongoing negative impact on the global economy may negatively impact businesses we may seek to

acquire. As a result of COVID-19 or other factors beyond our control, if we have not completed our initial business combination within such time period, we will: (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares and Novator private placement shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account and not previously released to us (less taxes payable and up to \$100,000 of interest to pay liquidation expenses), divided by the number of then outstanding public shares and Novator private placement shares, which redemption will completely extinguish public shareholders' rights and holders of Novator private placement shares as shareholders (including the right to receive further liquidation distributions, if any) and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining shareholders and our board of directors, liquidate and dissolve, subject in each case to our obligations under Cayman Islands law to provide for claims of creditors and in all cases subject to the other requirements of applicable law.

If we seek shareholder approval of our initial business combination, our initial shareholders, sponsor, directors, executive officers and their affiliates may elect to purchase shares or public warrants from public shareholders, which may influence a vote on a proposed business combination and reduce the public "float" of our Class A ordinary shares.

If we seek shareholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our sponsor, directors, executive officers or their affiliates may purchase shares or public warrants in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination, although they are under no obligation to do so. There is no limit on the number of shares our initial shareholders, directors, executive officers or their affiliates may purchase in such transactions, subject to compliance with applicable law and Nasdaq rules. However, other than as expressly stated herein, they have no current commitments, plans or intentions to engage in such transactions and have not formulated any terms or conditions for any such transactions. None of the funds in the trust account will be used to purchase shares or public warrants in such transactions.

In the event that our sponsor, directors, executive officers or their affiliates purchase shares in privately negotiated transactions from public shareholders who have already elected to exercise their redemption rights, such selling shareholders would be required to revoke their prior elections to redeem their shares. The purpose of any such purchases of shares could be to vote such shares in favor of the business combination and thereby increase the likelihood of obtaining shareholder approval of the business combination or to satisfy a closing condition in an agreement with a target that requires us to have a minimum net worth or a certain amount of cash at the closing of our initial business combination, where it appears that such requirement would otherwise not be met. The purpose of any such purchases of public warrants could be to reduce the number of public warrants outstanding or to vote such warrants on any matters submitted to the warrant holders for approval in connection with our initial business combination. Any such purchases of our securities may result in the completion of our initial business combination that may not otherwise have been possible. Any such purchases will be reported pursuant to Section 13 and Section 16 of the Exchange Act to the extent such purchasers are subject to such reporting requirements. See "Proposed Business—Permitted purchases of our securities" for a description of how our sponsor, directors, executive officers or any of their affiliates will select which shareholders to purchase securities from in any private transaction.

In addition, if such purchases are made, the public "float" of our Class A ordinary shares or public warrants and the number of beneficial holders of our securities may be reduced, possibly making it difficult to obtain or maintain the quotation, listing or trading of our securities on a national securities exchange.

If a shareholder fails to receive notice of our offer to redeem our public shares in connection with our initial business combination, or fails to comply with the procedures for submitting or tendering its shares, such shares may not be redeemed.

We will comply with the proxy rules or tender offer rules, as applicable, when conducting redemptions in connection with our initial business combination. Despite our compliance with these rules, if a shareholder fails to receive our proxy materials or tender offer documents, as applicable, such shareholder may not

become aware of the opportunity to redeem its shares. In addition, proxy materials or tender offer documents, as applicable, that we will furnish to holders of our public shares in connection with our initial business combination will describe the various procedures that must be complied with in order to validly tender or submit public shares for redemption. For example, we intend to require our public shareholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in “street name,” to, at the holder’s option, either deliver their share certificates to our transfer agent, or to deliver their shares to our transfer agent electronically prior to the date set forth in the proxy materials or tender offer documents, as applicable. In the case of proxy materials, this date may be up to two business days prior to the vote on the proposal to approve the initial business combination. In addition, if we conduct redemptions in connection with a shareholder vote, we intend to require a public shareholder seeking redemption of its public shares to also submit a written request for redemption to our transfer agent at least two business days prior to the vote in which the name of the beneficial owner of such shares is included. In the event that a shareholder fails to comply with these or any other procedures disclosed in the proxy or tender offer materials, as applicable, its shares may not be redeemed. See the section of this prospectus entitled “Proposed Business—Delivering Share Certificates in Connection with the Exercise of Redemption Rights.”

Risks Relating to Our Securities

The securities in which we invest the funds held in the trust account could bear a negative rate of interest, which could reduce the aggregate value of the assets held in the trust account such that the per share redemption amount received by public shareholders may be less than your anticipated per share redemption amount.

The funds in the trust account and the restricted account will be invested only in U.S. government treasury bills with a maturity of 185 days or less or in money market funds that meet certain conditions under Rule 2a-7 under the Investment Company Act and that invest only in direct U.S. government obligations. While short-term U.S. government treasury bills currently yield a positive rate of interest, they have briefly yielded negative interest rates in recent years. Central banks in Europe and Japan pursued interest rates below zero in recent years, and the Open Market Committee of the Board of Governors of the Federal Reserve System has not ruled out the possibility that it may in the future adopt similar policies in the United States. In the event that we are unable to complete our initial business combination or make certain amendments to our amended and restated memorandum and articles of association, our public shareholders are entitled to receive their pro-rata share of the proceeds held in the trust account, plus any interest income not released to us, net of taxes payable.

You will not have any rights or interests in funds from the trust account, except under certain limited circumstances. Therefore, to liquidate your investment, you may be forced to sell your public shares or warrants, potentially at a loss.

Our public shareholders will be entitled to receive funds from the trust account only (i) in the event of the redemption of our public shares and Novator private placement shares if we do not complete our initial business combination within 24 months from the closing of this offering, (ii) in connection with a shareholder vote to amend our amended and restated memorandum and articles of association to modify the substance or timing of our obligation to redeem 100% of our public shares and Novator private placement shares if we do not complete our initial business combination within 24 months from the closing of this offering or (iii) if they redeem their respective shares for cash upon the completion of the initial business combination. In no other circumstances will a shareholder have any right or interest of any kind to or in the trust account. Holders of warrants will not have any right to the proceeds held in the trust account with respect to the warrants. Accordingly, to liquidate your investment, you may be forced to sell your public shares or warrants, potentially at a loss.

Nasdaq may delist our securities from trading on its exchange, which could limit investors’ ability to make transactions in our securities and subject us to additional trading restrictions.

We intend to apply to have our units listed on Nasdaq. We expect that our units will be listed on Nasdaq on or promptly after the date of this prospectus. Following the date that the Class A ordinary shares and warrants are eligible to trade separately, we anticipate that the Class A ordinary shares and warrants will be separately listed on Nasdaq. We cannot guarantee that our securities will be approved for

listing on Nasdaq. Although after giving effect to this offering we expect to meet, on a pro forma basis, the minimum initial listing standards set forth in the Nasdaq listing standards, we cannot assure you that our securities will be, or will continue to be, listed on Nasdaq in the future or prior to our initial business combination. In order to continue listing our securities on Nasdaq prior to our initial business combination, we must maintain certain financial, distribution and share price levels. Generally, following our initial public offering, we must maintain a minimum amount in shareholder's equity (generally \$2.5 million) and a minimum number of holders of our securities (generally 300 public holders). Additionally, in connection with our initial business combination, we will be required to demonstrate compliance with Nasdaq's initial listing requirements, which are more rigorous than Nasdaq's continued listing requirements, in order to continue to maintain the listing of our securities on Nasdaq. For instance, our share price would generally be required to be at least \$4.00 per share and our shareholder's equity would generally be required to be at least \$5 million. We cannot assure you that we will be able to meet those initial listing requirements at that time.

If Nasdaq delists our securities from trading on its exchange and we are not able to list our securities on another national securities exchange, we expect our securities could be quoted on an over-the-counter market.

If this were to occur, we could face significant material adverse consequences, including:

- a limited availability of market quotations for our securities;
- reduced liquidity for our securities;
- a determination that our Class A ordinary shares are a "penny stock" which will require brokers trading in our Class A ordinary shares to adhere to more stringent rules and possibly result in a reduced level of trading activity in the secondary trading market for our securities;
- a limited amount of news and analyst coverage; and
- a decreased ability to issue additional securities or obtain additional financing in the future.

The National Securities Markets Improvement Act of 1996, which is a federal statute, prevents or preempts the states from regulating the sale of certain securities, which are referred to as "covered securities." Because we expect that our units and eventually our Class A ordinary shares and warrants will be listed on Nasdaq, our units, Class A ordinary shares and warrants are expected to qualify as covered securities under the statute. Although the states are preempted from regulating the sale of our securities, the federal statute does allow the states to investigate companies if there is a suspicion of fraud, and, if there is a finding of fraudulent activity, then the states can regulate or bar the sale of covered securities in a particular case. While we are not aware of a state having used these powers to prohibit or restrict the sale of securities issued by blank check companies, other than the State of Idaho, certain state securities regulators view blank check companies unfavorably and might use these powers, or threaten to use these powers, to hinder the sale of securities of blank check companies in their states. Further, if we were no longer listed on Nasdaq, our securities would not qualify as covered securities under the statute and we would be subject to regulation in each state in which we offer our securities.

You will not be entitled to protections normally afforded to investors of many other blank check companies.

Since the net proceeds of this offering, the sale of the Novator private placement units and the sale of the private placement warrants are intended to be used to complete an initial business combination with a target business that has not been selected, we may be deemed to be a "blank check" company under the United States securities laws. However, because we will have net tangible assets in excess of \$5,000,001 upon the completion of this offering, the sale of the Novator private placement units and the sale of the private placement warrants and will file a Current Report on Form 8-K, including an audited balance sheet demonstrating this fact, we are exempt from rules promulgated by the SEC to protect investors in blank check companies, such as Rule 419. Accordingly, investors will not be afforded the benefits or protections of those rules. Among other things, this means our units will be immediately tradable and we will have a longer period of time to complete our initial business combination than do companies subject to Rule 419. Moreover, if this offering were subject to Rule 419, that rule would prohibit the release of any interest earned on funds held in the trust account to us unless and until the funds in the trust account were released to us.

in connection with our completion of an initial business combination. For a more detailed comparison of our offering to offerings that comply with Rule 419, see “Proposed Business—Comparison of This Offering to Those of Blank Check Companies Subject to Rule 419.”

If we seek shareholder approval of our initial business combination and we do not conduct redemptions pursuant to the tender offer rules, and if you or a “group” of shareholders are deemed to hold in excess of 20% of the public shares, you will lose the ability to redeem all such shares in excess of 20% of the public shares.

If we seek shareholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated memorandum and articles of association provides that a public shareholder, together with any affiliate of such shareholder or any other person with whom such shareholder is acting in concert or as a “group” (as defined under Section 13 of the Exchange Act), will be restricted from seeking redemption rights with respect to more than an aggregate of 20% of the public shares without our prior consent, which we refer to as the “Excess Shares.” However, we would not be restricting our shareholders’ ability to vote all of their shares (including Excess Shares) for or against our initial business combination. Your inability to redeem the Excess Shares will reduce your influence over our ability to complete our initial business combination and you could suffer a material loss on your investment in us if you sell Excess Shares in open market transactions. Additionally, you will not receive redemption distributions with respect to the Excess Shares if we complete our initial business combination. And as a result, you will continue to hold the Excess Shares and, in order to dispose of such Excess Shares, would be required to sell your Excess Shares in open market transactions, potentially at a loss.

Because of our limited resources and the significant competition for business combination opportunities, it may be more difficult for us to complete our initial business combination. If we are unable to complete our initial business combination, our public shareholders and holders of Novator private placement shares may receive only their pro rata portion of the funds in the trust account that are available for distribution to public shareholders, and our warrants will expire worthless.

We expect to encounter competition from other entities having a business objective similar to ours, including private investors (which may be individuals or investment partnerships), other blank check companies and other entities, domestic and international, competing for the types of businesses we intend to acquire. Many of these individuals and entities are well-established and have extensive experience in identifying and effecting, directly or indirectly, acquisitions of companies operating in or providing services to various industries. Many of these competitors possess similar or greater technical, human and other resources to ours or more local industry knowledge than we do and our financial resources will be relatively limited when contrasted with those of many of these competitors. While we believe there are numerous target businesses we could potentially acquire with the net proceeds of this offering, the sale of the Novator private placement units and the sale of the private placement warrants, our ability to compete with respect to the acquisition of certain target businesses that are sizable will be limited by our available financial resources. This inherent competitive limitation gives others an advantage in pursuing the acquisition of certain target businesses. Furthermore, we are obligated to offer holders of our public shares the right to redeem their shares for cash at the time of our initial business combination in conjunction with a shareholder vote or via a tender offer. Target companies will be aware that this may reduce the resources available to us for our initial business combination. Any of these obligations may place us at a competitive disadvantage in successfully negotiating a business combination. If we are unable to complete our initial business combination, our public shareholders and holders of Novator private placement shares may receive only their pro rata portion of the funds in the trust account that are available for distribution to public shareholders and holders of Novator private placement shares, and our warrants will expire worthless.

If the net proceeds of this offering, the sale of the Novator private placement units and the sale of the private placement warrants not being held in the trust account are insufficient to allow us to operate for at least the next 24 months, it could limit the amount available to fund our search for a target business or businesses and complete our initial business combination, and we will depend on loans from our sponsor or management team to fund our search and to complete our initial business combination.

Of the net proceeds of this offering and the sale of the Novator private placement units, only \$1,000,000 will be available to us initially outside the trust account to fund our working capital requirements. We believe

that, upon closing of this offering and the sale of the Novator private placement units, the funds available to us outside of the trust account will be sufficient to allow us to operate for at least the next 24 months; however, we cannot assure you that our estimate is accurate. Of the funds available to us, we could use a portion of the funds available to us to pay fees to consultants to assist us with our search for a target business. We could also use a portion of the funds as a down payment or to fund a “no-shop” provision (a provision in letters of intent or merger agreements designed to keep target businesses from “shopping” around for transactions with other companies or investors on terms more favorable to such target businesses) with respect to a particular proposed business combination, although we do not have any current intention to do so. If we entered into a letter of intent or merger agreement where we paid for the right to receive exclusivity from a target business and were subsequently required to forfeit such funds (whether as a result of our breach or otherwise), we might not have sufficient funds to continue searching for, or conduct due diligence with respect to, a target business.

Subsequent to our completion of our initial business combination, we may be required to take write-downs or write-offs, restructuring and impairment or other charges that could have a significant negative effect on our financial condition, results of operations and our share price, which could cause you to lose some or all of your investment.

Even if we conduct due diligence on a target business with which we combine, we cannot assure you that this diligence will surface all material issues with a particular target business, that it would be possible to uncover all material issues through a customary amount of due diligence, or that factors outside of the target business and outside of our control will not later arise. As a result of these factors, we may be forced to later write-down or write-off assets, restructure our operations, or incur impairment or other charges that could result in our reporting losses. Even if our due diligence successfully identifies certain risks, unexpected risks may arise and previously known risks may materialize in a manner not consistent with our preliminary risk analysis. Even though these charges may be non-cash items and not have an immediate impact on our liquidity, the fact that we report charges of this nature could contribute to negative market perceptions about us or our securities. In addition, charges of this nature may cause us to violate net worth or other covenants to which we may be subject as a result of assuming pre-existing debt held by a target business or by virtue of our obtaining post-combination debt financing. Accordingly, any shareholders who choose to remain shareholders following the business combination could suffer a reduction in the value of their securities. Such shareholders are unlikely to have a remedy for such reduction in value unless they are able to successfully claim that the reduction was due to the breach by our executive officers or directors of a duty of care or other fiduciary duty owed to them, or if they are able to successfully bring a private claim under securities laws that the proxy solicitation or tender offer materials, as applicable, relating to the business combination contained an actionable material misstatement or material omission.

If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per-share redemption amount received by shareholders may be less than \$10.00 per share.

Our placing of funds in the trust account may not protect those funds from third party claims against us. Although we will seek to have all vendors, service providers, prospective target businesses and other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to any monies held in the trust account for the benefit of our public shareholders and holders of Novator private placement shares, such parties may not execute such agreements, or even if they execute such agreements, they may not be prevented from bringing claims against the trust account, including, but not limited to, fraudulent inducement, breach of fiduciary responsibility or other similar claims, as well as claims challenging the enforceability of the waiver, in each case in order to gain advantage with respect to a claim against our assets, including the funds held in the trust account. If any third party refuses to execute an agreement waiving such claims to the monies held in the trust account, our management will perform an analysis of the alternatives available to it and will only enter into an agreement with a third party that has not executed a waiver if management believes that such third party's engagement would be significantly more beneficial to us than any alternative.

Examples of possible instances where we may engage a third party that refuses to execute a waiver include the engagement of a third party consultant whose particular expertise or skills are believed by management to be significantly superior to those of other consultants that would agree to execute a waiver

or in cases where management is unable to find a service provider willing to execute a waiver. In addition, there is no guarantee that such entities will agree to waive any claims they may have in the future as a result of, or arising out of, any negotiations, contracts or agreements with us and will not seek recourse against the trust account for any reason. Upon redemption of our public shares and Novator private placement shares, if we are unable to complete our initial business combination within the prescribed timeframe, or upon the exercise of a redemption right in connection with our initial business combination, we will be required to provide for payment of claims of creditors that were not waived that may be brought against us within the 10 years following redemption. Accordingly, the per-share redemption amount received by public shareholders and holders of Novator private placement shares could be less than the \$10.00 per public share initially held in the trust account, due to claims of such creditors. Pursuant to a letter agreement with our sponsor, our sponsor has agreed that it will be liable to us if and to the extent any claims by a vendor for services rendered or products sold to us, or a prospective target business with which we have entered into a transaction agreement, reduce the amounts in the trust account to below the lesser of (i) \$10.00 per public share and per Novator private placement share and (ii) the actual amount per share and per Novator private placement share held in the trust account as of the date of the liquidation of the trust account if less than \$10.00 per share due to reductions in the value of the trust assets, in each case less taxes payable, provided that such liability will not apply to any claims by a third party who executed a waiver of any and all rights to seek access to the trust account nor will it apply to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. Moreover, in the event that an executed waiver is deemed to be unenforceable against a third party, our sponsor will not be responsible to the extent of any liability for such third-party claims. However, we have not asked our sponsor to reserve for such indemnification obligations, nor have we independently verified whether our sponsor has sufficient funds to satisfy its indemnity obligations and we believe that our sponsor's only assets are securities of our Company. Therefore, we cannot assure you that our sponsor would be able to satisfy those obligations. As a result, if any such claims were successfully made against the trust account, the funds available for our initial business combination and redemptions could be reduced to less than \$10.00 per public share and per Novator private placement share. In such event, we may not be able to complete our initial business combination, and you would receive such lesser amount per share in connection with any redemption of your public shares (or Novator private placement shares). None of our executive officers or directors will indemnify us for claims by third parties including, without limitation, claims by vendors and prospective target businesses.

Our directors may decide not to enforce the indemnification obligations of our sponsor, resulting in a reduction in the amount of funds in the trust account available for distribution to our public shareholders and holders of Novator private placement shares.

In the event that the proceeds in the trust account are reduced below the lesser of (i) \$10.00 per share and (ii) the actual amount per share held in the trust account as of the date of the liquidation of the trust account if less than \$10.00 per share due to reductions in the value of the trust assets, in each case less taxes payable, and our sponsor asserts that it is unable to satisfy its obligations or that it has no indemnification obligations related to a particular claim, our independent directors would determine whether to take legal action against our sponsor to enforce its indemnification obligations. While we currently expect that our independent directors would take legal action on our behalf against our sponsor to enforce its indemnification obligations to us, it is possible that our independent directors in exercising their business judgment and subject to their fiduciary duties may choose not to do so in any particular instance. If our independent directors choose not to enforce these indemnification obligations, the amount of funds in the trust account available for distribution to our public shareholders and holders of Novator private placement shares may be reduced below \$10.00 per share.

We may not have sufficient funds to satisfy indemnification claims of our directors and executive officers.

We have agreed to indemnify our executive officers and directors to the fullest extent permitted by law. However, our executive officers and directors have agreed to waive any right, title, interest or claim of any kind in or to any monies in the trust account and to not seek recourse against the trust account for any reason whatsoever. Accordingly, any indemnification provided will be able to be satisfied by us only if (i) we have sufficient funds outside of the trust account or (ii) we consummate an initial business combination. Our obligation to indemnify our executive officers and directors may discourage shareholders from bringing

a lawsuit against our executive officers or directors for breach of their fiduciary duty. These provisions also may have the effect of reducing the likelihood of derivative litigation against our executive officers and directors, even though such an action, if successful, might otherwise benefit us and our shareholders. Furthermore, a shareholder's investment may be adversely affected to the extent we pay the costs of settlement and damage awards against our executive officers and directors pursuant to these indemnification provisions.

If, after we distribute the proceeds in the trust account to our public shareholders and holders of Novator private placement shares, we file a bankruptcy or winding-up petition or an involuntary bankruptcy or winding-up petition is filed against us that is not dismissed, a bankruptcy or insolvency court may seek to recover such proceeds, and the members of our board of directors may be viewed as having breached their fiduciary duties to our creditors, thereby exposing the members of our board of directors and us to claims of punitive damages.

If, after we distribute the proceeds in the trust account to our public shareholders and holders of Novator private placement shares, we file a bankruptcy or winding-up petition or an involuntary bankruptcy or winding-up petition is filed against us that is not dismissed, any distributions received by shareholders could be viewed under applicable debtor/creditor and/or bankruptcy or insolvency laws as either a "preferential transfer" or a "fraudulent conveyance." If we are forced to enter into an insolvent liquidation, any distributions received by shareholders could be viewed as an unlawful payment if it was proved that immediately following the date on which the distribution was made, we were unable to pay our debts as they fall due in the ordinary course of business. As a result, a liquidator could seek to recover some or all amounts received by our shareholders. Furthermore, our directors may be viewed as having breached their fiduciary duties to us or our creditors and/or having acted in bad faith, thereby exposing themselves and our Company to claims of punitive damages, by paying public shareholders and holders of Novator private placement shares from the trust account prior to addressing the claims of creditors. We cannot assure you that claims will not be brought against us for these reasons. We and our directors and executive officers who knowingly and willfully authorized or permitted any distribution to be paid out of our share premium account while we were unable to pay our debts as they fall due in the ordinary course of business would be guilty of an offence and may be liable to a fine of \$18,292.68 and to imprisonment for five years in the Cayman Islands.

If, before distributing the proceeds in the trust account to our public shareholders and holders of Novator private placement shares, we file a bankruptcy or winding-up petition or an involuntary bankruptcy or winding-up petition is filed against us that is not dismissed, the claims of creditors in such proceeding may have priority over the claims of our shareholders and the per-share amount that would otherwise be received by our shareholders in connection with our liquidation may be reduced.

If, before distributing the proceeds in the trust account to our public shareholders and holders of Novator private placement shares, we file a bankruptcy or winding-up petition or an involuntary bankruptcy or winding-up petition is filed against us that is not dismissed, the proceeds held in the trust account could be subject to applicable bankruptcy or insolvency law, and may be included in our bankruptcy estate and subject to the claims of third parties with priority over the claims of our shareholders. To the extent any bankruptcy claims deplete the trust account, the per-share amount that would otherwise be received by our shareholders in connection with our liquidation may be reduced.

If we are deemed to be an investment company under the Investment Company Act, we may be required to institute burdensome compliance requirements and our activities may be restricted, which may make it difficult for us to complete our initial business combination.

If we are deemed to be an investment company under the Investment Company Act, our activities may be restricted, including:

- restrictions on the nature of our investments; and
- restrictions on the issuance of securities,

each of which may make it difficult for us to complete our initial business combination. In addition, we may have imposed upon us burdensome requirements, including:

- registration as an investment company;
- adoption of a specific form of corporate structure; and
- reporting, record keeping, voting, proxy and disclosure requirements and other rules and regulations.

In order not to be regulated as an investment company under the Investment Company Act, unless we can qualify for an exclusion, we must ensure that we are engaged primarily in a business other than investing, reinvesting or trading of securities and that our activities do not include investing, reinvesting, owning, holding or trading “investment securities” constituting more than 40% of our assets (exclusive of U.S. government securities and cash items) on an unconsolidated basis. Our business will be to identify and complete a business combination and thereafter to operate the post-transaction business or assets for the long term. We do not plan to buy businesses or assets with a view to resale or profit from their resale. We do not plan to buy unrelated businesses or assets or to be a passive investor.

We do not believe that our anticipated principal activities will subject us to the Investment Company Act. To this end, the proceeds held in the trust account may only be invested in United States “government securities” within the meaning of Section 2(a)(16) of the Investment Company Act having a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 promulgated under the Investment Company Act which invest only in direct U.S. government treasury obligations. Pursuant to the trust agreement, the trustee is not permitted to invest in other securities or assets. By restricting the investment of the proceeds to these instruments, and by having a business plan targeted at acquiring and growing businesses for the long term (rather than on buying and selling businesses in the manner of a merchant bank or private equity fund), we intend to avoid being deemed an “investment company” within the meaning of the Investment Company Act. This offering is not intended for persons who are seeking a return on investments in government securities or investment securities. The trust account is intended as a holding place for funds pending the earliest to occur of the following: (i) the completion of our initial business combination; (ii) the redemption of any public shares properly tendered in connection with a shareholder vote to amend our amended and restated memorandum and articles of association to modify the substance or timing of our obligation to redeem 100% of our public shares and Novator private placement shares if we do not complete our initial business combination within 24 months from the closing of this offering; or (iii) absent an initial business combination within 24 months from the closing of this offering, our return of the funds held in the trust account to our public shareholders and holders of Novator private placement shares as part of our redemption of the public shares and Novator private placement shares. If we do not invest the proceeds as discussed above, we may be deemed to be subject to the Investment Company Act. If we were deemed to be subject to the Investment Company Act, compliance with these additional regulatory burdens would require additional expenses for which we have not allotted funds and may hinder our ability to complete a business combination. If we are unable to complete our initial business combination, our public shareholders and holders of Novator private placement shares may only receive their pro rata portion of the funds in the trust account that are available for distribution to public shareholders and holders of Novator private placement shares, and our warrants will expire worthless.

Changes in laws or regulations, or a failure to comply with any laws and regulations, may adversely affect our business, including our ability to negotiate and complete our initial business combination, and results of operations.

We are subject to laws and regulations enacted by national, regional and local governments. In particular, we will be required to comply with certain SEC and other legal requirements. Compliance with, and monitoring of, applicable law and regulations may be difficult, time-consuming and costly. Those laws and regulations and their interpretation and application may also change from time to time and those changes could have a material adverse effect on our business, investments and results of operations. In addition, a failure to comply with applicable law or regulations, as interpreted and applied, could have a material adverse effect on our business, including our ability to negotiate and complete our initial business combination, and results of operations.

If we are unable to consummate our initial business combination within 24 months from the closing of this offering, our shareholders may be forced to wait beyond such 24 months before redemption from our trust account.

If we are unable to consummate our initial business combination within 24 months from the closing of this offering, the proceeds then on deposit in the trust account, including interest (less up to \$100,000 of

interest to pay liquidation expenses and net of taxes payable), will be used to fund the redemption of our public shares and Novator private placement shares, as described herein. Any redemption of public shareholders and holders of Novator private placement shares from the trust account will be effected automatically by function of our amended and restated memorandum and articles of association prior to any voluntary winding up. If we are required to wind-up, liquidate the trust account and distribute such amount therein, pro rata, to our public shareholders and holders of Novator private placement shares, as part of any liquidation process, such winding up, liquidation and distribution must comply with the applicable provisions of the Companies Law. In that case, investors may be forced to wait beyond 24 months from the closing of this offering before the redemption proceeds of our trust account become available to them, and they receive the return of their pro rata portion of the proceeds from our trust account. We have no obligation to return funds to investors prior to the date of our redemption or liquidation of our public shares and Novator private placement shares unless we consummate our initial business combination prior thereto and only then in cases where investors have sought to redeem their public shares. Only upon our redemption or any liquidation will public shareholders and holders of Novator private placement shares be entitled to distributions if we are unable to complete our initial business combination.

We may not hold an annual general meeting until after the consummation of our initial business combination, which could delay the opportunity for our shareholders to appoint directors.

In accordance with Nasdaq corporate governance requirements, we are not required to hold an annual general meeting until the anniversary of our first fiscal year end following our listing on Nasdaq. There is no requirement under the Companies Law for us to hold annual or extraordinary general meetings to appoint directors. Until we hold an annual general meeting, public shareholders and holders of Novator private placement shares may not be afforded the opportunity to appoint directors and to discuss company affairs with management. In addition, holders of our Class A ordinary shares and holders of our Novator private placement shares will not have the right to vote on the appointment of directors until after the consummation of our initial business combination.

You may only be able to exercise your public warrants on a “cashless basis” under certain circumstances, and if you do so, you will receive fewer Class A ordinary shares from such exercise than if you were to exercise such warrants for cash.

The warrant agreement provides that in the following circumstances holders of public warrants who seek to exercise their warrants will not be permitted to do for cash and will, instead, be required to do so on a cashless basis in accordance with Section 3(a)(9) of the Securities Act: (i) if the Class A ordinary shares issuable upon exercise of the warrants are not registered under the Securities Act in accordance with the terms of the warrant agreement; (ii) if we have so elected and the Class A ordinary shares are at the time of any exercise of a warrant not listed on a national securities exchange such that they satisfy the definition of “covered securities” under Section 18(b)(1) of the Securities Act; and (iii) if we have so elected and we call the public warrants for redemption. If you exercise your public warrants on a cashless basis, you would pay the warrant exercise price by surrendering the warrants for that number of Class A ordinary shares equal to the quotient obtained by dividing (x) the product of the number of Class A ordinary shares underlying the public warrants, multiplied by the excess of the “fair market value” of our Class A ordinary shares (as defined in the next sentence) over the exercise price of the public warrants by (y) the fair market value. The “fair market value” is the average reported closing price of the Class A ordinary shares for the 10 trading days ending on the third trading day prior to the date on which the notice of exercise is received by the warrant agent or on which the notice of redemption is sent to the holders of warrants, as applicable. As a result, you would receive fewer Class A ordinary shares from such exercise than if you were to exercise such warrants for cash.

The grant of registration rights to our initial shareholders, directors and executive officers may make it more difficult to complete our initial business combination, and the future exercise of such rights may adversely affect the market price of our Class A shares.

Pursuant to an agreement to be entered into concurrently with the issuance and sale of the securities in this offering, our sponsor, directors, executive officers and their permitted transferees can demand that we register the shares of Class A shares into which our shares of Class B shares are convertible, the Novator

private placement shares, the private placement warrants and the Novator private placement warrants, the Class A shares issuable upon exercise of the private placement warrants or Novator private placement warrants held, or to be held, by them. We will bear the cost of registering these securities. The registration and availability of such a significant number of securities for trading in the public market may have an adverse effect on the market price of our Class A shares. In addition, the existence of the registration rights may make our initial business combination more costly or difficult to conclude. This is because the stockholders of the target business may increase the equity stake they seek in the combined entity or ask for more cash consideration to offset the negative impact on the market price of our Class A shares that is expected when the securities owned by our initial shareholders, directors, executive officers or holders of working capital loans or their respective permitted transferees are registered.

The requirement that the target business or businesses that we acquire must collectively have a fair market value equal to at least 80% of the value of the assets in the trust account (excluding any taxes payable) at the time of the execution of a definitive agreement for our initial business combination may limit the type and number of companies with which we may complete such a business combination.

Pursuant to Nasdaq listing rules, the target business or businesses that we acquire must collectively have a fair market value equal to at least 80% of the value of the assets in the trust account (excluding any taxes payable) at the time of the execution of a definitive agreement for our initial business combination. This restriction may limit the type and number of companies that we may complete a business combination with. If we are unable to locate a target business or businesses that satisfy this net assets test, we may be forced to liquidate and you will only be entitled to receive your pro rata portion of the funds in the trust account, which may be less than \$10.00 per share.

Because we are neither limited to evaluating a target business in a particular industry sector nor have we selected any target businesses with which to pursue our initial business combination, you will be unable to ascertain the merits or risks of any particular target business's operations.

Although we expect to complete a business combination with a EMEA Technology and Media company, our efforts to identify a prospective initial business combination target will not be limited to a particular industry, sector or geographic region. While we may pursue an initial business combination opportunity in any industry or sector, we intend to capitalize on the ability of our management team to identify and acquire a business or businesses that can benefit from our management team's established global relationships and operating experience. Our management team has extensive experience in identifying and executing strategic investments globally and has done so successfully in a number of sectors, including in telecommunications and pharmaceuticals. Our amended and restated memorandum and articles of association prohibits us from effectuating a business combination with another blank check company or similar company with nominal operations. Because we have not yet selected or approached any specific target business with respect to a business combination, there is no basis to evaluate the possible merits or risks of any particular target business's operations, results of operations, cash flows, liquidity, financial condition or prospects. To the extent we complete our initial business combination, we may be affected by numerous risks inherent in the business operations with which we combine. For example, if we combine with a financially unstable business or an entity lacking an established record of sales or earnings, we may be affected by the risks inherent in the business and operations of a financially unstable or a development stage entity. Although our executive officers and directors will endeavor to evaluate the risks inherent in a particular target business, we cannot assure you that we will properly ascertain or assess all of the significant risk factors or that we will have adequate time to complete due diligence. Furthermore, some of these risks may be outside of our control and leave us with no ability to control or reduce the chances that those risks will adversely impact a target business. We also cannot assure you that an investment in our units will ultimately prove to be more favorable to investors than a direct investment, if such opportunity were available, in a business combination target. Accordingly, any shareholders who choose to remain shareholders following the business combination could suffer a reduction in the value of their securities. Such shareholders are unlikely to have a remedy for such reduction in value unless they are able to successfully claim that the reduction was due to the breach by our executive officers or directors of a duty of care or other fiduciary duty owed to them, or if they are able to successfully bring a private claim under securities laws that the proxy solicitation or tender offer materials, as applicable, relating to the business combination contained an actionable material misstatement or material omission.

Past performance by our management team and their affiliates may not be indicative of future performance of an investment in our Company.

Information regarding performance by, or businesses associated with, our management team or businesses associated with them is presented for informational purposes only. Past performance by our management team is not a guarantee either (i) of success with respect to any business combination we may consummate or (ii) that we will be able to locate a suitable candidate for our initial business combination. You should not rely on the historical record of the performance of our management team's or businesses associated with them as indicative of our future performance of an investment in our Company or the returns our Company will, or is likely to, generate going forward.

We may seek business combination opportunities in industries or sectors that may be outside of our management's areas of expertise.

We will consider a business combination outside of our management's areas of expertise if a business combination candidate is presented to us and we determine that such candidate offers an attractive business combination opportunity for our Company. Although our management will endeavor to evaluate the risks inherent in any particular business combination candidate, we cannot assure you that we will adequately ascertain or assess all of the significant risk factors. We also cannot assure you that an investment in our units will not ultimately prove to be less favorable to investors in this offering than a direct investment, if an opportunity were available, in a business combination candidate. In the event we elect to pursue a business combination outside of the areas of our management's expertise, our management's expertise may not be directly applicable to its evaluation or operation, and the information contained in this prospectus regarding the areas of our management's expertise would not be relevant to an understanding of the business that we elect to acquire. As a result, our management may not be able to ascertain or assess adequately all of the relevant risk factors. Accordingly, any shareholders who choose to remain shareholders following our initial business combination could suffer a reduction in the value of their shares. Such shareholders are unlikely to have a remedy for such reduction in value.

We may seek business combination opportunities with a financially unstable business or an entity lacking an established record of revenue or earnings, which could subject us to volatile revenues, cash flows or earnings or difficulty in retaining key personnel.

To the extent we complete our initial business combination with a financially unstable business or an entity lacking an established record of revenues, cash flows or earnings, we may be affected by numerous risks inherent in the operations of the business with which we combine. These risks include volatile revenues, cash flows or earnings and difficulties in obtaining and retaining key personnel. Although our executive officers and directors will endeavor to evaluate the risks inherent in a particular target business, we may not be able to properly ascertain or assess all of the significant risk factors and we may not have adequate time to complete due diligence. Furthermore, some of these risks may be outside of our control and leave us with no ability to control or reduce the chances that those risks will adversely impact a target business.

Although we have identified general criteria and guidelines that we believe are important in evaluating prospective target businesses, we may enter into our initial business combination with a target that does not meet such criteria and guidelines, and, as a result, the target business with which we enter into our initial business combination may not have attributes entirely consistent with our general criteria and guidelines.

Although we have identified general criteria and guidelines for evaluating prospective target businesses, it is possible that a target business with which we enter into our initial business combination will not have all of these positive attributes. If we complete our initial business combination with a target that does not meet some or all of these guidelines, such combination may not be as successful as a combination with a business that does meet all of our general criteria and guidelines. In addition, if we announce a prospective business combination with a target that does not meet our general criteria and guidelines, a greater number of shareholders may exercise their redemption rights, which may make it difficult for us to meet any closing condition with a target business that requires us to have a minimum net worth or a certain amount of cash.

In addition, if shareholder approval of the transaction is required by law, or we decide to obtain shareholder approval for business or other legal reasons, it may be more difficult for us to attain shareholder

approval of our initial business combination if the target business does not meet our general criteria and guidelines. If we are unable to complete our initial business combination, our public shareholders and holders of Novator private placement shares may only receive their pro rata portion of the funds in the trust account that are available for distribution to public shareholders, and our warrants will expire worthless.

We are not required to obtain an opinion from an independent investment banking firm or from an independent accounting firm, and consequently, you may have no assurance from an independent source that the price we are paying for the business is fair to our shareholders from a financial point of view.

Unless we complete our initial business combination with an affiliated entity or our board of directors cannot independently determine the fair market value of the target business or businesses (including with the assistance of financial advisors), we are not required to obtain an opinion from an independent investment banking firm or from an independent accounting firm that the price we are paying is fair to our shareholders from a financial point of view. If no opinion is obtained, our shareholders will be relying on the judgment of our board of directors, who will determine fair market value based on standards generally accepted by the financial community. Such standards used will be disclosed in our proxy materials or tender offer documents, as applicable, related to our initial business combination.

We may issue additional Class A ordinary shares or preference shares to complete our initial business combination or under an employee incentive plan after completion of our initial business combination. We may also issue Class A ordinary shares upon the conversion of the founder shares at a ratio greater than one-to-one at the time of our initial business combination as a result of the anti-dilution provisions contained therein. Any such issuances would dilute the interest of our shareholders and likely present other risks.

Our amended and restated memorandum and articles of association authorizes the issuance of up to 500,000,000 Class A ordinary shares, par value \$0.0001 per share, up to 50,000,000 Class B ordinary shares, par value \$0.0001 per share, and up to 5,000,000 preference shares, par value \$0.0001 per share. Immediately after this offering, there will be 476,500,000 and 44,125,000 (assuming in each case that the underwriters have not exercised their over-allotment option) authorized but unissued Class A ordinary shares and Class B ordinary shares, respectively, available for issuance, which amount does not take into account shares reserved for issuance upon exercise of outstanding warrants or shares issuable upon conversion of the Class B ordinary shares. The Class B ordinary shares are automatically convertible into Class A ordinary shares at the time of our initial business combination. Immediately after this offering, there will be no preference shares issued and outstanding.

We may issue a substantial number of additional Class A ordinary shares or preference shares to complete our initial business combination or under an employee incentive plan after completion of our initial business combination. We may also issue Class A ordinary shares upon conversion of the Class B ordinary shares at a ratio greater than one-to-one at the time of our initial business combination as a result of the anti-dilution provisions as set forth therein. However, our amended and restated memorandum and articles of association provide, among other things, that prior to our initial business combination, we may not issue additional shares that would entitle the holders thereof to (i) receive funds from the trust account or (ii) vote on any initial business combination. These provisions of our amended and restated memorandum and articles of association, like all provisions of our amended and restated memorandum and articles of association, may be amended with a shareholder vote. The issuance of additional ordinary or preference shares:

- may significantly dilute the equity interest of investors in this offering;
- may subordinate the rights of holders of Class A ordinary shares if preference shares are issued with rights senior to those afforded our Class A ordinary shares;
- could cause a change in control if a substantial number of Class A ordinary shares are issued, which may affect, among other things, our ability to use our net operating loss carry forwards, if any, and could result in the resignation or removal of our present executive officers and directors; and
- may adversely affect prevailing market prices for our units, Class A ordinary shares and/or warrants.

Unlike most other similarly structured blank check companies, our initial shareholders will receive additional Class A ordinary shares if we issue shares to consummate an initial business combination.

The founder shares will automatically convert into Class A ordinary shares on the first business day following the consummation of our initial business combination at a ratio such that the number of Class A ordinary shares issuable upon conversion of all founder shares will equal, on an as-converted basis, 20% of the sum of (i) the total number of public shares (including any such shares issued following the exercise of the over-allotment option) and Novator private placement shares, plus (ii) the sum of (a) the total number of Class A ordinary shares issued or deemed issued or issuable upon conversion or exercise of any equity-linked securities or rights issued or deemed issued, by us in connection with or in relation to the consummation of our initial business combination, excluding any Class A ordinary shares or equity-linked securities exercisable for or convertible into Class A ordinary shares issued, or to be issued, to any seller in the initial business combination and any warrants issued in a private placement to our sponsor or an affiliate of our sponsor upon conversion of working capital loans, minus (b) the number of public shares redeemed by public shareholders in connection with our initial business combination. This is different than most other similarly structured blank check companies in which the initial shareholders will only be issued an aggregate of 20% of the total number of shares to be outstanding prior to the initial business combination.

Resources could be wasted in researching business combinations that are not completed, which could materially adversely affect subsequent attempts to locate and acquire or merge with another business. If we are unable to complete our initial business combination, our public shareholders and holders of Novator private placement shares may only receive their pro rata portion of the funds in the trust account that are available for distribution to shareholders, and our warrants will expire worthless.

We anticipate that the investigation of each specific target business and the negotiation, drafting and execution of relevant agreements, disclosure documents and other instruments will require substantial management time and attention and substantial costs for accountants, attorneys, consultants and others. If we decide not to complete a specific initial business combination, the costs incurred up to that point for the proposed transaction likely would not be recoverable. Furthermore, if we reach an agreement relating to a specific target business, we may fail to complete our initial business combination for any number of reasons including those beyond our control. Any such event will result in a loss to us of the related costs incurred which could materially adversely affect subsequent attempts to locate and acquire or merge with another business. If we are unable to complete our initial business combination, our public shareholders and holders of Novator private placement shares may only receive their pro rata portion of the funds in the trust account that are available for distribution to public shareholders and holders of Novator private placement shares, and our warrants will expire worthless.

We may be a passive foreign investment company, or “PFIC,” which could result in adverse United States federal income tax consequences to U.S. investors.

If we are a PFIC for any taxable year (or a portion thereof) that is included in the holding period of a U.S. Holder (as defined in the section of this prospectus captioned “Tax Considerations—United States Federal Income Tax Considerations”) of our Class A ordinary shares or warrants, the U.S. Holder may be subject to adverse U.S. federal income tax consequences and may be subject to additional reporting requirements. Our PFIC status for our current and subsequent taxable years may depend on whether we qualify for the PFIC start-up exception (see the section of this prospectus captioned “Tax Considerations—Consequences to U.S. Holders—United States Federal Income Tax Considerations—Passive Foreign Investment Company Considerations”). Depending on the particular circumstances the application of the start-up exception may be subject to uncertainty, and there cannot be any assurance that we will qualify for the start-up exception. Accordingly, there can be no assurances with respect to our status as a PFIC for our current taxable year or any subsequent taxable year. Our actual PFIC status for any taxable year, however, will not be determinable until after the end of such taxable year. Moreover, if we determine we are a PFIC for any taxable year (of which there can be no assurance), we will endeavor to provide to a U.S. Holder such information as the Internal Revenue Service, or the IRS, may require, including a PFIC annual information statement, in order to enable the U.S. Holder to make and maintain a “qualified electing fund” election, but there can be no assurance that we will timely provide such required information, and such election would be unavailable with respect to our warrants in all cases. We urge U.S. investors to consult their own tax

advisors regarding the possible application of the PFIC rules. For a more detailed explanation of the tax consequences of PFIC classification to U.S. Holders, see the section of this prospectus captioned “Tax Considerations—United States Federal Income Tax Considerations—Consequences to U.S. Holders—Passive Foreign Investment Company Considerations.”

We may reincorporate in another jurisdiction in connection with our initial business combination, and the laws of such jurisdiction may govern some or all of our future material agreements and we may not be able to enforce our legal rights.

In connection with our initial business combination, we may relocate the home jurisdiction of our business from the Cayman Islands to another jurisdiction. If we determine to do this, the laws of such jurisdiction may govern some or all of our future material agreements. The system of laws and the enforcement of existing laws in such jurisdiction may not be as certain in implementation and interpretation as in the United States. The inability to enforce or obtain a remedy under any of our future agreements could result in a significant loss of business, business opportunities or capital.

We may reincorporate in another jurisdiction in connection with our initial business combination and such reincorporation may result in taxes imposed on shareholders.

We may, in connection with our initial business combination and subject to requisite shareholder approval under the Companies Law, reincorporate in the jurisdiction in which the target company or business is located or in another jurisdiction. The transaction may require a shareholder to recognize taxable income in the jurisdiction in which the shareholder is a tax resident or in which its members are resident if it is a tax transparent entity. We do not intend to make any cash distributions to shareholders to pay such taxes. Shareholders may be subject to withholding taxes or other taxes with respect to their ownership of us after the reincorporation.

After our initial business combination, substantially all of our assets may be located in a foreign country and substantially all of our revenue will be derived from our operations in such country. Accordingly, our results of operations and prospects will be subject, to a significant extent, to the economic, political and legal policies, developments and conditions in the country in which we operate.

The economic, political and social conditions, as well as government policies, of the country in which our operations are located could affect our business. Economic growth could be uneven, both geographically and among various sectors of the economy and such growth may not be sustained in the future. If in the future such country’s economy experiences a downturn or grows at a slower rate than expected, there may be less demand for spending in certain industries. A decrease in demand for spending in certain industries could materially and adversely affect our ability to find an attractive target business with which to consummate our initial business combination and if we effect our initial business combination, the ability of that target business to become profitable.

Risks Relating to Our Management Team

We are dependent upon our executive officers and directors and their loss could adversely affect our ability to operate.

Our operations are dependent upon a relatively small group of individuals and, in particular, our executive officers and directors. We believe that our success depends on the continued service of our executive officers and directors, at least until we have completed our initial business combination. In addition, our executive officers and directors are not required to commit any specified amount of time to our affairs and, accordingly, will have conflicts of interest in allocating their time among various business activities, including identifying potential business combinations and monitoring the related due diligence. The unexpected loss of the services of one or more of our directors or executive officers could have a detrimental effect on us.

The executive officers and directors of an initial business combination candidate may resign upon completion of our initial business combination. The loss of a business combination target’s key personnel could negatively impact the operations and profitability of our post-combination business.

The role of an initial business combination candidate’s key personnel upon the completion of our initial business combination cannot be ascertained at this time. Although we contemplate that certain

members of an initial business combination candidate's management team will remain associated with the initial business combination candidate following our initial business combination, it is possible that members of the management of an initial business combination candidate will not wish to remain in place.

Our key personnel may negotiate employment or consulting agreements with a target business in connection with a particular business combination, and a particular business combination may be conditioned on the retention or resignation of such key personnel. These agreements may provide for them to receive compensation following our initial business combination and as a result, may cause them to have conflicts of interest in determining whether a particular business combination is the most advantageous.

Our key personnel may be able to remain with our Company after the completion of our initial business combination only if they are able to negotiate employment or consulting agreements in connection with the business combination. Such negotiations would take place simultaneously with the negotiation of the business combination and could provide for such individuals to receive compensation in the form of cash payments and/or our securities for services they would render to us after the completion of the business combination. Such negotiations also could make such key personnel's retention or resignation a condition to any such agreement. The personal and financial interests of such individuals may influence their motivation in identifying and selecting a target business, subject to their fiduciary duties under Cayman Islands law.

Certain of our executive officers and directors presently have, and any of them in the future may have additional, fiduciary or contractual obligations to other entities and, accordingly, may have conflicts of interest in determining to which entity a particular business opportunity should be presented.

Following the completion of this offering and until we consummate our initial business combination, we intend to engage in the business of identifying and combining with one or more businesses. Certain of our executive officers and directors presently have, and any of them in the future may have, additional fiduciary or contractual obligations to other entities (such as operating companies or investment vehicles) pursuant to which such executive officer or director is or will be required to present a business combination opportunity to such entity, subject to his or her fiduciary duties under Cayman Islands law. Accordingly, they may have conflicts of interest in determining to which entity a particular business opportunity should be presented. These conflicts may not be resolved in our favor and a potential target business may be presented to another entity prior to its presentation to us, subject to their fiduciary duties under Cayman Islands law.

For a complete discussion of our executive officers' and directors' business affiliations and the potential conflicts of interest that you should be aware of, see "Directors, Executive Officers and Corporate Governance—Conflicts of Interest" and "Certain Relationships and Related Party Transactions."

We may have a limited ability to assess the management of a prospective target business and, as a result, may affect our initial business combination with a target business whose management may not have the skills, qualifications or abilities to manage a public company.

When evaluating the desirability of effecting our initial business combination with a prospective target business, our ability to assess the target business's management may be limited due to a lack of time, resources or information. Our assessment of the capabilities of the target business's management, therefore, may prove to be incorrect and such management may lack the skills, qualifications or abilities we suspected. Should the target business's management not possess the skills, qualifications or abilities necessary to manage a public company, the operations and profitability of the post-combination business may be negatively impacted. Accordingly, any shareholders who choose to remain shareholders following the business combination could suffer a reduction in the value of their shares. Such shareholders are unlikely to have a remedy for such reduction in value unless they are able to successfully claim that the reduction was due to the breach by our executive officers or directors of a duty of care or other fiduciary duty owed to them, or if they are able to successfully bring a private claim under securities laws that the proxy solicitation or tender offer materials, as applicable, relating to the business combination contained an actionable material misstatement or material omission.

Our executive officers and directors will allocate their time to other businesses thereby causing conflicts of interest in their determination as to how much time to devote to our affairs. This conflict of interest could have a negative impact on our ability to complete our initial business combination.

Our executive officers and directors are not required to, and will not, commit their full time to our affairs, which may result in a conflict of interest in allocating their time between our operations and our search for a business combination and their other businesses. Our executive officers are not obligated to contribute any specific number of hours per week to our affairs. Our independent directors also serve as executive officers and board members for other entities. If our executive officers' and directors' other business affairs require them to devote substantial amounts of time to such affairs in excess of their current commitment levels, it could limit their ability to devote time to our affairs which may have a negative impact on our ability to complete our initial business combination. For a complete discussion of our executive officers' and directors' other business affairs, see "Directors, Executive Officers and Corporate Governance."

Our executive officers, directors, security holders and their respective affiliates may have competitive pecuniary interests that conflict with our interests.

We have not adopted a policy that expressly prohibits our directors, executive officers, security holders or affiliates from having a direct or indirect pecuniary or financial interest in any investment to be acquired or disposed of by us or in any transaction to which we are a party or have an interest. In fact, we may enter into a business combination with a target business that is affiliated with our sponsor, our directors or our executive officers, although we do not intend to do so. Nor do we have a policy that expressly prohibits any such persons from engaging for their own account in business activities of the types conducted by us. Accordingly, such persons or entities may have a conflict between their interests and ours.

The personal and financial interests of our directors and executive officers may influence their motivation in timely identifying and selecting a target business and completing a business combination. Consequently, our directors' and executive officers' discretion in identifying and selecting a suitable target business may result in a conflict of interest when determining whether the terms, conditions and timing of a particular business combination are appropriate and in our shareholders' best interest. If this were the case, it would be a breach of their fiduciary duties to us as a matter of Cayman Islands law and we or our shareholders might have a claim against such individuals for infringing on our shareholders' rights. See the section titled "Description of Securities—Certain Differences in Corporate Law—Shareholder Suits" for further information on the ability to bring such claims. However, we might not ultimately be successful in any claim we may make against them for such reason.

We may engage in a business combination with one or more target businesses that have relationships with entities that may be affiliated with our sponsor, executive officers, directors or existing holders which may raise potential conflicts of interest.

In light of the involvement of our sponsor, executive officers and directors with other entities, we may decide to acquire one or more businesses affiliated with our sponsor, executive officers, directors or existing holders. Our directors also serve as executive officers and board members for other entities, including, without limitation, those described under "Management—Conflicts of Interest." Such entities may compete with us for business combination opportunities. Our initial shareholders are not currently aware of any specific opportunities for us to complete our initial business combination with any entities with which they are affiliated, and there have been no substantive discussions concerning a business combination with any such entity or entities. Although we will not be specifically focusing on, or targeting, any transaction with any affiliated entities, we would pursue such a transaction if we determined that such affiliated entity met our criteria for a business combination as set forth in "Proposed Business—Effecting our initial business combination—Selection of a target business and structuring of our initial business combination" and such transaction was approved by a majority of our independent and disinterested directors. Potential conflicts of interest may exist and, as a result, the terms of the business combination may not be as advantageous to our public shareholders as they would be absent any conflicts of interest.

Since our initial shareholders and sponsor, directors and executive officers will lose their entire investment in us in respect of their founder shares, Novator private placement units and private placement warrants if our initial business combination is not completed (other than with respect to public shares they may acquire during or after this offering or the Novator private placement), a conflict of interest may arise in determining whether a particular business combination target is appropriate for our initial business combination.

On December 9, 2020, our sponsor paid \$25,000, or \$0.004 per share, to convert certain offering and formation costs of the company in exchange for 5,750,000 founder shares. During February 2021, we effectuated a share dividend of 1,006,250 Class B ordinary shares and subsequently issued a cancellation for 131,250 Class B ordinary shares resulting in an aggregate of 6,625,000 founder shares being issued and outstanding. The number of founder shares outstanding was determined based on the expectation that the total size of this offering would be a maximum of 23,000,000 units if the underwriters' over-allotment option is exercised in full, and therefore that such founder shares would represent 20% of the outstanding shares after this offering and sale of the Novator private placement units. Up to 750,000 of the founder shares will be surrendered for no consideration depending on the extent to which the underwriters' over-allotment is exercised. The founder shares will be worthless if we do not complete an initial business combination. In addition, our sponsor has committed to purchase an aggregate of 4,000,000 private placement warrants (or 4,400,000 warrants if the underwriters' over-allotment option is exercised in full) for an aggregate purchase price of \$6,000,000 (or \$6,600,000 if the underwriters' over-allotment option is exercised in full), or \$1.50 per warrant. The private placement warrants and Novator private placement warrants will expire worthless if we do not complete our initial business combination. The personal and financial interests of our executive officers and directors may influence their motivation in identifying and selecting a target business combination, completing an initial business combination and influencing the operation of the business following the initial business combination. This risk may become more acute as the 24-month anniversary of the closing of this offering nears, which is the deadline for our completion of an initial business combination.

We may issue notes or other debt securities, or otherwise incur substantial debt, to complete a business combination, which may adversely affect our leverage and financial condition and thus negatively impact the value of our shareholders' investment in us.

Although we have no commitments as of the date of this prospectus to issue any notes or other debt securities, or to otherwise incur outstanding debt following this offering, we may choose to incur substantial debt to complete our initial business combination. We and our executive officers have agreed that we will not incur any indebtedness unless we have obtained from the lender a waiver of any right, title, interest or claim of any kind in or to the monies held in the trust account. As such, no issuance of debt will affect the per share amount available for redemption from the trust account. Nevertheless, the incurrence of debt could have a variety of negative effects, including:

- default and foreclosure on our assets if our operating revenues after an initial business combination are insufficient to repay our debt obligations;
- acceleration of our obligations to repay the indebtedness even if we make all principal and interest payments when due if we breach certain covenants that require the maintenance of certain financial ratios or reserves without a waiver or renegotiation of that covenant;
- our immediate payment of all principal and accrued interest, if any, if the debt security is payable on demand; our inability to obtain necessary additional financing if the debt security contains covenants restricting our ability to obtain such financing while the debt security is outstanding;
- our inability to pay dividends on our Class A ordinary shares;
- using a substantial portion of our cash flow to pay principal and interest on our debt, which will reduce the funds available for dividends on our Class A ordinary shares if declared, expenses, capital expenditures, acquisitions and other general corporate purposes;
- limitations on our flexibility in planning for and reacting to changes in our business and in the industry in which we operate;
- increased vulnerability to adverse changes in general economic, industry and competitive conditions and adverse changes in government regulation; and

- limitations on our ability to borrow additional amounts for expenses, capital expenditures, acquisitions, debt service requirements, execution of our strategy and other purposes and other disadvantages compared to our competitors who have less debt.

We may only be able to complete one business combination with the proceeds of this offering, the sale of the Novator private placement units and the sale of the private placement warrants, which will cause us to be solely dependent on a single business which may have a limited number of products or services. This lack of diversification may negatively impact our operations and profitability.

The net proceeds from this offering, the sale of the Novator private placement units and the sale of the private placement warrants will provide us with \$236,000,000 (or \$266,000,000 if the underwriters' over-allotment option is exercised in full) (after deducting payment of offering expenses of approximately \$1,000,000 and underwriting commissions of \$4,000,000, or \$4,600,000 if the underwriters' over-allotment option is exercised in full but not deducting any of the proceeds not held in trust which may be used to pay working capital expenses) that we may use to complete our initial business combination.

We may effectuate our initial business combination with a single target business or multiple target businesses simultaneously or within a short period of time. However, we may not be able to effectuate our initial business combination with more than one target business because of various factors, including the existence of complex accounting issues and the requirement that we prepare and file pro forma financial statements with the SEC that present operating results and the financial condition of several target businesses as if they had been operated on a combined basis. By completing our initial business combination with only a single entity, our lack of diversification may subject us to numerous economic, competitive and regulatory risks. Further, we would not be able to diversify our operations or benefit from the possible spreading of risks or offsetting of losses, unlike other entities which may have the resources to complete several business combinations in different industries or different areas of a single industry.

Accordingly, the prospects for our success may be:

- solely dependent upon the performance of a single business, property or asset; or
- dependent upon the development or market acceptance of a single or limited number of products, processes or services.

This lack of diversification may subject us to numerous economic, competitive and regulatory risks, any or all of which may have a substantial adverse impact upon the particular industry in which we may operate subsequent to our initial business combination.

We may attempt to simultaneously complete business combinations with multiple prospective targets, which may hinder our ability to complete our initial business combination and give rise to increased costs and risks that could negatively impact our operations and profitability.

If we determine to simultaneously acquire several businesses that are owned by different sellers, we will need for each of such sellers to agree that our purchase of its business is contingent on the simultaneous closings of the other business combinations, which may make it more difficult for us, and delay our ability, to complete our initial business combination. With multiple business combinations, we could also face additional risks, including additional burdens and costs with respect to possible multiple negotiations and due diligence investigations (if there are multiple sellers) and the additional risks associated with the subsequent assimilation of the operations and services or products of the acquired companies in a single operating business. If we are unable to adequately address these risks, it could negatively impact our profitability and results of operations.

We may attempt to complete our initial business combination with a private company about which little information is available, which may result in a business combination with a company that is not as profitable as we suspected, if at all.

In pursuing our business combination strategy, we may seek to effectuate our initial business combination with a privately held company. By definition, very little public information generally exists about private companies, and we could be required to make our decision on whether to pursue a potential

initial business combination on the basis of limited information, which may result in a business combination with a company that is not as profitable as we suspected, if at all.

Our initial shareholders control a substantial interest in us and thus may exert a substantial influence on actions requiring a shareholder vote, potentially in a manner that you do not support.

Upon closing of this offering, our initial shareholders will own 30.566% of our issued and outstanding ordinary shares (assuming they do not purchase any units in this offering). Accordingly, they may exert a substantial influence on actions requiring a shareholder vote, potentially in a manner that you do not support, including amendments to our amended and restated memorandum and articles of association. If our initial shareholders purchase any units in this offering or if our initial shareholders purchase any additional Class A ordinary shares in the aftermarket or in privately negotiated transactions, this would increase their control. Neither our initial shareholders nor, to our knowledge, any of our executive officers or directors, have any current intention to purchase additional securities, other than as disclosed in this prospectus. Factors that would be considered in making such additional purchases would include consideration of the current trading price of our Class A ordinary shares.

Our management may not be able to maintain control of a target business after our initial business combination. We cannot provide assurance that, upon loss of control of a target business, new management will possess the skills, qualifications or abilities necessary to profitably operate such business.

We may structure our initial business combination so that the post-transaction Company in which our public shareholders own shares will own less than 100% of the equity interests or assets of a target business, but we will only complete such business combination if the post-transaction Company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for us not to be required to register as an investment company under the Investment Company Act. We will not consider any transaction that does not meet such criteria. Even if the post-transaction Company owns 50% or more of the voting securities of the target, our shareholders prior to our initial business combination may collectively own a minority interest in the post business combination company, depending on valuations ascribed to the target and us in the business combination. For example, we could pursue a transaction in which we issue a substantial number of new Class A ordinary shares in exchange for all of the outstanding capital stock, shares or other equity interests of a target. In this case, we would acquire a 100% interest in the target. However, as a result of the issuance of a substantial number of new Class A ordinary shares, our shareholders immediately prior to such transaction could own less than a majority of our outstanding Class A ordinary shares subsequent to such transaction. In addition, other minority shareholders may subsequently combine their holdings resulting in a single person or group obtaining a larger portion of our Company's shares than we initially acquired. Accordingly, this may make it more likely that our management will not be able to maintain control of the target business.

We do not have a specified maximum redemption threshold. The absence of such a redemption threshold may make it possible for us to complete our initial business combination with which a substantial majority of our shareholders do not agree.

Our amended and restated memorandum and articles of association provide that in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 upon consummation of our initial business combination and after payment of deferred underwriters' commissions (so that we are not subject to the SEC's "penny stock" rules) or any greater net tangible asset or cash requirement that may be contained in the agreement relating to our initial business combination. In addition, our proposed initial business combination may impose a minimum cash requirement for (i) cash consideration to be paid to the target or its owners, (ii) cash for working capital or other general corporate purposes or (iii) the retention of cash to satisfy other conditions. As a result, we may be able to complete our initial business combination even though a substantial majority of our public shareholders do not agree with the transaction and have redeemed their shares or, if we seek shareholder approval of our initial business combination and do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, have entered into privately negotiated agreements to sell their shares to our sponsor, executive officers, directors or any of their affiliates. In the event the aggregate cash consideration we would be required to pay for all Class A ordinary shares that are validly submitted for redemption plus any

amount required to satisfy cash conditions pursuant to the terms of the proposed business combination exceed the aggregate amount of cash available to us, we will not complete the business combination or redeem any shares, all Class A ordinary shares submitted for redemption will be returned to the holders thereof, and we instead may search for an alternate business combination.

In order to effectuate an initial business combination, blank check companies have, in the recent past, amended various provisions of their charters and other governing instruments, including their warrant agreements. We cannot assure you that we will not seek to amend our amended and restated memorandum and articles of association or governing instruments in a manner that will make it easier for us to complete our initial business combination that our shareholders may not support.

In order to effectuate an initial business combination, blank check companies have, in the recent past, amended various provisions of their charters and other governing instruments, including their warrant agreements. We cannot assure you that we will not seek to amend our amended and restated memorandum and articles of association or governing instruments in a manner that will make it easier for us to complete our initial business combination that our shareholders may not support.

For example, blank check companies have amended the definition of business combination, increased redemption thresholds, changed industry focus and, with respect to their warrants, amended their warrant agreements to require the warrants to be exchanged for cash and/or other securities. Amending our amended and restated memorandum and articles of association will require a special resolution of our shareholders as a matter of Cayman Islands law, meaning the approval of holders of at least two-thirds of our ordinary shares who attend and vote at a general meeting of our Company, and amending our warrant agreement will require a vote of holders of at least 65% of the public warrants. In addition, our amended and restated memorandum and articles of association requires us to provide our public shareholders with the opportunity to redeem their public shares for cash if we propose an amendment to our amended and restated memorandum and articles of association to modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete an initial business combination within 24 months of the closing of this offering. To the extent any of such amendments would be deemed to fundamentally change the nature of any of the securities offered through this registration statement, we would register, or seek an exemption from registration for, the affected securities.

The provisions of our amended and restated memorandum and articles of association that relate to our pre-business combination activity (and corresponding provisions of the agreement governing the release of funds from our trust account) may be amended with the approval of holders of not less than two-thirds of our ordinary shares who attend and vote at a general meeting of our Company (or two-thirds of our ordinary shares with respect to amendments to the trust agreement governing the release of funds from our trust account), which is a lower amendment threshold than that of some other special purpose acquisition companies. It may be easier for us, therefore, to amend our amended and restated memorandum and articles of association to facilitate the completion of an initial business combination that some of our shareholders may not support.

Our amended and restated memorandum and articles of association provide that any of its provisions related to pre-business combination activity (including the requirement to deposit proceeds of this offering, the Novator private placement units and the private placement of warrants into the trust account and not release such amounts except in specified circumstances, and to provide redemption rights to public shareholders as described herein) may be amended if approved by special resolution under Cayman Islands law, which requires the affirmative vote of a majority of at least two-thirds of the shareholders who attend and vote at a general meeting of our Company, and corresponding provisions of the trust agreement governing the release of funds from our trust account may be amended if approved by holders of two-thirds of our ordinary shares.

Our initial shareholders, sponsor, and directors and executive officers, who will collectively beneficially own, on an as-converted basis, approximately 30.566% of our Class A ordinary shares upon the closing of this offering (including the Novator private placement shares and assuming they do not purchase any units in this offering and the underwriters do not exercise their over-allotment option), will participate in any vote to amend our amended and restated memorandum and articles of association and/or trust agreement and will have the discretion to vote in any manner they choose. The total number of Class B ordinary shares outstanding after this offering, the expiration of the underwriters' over-allotment option and the sale of the

private placement units will equal 20% of the sum of the total number of Class A ordinary shares and Class B ordinary shares outstanding at such time plus the number of Class A ordinary shares to be sold pursuant to the private placement agreements. As a result, we may be able to amend the provisions of our amended and restated memorandum and articles of association which govern our pre-business combination behavior more easily than some other blank check companies, and this may increase our ability to complete a business combination with which you do not agree. Our shareholders may pursue remedies against us for any breach of our amended and restated memorandum and articles of association.

Our sponsor, executive officers and directors have agreed, pursuant to agreements with us, that they will not propose any amendment to our amended and restated memorandum and articles of association to modify the substance or timing of our obligation to redeem 100% of our public shares and Novator private placement shares if we do not complete our initial business combination within 24 months from the closing of this offering, unless we provide our public shareholders and holders of Novator private placement shares with the opportunity to redeem their Class A ordinary shares and Novator private placement shares upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (net of taxes payable), divided by the number of then outstanding public shares and Novator private placement shares. Our shareholders are not parties to, or third-party beneficiaries of, these agreements and, as a result, will not have the ability to pursue remedies against our sponsor, executive officers or directors for any breach of these agreements. As a result, in the event of a breach, our shareholders would need to pursue a shareholder derivative action, subject to applicable law.

Our letter agreements with our initial shareholders and holders of Novator private placement shares may be amended without shareholder approval or approval of the holders of Novator private placement shares.

Our letter agreements with our initial shareholders contains provisions relating to transfer restrictions of our founder shares, private placement warrants and Novator private placement units, indemnification of the trust account, waiver of redemption rights and participation in liquidating distributions from the trust account. Their letter agreements may be amended without shareholder approval (although releasing the parties from the restriction not to transfer the founder shares and Novator private placement shares, for 180 days following the date of this prospectus will require the prior written consent of the underwriters). While we do not expect our board to approve any amendment to the letter agreements prior to our initial business combination, it may be possible that our board, in exercising its business judgment and subject to its fiduciary duties, chooses to approve one or more amendments to the letter agreements. Any such amendments to the letter agreements would not require approval from our shareholders and may have an adverse effect on the value of an investment in our securities.

We may be unable to obtain additional financing to complete our initial business combination or to fund the operations and growth of a target business, which could compel us to restructure or abandon a particular business combination.

We have not selected any potential business combination target but intend to target businesses with enterprise values that are greater than we could acquire with the net proceeds of this offering, the sale of the Novator private placement units and the sale of the private placement warrants. As a result, if the cash portion of the purchase price exceeds the amount available from the trust account, net of amounts needed to satisfy any redemption by public shareholders, we may be required to seek additional financing to complete such proposed initial business combination. We cannot assure you that such financing will be available on acceptable terms, if at all. To the extent that additional financing proves to be unavailable when needed to complete our initial business combination, we would be compelled to either restructure the transaction or abandon that particular business combination and seek an alternative target business candidate. Further, we may be required to obtain additional financing in connection with the closing of our initial business combination for general corporate purposes, including for maintenance or expansion of operations of the post-transaction businesses, the payment of principal or interest due on indebtedness incurred in completing our initial business combination, or to fund the purchase of other companies. If we are unable to complete our initial business combination, our public shareholders and holders of Novator private placement shares may only receive their pro rata portion of the funds in the trust account that are available for distribution to public shareholders and holders of Novator private placement shares, and our warrants will expire

worthless. In addition, even if we do not need additional financing to complete our initial business combination, we may require such financing to fund the operations or growth of the target business. The failure to secure additional financing could have a material adverse effect on the continued development or growth of the target business. None of our executive officers, directors or shareholders is required to provide any financing to us in connection with or after our initial business combination.

If our sponsor purchases large amounts of public shares in the open market, it may attempt to leverage its redemption rights in order to affect the outcome of a potential initial business combination.

Our sponsor has redemption rights with respect to any public shares and Novator private placement shares it owns, subject to the limitation that under the our amended and restated memorandum and articles of association that a public shareholder, together with any affiliate of such shareholder or any other person with whom such shareholder is acting in concert or as a “group” (as defined under Section 13 of Exchange Act), is restricted from redeeming its shares with respect to more than an aggregate of 20% or more of the public shares, without the prior consent of our Company. If management proposes an initial business combination of which our sponsor is not in favor, it may decide to purchase public shares in the open market and seek to leverage its redemption rights to influence whether such business combination is consummated. This could result in our having to negotiate for more favorable terms for our sponsor, which could jeopardize our ability to successfully consummate an initial business combination. In evaluating a prospective target business for our initial business combination, our management will rely on the availability of all of the funds from the sale of the Novator private placement units to be used as part of the consideration to the sellers in the initial business combination.

Because each unit contains one-third of one redeemable warrant and only a whole warrant may be exercised, the units may be worth less than units of other blank check companies.

Each unit contains one-third of one redeemable warrant. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. Accordingly, unless you purchase at least two units, you will not be able to receive or trade a whole warrant. This is different from other offerings similar to ours whose units include one ordinary share and one whole warrant to purchase one whole share. We have established the components of the units in this way in order to reduce the dilutive effect of the warrants upon completion of a business combination since the warrants will be exercisable in the aggregate for one-third of the number of shares compared to units that each contain a whole warrant to purchase one whole share, thus making us, we believe, a more attractive merger partner for target businesses. Nevertheless, this unit structure may cause our units to be worth less than if a unit included a warrant to purchase one whole share.

Our initial shareholders paid an aggregate of \$25,000, or approximately \$0.004 per founder share and, accordingly, you will experience immediate and substantial dilution from the purchase of our Class A ordinary shares.

The difference between the public offering price per share (allocating all of the unit purchase price to the Class A ordinary share and none to the warrant included in the unit) and the pro forma net tangible book value per Class A ordinary share after this offering constitutes the dilution to you and the other investors in this offering. Our initial shareholders acquired the founder shares at a nominal price, significantly contributing to this dilution. Upon closing of this offering, and assuming no value is ascribed to the warrants included in the units, you and the other public shareholders will incur an immediate and substantial dilution of approximately 95.2% (or \$9.52 per share, assuming no exercise of the underwriters’ over-allotment option), the difference between the pro forma net tangible book value per share after this offering of \$0.48 and the initial offering price of \$10.00 per unit. This dilution would increase to the extent that the anti-dilution provisions of the founder shares result in the issuance of Class A ordinary shares on a greater than one-to-one basis upon conversion of the founder shares at the time of our initial business combination. In addition, because of the anti-dilution protection in the founder shares, any equity or equity-linked securities issued in connection with our initial business combination would be disproportionately dilutive to our Class A ordinary shares.

We may amend the terms of the warrants in a manner that may be adverse to holders of public warrants with the approval by the holders of at least 65% of the then outstanding public warrants. As a result, the exercise price of your warrants could be increased, the exercise period could be shortened and the number of Class A ordinary shares purchasable upon exercise of a warrant could be decreased, all without your approval.

Our warrants will be issued in registered form under a warrant agreement between our warrant agent and us. The warrant agreement provides that the terms of the warrants may be amended without the consent of any holder to cure any ambiguity or correct any defective provision, but requires the approval by the holders of at least 65% of the then outstanding public warrants to make any change that adversely affects the interests of the registered holders of public warrants. Accordingly, we may amend the terms of the public warrants in a manner adverse to a holder of public warrants if holders of at least 65% of the then outstanding public warrants approve of such amendment. Although our ability to amend the terms of the public warrants with the consent of at least 65% of the then outstanding public warrants is unlimited, examples of such amendments could be amendments to, among other things, increase the exercise price of the warrants, convert the warrants into cash or shares, shorten the exercise period or decrease the number of Class A ordinary shares purchasable upon exercise of a warrant.

A provision of our warrant agreement may make it more difficult for us to consummate an initial business combination.

Unlike most blank check companies, if (x) we issue additional Class A ordinary shares or equity-linked securities for capital raising purposes in connection with the closing of our initial business combination at an issue price or effective issue price of less than \$9.20 per Class A ordinary share (with such issue price or effective issue price to be determined in good faith by our board of directors and, in the case of any such issuance to our initial shareholders or their affiliates, or the holders of our Novator private placement shares, without taking into account any founder shares held by our initial shareholders or such affiliates, or Novator private placement shares held by the holders of our Novator private placement shares, as applicable, prior to such issuance) (the “Newly Issued Price”), (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of our initial business combination, and (z) the volume weighted average trading price of our Class A ordinary shares during the 10 trading day period starting on the trading day after the day on which we consummate our initial business combination (such price, the “Market Value”) is below \$9.20 per share, the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the Newly Issued Price, and the \$18.00 per share redemption trigger price described under “Redemption of warrants when the price per Class A ordinary share equals or exceeds \$18.00” will be adjusted (to the nearest cent) to be equal to 180% of the higher of the Market Value and the Newly Issued Price, and the \$10.00 per share redemption trigger price described adjacent to the caption “Redemption of warrants when the price per Class A ordinary share equals or exceeds \$10.00” will be adjusted (to the nearest cent) to be equal to the higher of the Market Value and the Newly Issued Price. This may make it more difficult for us to consummate an initial business combination with a target business.

Our warrant agreement will designate the courts of the State of New York or the United States District Court for the Southern District of New York as the sole and exclusive forum for certain types of actions and proceedings that may be initiated by holders of our warrants, which could limit the ability of warrant holders to obtain a favorable judicial forum for disputes with our Company.

Our warrant agreement will provide that, subject to applicable law, (i) any action, proceeding or claim against us arising out of or relating in any way to the warrant agreement, including under the Securities Act, will be brought and enforced in the courts of the State of New York or the United States District Court for the Southern District of New York, and (ii) that we irrevocably submit to such jurisdiction, which jurisdiction shall be the exclusive forum for any such action, proceeding or claim. We will waive any objection to such exclusive jurisdiction and that such courts represent an inconvenient forum.

Notwithstanding the foregoing, these provisions of the warrant agreement will not apply to suits brought to enforce any liability or duty created by the Exchange Act or any other claim for which the federal district courts of the United States of America are the sole and exclusive forum. Any person or entity purchasing or otherwise acquiring any interest in any of our warrants shall be deemed to have notice

of and to have consented to the forum provisions in our warrant agreement. If any action, the subject matter of which is within the scope the forum provisions of the warrant agreement, is filed in a court other than a court of the State of New York or the United States District Court for the Southern District of New York (a “foreign action”) in the name of any holder of our warrants, such holder shall be deemed to have consented to: (x) the personal jurisdiction of the state and federal courts located in the State of New York in connection with any action brought in any such court to enforce the forum provisions (an “enforcement action”), and (y) having service of process made upon such warrant holder in any such enforcement action by service upon such warrant holder’s counsel in the foreign action as agent for such warrant holder.

This choice-of-forum provision may limit a warrant holder’s ability to bring a claim in a judicial forum that it finds favorable for disputes with our Company, which may discourage such lawsuits. Alternatively, if a court were to find this provision of our warrant agreement inapplicable or unenforceable with respect to one or more of the specified types of actions or proceedings, we may incur additional costs associated with resolving such matters in other jurisdictions, which could materially and adversely affect our business, financial condition and results of operations and result in a diversion of the time and resources of our management and board of directors.

We may redeem your unexpired public warrants prior to their exercise at a time that is disadvantageous to you, thereby making your public warrants worthless.

We have the ability to redeem outstanding public warrants at any time after they become exercisable and prior to their expiration, at a price of \$0.10 per public warrant, provided that the closing price of our Class A ordinary shares equals or exceeds \$18.00 per share (as adjusted for share sub-divisions, share capitalizations, reorganizations, recapitalizations and the like) for any 20 trading days within a 30 trading-day period ending on the third trading day prior to the date on which we give proper notice of such redemption to the public warrants holders and provided certain other conditions are met. If and when the public warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws. Redemption of the outstanding public warrants could force you to (i) exercise your public warrants and pay the exercise price therefor at a time when it may be disadvantageous for you to do so, (ii) sell your public warrants at the then-current market price when you might otherwise wish to hold your public warrants or (iii) accept the nominal redemption price which, at the time the outstanding public warrants are called for redemption, is likely to be substantially less than the market value of your public warrants.

In addition, we have the ability to redeem the outstanding public warrants at any time after they become exercisable and prior to their expiration, at a price of \$0.10 per public warrant upon a minimum of 30 days’ prior written notice of redemption, provided that the closing price of our Class A ordinary shares equals or exceeds \$10.00 per share (as adjusted for adjustments to the number of shares issuable upon exercise or the exercise price of a public warrant as described under the heading “Description of Securities—Warrants—Public Shareholders’ Warrants—Anti-Dilution Adjustments”) for any 20 trading days within a 30-trading day period ending on the third trading day prior to proper notice of such redemption and provided that certain other conditions are met, including that holders will be able to exercise their public warrants prior to redemption for a number of Class A ordinary shares determined based on the redemption date and the fair market value of our Class A ordinary shares. See “Description of Securities—Warrants—Public Shareholders’ Warrants—Redemption of Warrants When the Price Per Class A Ordinary Share Equals or Exceeds \$10.00.” The value received upon exercise of the public warrants (1) may be less than the value the holders would have received if they had exercised their public warrants at a later time where the underlying share price is higher and (2) may not compensate the holders for the value of the public warrants, including because the number of ordinary shares received is capped at 0.361 shares of our Class A ordinary shares per public warrant (subject to adjustment) irrespective of the remaining life of the public warrants. None of the private placement warrants or Novator private placement warrants will be redeemable by us so long as they are held by the sponsor, directors, executive officers or their permitted transferees.

Our warrants may have an adverse effect on the market price of our Class A ordinary shares and make it more difficult to effectuate our initial business combination.

We will be issuing warrants to purchase 11,833,332 of our Class A ordinary shares (or up to 13,233,332 Class A ordinary shares if the underwriters’ over-allotment option is exercised in full) as part of the units

offered by this prospectus and the Novator private placement, simultaneously with the closing of this offering. To the extent we issue ordinary shares to effectuate a business transaction, the potential for the issuance of a substantial number of additional Class A ordinary shares upon exercise of these warrants could make us a less attractive acquisition vehicle to a target business. Such warrants, when exercised, will increase the number of issued and outstanding Class A ordinary shares and reduce the value of the Class A ordinary shares issued to complete the business transaction. Therefore, our warrants may make it more difficult to effectuate a business transaction or increase the cost of acquiring the target business.

The determination of the offering price of our units and the size of this offering is more arbitrary than the pricing of securities and size of an offering of an operating company in a particular industry. You may have less assurance, therefore, that the offering price of our units properly reflects the value of such units than you would have in a typical offering of an operating company.

Prior to this offering there has been no public market for any of our securities. The public offering price of the units and the terms of the warrants were negotiated between us and the underwriters. In determining the size of this offering, management held customary organizational meetings with the representative of the underwriters, both prior to our inception and thereafter, with respect to the state of capital markets, generally, and the amount the underwriters believed they reasonably could raise on our behalf. Factors considered in determining the size of this offering, prices and terms of the units, including the Class A ordinary shares and warrants underlying the units, include:

- the history and prospects of companies whose principal business is the acquisition of other companies;
- prior offerings of those companies;
- our prospects for acquiring an operating business at attractive values;
- a review of debt to equity ratios in leveraged transactions;
- our capital structure;
- an assessment of our management and their experience in identifying operating companies;
- general conditions of the securities markets at the time of this offering; and
- other factors as were deemed relevant.

Although these factors were considered, the determination of our offering size, price and terms of the units is more arbitrary than the pricing of securities of an operating company in a particular industry since we have no historical operations or financial results.

There is currently no market for our securities and a market for our securities may not develop, which would adversely affect the liquidity and price of our securities.

There is currently no market for our securities. Shareholders therefore have no access to information about prior market history on which to base their investment decision. Following this offering, the price of our securities may vary significantly due to one or more potential business combinations and general market or economic conditions. Furthermore, an active trading market for our securities may never develop or, if developed, it may not be sustained. You may be unable to sell your securities unless a market can be established and sustained.

Because we must furnish our shareholders with target business financial statements, we may lose the ability to complete an otherwise advantageous initial business combination with some prospective target businesses.

The federal proxy rules require that a proxy statement with respect to a vote on a business combination meeting certain financial significance tests include historical and/or pro forma financial statement disclosure in periodic reports. We will include the same financial statement disclosure in connection with our tender offer documents, whether or not they are required under the tender offer rules. These financial statements may be required to be prepared in accordance with, or be reconciled to, accounting principles generally accepted in the United States of America, or GAAP, or international financial reporting standards as issued by the International Accounting Standards Board, or IFRS, depending on the circumstances and the historical

financial statements may be required to be audited in accordance with the standards of the Public Company Accounting Oversight Board (United States), or PCAOB. These financial statement requirements may limit the pool of potential target businesses we may acquire because some targets may be unable to provide such statements in time for us to disclose such financial statements in accordance with federal proxy rules and complete our initial business combination within the prescribed time frame.

We are an emerging growth company and a smaller reporting company within the meaning of the Securities Act, and if we take advantage of certain exemptions from disclosure requirements available to “emerging growth companies” or “smaller reporting companies,” this could make our securities less attractive to investors and may make it more difficult to compare our performance with other public companies.

We are an “emerging growth company” within the meaning of the Securities Act, as modified by the JOBS Act, and we may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not “emerging growth companies” including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act of 2002, or the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved. As a result, our shareholders may not have access to certain information they may deem important. We could be an emerging growth company for up to five years, although circumstances could cause us to lose that status earlier, including if the market value of our Class A ordinary shares held by non-affiliates exceeds \$700 million as of any June 30 before that time, in which case we would no longer be an emerging growth company as of the following December 31. We cannot predict whether investors will find our securities less attractive because we will rely on these exemptions. If some investors find our securities less attractive as a result of our reliance on these exemptions, the trading prices of our securities may be lower than they otherwise would be, there may be a less active trading market for our securities and the trading prices of our securities may be more volatile.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such an election to opt out is irrevocable. We have elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, we, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of our financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

Additionally, we are a “smaller reporting company” as defined in Item 10(f)(1) of Regulation S-K. Smaller reporting companies may take advantage of certain reduced disclosure obligations, including, among other things, providing only two years of audited financial statements. We will remain a smaller reporting company until the last day of the fiscal year in which (1) the market value of our ordinary shares held by non-affiliates exceeds \$250 million as of the prior June 30, or (2) our annual revenues exceeded \$100 million during such completed fiscal year and the market value of our ordinary shares held by non-affiliates exceeds \$700 million as of the prior June 30. To the extent we take advantage of such reduced disclosure obligations, it may also make comparison of our financial statements with other public companies difficult or impossible.

Compliance obligations under the Sarbanes-Oxley Act may make it more difficult for us to effectuate our initial business combination, require substantial financial and management resources, and increase the time and costs of completing an initial business combination.

Section 404 of the Sarbanes-Oxley Act requires that we evaluate and report on our system of internal controls beginning with our Form 10-K for the year ending December 31, 2021. Only in the event we are

deemed to be a large accelerated filer or an accelerated filer, and no longer qualify as an emerging growth company, will we be required to comply with the independent registered public accounting firm attestation requirement on our internal control over financial reporting. Further, for as long as we remain an emerging growth company, we will not be required to comply with the independent registered public accounting firm attestation requirement on our internal control over financial reporting. The fact that we are a blank check company makes compliance with the requirements of the Sarbanes-Oxley Act particularly burdensome on us as compared to other public companies because a target business with which we seek to complete our initial business combination may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding adequacy of its internal controls. The development of the internal control of any such entity to achieve compliance with the Sarbanes-Oxley Act may increase the time and costs necessary to complete any such business combination.

Because we are incorporated under the laws of the Cayman Islands, you may face difficulties in protecting your interests, and your ability to protect your rights through the U.S. Federal courts may be limited.

We are an exempted company incorporated under the laws of the Cayman Islands. As a result, it may be difficult for investors to effect service of process within the United States upon our directors or executive officers, or enforce judgments obtained in the United States courts against our directors or executive officers.

Our corporate affairs will be governed by our amended and restated memorandum and articles of association, the Companies Law (as the same may be supplemented or amended from time to time) and the common law of the Cayman Islands. We will also be subject to the federal securities laws of the United States. The rights of shareholders to take action against the directors, actions by minority shareholders and the fiduciary responsibilities of our directors to us under Cayman Islands law are to a large extent governed by the common law of the Cayman Islands. The common law of the Cayman Islands is derived in part from comparatively limited judicial precedent in the Cayman Islands as well as from English common law, the decisions of whose courts are of persuasive authority, but are not binding on a court in the Cayman Islands. The rights of our shareholders and the fiduciary responsibilities of our directors under Cayman Islands law are different from what they would be under statutes or judicial precedent in some jurisdictions in the United States. In particular, the Cayman Islands has a different body of securities laws as compared to the United States, and certain states, such as Delaware, may have more fully developed and judicially interpreted bodies of corporate law. In addition, Cayman Islands companies may not have standing to initiate a shareholders derivative action in a Federal court of the United States.

We have been advised by Maples and Calder, our Cayman Islands legal counsel, that the courts of the Cayman Islands are unlikely (i) to recognize or enforce against us judgments of courts of the United States predicated upon the civil liability provisions of the federal securities laws of the United States or any state; and (ii) in original actions brought in the Cayman Islands, to impose liabilities against us predicated upon the civil liability provisions of the federal securities laws of the United States or any state, so far as the liabilities imposed by those provisions are penal in nature. In those circumstances, although there is no statutory enforcement in the Cayman Islands of judgments obtained in the United States, the courts of the Cayman Islands will recognize and enforce a foreign money judgment of a foreign court of competent jurisdiction without retrial on the merits based on the principle that a judgment of a competent foreign court imposes upon the judgment debtor an obligation to pay the sum for which judgment has been given provided certain conditions are met. For a foreign judgment to be enforced in the Cayman Islands, such judgment must be final and conclusive and for a liquidated sum, and must not be (i) in respect of taxes, a fine or penalty, (ii) inconsistent with a Cayman Islands judgment in respect of the same matter, (iii) impeachable on the grounds of fraud or (iv) obtained in a manner, or be of a kind the enforcement of which is, contrary to natural justice or the public policy of the Cayman Islands (awards of punitive or multiple damages may well be held to be contrary to public policy). A Cayman Islands court may stay enforcement proceedings if concurrent proceedings are being brought elsewhere.

As a result of all of the above, public shareholders may have more difficulty in protecting their interests in the face of actions taken by management, members of our board of directors or controlling shareholders than they would as public shareholders of a United States company.

Provisions in our amended and restated memorandum and articles of association may inhibit a takeover of us, which could limit the price investors might be willing to pay in the future for our Class A ordinary shares and could entrench management.

Our amended and restated memorandum and articles of association contain provisions that may discourage unsolicited takeover proposals that shareholders may consider to be in their best interests. These provisions include the ability of our board of directors to designate the terms of and issue new series of preference shares, which may make the removal of management more difficult and may discourage transactions that otherwise could involve payment of a premium over prevailing market prices for our securities.

Cyber incidents or attacks directed at us could result in information theft, data corruption, operational disruption and/or financial loss.

We depend on digital technologies, including information systems, infrastructure and cloud applications and services, including those of third parties with which we may deal. Sophisticated and deliberate attacks on, or security breaches in, our systems or infrastructure, or the systems or infrastructure of third parties or the cloud, could lead to corruption or misappropriation of our assets, proprietary information and sensitive or confidential data. As an early stage company without significant investments in data security protection, we may not be sufficiently protected against such occurrences. We may not have sufficient resources to adequately protect against, or to investigate and remediate any vulnerability to, cyber incidents. It is possible that any of these occurrences, or a combination of them, could have adverse consequences on our business and lead to financial loss.

Risks Associated with Acquiring and Operating a Business in Foreign Countries

If we effect our initial business combination with a company located outside of the United States, we would be subject to a variety of additional risks that may adversely affect us.

If we pursue a target company with operations or opportunities outside of the United States for our initial business combination, we may face additional burdens in connection with investigating, agreeing to and completing such initial business combination, and if we effect such initial business combination, we would be subject to a variety of additional risks that may negatively impact our operations.

If we pursue a target a company with operations or opportunities outside of the United States for our initial business combination, we would be subject to risks associated with cross-border business combinations, including in connection with investigating, agreeing to and completing our initial business combination, conducting due diligence in a foreign jurisdiction, having such transaction approved by any local governments, regulators or agencies and changes in the purchase price based on fluctuations in foreign exchange rates.

If we effect our initial business combination with such a company, we would be subject to any special considerations or risks associated with companies operating and having assets in an international setting, including any of the following:

- costs and difficulties inherent in managing cross-border business operations;
- rules and regulations regarding currency redemption; complex corporate withholding taxes on individuals;
- laws governing the manner in which future business combinations may be effected;
- exchange listing and/or delisting requirements; tariffs and trade barriers;
- regulations related to customs and import/export matters;
- local or regional economic policies and market conditions;
- unexpected changes in regulatory requirements; longer payment cycles;
- tax issues, such as tax law changes and variations in tax laws as compared to the United States;
- currency fluctuations and exchange controls;

- rates of inflation;
- challenges in collecting accounts receivable;
- cultural and language differences;
- employment regulations;
- underdeveloped or unpredictable legal or regulatory systems;
- corruption;
- protection of intellectual property;
- social unrest, crime, strikes, riots and civil disturbances;
- regime changes and political upheaval;
- terrorist attacks and wars;
- pandemics and public health emergencies; and
- deterioration of political relations with the United States.

We may not be able to adequately address these additional risks. If we are unable to do so, we may be unable to complete such initial business combination, or, if we complete such combination, our operations might suffer, either of which may adversely impact our business, financial condition and results of operations.

If our management following our initial business combination is unfamiliar with United States securities laws, they may have to expend time and resources becoming familiar with such laws, which could lead to various regulatory issues.

Following our initial business combination, our management may resign from their positions as executive officers or directors of our Company and the management of the target business at the time of the business combination will remain in place. Management of the target business may not be familiar with United States securities laws. If new management is unfamiliar with United States securities laws, they may have to expend time and resources becoming familiar with such laws. This could be expensive and time-consuming and could lead to various regulatory issues which may adversely affect our operations.

Exchange rate fluctuations and currency policies may cause a target business' ability to succeed in the international markets to be diminished.

In the event we acquire a non-U.S. target, all revenues and income would likely be received in a foreign currency, and the dollar equivalent of our net assets and distributions, if any, could be adversely affected by reductions in the value of the local currency. The value of the currencies in our target regions fluctuate and are affected by, among other things, changes in political and economic conditions. Any change in the relative value of such currency against our reporting currency may affect the attractiveness of any target business or, following consummation of our initial business combination, our financial condition and results of operations. Additionally, if a currency appreciates in value against the dollar prior to the consummation of our initial business combination, the cost of a target business as measured in dollars will increase, which may make it less likely that we are able to consummate such transaction.

We may be exposed to liabilities under the Foreign Corrupt Practices Act, and any determination that we violated the Foreign Corrupt Practices Act could have a material adverse effect on our business.

We are subject to the Foreign Corrupt Practice Act, or FCPA, and other laws that prohibit improper payments or offers of payments to foreign governments and their officials and political parties by U.S. persons and issuers as defined by the statute for the purpose of obtaining or retaining business. We may have operations, agreements with third parties and make sales in parts of the world which experience corruption. These activities may create the risk of unauthorized payments or offers of payments by one of our employees, consultants, or sales agents, because these parties are not always subject to our control. It will be our policy to implement safeguards to discourage these practices by our employees. Also, the safeguards

we adopt and any future improvements may prove to be less than effective, and our employees, consultants, or sales agents may engage in conduct for which we might be held responsible. Violations of the FCPA may result in severe criminal or civil sanctions, and we may be subject to other liabilities, which could negatively affect our business, operating results and financial condition. In addition, the government may seek to hold our Company liable for successor liability FCPA violations committed by companies in which we invest or that we acquire.

An investment in this offering may result in uncertain U.S. federal income tax consequences.

An investment in this offering may result in uncertain U.S. federal income tax consequences. For instance, because there are no authorities that directly address instruments similar to the units we are issuing in this offering, the allocation an investor makes with respect to the purchase price of a unit between the Class A ordinary shares and the one-third of a warrant to purchase one Class A ordinary share included in each unit could be challenged by the IRS. In addition, the U.S. federal income tax consequences of a cashless exercise of warrants included in the units we are issuing in this offering is unclear under current law. Finally, it is unclear whether the redemption rights with respect to our ordinary shares suspend the running of a U.S. Holder's (as defined in the section titled "Tax Considerations—United States Federal Income Tax Considerations") holding period for purposes of determining whether any gain or loss realized by such holder on the sale or exchange of Class A ordinary shares is long-term capital gain or loss and for determining whether any dividend we pay would be considered "qualified dividend income" for U.S. federal income tax purposes. See the section titled "Tax Considerations—United States Federal Income Tax Considerations" for a summary of the U.S. federal income tax considerations of an investment in our securities. Prospective investors are urged to consult their tax advisors with respect to these and other tax consequences when owning or disposing of our securities.

The majority of our directors and executive officers will live outside the United States and the bulk of our assets may be located outside the United States; therefore, investors may not be able to enforce federal securities laws or their other legal rights.

A majority of our directors and executive officers reside outside of the United States and the bulk of our assets may be located outside of the United States. As a result, it may be difficult, or in some cases not possible, for investors in the United States to enforce their legal rights, to effect service of process upon us or any of our directors or executive officers or to enforce judgments of United States courts predicated upon civil liabilities and criminal penalties on our directors and executive officers under United States laws, including federal securities laws. See "Description of Securities—Certain Differences in Corporate Law — Enforcement of Civil Liabilities."

Our search for a business combination, and any partner business with which we ultimately complete a business combination, may be materially adversely affected by the recent COVID-19 pandemic and the status of debt and equity markets.

In December 2019, a novel strain of COVID-19 was reported to have surfaced in Wuhan, China, which has and is continuing to spread throughout the world, including the United States. On January 30, 2020, the World Health Organization declared the outbreak of COVID-19 a "Public Health Emergency of International Concern." On January 31, 2020, U.S. Health and Human Services Secretary Alex M. Azar II declared a public health emergency for the United States to aid the U.S. healthcare community in responding to COVID-19, and on March 11, 2020 the World Health Organization characterized the outbreak as a "pandemic". The COVID-19 pandemic has and a significant outbreak of other infectious diseases could result in a widespread health crisis that could adversely affect the economies and financial markets worldwide, and the business of any potential partner business with which we consummate a business combination could be materially and adversely affected.

Furthermore, we may be unable to complete a business combination if concerns relating to COVID-19 continue to restrict travel, limit the ability to have meetings with potential investors or the partner business's personnel, vendors and services providers are unavailable to negotiate and complete a transaction in a timely manner. The extent to which COVID-19 impacts our search for a business combination will depend on future developments, which are highly uncertain and cannot be predicted, including new information

which may emerge concerning the severity of COVID-19 and the actions to contain COVID-19 or treat its impact, among others. If the disruptions posed by COVID-19 or other matters of global concern continue for an extensive period of time, our ability to complete a business combination, or the operations of a partner business with which we ultimately complete a business combination, may be materially adversely affected. In addition, our ability to complete a transaction may be dependent on the ability to raise equity and debt financing which may be impacted by COVID-19 and other events, including as a result of increased market volatility, decreased market liquidity and third-party financing being unavailable on terms acceptable to us or at all.

We are subject to changing law and regulations regarding regulatory matters, corporate governance and public disclosure that have increased both our costs and the risk of non-compliance.

We are subject to rules and regulations by various governing bodies, including, for example, the SEC, which are charged with the protection of investors and the oversight of companies whose securities are publicly traded, and to new and evolving regulatory measures under applicable law. Our efforts to comply with new and changing laws and regulations have resulted in and are likely to continue to result in, increased general and administrative expenses and a diversion of management time and attention from revenue-generating activities to compliance activities.

Moreover, because these laws, regulations and standards are subject to varying interpretations, their application in practice may evolve over time as new guidance becomes available. This evolution may result in continuing uncertainty regarding compliance matters and additional costs necessitated by ongoing revisions to our disclosure and governance practices. If we fail to address and comply with these regulations and any subsequent changes, we may be subject to penalty and our business may be harmed.

USE OF PROCEEDS

We are offering 20,000,000 units (or 23,000,000 units if the underwriters' over-allotment option is exercised in full) at an offering price of \$10.00 per unit or \$200,000,000 in the aggregate (or \$230,000,000 in the aggregate if the underwriters' over-allotment option is exercised in full). Concurrently with the closing of this offering, we will complete a private placement of 3,500,000 units for \$35,000,000 in the Novator private placement with our sponsor and certain of our directors and executive officers. We estimate that the net proceeds of this offering, together with the funds we will receive from the sale of the private placement warrants and the Novator private placement, will be used as set forth in the following table.

	Without Over- Allotment Option	Over-Allotment Option Exercised
Gross proceeds		
Gross proceeds from units offered to public ⁽¹⁾	\$200,000,000	\$ 230,000,000
Gross proceeds from private placement warrants offered in the private placement	6,000,000	6,600,000
Gross proceeds from the Novator private placement units offered in the private placement	35,000,000	35,000,000
Total gross proceeds	<u>\$241,000,000</u>	<u>\$ 271,600,000</u>
Offering expenses		
Underwriting commissions (2.0% of gross proceeds from units offered to public, excluding deferred portion) ⁽²⁾	\$ 4,000,000	\$ 4,600,000
Legal fees and expenses	475,000	475,000
Printing and engraving expenses	35,000	35,000
Accounting fees and expenses	50,000	50,000
SEC/FINRA Expenses	60,093	60,093
Travel and road show	25,000	25,000
Nasdaq listing and filing fees	75,000	75,000
Director & Officer liability insurance premiums	200,000	200,000
Miscellaneous	79,907	79,907
Total offering expenses (other than underwriting commissions) ⁽³⁾	\$ 1,000,000	\$ 1,000,000
Proceeds after offering expenses	<u>\$236,000,000</u>	<u>\$ 266,000,000</u>
Held in trust account ⁽³⁾	\$235,000,000	\$ 265,000,000
% of public offering size	100%	100%
Not held in trust account	<u>\$ 1,000,000</u>	<u>\$ 1,000,000</u>

The following table shows the use of \$1,000,000 of net proceeds not held in the trust account.

	Amount	% of Total
Legal, accounting, due diligence, travel, and other expenses in connection with any business combination ⁽³⁾⁽⁴⁾	\$ 300,000	30.0%
Legal and accounting fees related to regulatory reporting obligations	\$ 100,000	10.0%
Payment for office space, administrative and support services	\$ 240,000	24.0%
Consulting, travel and miscellaneous expenses incurred during search for initial business combination target	\$ 250,000	25.0%
Nasdaq fees	\$ 75,000	7.5%
Working capital to cover miscellaneous expenses	\$ 35,000	3.5%
Total	<u>\$1,000,000</u>	<u>100.0%</u>

-
- (1) Includes amounts payable to public shareholders who properly redeem their shares in connection with our successful completion of our initial business combination.
 - (2) The underwriters have agreed to defer underwriting commissions of 3.5% of the gross proceeds of this offering. Upon and concurrently with the completion of our initial business combination, up to \$7,000,000, which constitutes the underwriters' deferred commissions (or up to \$8,050,000 if the underwriters' over-allotment option is exercised in full) will be paid to the underwriters from the funds held in the trust account. See "Underwriting." The Novator private placement shares and Novator private placement warrants included in the Novator private placement are not subject to any underwriting fees or commissions whatsoever. The remaining funds, less amounts released to the trustee to pay redeeming shareholders, will be released to us and can be used to pay all or a portion of the purchase price of the business or businesses with which our initial business combination occurs or for general corporate purposes, including payment of principal or interest on indebtedness incurred in connection with our initial business combination, to fund the purchases of other companies or for working capital. The underwriters will not be entitled to any interest accrued on the deferred underwriting discounts and commissions.
 - (3) These expenses are estimates only. Our actual expenditures for some or all of these items may differ from the estimates set forth herein. For example, we may incur greater legal and accounting expenses than our current estimates in connection with negotiating and structuring our initial business combination based upon the level of complexity of such business combination. In the event we identify a business combination target in a specific industry subject to specific regulations, we may incur additional expenses associated with legal due diligence and the engagement of special legal counsel. In addition, our staffing needs may vary and as a result, we may engage a number of consultants to assist with legal and financial due diligence. We do not anticipate any change in our intended use of proceeds, other than fluctuations among the current categories of allocated expenses, which fluctuations, to the extent they exceed current estimates for any specific category of expenses, would not be available for our expenses. The amount in the table above does not include interest available to us from the trust account. In the event that our offering expenses exceed the estimates set forth above and our company has insufficient funds to pay such expenses, our sponsor or an affiliate of the initial shareholders or certain of our directors and officers may loan us the funds to pay such expenses with such loans being repayable at the time of the initial business combination from funds held in the trust account, without interest, or at the lender's discretion, up to a maximum of \$1,500,000 of such loans (and any loans made to us by our sponsor or an affiliate of initial shareholders, or our directors or officers to finance transaction costs incurred in connection with our initial business combination) may be convertible into warrants of the post-business combination entity at a price of \$1.50 per warrant. In addition, if we do not have sufficient funds to make the payments due to Caroline Harding for professional services under our executive compensation arrangement with her, we may borrow funds from our sponsor or an affiliate of the initial shareholders or certain of our directors and officers to enable us to make such payments. See "Executive Officer and Director Compensation."
 - (4) Includes estimated amounts that may also be used in connection with our initial business combination to fund a "no shop" provision and commitment fees for financing.

Nasdaq rules provide that at least 90% of the gross proceeds from this offering and the sale of the private placement warrants and the Novator private placement units be deposited in a trust account. Of the \$241,000,000 in gross proceeds we receive from this offering, the sale of the Novator private placement units and the sale of the private placement warrants described in this prospectus, or \$271,600,000 if the underwriters' over-allotment option is exercised in full (\$10.00 per unit), will be deposited into a U.S.-based trust account with Continental Stock Transfer & Trust Company acting as trustee, after deducting \$4,000,000 in underwriting discounts and commissions payable upon the closing of this offering (or \$4,600,000 if the underwriters' over-allotment option is exercised in full) and an aggregate of \$1,000,000 to pay fees and expenses in connection with the closing of this offering and for working capital following the closing of this offering. The proceeds held in the trust account will be invested only in U.S. government treasury bills with a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations. We estimate the interest earned on the trust account will be approximately \$235,000 per year, assuming an interest rate of 0.1% per year; however, we can provide no assurances regarding this amount. We expect that the interest earned on the trust account will be sufficient to pay income taxes. We will not be permitted to withdraw any of the principal or interest held in the trust account, except for the withdrawal of

interest to pay our taxes and up to \$100,000 to pay liquidation expenses, as applicable, if any, until the earliest of (a) the completion of our initial business combination, (b) the redemption of our public shares and Novator private placement shares if we are unable to complete our initial business combination within 24 months from the closing of this offering, subject to applicable law, or (c) the redemption of our public shares properly submitted in connection with a shareholder vote to amend our amended and restated memorandum and articles of association (i) to modify the substance or timing of our obligation to provide for the redemption of our public shares and Novator private placement shares in connection with an initial business combination or to redeem 100% of our public shares if we have not consummated our initial business combination within 24 months from the closing of this offering or (ii) with respect to any other provisions relating to shareholders' rights or pre-initial business combination activity.

The net proceeds released to us from the trust account upon the closing of our initial business combination may be used as consideration to pay the sellers of a target business with which we complete our initial business combination. If our initial business combination is paid for using equity or debt securities, or not all of the funds released from the trust account are used for payment of the consideration in connection with our initial business combination, we may use the balance of the cash released from the trust account following the closing for general corporate purposes, including for maintenance or expansion of operations of the post-transaction Company, payment of principal or interest on indebtedness incurred in connection with our initial business combination, to fund the purchases of other companies or for working capital. There is no limitation on our ability to raise funds through the issuance of equity-linked securities or through loans, advances or other indebtedness in connection with our initial business combination, including pursuant to private placement agreements or backstop arrangements we may enter into following consummation of this offering. However, our amended and restated memorandum and articles of association provides that, following this offering and prior to the consummation of our initial business combination, we will be prohibited from issuing additional securities that would entitle the holders thereof to (i) receive funds from the trust account or (ii) vote on any initial business combination.

We believe that amounts not held in trust will be sufficient to pay the costs and expenses to which such proceeds are allocated. This belief is based on the fact that while we may begin preliminary due diligence of a target business in connection with an indication of interest, we intend to undertake in-depth due diligence, depending on the circumstances of the relevant prospective acquisition, only after we have negotiated and signed a letter of intent or other preliminary agreement that addresses the terms of a business combination. However, if our estimate of the costs of undertaking in-depth due diligence and negotiating a business combination is less than the actual amount necessary to do so, we may be required to raise additional capital, the amount, availability and cost of which is currently unascertainable. If we are required to seek additional capital, we could seek such additional capital through loans or additional investments from our sponsor, members of our management team or any of their affiliates, but such persons are not under any obligation to advance funds to, or invest in, us.

We will pay our sponsor \$10,000 per month for office space, utilities, secretarial and administrative support services provided to members of our management team. Upon completion of our initial business combination or our liquidation, we will cease paying these monthly fees. Prior to the closing of this offering, our sponsor has agreed to loan us up to \$300,000 to be used for a portion of the expenses of this offering. These loans are non-interest bearing, unsecured and are due at the earlier of December 31, 2021 or the closing of this offering. The loan will be repaid upon the closing of this offering out of the \$1,000,000 of offering proceeds that has been allocated to the payment of offering expenses.

In addition, in order to finance transaction costs in connection with a business combination or for other matters, our sponsor or an affiliate of the initial shareholders or certain of our directors and officers may, but are not obligated to, loan our company funds as may be required. If we complete a business combination, we would repay these loans, without interest, out of the proceeds of the trust account released to us, or at the lender's discretion, up to a maximum of \$1,500,000 of such loans (including loans made in connection with a business combination, the payment of offering expenses or otherwise) may be convertible into warrants of the post-business combination entity at a price of \$1.50 per warrant. These warrants would be identical to the private placement warrants. Otherwise, these loans would be repaid only out of funds held outside the trust account. In the event that a business combination does not close, we may use a portion of proceeds held outside the trust account to repay these loans, but no proceeds held in the trust

account would be used to repay these loans. Except for the foregoing, the terms of such loans, if any, have not been determined and no written agreements exist with respect to such loans. Prior to the completion of our initial business combination, we do not expect to seek loans from parties other than our sponsor or an affiliate of our sponsor as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account.

DIVIDEND POLICY

We have not paid any dividends on our ordinary shares to date and we do not intend to pay cash dividends prior to the consummation of a business combination. After we complete a business combination, the payment of dividends will depend on our revenues and earnings, if any, capital requirements and general financial condition. The payment of dividends after a business combination will be within the discretion of our then-board of directors. Our board of directors currently intends to retain any earnings for use in our business operations and, accordingly, we do not anticipate the board declaring any dividends in the foreseeable future.

CAPITALIZATION

The following table sets forth our capitalization at December 31, 2020, and as adjusted to give effect to the filing of our amended and restated memorandum and articles of association, the sale of our units in this offering, the founder shares, the Novator private placement units and the private placement warrants and the application of the estimated net proceeds derived from the sale of such securities:

	December 31, 2020	
	Actual	As adjusted ⁽¹⁾
Deferred underwriting discounts and commissions	\$ —	\$ 7,000,000
Class A ordinary shares subject to possible redemption; \$0.0001 par value, -0- and 19,064,254 shares subject to redemption, actual and adjusted, respectively ⁽²⁾	—	189,004,990
Novator private placement units		35,000,000
Preferred shares, \$0.0001 par value, 5,000,000 shares authorized, no shares issued and outstanding, actual and as adjusted	—	
Class A ordinary shares, \$0.0001 par value, 500,000,000 shares authorized; no shares issued and outstanding, actual; 4,435,746 shares issued and outstanding (excluding 19,064,254 shares subject to redemption), as adjusted	—	444
Class B ordinary shares, \$0.0001 par value; 5,000,000 shares authorized; 6,625,000 and 5,875,000 shares issued and outstanding, actual and as adjusted, respectively	662	587
Additional paid-in capital	24,338	5,018,979
Accumulated deficit	(20,000)	(20,000)
Total shareholders' equity	\$ 5,000	\$ 5,000,010
Total capitalization	\$ 5,000	\$236,005,000

- (1) On December 9, 2020, our sponsor agreed to loan us an aggregate of \$300,000 under an unsecured promissory note to be used for a portion of the expenses of this offering. The "as adjusted" information gives effect to the repayment of the loan made under this note out of the proceeds from this offering, the sale of Novator private placement units and the sale of the private placement warrants. As of December 31, 2020, an aggregate amount of \$25,716 had been funded under the note.
- (2) Upon the completion of our initial business combination, we will provide our public shareholders with the opportunity to convert their public shares to cash at a per share price equal to the aggregate amount then on deposit in the trust account (excluding any amounts then on deposit in the trust account that are allocable to the Novator private placement shares) calculated as of two business days prior to the consummation of our initial business combination, including interest earned on the trust account (excluding any interest earned on the funds held in the trust account that are allocable to the Novator private placement shares) not previously released to us (to pay our tax obligations and working capital purposes), divided by the number of then outstanding public shares, subject to the limitations described herein whereby conversion cannot cause our net tangible assets to be less than \$5,000,001 either immediately prior to or upon consummation of the business combination and any limitations (including, but not limited to, cash requirements) created by the terms of the proposed business combination. Accordingly, the actual number of shares that can be converted may exceed the \$224,004,990 amount provided our net tangible assets are not less than \$5,000,001 and any limitations (including, but not limited to, cash requirements) created by the terms of the proposed business combination immediately prior to or upon consummation of our initial business combination.

DILUTION

The difference between the public offering price per Class A ordinary share, assuming no value is attributed to the warrants included in the units we are offering pursuant to this prospectus, the warrants included in the Novator private placement units or the private placement warrants, and the pro forma net tangible book value per Class A ordinary share after this offering constitutes the dilution to investors in this offering. Such calculation does not reflect any dilution associated with the sale and exercise of warrants, including the warrants included in the Novator private placement units and the private placement warrants, which would cause the actual dilution to the public shareholders to be higher, particularly where a cashless exercise is utilized. Net tangible book value per share is determined by dividing our net tangible book value, which is our total tangible assets less total liabilities (including the value of Class A ordinary shares which may be redeemed for cash), by the number of outstanding Class A ordinary shares.

At December 31, 2020, our net tangible book value was a deficit of \$552,663, or approximately \$(0.08) per ordinary share. After giving effect to the sale of 20,000,000 Class A ordinary shares included in the units we are offering by this prospectus (or 23,000,000 Class A ordinary shares if the underwriters' over-allotment option is exercised in full), the sale of the private placement warrants, the sale of the Novator private placement units and the deduction of underwriting commissions and estimated expenses of this offering, our pro forma net tangible book value at December 31, 2020 would have been \$5,000,010 or \$0.48 per share (or approximately \$0.45 per share if the underwriters' over-allotment option is exercised in full), representing an immediate increase in net tangible book value (as decreased by the value of the 19,064,254 Class A ordinary shares that may be redeemed for cash, or 21,954,584 Class A ordinary shares if the underwriters' over-allotment option is exercised in full) of \$0.56 per share (or approximately \$0.53 if the underwriters' over-allotment option is exercised in full) to our initial shareholders as of the date of this prospectus and an immediate dilution to public shareholders from this offering of \$9.52 per share (or approximately \$9.55 if the underwriters' over-allotment option is exercised in full). However, there may be conversions above such numbers of Class A ordinary shares as long as our net tangible assets will be greater than \$5,000,001 either immediately prior to or upon consummation of our initial business combination.

The following table illustrates the dilution to the public shareholders on a per-share basis, assuming no value is attributed to the warrants included in the units, the warrants included in the Novator private placement units or the private placement warrants:

	Without Over-allotment Option	With Over-allotment Option Exercised
Public offering price	\$10.00	\$10.00
Net tangible book value before this offering	\$(0.08)	\$(0.08)
Increase attributable to public shareholders	<u>0.56</u>	<u>0.53</u>
Pro forma net tangible book value after this offering and the sale of the private placement warrants	0.48	0.45
Dilution to public shareholders	<u>\$ 9.52</u>	<u>\$ 9.55</u>
Percentage of dilution to new investors	<u>95.2%</u>	<u>95.5%</u>

For purposes of presentation, we have reduced our pro forma net tangible book value after this offering (assuming no exercise of the underwriter's over-allotment option) by 224,004,990 because holders of up to approximately 95.3% of our public shares may redeem their shares for a pro rata share of the aggregate amount then on deposit in the trust account at a per-share redemption price equal to the amount in the trust account calculated as of two business days prior to the consummation of the initial business combination, including interest (which interest shall be net of taxes payable), divided by the number of Class A ordinary shares sold in this offering and Novator private placement.

The following table sets forth information with respect to our initial shareholders and the public shareholders:

	Shares Purchased ⁽¹⁾		Total Consideration		Average Price Per Share
	Number	Percentage	Amount	Percentage	
Initial Shareholders	5,875,000	20.00%	\$ 25,000	0.01%	\$ 0.004
Public Shareholders	20,000,000	68.09%	200,000,000	85.1%	\$ 10.00
Holders of Novator private placement units	3,500,000	11.91%	35,000,000	14.9%	\$ 10.00
	<u>29,375,000</u>	<u>100.00%</u>	<u>\$235,025,000</u>	<u>100.00%</u>	

- (1) Assumes that 750,000 founder shares are forfeited by our initial shareholders after the closing of this offering in the event the underwriters do not exercise their over-allotment option.

The pro forma net tangible book value per share after this offering is calculated as follows:

	Without Over-allotment	With Over-allotment
Numerator:		
Net tangible book value before this offering	\$ (552,663)	\$ (552,663)
Proceeds from this offering and sale of the private placement warrants, net of expenses (including non-deferred underwriting commissions) ⁽¹⁾	201,000,000	231,000,000
Proceeds from the sale of the Novator private placement units	35,000,000	35,000,000
Offering costs accrued for and paid in advance, excluded from net tangible book value before this offering	557,663	557,663
Less: deferred underwriter's commissions payable	(7,000,000)	(8,050,000)
Less: amount of Class A ordinary shares subject to redemption to maintain net tangible assets of \$5,000,001 ⁽²⁾	(224,004,990)	(252,954,990)
	<u>\$ 5,000,010</u>	<u>\$ 5,000,010</u>
Denominator:		
Class B ordinary shares issued and outstanding prior to this offering ⁽¹⁾	6,625,000	6,625,000
Shares forfeited if over-allotment is not exercised	(750,000)	—
Class A ordinary shares included in the units offered	20,000,000	23,000,000
Class A ordinary shares included in the Novator private placement units	3,500,000	3,500,000
Less: shares subject to redemption to maintain net tangible assets of \$5,000,001	19,064,254	(21,954,584)
	<u>10,310,746</u>	<u>11,170,416</u>

- (1) Expenses applied against gross proceeds include offering expenses of \$1,000,000 and underwriting commissions of \$4,000,000 without the over-allotment option exercise and \$4,600,000 with the over-allotment option exercise (excluding deferred underwriting fees). See “Use of Proceeds.”
- (2) If we seek shareholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our sponsor, initial shareholders, directors, officers or their respective affiliates may purchase public shares or public warrants in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination. In the event of any such purchases of our shares prior to the completion of our initial business combination, the number of shares of Class A common stock subject to redemption will be reduced by the amount of any such purchases, increasing the pro forma net tangible book value per share. See “Proposed Business — Permitted Purchases of Our Securities.”

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

We are a blank check company incorporated on October 7, 2020 as a Cayman Islands exempted company for the purpose of effecting a merger, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses. We have not selected any business combination target and we have not, nor has anyone on our behalf, initiated any substantive discussions, directly or indirectly, with any business combination target with respect to an initial business combination with us. We intend to effectuate our initial business combination using cash from the proceeds of this offering, the sale of the Novator private placement units and the private placement warrants, our shares, debt or a combination of cash, equity and debt.

The issuance of additional shares in a business combination:

- may significantly dilute the equity interest of investors in this offering, which dilution would increase if the anti-dilution provisions in the Class B ordinary shares resulted in the issuance of Class A ordinary shares on a greater than one-to-one basis upon conversion of the Class B ordinary shares;
- may subordinate the rights of holders of Class A ordinary shares if preference shares are issued with rights senior to those afforded our Class A ordinary shares;
- could cause a change in control if a substantial number of our Class A ordinary shares are issued, which may affect, among other things, our ability to use our net operating loss carry forwards, if any, and could result in the resignation or removal of our present executive officers and directors;
- may have the effect of delaying or preventing a change of control of us by diluting the share ownership or voting rights of a person seeking to obtain control of us; and
- may adversely affect prevailing market prices for our units, Class A ordinary shares and/or warrants.

Similarly, if we issue debt securities or otherwise incur significant debt, it could result in:

- default and foreclosure on our assets if our operating revenues after an initial business combination are insufficient to repay our debt obligations;
- acceleration of our obligations to repay the indebtedness even if we make all principal and interest payments when due if we breach certain covenants that require the maintenance of certain financial ratios or reserves without a waiver or renegotiation of that covenant;
- our immediate payment of all principal and accrued interest, if any, if the debt security is payable on demand;
- our inability to obtain necessary additional financing if the debt security contains covenants restricting our ability to obtain such financing while the debt security is outstanding;
- our inability to pay dividends on our Class A ordinary shares;
- using a substantial portion of our cash flow to pay principal and interest on our debt, which will reduce the funds available for dividends on our Class A ordinary shares if declared, expenses, capital expenditures, acquisitions and other general corporate purposes;
- limitations on our flexibility in planning for and reacting to changes in our business and in the industry in which we operate;
- increased vulnerability to adverse changes in general economic, industry and competitive conditions and adverse changes in government regulation;
- limitations on our ability to borrow additional amounts for expenses, capital expenditures, acquisitions, debt service requirements, execution of our strategy and other purposes and other disadvantages compared to our competitors who have less debt; and
- other disadvantages compared to our competitors who have less debt.

As indicated in the accompanying financial statements, as of December 31, 2020, we had no cash and 557,663 in deferred offering costs. Further, we expect to incur significant costs in the pursuit of our initial business combination. We cannot assure you that our plans to raise capital or to complete our initial business combination will be successful.

Results of Operations and Known Trends or Future Events

We have neither engaged in any operations nor generated any revenues to date. Our only activities since inception have been organizational activities and those necessary to prepare for this offering. Following this offering, we will not generate any operating revenues until after completion of our initial business combination. We will generate non-operating income in the form of interest income on cash and cash equivalents after this offering. There has been no significant change in our financial or trading position and no material adverse change has occurred since the date of our audited financial statements. After this offering, we expect to incur increased expenses as a result of being a public company (for legal, financial reporting, accounting and auditing compliance), as well as for due diligence expenses. We expect our expenses to increase substantially after the closing of this offering.

Liquidity and Capital Resources

As indicated in the accompanying financial statements, as of December 31, 2020, we had a working capital deficiency of \$552,663. Further, we have incurred and expect to continue to incur significant costs in pursuit of our financing and acquisition plans. Management's plans to address this uncertainty through this offering are discussed below. We cannot assure you that our plans to raise capital or to consummate an initial business combination will be successful. These factors, among others, raise substantial doubt about our ability to continue as a going concern.

We estimate that the net proceeds from (i) the sale of the units in this offering, after deducting offering expenses of \$1,000,000 and underwriting commissions of \$4,000,000, or \$4,600,000 if the underwriters' over-allotment option is exercised in full (excluding deferred underwriting commissions of \$7,000,000, or \$8,050,000 if the underwriters' over-allotment option is exercised in full), (ii) the sale of the private placement warrants for a purchase price of \$6,000,000 (or \$6,600,000 if the underwriters' over-allotment option is exercised in full) and (iii) the Novator private placement units will be a total of \$235,000,000 (or \$265,000,000 if the underwriters' over-allotment option is exercised in full), which will be held in the trust account and includes the deferred underwriting commissions described above. The proceeds held in the trust account will be invested only in U.S. government treasury obligations with a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations. The remaining \$1,000,000 will not be held in the trust account. In the event that our offering expenses exceed our estimate of \$1,000,000, we may fund such excess with funds not to be held in the trust account. In such case, the amount of funds we intend to be held outside the trust account would decrease by a corresponding amount. Conversely, in the event that the offering expenses are less than our estimate of \$1,000,000, the amount of funds we intend to be held outside the trust account would increase by a corresponding amount.

We intend to use substantially all of the funds held in the trust account, including any amounts representing interest earned on the trust account (less taxes payable and deferred underwriting commissions) to complete our initial business combination. We may withdraw interest to pay our income taxes, if any. Our annual income tax obligations will depend on the amount of interest and other income earned on the amounts held in the trust account. We expect the interest earned on the amount in the trust account will be sufficient to pay our income taxes. To the extent that our equity or debt is used, in whole or in part, as consideration to complete our initial business combination, the remaining proceeds held in the trust account will be used to repay such debt, as working capital to finance the operations of the target business or businesses, make other acquisitions and pursue our growth strategies.

Prior to the completion of our initial business combination, we will have available to us the \$1,000,000 of proceeds held outside the trust account. We will use these funds to primarily identify and evaluate target businesses, perform business due diligence on prospective target businesses, travel to and from the offices, plants or similar locations of prospective target businesses or their representatives or owners, review

corporate documents and material agreements of prospective target businesses, structure, negotiate and complete a business combination, to prepare and make required securities filings, listing application and pay legal and professional fees.

We do not believe we will need to raise additional funds following this offering in order to meet the expenditures required for operating our business prior to our initial business combination. However, if our estimates of the costs of identifying a target business, undertaking in-depth due diligence and negotiating an initial business combination are less than the actual amount necessary to do so, we may have insufficient funds available to operate our business prior to our initial business combination. In order to fund working capital deficiencies or finance transaction costs in connection with an intended initial business combination or to fund certain other expenses (including officer expenses to the extent in excess of our estimates and expenses relating to payments due to one of our officers), our sponsor or its affiliates may, but are not obligated to, loan us funds as may be required. If we complete our initial business combination, we would repay such loaned amounts (and at the option of the lender, up to \$1,500,000 of such loans could be satisfied through the issuance of warrants (substantially the same as the private placement warrants) at \$1.50 per warrant.).

In the event that our initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used for such repayment. The terms of such loans, if any, have not been determined and no written agreements exist with respect to such loans. Prior to the completion of our initial business combination, we do not expect to seek loans from parties other than our sponsor or an affiliate of our sponsor as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account.

We expect our primary liquidity requirements during that period to include approximately \$300,000 for legal, accounting, due diligence, travel and other expenses associated with structuring, negotiating and documenting successful business combinations; \$100,000 for legal and accounting fees related to regulatory reporting requirements; \$250,000 for consulting, travel and miscellaneous expenses incurred during the search for an initial business combination target; \$75,000 for Nasdaq continued listing fees; repayments of loans totaling 25,716; and \$35,000 for general working capital that will be used for miscellaneous expenses and reserves. We will also pay our sponsor \$10,000 per month, or up to \$240,000 in the aggregate, for office space, secretarial and administrative services provided to us.

These amounts are estimates and may differ materially from our actual expenses. In addition, we could use a portion of the funds not being placed in trust to pay commitment fees for financing, fees to consultants to assist us with our search for a target business or as a down payment or to fund a “no-shop” provision (a provision designed to keep target businesses from “shopping” around for transactions with other companies or investors on terms more favorable to such target businesses) with respect to a particular proposed business combination, although we do not have any current intention to do so. If we entered into an agreement where we paid for the right to receive exclusivity from a target business, the amount that would be used as a down payment or to fund a “no-shop” provision would be determined based on the terms of the potential business combination and the amount of our available funds at the time. Our forfeiture of such funds (whether as a result of our breach or otherwise) could result in our not having sufficient funds to continue searching for, or conducting due diligence with respect to, prospective target businesses.

Moreover, we may need to obtain additional financing to complete our initial business combination, either because the transaction requires more cash than is available from the proceeds held in our trust account or because we become obligated to redeem a significant number of our public shares upon completion of the business combination, in which case we may issue additional securities or incur debt in connection with such business combination. If we are unable to complete our initial business combination because we do not have sufficient funds available to us, we will be forced to cease operations and liquidate the trust account.

Controls and Procedures

We are not currently required to maintain an effective system of internal controls as defined by Section 404 of the Sarbanes-Oxley Act. We will be required to comply with the internal control requirements of the Sarbanes-Oxley Act for the fiscal year ending December 31, 2021. Only in the event that we are

deemed to be a large accelerated filer or an accelerated filer would we be required to comply with the independent registered public accounting firm attestation requirement. Further, for as long as we remain an emerging growth company as defined in the JOBS Act, we intend to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the independent registered public accounting firm attestation requirement.

Prior to the closing of this offering, we have not completed an assessment, nor has our independent registered public accounting firm tested our systems, of internal controls. We expect to assess the internal controls of our target business or businesses prior to the completion of our initial business combination and, if necessary, to implement and test additional controls as we may determine are necessary in order to state that we maintain an effective system of internal controls. A target business may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding the adequacy of internal controls. Many small and mid-sized target businesses we may consider for our initial business combination may have internal controls that need improvement in areas such as:

- staffing for financial, accounting and external reporting areas, including segregation of duties;
- reconciliation of accounts;
- proper recording of expenses and liabilities in the period to which they relate;
- evidence of internal review and approval of accounting transactions;
- documentation of processes, assumptions and conclusions underlying significant estimates; and
- documentation of accounting policies and procedures.

Because it will take time, management involvement and perhaps outside resources to determine what internal control improvements are necessary for us to meet regulatory requirements and market expectations for our operation of a target business, we may incur significant expense in meeting our public reporting responsibilities, particularly in the areas of designing, enhancing, or remediating internal and disclosure controls. Doing so effectively may also take longer than we expect, thus increasing our exposure to financial fraud or erroneous financing reporting.

Once our management's report on internal controls is complete, we will retain our independent registered public accounting firm to audit and render an opinion on such report when required by Section 404 of the Sarbanes-Oxley Act. The independent registered public accounting firm may identify additional issues concerning a target business's internal controls while performing their audit of internal control over financial reporting.

Quantitative and Qualitative Disclosures about Market Risk

The net proceeds of this offering, the sale of the Novator private placement units and the sale of the private placement warrants held in the trust account will be invested in U.S. government treasury bills with a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations. Due to the short-term nature of these investments, we believe there will be no associated material exposure to interest rate risk.

Related Party Transactions

On December 9, 2020 our sponsor paid \$25,000, or \$0.004 per share, to cover certain offering and formation costs of the company in exchange for 5,750,000 founder shares. During February 2021, we effectuated a share dividend of 1,006,250 Class B ordinary shares and subsequently issued a cancellation for 131,250 Class B ordinary shares resulting in an aggregate of 6,625,000 founder shares being issued and outstanding. The number of founder shares issued was determined based on the expectation that such founder shares would represent 20% of the outstanding shares upon completion of this offering. The per share purchase price of the founder shares was determined by dividing the amount of cash contributed to our Company by the aggregate number of founder shares issued. If we increase or decrease the size of the offering we will effect a share dividend or a share contribution back to capital or other appropriate

mechanism, as applicable, with respect to our Class B ordinary shares immediately prior to the consummation of the offering in such amount as to maintain the ownership of our initial shareholders at 20.0% of our issued and outstanding ordinary shares upon the consummation of this offering and the Novator private placement.

Commencing on the date of this prospectus, we have agreed to pay our sponsor a total of \$10,000 per month for office space, utilities and secretarial and administrative support. Upon completion of our initial business combination or our liquidation, we will cease paying these monthly fees.

Our initial shareholders, or any of their respective affiliates, will be reimbursed for any out-of-pocket expenses incurred in connection with activities on our behalf such as identifying potential target businesses and performing due diligence on suitable business combinations. Our audit committee will review on a quarterly basis all payments that were made to our sponsor, executive officers, directors or our or their affiliates and will determine which expenses and the amount of expenses that will be reimbursed. There is no cap or ceiling on the reimbursement of out-of-pocket expenses incurred by such persons in connection with activities on our behalf.

Our sponsor, as well as certain of our directors and executive officers, have agreed to purchase 3,500,000 units in a separate private placement to occur concurrently with the closing of this offering. Each such unit shall consist of one Class A ordinary share and one-third of one warrant and shall be offered at a price of \$10.00 per unit, for an aggregate purchase price of \$35,000,000. The gross proceeds of the private placement will be deposited into the trust account.

Additionally, our sponsor has agreed to loan us up to \$300,000 under an unsecured promissory note to be used for a portion of the expenses of this offering. As of December 31, 2020, we had \$25,716 in borrowings under the promissory note with our sponsor. In the event we do borrow under the promissory note, these loans would be non-interest bearing, unsecured and are due at the earlier of December 31, 2021, or the closing of this offering. These loans would be repaid upon completion of this offering out of the \$1,000,000 of offering proceeds that has been allocated for the payment of offering expenses (other than underwriting commissions) not held in the trust account.

In addition, in order to finance transaction costs in connection with a business combination or for other matters, our sponsor or an affiliate of the initial shareholders or certain of our directors and officers may, but are not obligated to, loan our company funds as may be required. If we complete a business combination, we would repay these loans, without interest, out of the proceeds of the trust account released to us, or at the lender's discretion, up to a total of \$1,500,000 of such loans (including loans made in connection with a business combination, the payment of offering expenses or otherwise) may be convertible into warrants of the post-business combination entity at a price of \$1.50 per warrant. These warrants would be identical to the private placement warrants. Otherwise, these loans would be repaid only out of funds held outside the trust account. In the event that a business combination does not close, we may use a portion of proceeds held outside the trust account to repay these loans, but no proceeds held in the trust account would be used to repay these loans. Except for the foregoing, the terms of such loans, if any, have not been determined and no written agreements exist with respect to such loans. We do not expect to seek loans from parties other than our sponsor or an affiliate of our sponsor as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account.

Off-Balance Sheet Arrangements; Commitments and Contractual Obligations; Quarterly Results

As of December 31, 2020, we did not have any off-balance sheet arrangements as defined in Item 303(a)(4)(ii) of Regulation S-K and did not have any commitments or contractual obligations. No unaudited quarterly operating data is included in this prospectus, as we have conducted no operations to date.

JOBS Act

On April 5, 2012, the JOBS Act was signed into law. The JOBS Act contains provisions that, among other things, relax certain reporting requirements for qualifying public companies. We will qualify as an "emerging growth company" and under the JOBS Act will be allowed to comply with new or revised accounting pronouncements based on the effective date for private (not publicly traded) companies. We are electing to delay the adoption of new or revised accounting standards, and as a result, we may not comply

with new or revised accounting standards on the relevant dates on which adoption of such standards is required for non-emerging growth companies. As a result, our financial statements may not be comparable to companies that comply with new or revised accounting pronouncements as of public company effective dates.

Additionally, we are in the process of evaluating the benefits of relying on the other reduced reporting requirements provided by the JOBS Act. Subject to certain conditions set forth in the JOBS Act, if, as an “emerging growth company”, we choose to rely on such exemptions we may not be required to, among other things, (i) provide an independent registered public accounting firm’s attestation report on our system of internal controls over financial reporting pursuant to Section 404 of the Sarbanes-Oxley Act, (ii) provide all of the compensation disclosure that may be required of non-emerging growth public companies under the Dodd-Frank Wall Street Reform and Consumer Protection Act, (iii) comply with any requirement that may be adopted by the PCAOB regarding mandatory audit firm rotation or a supplement to the report of the independent registered public accounting firm providing additional information about the audit and the financial statements (auditor discussion and analysis), and (iv) disclose certain executive compensation related items such as the correlation between executive compensation and performance and comparisons of the Chief Executive Officer’s compensation to median employee compensation. These exemptions will apply for a period of five years following the completion of this offering or until we are no longer an “emerging growth company,” whichever is earlier.

PROPOSED BUSINESS

Overview

We are a new blank check company incorporated on October 7, 2020 as a Cayman Islands exempted company for the purpose of effecting a merger, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses. We have not selected any potential business combination target and we have not, nor has anyone on our behalf, initiated in any substantive discussions, directly or indirectly, with any business combination target with respect to an initial business combination with us.

While we may pursue an initial business combination target in any stage of its corporate evolution or in any industry or sector, we intend to focus our search on EMEA Technology and Media companies. Our management team and board of directors have had significant experience sourcing, acquiring, expanding and monetizing these types of companies. We believe this experience makes us exceptionally well suited to identify, negotiate and successfully execute an initial business combination with the ultimate goal of generating attractive returns for our shareholders.

Management Team and Board of Directors

We believe our management team and board of directors are well-positioned to identify and evaluate businesses within the EMEA Technology and Media industries that would benefit from being a public company and from access to our expertise. We believe we can achieve this mission by utilizing our team's extensive experience in growing and operating companies within the EMEA Technology and Media industries as well as our broad network of contacts in the EMEA Technology and Media industries.

Thor Björgólfsson, 53, has served as the Chairman of our board of directors since our Company's inception. Mr. Björgólfsson graduated from New York University's Stern School of Business with a degree in finance. He is Iceland's first billionaire. Mr. Björgólfsson experienced his first significant liquidity event with Bravo Brewery International Ltd., or Bravo Brewery, in St Petersburg, Russia, selling it to Heineken N.V., or Heineken, in 2002. Over the ensuing years he invested in telecommunications, mostly in Eastern Europe, built up generic drugs company Actavis plc, or Actavis (now Allergan plc, or Allergan) and became a significant investor in one of Iceland's largest banks, Landsbanki hf., or Landsbanki. Mr. Björgólfsson continues to be an active investor in the emerging economies of Central and Eastern Europe and Latin America through his London-based private equity fund, Novator. He is chairman of Novator and maintains a shareholding in companies including WOM in Chile, as well as computer games company CCP, data center Verne Global Ltd., or Verne Global, and pharmaceutical company Xantis Pharma AG, or Xantis Pharma.

Arnaud Massenet, 55, has served as our Chief Executive Officer since our Company's inception. Mr. Massenet holds a Bachelor of Arts from the Lincoln International School of Business in Paris, France and a Masters of Business Administration from the University of North Carolina. Mr. Massenet started his career in 1994 in banking at Morgan Stanley & Co., or Morgan Stanley. He became the Head of Morgan Stanley's derivatives group in London, United Kingdom, in 1998. In 2003, Mr. Massenet started Lehman Brothers Inc.'s, or Lehman Brothers corporate derivatives group (Capital Market) before exiting in 2007 to start South West Capital, a hedge fund focused on real asset investments. Mr. Massenet co-founded Net-a-Porter in 1999, largely financed by himself and Richemont Group. He was an active board member for more than 10 years, involved in all important strategic decisions including creation of the Outnet.com, Mr. Porter and Porter Magazine, finally culminating in a 2-step sale in 2010 and 2015 to the Richemont Group. Mr. Massenet is currently chairman of Grip, a subsidiary of Intros.at Ltd., or Intros.at, an artificial intelligence company specialized in organizing virtual conferences for corporate and virtual meetings. He founded Grip in 2015 with two of the largest tech conference organizers; Reed Elsevier plc, or Reed Elsevier, and Founders Forum LLP, or Founders Forum. Mr. Massenet also backed many successful tech companies, including Deliveroo, Care Wish Ltd., or Care Wish, Houzz Ltd., or Houzz, Urban Massage Ltd., or Urban Massage, Highsnobiety Inc., or Highsnobiety, Invincible Ltd., or Invincible, and NGM Ltd., or NGM, Ozon Ltd., or Ozon, and serves on the board of directors of Ahalife Holdings Inc., or Ahalife, a large interior design platform based in New York, New York.

Prabhu Narasimhan, 40, has been our chief investment officer since our Company's inception. Mr. Narasimhan has almost two decades of experience as a lawyer at three leading international law firms, two as partner (Mayer Brown, White & Case and Baker & McKenzie). During his time at White & Case, Mr. Narasimhan held the position of partner and Global Head of Family Offices, advising high net worth family offices on all transactional aspects (mergers and acquisitions, bank finance, tax, structuring and execution) of their investments. Mr. Narasimhan then moved to Baker & McKenzie to found their London headquartered Alternative Capital practice, acting as a senior strategic advisor to multi-billion dollar family offices and private equity funds on multi-billion dollar mergers and acquisitions and equity and debt capital markets transactions worldwide. His re-structuring of ATP Media Operations Ltd.'s, or ATP Media, tennis broadcasting rights and his crafting of fiscal stimulus laws in Europe have been widely recognized and commended, particularly by the FT Innovative Lawyers awards. Mr. Björgólfsson and Mr. Narasimhan have partnered with each other since they met in 2014. Their shared interests and collaborative relationship, with Mr. Narasimhan serving as Mr. Björgólfsson and Novator's primary legal advisor, led them to explore the creation of a dynamic multi-asset investment firm with a developed markets focus, investing in both public and private financial instruments, in addition to selectively undertaking pre-initial public offering private equity investments, most particularly in media and technology. Mr. Narasimhan, together with a third partner, co-founded in 2020, Novator Capital, an affiliate of our sponsor. Additionally, in 2020, Mr. Narasimhan was appointed to the board of directors as a director of the media company, Prime Focus World N.V.

Caroline Harding, 40, has been our chief financial officer since our Company's inception and serves on our board of directors. Ms. Harding qualified as a chartered accountant with Ernst & Young LLP in 2007. Prior to relocating to the Cayman Islands in 2020, Ms. Harding was the chief financial officer for Weybourne Ltd., Sir James Dyson's family office, where she was a member of a team that oversaw a multi-billion pound portfolio which included the James Dyson Group. During this time, Ms. Harding served as a director of eleven Weybourne Group-related entities, which included the overall holding company responsible for strategy and investments. Ms. Harding was the senior accounting officer for Weybourne Group and the compliance and anti-money laundering officer for its Financial Conduct Authority regulated subsidiary. For the nine years prior to Weybourne, Ms. Harding served as the chief financial officer and director of Exploration Capital Ltd., or Exploration Capital, a family office, for five of her nine years with the company. Exploration Capital manages a diversified global investment portfolio with a particular focus on agricultural and development land in Latin America. Ms. Harding was simultaneously chief financial officer of one of the portfolio companies, a high performance engineering business, Gilo Industries Group Ltd., or Gilo, and successfully re-structured the accounting and reporting systems of this business.

Shravin Mittal, 30, is the founder of Unbound and managing director of Bharti Global, the family office of the Bharti family. Unbound is a globally focused long term technology investment arm that aims to build and back technology companies. The firm invests globally across both developed and emerging markets and is focused on building and backing the next generation of 100-year companies. Unbound has made 17 investments, including investments in Databricks, Snowflake Inc., Asana Inc., mPharma, Iberia Cars24 Ltd., Forto Group Ltd., Syfe Pte. Ltd., Paack SPV Investments, S.L. Bharti Global has numerous investments in telecommunications, technology, energy and hospitality. Previously, Mr. Mittal was an investor at Softbank (2016-2017). Prior to that, Mr. Mittal was an assistant director at Better Capital (2014-2015), a Private Equity firm in London. Between 2010 to 2012, Mr. Mittal was the managing director at Bharti Airtel Ltd., or Airtel, in Africa and India. Prior to that, he worked with JPMorgan Chase & Co., or JP Morgan, in Investment Banking covering media and technology. Mr. Mittal has a Master of Business Administration from Harvard Business School, Class 2014, and founded Airtel Rising Star Academy (a youth football initiative in Africa and India).

Sangeeta Desai, 44, is an experienced investor and C-level executive, and currently serves on number of listed and private boards globally. She brings a unique combination of strategic, operating and financial experience, having spent her early career in investment banking and private equity before taking on leadership roles in global media businesses. She is currently the chairman of Mopar Media Group AB, or Mopar Media (2020 to present) and is a non-executive director on the boards of Orbit Showtime Network, or OSN (2020 to present) and Ocean Outdoor Ltd., or Ocean Outdoor (2018 to present). During 2021, Ms. Desai was appointed to the board of directors of Boat Rocker Media Inc., or Boat Rocker Media. Her most recent executive experience was as group chief operating officer and chief executive officer of Emerging Markets

at FremantleMedia (2013 to 2018), and prior to that as chief operating officer of Hit Entertainment (2009 to 2012). Prior to joining HIT, Sangeeta was a Principal at Apax Partners (2005 to 2009), where she invested in the media industry globally, and she started her career as an investment banker at The Goldman Sachs Group, Inc. (2004 to 2005) and JP Morgan (1998 to 2001). She holds a Bachelor of Science in Business Administration from the Haas School of Business, University of California at Berkeley and a Master of Business Administration from the Wharton School, University of Pennsylvania.

Michael Edelstein, 52, serves on our Company's board of directors. Mr. Edelstein is a creative business leader, investor and producer who has a track record of developing award-winning content in a variety of high-profile executive roles. Mr. Edelstein has demonstrated a breadth of skill in developing clear business strategies and financial management as well as being equally adept at communicating with writers, directors and producers in order to create global quality content. From 1998 to 2002, he was the director of current programs at CBS Corporation. From 2004 to 2006, Mr. Edelstein was the executive producer of the *Desperate Housewives*. From 2010 to 2017, he was the president of NBCUniversal International where he built the division into one of the most respected content players in the international marketplace. He is highly experienced in international television markets.

Business Strategy

We intend to source initial business combination opportunities by utilizing our management team's, board of directors' and sponsor's many years of experience and extensive networks and relationships with top venture firms looking to efficiently scale their winning portfolio companies and partner with private equity firms looking to build further business value in the EMEA Technology and Media sector. We expect that a universe of potential targets will be identified through a series of criteria to filter the most attractive and actionable opportunities in our available time horizon. This universe is supplemented by the network that we collectively and uniquely possess from years of experience developing relationships with the C-suite of our generation, other EMEA Technology and Media investors and family offices. This is coupled with our team's substantial deal experience, where they have worked cooperatively with targets and companies to develop and execute financings on a primary and secondary basis, using different parts of the capital structure and financial structuring to support dividend recapitalizations and other corporate financing strategies to drive the returns of stakeholders.

While we may pursue an initial business combination target in any stage of its corporate evolution or in any industry or sector, we intend to focus our search on Europe, the Middle East and Africa technology and media, or EMEA Technology and Media, companies.

There has been a significant and increasing volume of transaction activity in the EMEA Technology and Media sector in recent years, and we believe that by raising capital now, we can best position ourselves to opportunistically take advantage of this trend and as potential acquisition opportunities arise.

According to Dealogic, between 2010 and December 2020, there has been approximately \$975 billion of transaction volume, involving approximately 559 deals of over \$500 million in enterprise value in the EMEA Technology and Media industry. According to Dealogic, transaction activity by volume and value has been growing, with \$362 billion in 226 transactions taking place between 2011 and 2015. Subsequently, transaction value grew 56% to \$564 billion and transaction volume grew 34% to 302 transactions from January 1, 2016 through December 31, 2020.

In addition, over the past years, there has been significant increase in value of private investments, including private equity and venture capital, into European companies, which we believe will continue to drive significant transaction activity in the coming years. According to Invest Europe, the total equity amount invested in European companies increased 10% year-on-year to €94 billion in 2019—the highest level of investment ever recorded, with 27% of this investment directed into the ICT (information and communications technology) sector. According to Invest Europe, European venture capital investment reached €10.6 billion in 2019, reflecting 19% year-on-year growth and marking uninterrupted growth in that segment since 2013.

We believe that the EMEA Technology and Media industry, as part of the Global TMT industry, is in the midst of change, with deal activity fueled by a drive towards scale and consolidation, corporate portfolio

realignment and optimization, technological disruption and convergence. We believe Aurora Acquisition Corp. provides an ideal platform to take advantage of this potential deal flow.

Our management team and board of directors have significant experience in the EMEA Technology and Media industry and specifically in sourcing, acquiring, growing and monetizing these types of companies. We believe this experience makes us exceptionally well suited to identify, negotiate and successfully execute an initial business combination with the ultimate goal of generating attractive returns for our shareholders.

Business Combination Criteria

Consistent with our business strategy, we have developed the following criteria and guidelines that we believe are important in selecting the most attractive business combination target. We intend to use these guidelines, combined with our management team's experience and expertise, to methodically identify, filter and select our potential target companies. While we intend to utilize these criteria in evaluating business combination opportunities, we expect that no individual criterion will entirely determine a decision to pursue a particular investment opportunity. Further, we remain flexible to pursue any unique media and technology opportunity that may not meet one or more of these criteria.

Our detailed process and our strong deal-sourcing expertise and experience will allow us to assess potential EMEA Technology and Media target companies, from core network and traditional media assets to advanced technologies with momentum and showing potential for rapid acceleration. We will capitalize on the experience and internal resources of our management team and board, who are active in the EMEA Technology and Media sectors to identify potential target companies based on size and progress towards a tailwind product or service. We will delineate between capital-intensive and capital-light, i.e., software prospects that are accessible through primary relationships or approachable through our vast network of professional contacts.

Together, our management team and board and sponsor are in a strong position to attract a large pool of potential target companies from which they can select the best investment opportunities. Characteristics and attributes of the companies we will see to target include:

- attractive market and competitive dynamics;
- compelling long-term growth prospects;
- leadership in technology driven transformation;
- high barriers to entry for new entrants;
- low or manageable risks of technological obsolescence;
- defensible position in intellectual property;
- strong recurring revenues;
- attractive steady-state margins;
- high incremental margins;
- favorable environmental, social and corporate governance characteristics;
- opportunities for operational improvement; and
- opportunities for further consolidation.

These criteria and characteristics are not intended to be exhaustive. Any evaluation relating to the merits of a particular initial business combination may be based, to the extent relevant, on these general guidelines as well as other considerations, factors and criteria that our management team may deem relevant. In the event that we find an opportunity that has characteristics more compelling to us than the characteristics described above, we would pursue such opportunity.

Our Team

Our team's combined experience, networks, and long-standing relationships will provide valuable access to the highest quality technology companies and will produce unique insights and opportunities for

growth and value creation. Our management team is also well-positioned to identify and execute a business combination as a preferred partner to a high-quality technology or media company.

Our team has a unique breadth of experience in a variety of sub-sectors within the TMT industry, with a wealth of experience in working together, collaboratively and with success both with each other and other external partners. Each member brings a different perspective, skill set and track record of involvement in high value, successful investments.

Our management team will be led by the Chairman of our board of directors, Thor Björgólfsson. Mr. Björgólfsson's strong telecommunications pedigree and history of investment success across EMEA Media and Technology, through his decade of experience in founding and leading of Novator to becoming the pre-eminent investor in TMT in Europe and Latin America, is complemented by Mr. Massenet, who has a strong track record of founding, operating and investing in technology companies.

Mr. Massenet is our chief executive officer. He co-founded online fashion e-commerce platform, Net-a-Porter (1999 – 2015), over two decades ago, largely self-financing the business together with Compagnie Financière Richemont S.A., or Richemont Group. He was an active board member for more than 10 years, involved in important strategic decisions including creation of the Outnet.com, Mr. Porter, Porter Magazine, finally culminating in a 2-step sale in 2010 and 2015 to the Richemont Group. In addition, Mr. Massenet is the chairman and Founder of Grip, an artificial intelligence company specializing in organizing virtual conferences for corporates and match making for exhibitors. He is also the chief executive officer and director of De Pury Ltd., an online platform for contemporary culture and auctions of contemporary art.

Mr. Narasimhan will contribute as our chief investment officer, leveraging his experience facilitating complex mergers and acquisitions transactions and as a deal sourcer and investment advisor for his clients. As chief executive officer of Novator Capital, a \$750 million alternative investment firm backed by Mr. Björgólfsson focused on investing in listed and soon-to-be listed media and technology companies, Mr. Narasimhan continues to source, structure, diligence, negotiate and execute mergers and acquisitions transactions globally and is a key member of the Investment Committee of Novator Capital.

Mr. Narasimhan's track record advising alternative investment firms, family offices and private equity funds on global multi-billion mergers and acquisitions transactions, in addition to his recent experience as chief executive officer of Novator Capital, will provide key support to the management team.

In turn, Ms. Harding joins the management team as our chief financial officer, drawing on her wealth of experience as chief financial officer of Weybourne, Sir James Dyson's single family office, which was responsible for a multi-billion pound portfolio which included the James Dyson Group Ltd. Ms. Harding was a director of eleven Weybourne related companies, including the overall holding company responsible for Group strategy and investments.

On the deal sourcing and execution side of our management team, Mr. Narasimhan and Ms. Harding offer key experience identifying, negotiating and executing business combinations with the goal of generating attractive returns for investors.

Each member of our management team has experience relevant to our business strategy. Our management team has deep operational experience, as well as experience in identifying underlying technology trends, recognizing how and when a business is positioned for growth, and understanding the organizational and product optimizations needed to execute successfully.

They are supported and complemented by a director team steeped in operational and investment experience and excellence, which includes Mr. Edelstein, Ms. Desai and Mr. Mittal, each of whom brings a different perspective of the media industry.

Mr. Edelstein is a former president of NBCUniversal International Studios, where he helped build the international studio into a respected content player in the international market producing premium television shows for global audiences including Downton Abbey. During his tenure, the division created more than 1,100 hours of original content and garnered numerous awards including 18 Emmys, three Golden Globes and six BAFTAS.

Ms. Desai brings strategic, operating and financial experience in the global media industry as principal in Apax Partners, as group chief operating officer and chief executive officer of emerging markets at FremantleMedia and as chief operating officer of Hit Entertainment. Ms. Desai is an experienced executive, and currently serves on a number of listed and private company boards globally. She is currently the chairman of Mopar Media and is a non-executive director on the boards of OSN and Ocean Outdoor.

Mr. Mittal joins the investment side of our director team, bringing a strong track record of investing in technology and telecommunications companies worldwide. Mr. Mittal has a wealth of experience in the telecommunications and technology sectors through his position as Founder of Unbound, and a director of Bharti Global, the Bharti family office. Through these positions, Mr. Mittal has extensive investing experience across the telecommunications, technology, energy and hospitality sectors.

We have a strong sponsor, Novator Capital Sponsor Ltd., which forms part of Novator Partners LLP, or Novator, of which Mr. Björgólfsson, the chairman of our board of directors, is founder. Our sponsor will provide us with valuable strategic, operational, product management, analytical, financial, transactional, communications, legal, and other expertise and networks that we will leverage as we seek to identify and execute a business combination and drive future value for the combined business.

Novator is an alternative investment firm founded by Mr. Björgólfsson in 2004, specializing in investing in companies that have the potential to disrupt markets across the global telecommunications, media and technology industries, or Global TMT Industry. As of November 2019, Novator had approximately €3 billion of assets under management. Through its private capital, deep sector experience and strong track record, Novator has generated growth and returns from recognizing unique market opportunities.

Novator focuses on developing strong management teams in each of its portfolio companies and while granting them the autonomy to create value, maintains a supervisory role, principally through representation on the boards of its portfolio companies. Accordingly, Novator has an investment model and track record which we believe is well-suited to a “special purpose acquisition” company. Novator differentiates itself from many other private equity companies or investment firms in concentrating on complex situations, either by virtue of their structure or their cross-border nature. To create value, Novator undertakes the restructuring or “de-risking” of investment opportunities through re-financing, combining acquired assets with existing businesses, through sale to strategic or financial buyers, or through public listing.

Geographically, Novator has a history of identifying opportunities in underserved markets that other firms typically shy away from. Novator’s longstanding approach is to back local management teams in building dynamic challenger brands, or to build new companies with its own teams, hand-picked for their operational excellence. Novator is an active, engaged and knowledgeable investor with a flexible approach to driving value for all stakeholders.

Novator’s current portfolio includes investments in telecommunications operators WOM S.A., or WOM (Chile, Colombia), Nova (Iceland) hf., media and technology companies such as Food Tech company Deliveroo, Artificial Intelligence company Play Fusion Ltd., global multiplayer video game company Zwift Inc., or Zwift, technology company Stripe Inc., among others. Novator’s successful track record of exits includes telecommunications operators TurkNet İletişim Hizmetleri A.Ş. in Turkey, Netia S.A., or Netia, in Poland, Elisa Corp. in Finland, Forthnet S.A. in Romania, Bulgarian Telecommunications EAD d/b/a Vivacom, PLAY Communications S.A., or PLAY, in Poland, Be.Live Studios Ltd., video game company CCP hf., or CCP, and cloud software company Greencloud ehf.

Novator has its operative headquarters in London, with additional offices in Luxembourg, Switzerland, Iceland and Cyprus.

During 2020, Mr. Björgólfsson launched a new division of Novator, Novator Capital Advisors LLP, or Novator Capital, of which our Chief Investment Officer and Head of Legal, Mr. Prabhu Narasimhan, is chief executive officer.

Mr. Björgólfsson (through Novator Capital), Mr. Massenet and Mr. Narasimhan are each expected to provide co-investment in our equity and provide “at-risk capital”. In total, our sponsor, directors and executive officers will be providing \$35 million in the aggregate in respect of the Novator private placement units and \$6 million in respect of the private placement warrants.

Novator Capital expects to meaningfully grow its asset portfolio over the next year. Novator Capital was formed by three partners, two of which are Mr. Björgólfsson (as chairman and founder) and Mr. Narasimhan (as chief executive officer). Novator Capital forms a new division of Novator and operates independently of it, while having the same back office support (in-house tax, treasury, finance and legal teams) across the Novator office network available to it.

Our Operating Experience

Our management team has a breadth of operating experience and this is perhaps best illustrated by two key case studies which our key members of the management team, were at the forefront of.

One such case study is Novator's acquisition and exit process of PLAY, a leading telecommunications company in Poland. In 2005, Novator, acquired PLAY by approaching a minority local partner, Netia, to form a company called P4 Ltd., or P4, owned 70 percent by Novator and 30 percent by Netia, which was successful in an auction for a polish 3G license. In 2007, Novator launched PLAY as a brand and network, to become the fourth mobile operator in Poland, competing against the multinational telecommunications companies, T-Mobile and Orange, as well as Plus Communications Ltd., then owned by Vodafone Group Plc and TeleDanmark Communications A/S, and subsequently sold to a local entrepreneur, Mr. Zygmunt Solorz-Żak.

Over the next four years and led by Novator, through innovation and effective execution of key strategies, PLAY quickly scaled up to gain a significant market share. Key strategic steps taken included the introduction, by Novator, of Greek entrepreneur Mr. Panos Germanos, through his investment group, Olympia Group Ltd., or Olympia, as a third investor in P4, by buying his mobile phone retailer in Poland, thus adding 400 retail shops to PLAY's footprint. Novator subsequently bought out local partner Netia later in 2007, leaving PLAY majority owned by Novator. In January 2009, PLAY essentially became a joint venture between Novator and Olympia, as PLAY was moving from being a start-up to being an established Polish operator.

In 2017, through further investment from Novator and debt funding (organized by Novator), PLAY became a leading operator in Poland, creating conditions for a successful initial public offering. Accordingly, in July of 2017 PLAY launched an initial public offering on the Warsaw Stock Exchange with market capitalization of €2.2 billion and enterprise value of €3.9 billion, and distributed in excess of €330 million in dividends to its shareholder over the following three years.

During 2020, Novator fully exited PLAY, selling its remaining stake to Iliad S.A., who had launched a tender offer for 100% of PLAY in September 2020, valuing the company at €2.2 billion equity value and enterprise value of €3.5 billion.

Our second key case study is in relation to Net-a-Porter, which was co-founded by Mr. Massenet. In 1999, largely financed by himself and the Richemont Group. By co-founding Net-a-Porter, Mr. Massenet sought to change industry behavior through key innovative practices which included:

- convincing fashion brands to change their distribution channels and move these online;
- establishing a market place by changing global consumer behavior such that consumers could buy items online without touching or trying such products;
- achieving major luxury group endorsement—Mr. Massenet achieved this through ensuring investment from the Richemont Group from launch; and
- achieving “white label” status—many luxury brands awarded online exclusivity to Net-a-Porter against their website's design.

Through these practices, Net-a-Porter was able to establish a successful business model whereby:

- it was the first pure online retailer with full control of inventory;
- it built global logistics, warehouses in Hong Kong, New-York, UK, China; and
- it provided full customer check-out options including import/export taxes globally since 2000.

Through these key practices, Net-a-Porter became a revolutionary operator within its sector, such that it created award winning ventures and led to an eventual two step sale to the Richemont Group. The first step taking place in 2010, orchestrated by Mr. Massenet, with him also negotiating the remaining package for the Massenet Family until 2015, at which point the second stage sale took place.

Investor returns from the Net-a-Porter investment were impressive, with each exit delivering significant returns, amounting to many multiples of the original investment, to investors. Following Mr. Massenet's exit, the Richemont Group listed and then subsequently de-listed Net-a-Porter from listing on the Milan Stock Exchange before agreeing to a joint venture in Asia with AliBaba Group Holding Ltd. The valuation of Net-a-Porter was approximately \$5 billion at its de-listing in 2018—a testament to the innovation and operative skills of Mr. Massenet.

Additionally, through our affiliation with Novator both through our sponsor and founder, we can draw on a great deal of investment experience in the TMT space. Founded in 2004 by our Chairman, Mr. Björgólfsson, Novator specializes in investing in companies that have the potential to disrupt markets across the TMT Industry. Through its private capital, deep sector experience and strong track record, Novator has generated growth and returns from recognizing uncommon market opportunities.

Geographically, Novator has a history of identifying opportunities in underserved markets that other firms typically shy away from. Novator's longstanding approach is to back local management teams in building dynamic challenger brands, or to build new companies with its own teams, hand-picked for their operational excellence. Novator is an active, engaged and knowledgeable investor with a flexible approach to driving value for all of our stakeholders.

Some key examples of successful investments by Novator include:

- WOM: WOM Chile: the acquisition of Nextel Chile in 2015, which was rebranded to WOM, and subsequent development to a 6 million subscriber business. In 2019, revenues generated were calculated at approximately 505 billion Chilean Pesos (approximately \$689 million) with a workforce of approximately 1,500. WOM is expected to expand its operations further in Latin America with the launch of WOM Colombia following Novator's acquisition of Avflowantel SA in Colombia;
- Zwift: an initial investment by Novator in Zwift (a multiplayer online cycling and running physical training platform) in November 2016, followed by further participation in a Series B funding round of approximately \$120 million. Since launching in 2015, Zwift has seen over 2.5 million accounts registered across 190 countries. The current valuation of Zwift exceeds \$1 billion as of September 2020;
- Klang Ltd., or Klang: a Berlin based game studio which built a popular multiplayer online game called Seed. It was founded in Berlin in 2013 before an investment therein was made by Novator in 2017. Novator led future funding rounds raising a total of \$22.3 million from investors including Lego Ventures. A member of the Novator team was appointed as Chairman of the board and with support from Novator, Klang raised \$37 million by 2019. Klang is currently valued at approximately \$120 million as of August 2019 based on the midpoint of the estimated valuation range; and
- CCP: an interactive entertainment company which built two successful virtual reality games EVE: Valkyrie and Gunjack. CCP was founded in Iceland in 1997 with Novator's initial investment made in 2015. Novator participated in further funding rounds to bolster the production of virtual reality content. In 2018, CCP was sold to a South Korean games studio, Pearl Abyss Corp., for \$425 million. The board of CCP was led by a member of the Novator team since 2005.

Our Investing, Advising, and Board Experience

Members of our management team have extensive experience as investors in and board members of companies at various stages of their journeys. They have worked with chief executive officers, founders, and boards as long-term partners to help them build out and execute their visions, invest for long-term growth, and drive shareholder value.

Examples of investment experience include an investment by Novator in Zwift, a multiplayer online cycling and running physical training platform which enables users to interact, train and compete in a

virtual world founded in California in 2014. In November 2016, Novator led a funding round, whereby it invested \$27 million in Zwift. Total funding at this stage was \$44 million, reflecting Novator's early investment. In 2018, Novator participated in a Series B funding round of approximately \$120 million. The purposes of such funding was to invest in a new running discipline and expanding into the burgeoning e-sports market. At this time, 2016, a partner within Novator Partners, joined the board of Zwift (and is a current board member) to assist in guiding the company.

In September 2020, Zwift announced a \$450 million minority investment to be used to accelerate the development of Zwift's core software platform and bring Zwift-designed hardware to market, making Zwift a more immersive and seamless experience for users. Since launching in 2015, Zwift has seen over 2.5 million accounts registered across 190 countries, positioning Zwift as a global leader in the at-home connected fitness market. Zwift's prominence has increased significantly in 2020 as many turned to the platform to provide not just a fitness solution but also a means to help them maintain their social connections by joining Zwift's vibrant community who work out together online. Zwift has also led the way in a new category of physically-powered e-sports, hosting a number of professional events including the first Virtual Tour de France in July, an event broadcast to over 130 countries worldwide that saw the world's best male and female professional cyclists compete. Later this year, Zwift will be the host platform for the inaugural UCI Cycling E-sports World Championships.

The valuation of Zwift as of September 2020 exceeded \$1 billion, demonstrating Novator's ability, led by Mr. Björgólfsson, the Chairman of our board of directors, to identify a target, assist with its growth, provide key management experience and assist lead it to unparalleled growth.

Noting that all blank check companies require management and a board of directors to be able to identify, negotiate and successfully execute an initial business combination with the ultimate goal of generating attractive returns for their shareholder, our team has a strong track record in advising and managing a variety of companies in a variety of sectors.

Mr. Narasimhan, in his role as a lawyer with over 15 years of experience at three global law firms (and as partner in two of them) advising alternative investment firms, family offices and private equity funds on global multi-billion mergers and acquisitions transactions, will provide key and sound advice, both from a commercial and legal perspective, drawing on his many years of advising multi-billion family offices and private equity house on all transactional aspects (mergers and acquisitions, bank finance, tax, structuring and execution) of their investments.

Supporting Mr. Narasimhan and the wider team, Ms. Harding and Ms. Desai will draw upon their respective experiences as chief financial officer and directors of a variety of boards for companies in a variety of sectors.

Ms. Harding has notable experience as chief financial officer for Weybourne, Sir James Dyson's family office, where she was a member of a team that oversaw a multi-billion pound portfolio which included the James Dyson Group. During this time, Ms. Harding served as a director of eleven Weybourne Group related entities, which included the overall holding company responsible for group strategy and investments. Ms. Harding was the senior accounting officer for Weybourne Group and the compliance and anti-money laundering officer for the Financial Conduct Authority regulated subsidiary. For the 9 years prior to acting for Weybourne, Ms. Harding was its chief financial officer and director of Exploration Capital for five of her nine years with the company. Exploration Capital is a single family office, which manages a diversified global investment portfolio with a particular focus on agricultural and development land in Latin America. Ms. Harding was simultaneously chief financial officer of one of the portfolio companies, a high performance engineering business, Gilo, and successfully re-structured the accounting and reporting systems.

Ms. Desai is an experienced executive, and currently serves on number of listed and private boards globally. She is currently the chairman of Mopar Media and is a non-executive director on the boards of OSN and Ocean Outdoor. Her most recent executive experience was as group chief operating officer and chief executive officer of emerging markets at FremantleMedia, and prior to that as chief operating officer of Hit Entertainment.

Not all of the companies in which our team has invested have achieved the same level of value creation. Past performance by any member or members of our management team, any of their respective affiliates, or

Novator Capital is not a guarantee either (1) that we will be able to identify a suitable candidate for our initial business combination or (2) of success with respect to any business combination we may consummate. You should not rely on the historical record of any member or members of our management team, any of their respective affiliates, or Novator Capital, or any related investment's performance, as indicative of the future performance of an investment in our Company or the returns our company will, or is likely to, generate going forward.

Industry Opportunity

Media and content consumption have been on the rise over the past years, changing the way individuals and businesses behave and consume products and services. The primary drivers of this change are related to a number of self-reinforcing trends taking place in the technology and telecommunications sector, making access to internet easier, more mobile, and more ubiquitous. Specifically, the sharp rise in the use of smartphones and other smart and connected devices, such as connected TVs, set-top-boxes and gaming consoles, has led to more content being created for these devices, more usage and consequentially more network traffic. Each year, new devices with increased capabilities are introduced and adopted in the market. In turn, telecommunications operators and internet service providers have and are taking advantage of technologies such as 4G, 5G and fiber-to-the-home access, in order to offer end-users increasingly higher broadband speeds.

We expect these mega-trends to continue and that the traditional distinctions among telecommunications, technology and media will continue to blur, driven by consumers' increasing need for connectivity. We believe there are deep synergies driving this convergence as telecommunications infrastructure, technological platforms and applications, and media content and entertainment become ever-more inter-dependent. For example, as consumers upgrade to newer and more advanced mobile devices with higher bandwidth speeds and improved security capabilities, they dramatically expand their use of new digital technologies such as telemedicine and video conferencing. Consumers are also utilizing a greater variety of media formats, such as social media, marketplaces and e-commerce, video streaming, non-linear video, interactive content and cloud/social gaming. The COVID-19 pandemic has further accelerated the shift to online and mobile shopping and content consumption, including in previously underpenetrated segments of the population. Finally, the expansion and increased sophistication of the digital ecosystem are introducing new challenges and opportunities for hardware and software technology companies to optimize and deliver converged solutions to both B2B and B2C users.

Our management team's objective is to generate attractive returns and create value for our shareholders by identifying attractive investment opportunities that could benefit from the addition of capital, management expertise, industry know-how and strategic insight. We expect to leverage the operational expertise and extensive sector knowledge of our management team and board of directors to identify and complete our initial business combination with a quality company that fits our criteria for value creation through our involvement. Based on our core competencies to target companies that leverage catalysts in the marketplace for superior growth, we believe that we can generate attractive returns for our shareholders.

Our acquisition strategy will focus broadly on the EMEA Technology and Media sectors with an emphasis on companies that have the potential to disrupt markets across these industries.

We intend to focus on both the media and the technology sectors, both of which are broad in scope. While we do not have a specific and committed sub-sector for a future investment, we find that the following select sub-segments of the EMEA Technology and Media industry are examples of areas benefitting from strong underlying trends, have a good fit within the broader convergence theme of telecommunications, media and technology and where we are able to leverage our leadership team's experience, including the following:

- E-Commerce: online market place, advertising technology;
- Social Media: matchmaking/AI, social platforms;
- Gaming: video, mobile and online gaming;
- Streaming: companies in the music and/or sport industry ecosystem;
- Content: visual graphics;

- Hardware: extended reality—AR/VR, communications infrastructure;
- B2B Software: big data applications, Operating Support Systems, security/cybersecurity; and
- Consumer Software: visualisation technology, mobility and auto technology.

We intend to source initial business combination opportunities by utilizing our management team's, board of directors' and sponsor's extensive networks and relationships with top venture firms looking to efficiently scale their winning portfolio companies and partner with private equity firms looking to build further business value in the EMEA Technology and Media sectors. We expect that a universe of potential targets will be identified through a series of criteria to filter the most attractive and actionable opportunities in our available time horizon. This universe is supplemented by the network that we collectively and uniquely possess from years of experience developing relationships with the C-suite of our generation, other EMEA Technology and Media investors and family offices. This is coupled with our team's substantial deal experience, where they have worked cooperatively with targets and companies to develop and execute financings on a primary and secondary basis, using different parts of the capital structure and financial structuring to support dividend recapitalizations and other corporate financing strategies to drive the returns of stakeholders.

Competitive Strengths

We anticipate offering the following benefits to our business combination partner:

- Partnership with our management team members who have extensive and proven track records of founding, scaling, operating, advising and investing in market-leading TMT companies;
- Access to our network of leading industry executives, entrepreneurs, and investors;
- Increased company profile and visibility with customers and preferred vendor relationships;
- Infusion of cash and ongoing access to public capital markets;
- Listed public currency for future acquisitions and growth;
- Ability for management to retain control and focus on growing the business; and
- Opportunity to motivate and retain employees using share-based compensation.

In offering these benefits to our business combination partner, we intend to leverage the following sources of competitive strengths in seeking to achieve our business strategy:

- Management team's industry knowledge and contacts;
- Deal flow sourcing and business development resources available from our sponsor and its affiliates;
- Management team's experience and reputation in sourcing opportunities;
- Extensive relationships within the private equity community (a potential source of deal flow);
- Management team's demonstrated ability to create value for their shareholders; and
- Strong track record of operational excellence.

Our key differentiators, therefore, when compared to other special purpose acquisition companies for any business combination partner and investor, include:

- the key support we will have from our sponsor as a member of the Novator group of companies, backed by our Chairman, Mr. Björgólfsson;
- a management team with a breadth of experience in their own key sub-sectors but with clear alignment as to how the success of our Company is to be achieved; and
- clarity of focus on targeted sectors with a renowned and experienced founders, alongside a management team formed of market-leading entrepreneurs in the TMT sectors combined with leaders in professional services with a longstanding track record of diligencing, negotiating and executing global multi-billion dollar mergers and acquisitions transactions.

Sourcing of Potential Business Combination Targets

We believe our management team's significant operating and transaction experience and relationships will provide us with a substantial number of potential initial business combination targets. Over the course of their careers, the members of our management team have developed a broad network of contacts and corporate relationships around the world. This network has grown through the activities of our management team sourcing, acquiring and financing businesses, the reputation of our management team for integrity and fair dealing with sellers, financing sources and target management teams and the experience of our management team in executing transactions under varying economic and financial market conditions.

This network has provided our management team with a flow of referrals that has resulted in numerous transactions which were proprietary or where a limited group of investors were invited to participate in the sale process. We believe that the network of contacts and relationships of our management team will provide us important sources of investment opportunities. In addition, we anticipate that target business combination candidates will be brought to our attention from various unaffiliated sources, including investment market participants, private equity funds and large business enterprises seeking to divest non-core assets or divisions.

We are not prohibited from pursuing an initial business combination with a company that is affiliated with our sponsor, executive officers or directors, or completing the business combination through a joint venture or other form of shared ownership with our sponsor, executive officers or directors. In the event we seek to complete an initial business combination with a target that is affiliated with our sponsor, executive officers or directors, we, or a committee of our independent directors, would obtain an opinion from an independent investment banking firm or an independent accounting firm that such an initial business combination is fair to our Company from a financial point of view.

Members of our management team and our independent directors will directly or indirectly own founder shares, units and/or private placement warrants following this offering and, accordingly, may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination. Further, each of our executive officers and directors may have a conflict of interest with respect to evaluating a particular business combination if the retention or resignation of any such executive officers and directors was included by a target business as a condition to any agreement with respect to our initial business combination.

While they are not required to commit their full time to our affairs, both our Chief Executive Officer, Mr. Massenet, and our Chief Investment Officer, Mr. Narasimhan, expect to commit a significant amount of their working time to our Company. Our executive officers are not obligated to contribute any specific number of hours per week to our affairs. Our independent directors also serve as executive officers and board members for other entities. If our executive officers' and directors' other business affairs require them to devote substantial amounts of time to such affairs in excess of their current commitment levels, it could limit their ability to devote time to our affairs which may have a negative impact on our ability to complete our initial business combination. In addition to their time, Mr. Björgólfsson (through Novator Capital), Mr. Massenet and Mr. Narasimhan are each expected to provide co-investment in our equity and provide "at-risk capital". In total, our sponsor and certain of our directors and executive officers will be providing \$35 million in respect of the Novator private placement units and \$6 million in respect of the private placement warrants.

Each of our executive officers and directors presently has, and any of them in the future may have additional, fiduciary or contractual obligations to another entity pursuant to which such executive officer or director is or will be required to present a business combination opportunity to such entity. Accordingly, if any of our executive officers or directors becomes aware of a business combination opportunity which is suitable for an entity to which he or she has then current fiduciary or contractual obligations, he or she will honor his or her fiduciary or contractual obligations to present such business combination opportunity to such other entity, subject to their fiduciary duties under Cayman Islands law. Our directors and executive officers are also not required to commit any specified amount of time to our affairs, and, accordingly, will have conflicts of interest in allocating management time among various business activities, including identifying potential business combinations and monitoring the related due diligence. Our amended and restated memorandum and articles of association provide that, to the fullest extent permitted by applicable

law: (i) no individual serving as a director or an executive officer shall have any duty, except and to the extent expressly assumed by contract, to refrain from engaging directly or indirectly in the same or similar business activities or lines of business as us; and (ii) we renounce any interest or expectancy in, or in being offered an opportunity to participate in, any potential transaction or matter which may be a corporate opportunity for any director or executive officer, on the one hand, and us, on the other. We do not believe, however, that the fiduciary duties or contractual obligations of our executive officers or directors will materially affect our ability to complete our initial business combination.

Our sponsor and our executive officers and directors may sponsor or form other special purpose acquisition companies similar to ours or may pursue other business or investment ventures during the period in which we are seeking an initial business combination. Any such companies, businesses or investments may present additional conflicts of interest in pursuing an initial business combination. However, we do not believe that any such potential conflicts would materially affect our ability to complete our initial business combination.

Structuring of our Business Combination

Nasdaq rules require that we must complete one or more business combinations having an aggregate fair market value of at least 80% of the value of the assets held in the trust account (excluding the deferred underwriting commissions and taxes payable on the interest earned on the trust account) at the time of our signing a definitive agreement in connection with our initial business combination. Our board of directors will make the determination as to the fair market value of our initial business combination. If our board of directors is not able to independently determine the fair market value of our initial business combination (including with the assistance of financial advisors), we will obtain an opinion from an independent investment banking firm or an independent accounting firm with respect to the satisfaction of such criteria. While we consider it unlikely that our board of directors will not be able to make an independent determination of the fair market value of our initial business combination, it may be unable to do so if it is less familiar or experienced with the business of a particular target or if there is a significant amount of uncertainty as to the value of the target's assets or prospects.

We anticipate structuring our initial business combination either (i) in such a way so that the post-transaction Company in which our public shareholders own shares will own or acquire 100% of the equity interests or assets of the target business or businesses, or (ii) in such a way so that the post-transaction Company owns or acquires less than 100% of such interests or assets of the target business in order to meet certain objectives of the target management team or shareholders, or for other reasons. However, we will only complete an initial business combination if the post-transaction Company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act. Even if the post-transaction Company owns or acquires 50% or more of the voting securities of the target, our shareholders prior to the initial business combination may collectively own a minority interest in the post-transaction Company, depending on valuations ascribed to the target and us in the initial business combination. For example, we could pursue a transaction in which we issue a substantial number of new shares in exchange for all of the outstanding capital stock, shares or other equity interests of a target. In this case, we would acquire a 100% controlling interest in the target. However, as a result of the issuance of a substantial number of new shares, our shareholders immediately prior to our initial business combination could own less than a majority of our outstanding shares subsequent to our initial business combination. If less than 100% of the equity interests or assets of a target business or businesses are owned or acquired by the post-transaction Company, the portion of such business or businesses that is owned or acquired is what will be taken into account for purposes of Nasdaq's 80% of net assets test. If the initial business combination involves more than one target business, the 80% of net assets test will be based on the aggregate value of all of the transactions and we will treat the target businesses together as the initial business combination for purposes of a tender offer or for seeking shareholder approval, as applicable.

Our principal executive offices are located at Ugland House, Grand Cayman, KY1-1104, Cayman Islands. Additionally, our sponsor has granted us office space at 20 North Audley Street, London, W1K 6LX.

We are a Cayman Islands exempted company. Exempted companies are Cayman Islands companies conducting business mainly outside the Cayman Islands and, as such, are exempted from complying with

certain provisions of the Companies Law. As an exempted company, we have applied for and received a tax exemption undertaking from the Cayman Islands government that, in accordance with Section 6 of the Tax Concessions Law (2018 Revision) of the Cayman Islands, for a period of 20 years from the date of the undertaking, no law which is enacted in the Cayman Islands imposing any tax to be levied on profits, income, gains or appreciations will apply to us or our operations and, in addition, that no tax to be levied on profits, income, gains or appreciations or which is in the nature of estate duty or inheritance tax will be payable (i) on or in respect of our shares, debentures or other obligations or (ii) by way of the withholding in whole or in part of a payment of dividend or other distribution of income or capital by us to our shareholders or a payment of principal or interest or other sums due under a debenture or other obligation.

Status as a Public Company

We believe our structure will make us an attractive business combination partner to target businesses. As an existing public Company, we offer a target business an alternative to the traditional initial public offering through a merger or other business combination with us. In a business combination transaction with us, the owners of the target business may, for example, exchange their shares of stock, shares or other equity interests in the target business for our Class A ordinary shares (or shares of a new holding company) or for a combination of our Class A ordinary shares and cash, allowing us to tailor the consideration to the specific needs of the sellers. We believe target businesses will find this method a more expeditious and cost effective method to becoming a public company than the typical initial public offering. The typical initial public offering process takes a significantly longer period of time than the typical business combination transaction process, and there are significant expenses, market and other uncertainties in the initial public offering process, including underwriting discounts and commissions, marketing and road show efforts that may not be present to the same extent in connection with a business combination with us.

Furthermore, once a proposed business combination is completed, the target business will have effectively become public, whereas an initial public offering is always subject to the underwriters' ability to complete the offering, as well as general market conditions, which could delay or prevent the offering from occurring or could have negative valuation consequences. Following an initial business combination, we believe the target business would then have greater access to capital, an additional means of providing management incentives consistent with shareholders' interests and the ability to use its shares as currency for acquisitions. Being a public company can offer further benefits by augmenting a company's profile among potential new customers and vendors and aid in attracting talented employees.

While we believe that our structure and our management team's backgrounds will make us an attractive business partner, some potential target businesses may view our status as a blank check company, such as our lack of an operating history and our ability to seek shareholder approval of any proposed initial business combination, negatively.

We are an "emerging growth company," as defined in the JOBS Act. We will remain an emerging growth company until the earlier of (1) the last day of the fiscal year (a) following the fifth anniversary of the completion of this offering, (b) in which we have total annual gross revenue of at least \$1.07 billion, or (c) in which we are deemed to be a large accelerated filer, which means the market value of our Class A ordinary shares that is held by non-affiliates exceeds \$700 million as of the prior June 30, and (2) the date on which we have issued more than \$1.0 billion in non-convertible debt during the prior three-year period.

Additionally, we are a "smaller reporting company" as defined in Item 10(f)(1) of Regulation S-K. Smaller reporting companies may take advantage of certain reduced disclosure obligations, including, among other things, providing only two years of audited financial statements. We will remain a smaller reporting company until the last day of the fiscal year in which (1) the market value of our ordinary shares held by non-affiliates exceeds \$250 million as of the prior June 30, or (2) our annual revenues exceeded \$100 million during such completed fiscal year and the market value of our ordinary shares held by non-affiliates exceeds \$700 million as of the prior June 30.

Financial Position

With funds available for a business combination initially in the amount of \$229,000,000 (assuming no redemptions and no over-allotment), after payment of \$7,000,000 of deferred underwriting fees (or

\$257,950,000 (assuming no redemptions) after payment of \$8,050,000 of deferred underwriting fees if the underwriters' over-allotment option is exercised in full), we offer a target business a variety of options such as creating a liquidity event for its owners, providing capital for the potential growth and expansion of its operations or strengthening its balance sheet by reducing its debt ratio. Because we are able to complete our initial business combination using our cash, debt or equity securities, or a combination of the foregoing, we have the flexibility to use the most efficient combination that will allow us to tailor the consideration to be paid to the target business to fit its needs and desires. However, we have not taken any steps to secure third party financing and there can be no assurance it will be available to us.

Effecting Our Initial Business Combination

General

We are not presently engaged in, and we will not engage in, any operations for an indefinite period of time following this offering. We intend to effectuate our initial business combination using cash from the proceeds of this offering, the Novator private placement units, the private placement warrants and possibly through debt or a combination of cash, equity and debt. We may seek to complete our initial business combination with a company or business that may be financially unstable or in its early stages of development or growth, which would subject us to the numerous risks inherent in such companies and businesses. If our initial business combination is paid for using equity or debt securities, or not all of the funds released from the trust account are used for payment of the consideration in connection with our initial business combination or used for redemptions of our Class A ordinary shares, we may use the balance of the cash released to us from the trust account following the closing for general corporate purposes, including for maintenance or expansion of operations of the post-transaction Company, the payment of principal or interest due on indebtedness incurred in completing our initial business combination, to fund the purchase of other companies or for working capital.

We have not selected any potential business combination target, and we have not, nor has anyone on our behalf, initiated any substantive discussions, directly or indirectly, with any potential business combination target with respect to an initial business combination with us. While we may pursue a business combination target in any business or industry, we intend to focus our search for a target with operations or prospects in the EMEA Technology and Media industry, including data analytics, enterprise software, security software, e-commerce and online marketplaces, and/or financial services technology. Accordingly, there is no current basis for investors in this offering to evaluate the possible merits or risks of the target business with which we may ultimately complete our initial business combination. Although our management will assess the risks inherent in a particular target business with which we may combine, we cannot assure you that this assessment will result in our identifying all risks that a target business may encounter. Furthermore, some of those risks may be outside of our control, meaning that we can do nothing to control or reduce the chances that those risks will adversely affect a target business.

We may seek to raise additional funds through a private offering of debt or equity securities in connection with the completion of our initial business combination, and we may effectuate our initial business combination using the proceeds of such offering rather than using the amounts held in the trust account. In addition, we intend to target businesses with enterprise values that are greater than we could acquire with the net proceeds of this offering, the Novator private placement units and private placement warrants, and, as a result, if the cash portion of the purchase price exceeds the amount available from the trust account, net of amounts needed to satisfy any redemptions by public shareholders, we may be required to seek additional financing to complete such proposed initial business combination. Subject to compliance with applicable securities laws, we would expect to complete such financing only simultaneously with the completion of our initial business combination. In the case of an initial business combination funded with assets other than the trust account assets, our proxy materials or tender offer documents disclosing the initial business combination would disclose the terms of the financing and, only if required by law, we would seek shareholder approval of such financing. There is no limitation on our ability to raise funds through the issuance of equity or equity-linked securities or through loans, advances or other indebtedness in connection with our initial business combination, including pursuant to private placement agreements or backstop agreements we may enter into following consummation of this offering. At this time, we are not a party to any arrangement or understanding with any third party with respect to raising any additional

funds through the sale of securities or otherwise. None of our sponsor, executive officers, directors or shareholders are required to provide any financing to us in connection with or after our initial business combination.

Sources of Target Businesses

We anticipate that target business candidates will be brought to our attention from various unaffiliated sources, including investment bankers, private investment funds and other members of the technology community. Target businesses may be brought to our attention by such unaffiliated sources as a result of being solicited by us through calls or mailings. These sources may also introduce us to target businesses in which they think we may be interested on an unsolicited basis, since many of these sources will have read this prospectus and know what types of businesses we are targeting. Our executive officers and directors, as well as their affiliates, may also bring to our attention target business candidates of which they become aware through their business contacts as a result of formal or informal inquiries or discussions they may have, as well as attending trade shows or conventions. In addition, we expect to receive a number of proprietary deal flow opportunities that would not otherwise necessarily be available to us as a result of the track record and business relationships of our executive officers and directors.

While we do not presently anticipate engaging the services of professional firms or other individuals that specialize in business acquisitions on any formal basis, we may engage these firms or other individuals in the future, in which event we may pay a finder's fee, consulting fee or other compensation to be determined in an arm's length negotiation based on the terms of the transaction. We will engage a finder only to the extent our management determines that the use of a finder may bring opportunities to us that may not otherwise be available to us or if finders approach us on an unsolicited basis with a potential transaction that our management determines is in our best interest to pursue. Payment of a finder's fee is customarily tied to completion of a transaction, in which case any such fee will be paid out of the funds held in the trust account. In no event, however, will our sponsor or any of our existing executive officers or directors, or any entity with which they are affiliated, be paid any finder's fee, consulting fee or other compensation by the Company prior to, or for any services they render in order to effectuate, the completion of our initial business combination (regardless of the type of transaction that it is).

In addition, commencing on the date of this prospectus, we will pay our sponsor \$10,000 per month for office space, utilities, secretarial and administrative support services provided to members of our management team. Any such payments prior to our initial business combination will be made from funds held outside the trust account. In order to finance transaction costs in connection with a business combination or for other matters, our sponsor or an affiliate of the initial shareholders or certain of our directors and officers may, but are not obligated to, loan our company funds as may be required. If we complete a business combination, we would repay these loans, without interest, out of the proceeds of the trust account released to us, or at the lender's discretion, up to a total of \$1,500,000 of such loans may be convertible (including loans made in connection with a business combination, the payment of offering expenses or otherwise) into warrants of the post-business combination entity at a price of \$1.50 per warrant. These warrants would be identical to the private placement warrants. Otherwise, these loans would be repaid only out of funds held outside the trust account. In the event that a business combination does not close, we may use a portion of proceeds held outside the trust account to repay these loans, but no proceeds held in the trust account would be used to repay these loans. Except for the foregoing, the terms of such loans, if any, have not been determined and no written agreements exist with respect to such loans.

Other than the foregoing, there will be no finder's fees, reimbursement, consulting fee, monies in respect of any payment of a loan or other compensation paid by us to our sponsor, executive officers or directors, or any affiliate of our sponsor or executive officers prior to, or in connection with any services rendered in order to effectuate, the consummation of our initial business combination (regardless of the type of transaction that it is).

We are not prohibited from pursuing an initial business combination with a company that is affiliated with our sponsor, executive officers or directors, or completing the business combination through a joint venture or other form of shared ownership with our sponsor, executive officers or directors. In the event we seek to complete an initial business combination with a target that is affiliated with our sponsor, executive officers or directors, we, or a committee of our independent directors, would obtain an opinion from an

independent investment banking firm or an independent accounting firm that such an initial business combination is fair to our Company from a financial point of view. We are not required to obtain such an opinion in any other context.

Evaluation of a Target Business and Structuring of Our Initial Business Combination

In evaluating a prospective target business, we expect to conduct a due diligence review which may encompass, among other things, meetings with incumbent management and employees, document reviews, interviews of customers and suppliers, inspection of facilities, as applicable, as well as a review of financial, operational, legal and other information which will be made available to us. If we determine to move forward with a particular target, we will proceed to structure and negotiate the terms of the business combination transaction.

The time required to select and evaluate a target business and to structure and complete our initial business combination, and the costs associated with this process, are not currently ascertainable with any degree of certainty. Any costs incurred with respect to the identification and evaluation of, and negotiation with, a prospective target business with which our initial business combination is not ultimately completed will result in our incurring losses and will reduce the funds we can use to complete another business combination. Our Company will not pay any consulting fees to members of our management team, or any of their respective affiliates, for services rendered to or in connection with our initial business combination.

Lack of Business Diversification

For an indefinite period of time after the completion of our initial business combination, the prospects for our success may depend entirely on the future performance of a single business. Unlike other entities that have the resources to complete business combinations with multiple entities in one or several industries, it is probable that we will not have the resources to diversify our operations and mitigate the risks of being in a single line of business. By completing our initial business combination with only a single entity, our lack of diversification may:

- subject us to negative economic, competitive and regulatory developments, any or all of which may have a substantial adverse impact on the particular industry in which we operate after our initial business combination, and
- cause us to depend on the marketing and sale of a single product or limited number of products or services.

Limited Ability to Evaluate the Target's Management Team

Although we intend to closely scrutinize the management of a prospective target business when evaluating the desirability of effecting our initial business combination with that business, our assessment of the target business's management may not prove to be correct. In addition, the future management may not have the necessary skills, qualifications or abilities to manage a public company. Furthermore, the future role of members of our management team, if any, in the target business cannot presently be stated with any certainty. The determination as to whether any of the members of our management team will remain with the combined company will be made at the time of our initial business combination. While it is possible that one or more of our directors will remain associated in some capacity with us following our initial business combination, it is unlikely that any of them will devote their full efforts to our affairs subsequent to our initial business combination. Moreover, we cannot assure you that members of our management team will have significant experience or knowledge relating to the operations of the particular target business.

We cannot assure you that any of our key personnel will remain in senior management or advisory positions with the combined company. The determination as to whether any of our key personnel will remain with the combined company will be made at the time of our initial business combination. Following a business combination, we may seek to recruit additional managers to supplement the incumbent management of the target business. We cannot assure you that we will have the ability to recruit additional managers, or that additional managers will have the requisite skills, knowledge or experience necessary to enhance the incumbent management.

Shareholders May Not Have the Ability to Approve Our Initial Business Combination

We may conduct redemptions without a shareholder vote pursuant to the tender offer rules of the SEC subject to the provisions of our amended and restated memorandum and articles of association. However, we will seek shareholder approval if it is required by law or applicable stock exchange rule, or we may decide to seek shareholder approval for business or other reasons.

Under Nasdaq's listing rules, shareholder approval would be required for our initial business combination if, for example:

- We issue ordinary shares that will be equal to or in excess of 20% of the number of our ordinary shares then outstanding (other than in a public offering);
- Any of our directors, officers or substantial shareholders (as defined by Nasdaq rules) has a 5% or greater interest (or such persons collectively have a 10% or greater interest), directly or indirectly, in the target business or assets to be acquired or otherwise and the present or potential issuance of ordinary shares could result in an increase in issued and outstanding ordinary shares or voting power of 5% or more; or
- The issuance or potential issuance of ordinary shares will result in our undergoing a change of control.

The Companies Law and Cayman Islands law do not currently require, and we are not aware of any other applicable law that will require, shareholder approval of our initial business combination.

Permitted Purchases and Other Transactions with Respect to our Securities

If we seek shareholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our sponsor, initial shareholders, directors, executive officers or their affiliates may purchase shares or public warrants in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination. There is no limit on the number of shares our initial shareholders, directors, executive officers or their affiliates may purchase in such transactions, subject to compliance with applicable law and Nasdaq rules. However, they have no current commitments, plans or intentions to engage in such transactions and have not formulated any terms or conditions for any such transactions. None of the funds in the trust account will be used to purchase shares or public warrants in such transactions. If they engage in such transactions, they will not make any such purchases when they are in possession of any material non-public information not disclosed to the seller or if such purchases are prohibited by Regulation M under the Exchange Act.

In the event that our sponsor, directors, executive officers or their affiliates purchase shares in privately negotiated transactions from public shareholders who have already elected to exercise their redemption rights, such selling shareholders would be required to revoke their prior elections to redeem their shares. We do not currently anticipate that such purchases, if any, would constitute a tender offer subject to the tender offer rules under the Exchange Act or a going-private transaction subject to the going-private rules under the Exchange Act; however, if the purchasers determine at the time of any such purchases that the purchases are subject to such rules, the purchasers will comply with such rules. The purpose of any such purchases of shares could be to (i) vote such shares in favor of the business combination and thereby increase the likelihood of obtaining shareholder approval of the business combination or (ii) to satisfy a closing condition in an agreement with a target that requires us to have a minimum net worth or a certain amount of cash at the closing of our initial business combination, where it appears that such requirement would otherwise not be met. The purpose of any such purchases of public warrants could be to reduce the number of public warrants outstanding or to vote such warrants on any matters submitted to the warrant holders for approval in connection with our initial business combination. Any such purchases of our securities may result in the completion of our initial business combination that may not otherwise have been possible. In addition, if such purchases are made, the public "float" of our Class A ordinary shares or public warrants may be reduced and the number of beneficial holders of our securities may be reduced, which may make it difficult to maintain or obtain the quotation, listing or trading of our securities on a national securities exchange.

Our sponsor, executive officers, directors and/or their affiliates anticipate that they may identify the shareholders with whom our initial shareholders, executive officers, directors or their affiliates may pursue privately negotiated purchases by either the shareholders contacting us directly or by our receipt of redemption requests submitted by shareholders (in the case of Class A ordinary shares) following our mailing of proxy materials in connection with our initial business combination. To the extent that our sponsor, executive officers, directors or their affiliates enter into a private purchase, they would identify and contact only potential selling shareholders who have expressed their election to redeem their shares for a pro rata share of the trust account or vote against our initial business combination, whether or not such shareholder has already submitted a proxy with respect to our initial business combination but only if such shares have not already been voted at the general meeting related to our initial business combination. Our sponsor, executive officers, directors or any of their affiliates will select which shareholders to purchase shares from based on a negotiated price and number of shares and any other factors that they may deem relevant, and will only purchase shares if such purchases comply with Regulation M under the Exchange Act and the other federal securities laws. Our sponsor, executive officers, directors and/or their affiliates will not make purchases of shares if the purchases would violate Section 9(a)(2) or Rule 10b-5 of the Exchange Act. Any such purchases will be reported pursuant to Section 13 and Section 16 of the Exchange Act to the extent such purchasers are subject to such reporting requirements.

Redemption Rights for Public Shareholders Upon Completion of Our Initial Business Combination

We will provide our public shareholders and holders of the Novator private placement shares with the opportunity to redeem all or a portion of their Class A ordinary shares upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account calculated as of two business days prior to the consummation of the initial business combination, including interest earned on the funds held in the trust account and not previously released to us to pay our taxes, divided by the number of then outstanding public shares, subject to the limitations and on the conditions described herein. The amount in the trust account is initially anticipated to be \$10.00 per public share and per Novator private placement share. The per share amount we will distribute to investors who properly redeem their shares will not be reduced by the deferred underwriting commissions we will pay to the underwriters. Our initial shareholders, sponsor, directors and executive officers have entered into a letter agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to their founder shares, Novator private placement shares, private placement warrants and any public shares they may hold in connection with the completion of our initial business combination.

Limitations on Redemptions

Our amended and restated memorandum and articles of association provide that in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 upon consummation of our initial business combination and after payment of deferred underwriters' commissions (so that we are not subject to the SEC's "penny stock" rules) or any greater net tangible asset or cash requirement that may be contained in the agreement relating to our initial business combination. For example, the proposed business combination may require: (i) cash consideration to be paid to the target or its owners, (ii) cash to be transferred to the target for working capital or other general corporate purposes or (iii) the retention of cash to satisfy other conditions in accordance with the terms of the proposed business combination. In the event the aggregate cash consideration we would be required to pay for all Class A ordinary shares that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed business combination exceed the aggregate amount of cash available to us, we will not complete the business combination or redeem any shares, and all Class A ordinary shares submitted for redemption will be returned to the holders thereof.

Manner of Conducting Redemptions

We will provide our public shareholders with the opportunity to redeem all or a portion of their Class A ordinary shares upon the completion of our initial business combination either (i) in connection with a general meeting called to approve the initial business combination or (ii) by means of a tender offer. The decision as to whether we will seek shareholder approval of a proposed initial business combination or conduct a tender offer will be made by us, solely in our discretion, and will be based on a variety of

factors such as the timing of the transaction and whether the terms of the transaction would require us to seek shareholder approval under the law or stock exchange listing requirement. Under Nasdaq rules, asset acquisitions and share purchases would not typically require shareholder approval while direct mergers with our Company where we do not survive and any transactions where we issue more than 20% of our outstanding ordinary shares or seek to amend our amended and restated memorandum and articles of association would require shareholder approval. If we structure an initial business combination with a target company in a manner that requires shareholder approval, we will not have discretion as to whether to seek a shareholder vote to approve the proposed initial business combination. We may conduct redemptions without a shareholder vote pursuant to the tender offer rules of the SEC unless shareholder approval is required by law or stock exchange listing requirements or we choose to seek shareholder approval for business or other legal reasons. So long as we obtain and maintain a listing for our securities on Nasdaq, we will be required to comply with such rules.

If a shareholder vote is not required and we do not decide to hold a shareholder vote for business or other legal reasons, we will, pursuant to our amended and restated memorandum and articles of association:

- conduct the redemptions pursuant to Rule 13e-4 and Regulation 14E of the Exchange Act, which regulate issuer tender offers, and
- file tender offer documents with the SEC prior to completing our initial business combination which contain substantially the same financial and other information about the initial business combination and the redemption rights as is required under Regulation 14A of the Exchange Act, which regulates the solicitation of proxies.

Upon the public announcement of our initial business combination, we or our sponsor will terminate any plan established in accordance with Rule 10b5-1 to purchase our Class A ordinary shares in the open market if we elect to redeem our public shares through a tender offer, to comply with Rule 14e-5 under the Exchange Act.

In the event we conduct redemptions pursuant to the tender offer rules, our offer to redeem will remain open for at least 20 business days, in accordance with Rule 14e-1(a) under the Exchange Act, and we will not be permitted to complete our initial business combination until the expiration of the tender offer period. In addition, we will not redeem any public shares unless our net tangible assets will be at least \$5,000,001 either immediately prior to or upon consummation of our initial business combination and after payment of underwriters' fees and commissions (so that we are not subject to the SEC's "penny stock" rules) or any greater net tangible asset or cash requirement which may be contained in the agreement relating to our initial business combination. If public shareholders tender more shares than we have offered to purchase, we will withdraw the tender offer and not complete the initial business combination.

If, however, shareholder approval of the transaction is required by law or stock exchange listing requirement, or we decide to obtain shareholder approval for business or other legal reasons, we will, pursuant to our amended and restated memorandum and articles of association:

- conduct the redemptions in conjunction with a proxy solicitation pursuant to Regulation 14A of the Exchange Act, which regulates the solicitation of proxies, and not pursuant to the tender offer rules, and
- file proxy materials with the SEC.

In the event that we seek shareholder approval of our initial business combination, we will distribute proxy materials and, in connection therewith, provide our public shareholders with the redemption rights described above upon completion of the initial business combination.

If we seek shareholder approval, we will complete our initial business combination only if a majority of the outstanding ordinary shares voted are voted in favor of the initial business combination. A quorum for such meeting will consist of the holders present in person or by proxy of the outstanding shares of our Company representing a majority of the voting power of all outstanding shares of our Company entitled to vote at such meeting. Our initial shareholders and holders of Novator private placement shares will count toward this quorum and pursuant to the letter agreement, our initial shareholders, sponsor, directors and executive officers have agreed to vote their founder shares, Novator private placement shares and any public

shares purchased during or after this offering (including in open market and privately negotiated transactions) in favor of our initial business combination. For purposes of seeking approval of the majority of our outstanding ordinary shares voted, non-votes will have no effect on the approval of our initial business combination once a quorum is obtained. As a result, in addition to our initial shareholders' founder shares and the Novator private placement shares, we would need only need 5,312,501 or approximately 26.6%, of the 20,000,000 public shares sold in this offering to be voted in favor of an initial business combination (assuming all outstanding shares are voted and our initial shareholders do not purchase any public shares and the underwriters' overallotment option is not exercised) in order to have our initial business combination approved (assuming the over-allotment option is not exercised). We intend to give approximately 30 days (but not less than 10 days nor more than 60 days) prior written notice of any such meeting, if required, at which a vote shall be taken to approve our initial business combination. These quorum and voting thresholds, and the voting agreements of our initial shareholders, may make it more likely that we will consummate our initial business combination. Each public shareholder may elect to redeem its public shares irrespective of whether they vote for or against the proposed transaction.

Our amended and restated memorandum and articles of association will provide that we may not redeem our public shares unless our net tangible assets are at least \$5,000,001 either immediately prior to or upon consummation of our initial business combination and after payment of underwriters' fees and commissions (so that we are not subject to the SEC's "penny stock" rules) or any greater net tangible asset or cash requirement which may be contained in the agreement relating to our initial business combination. For example, the proposed initial business combination may require: (i) cash consideration to be paid to the target or its owners, (ii) cash to be transferred to the target for working capital or other general corporate purposes or (iii) the retention of cash to satisfy other conditions in accordance with the terms of the proposed initial business combination. In the event the aggregate cash consideration we would be required to pay for all Class A ordinary shares that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed initial business combination exceed the aggregate amount of cash available to us, we will not complete the initial business combination or redeem any shares, and all Class A ordinary shares submitted for redemption will be returned to the holders thereof.

Limitation on Redemption Upon Completion of Our Initial Business Combination if We Seek Shareholder Approval

Our amended and restated memorandum and articles of association provide that in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 upon consummation of our initial business combination and after payment of deferred underwriters' commissions (so that we are not subject to the SEC's "penny stock" rules) or any greater net tangible asset or cash requirement that may be contained in the agreement relating to our initial business combination. However, the proposed business combination may require: (i) cash consideration to be paid to the target or its owners, (ii) cash to be transferred to the target for working capital or other general corporate purposes or (iii) the retention of cash to satisfy other conditions in accordance with the terms of the proposed business combination. In the event the aggregate cash consideration we would be required to pay for all Class A ordinary shares that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed business combination exceed the aggregate amount of cash available to us, we will not complete the business combination or redeem any shares, and all Class A ordinary shares submitted for redemption will be returned to the holders thereof.

Tendering Share Certificates in Connection with a Tender Offer or Redemption Rights

Upon the public announcement of our initial business combination, if we elect to conduct redemption pursuant to the tender offer rules, we or our sponsor will terminate any plan established in accordance with Rule 10b5-1 to purchase our Class A ordinary shares in the open market, in order to comply with Rule 14e-5 under the Exchange Act. We intend to require our public shareholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in "street name," to, at the holder's option, either deliver their share certificates to our transfer agent or deliver their shares to our transfer agent electronically using the Depository Trust Company's DWAC (Deposit/Withdrawal At Custodian) System, prior to the date set forth in the proxy materials or tender offer documents, as applicable. In the case of proxy materials, this date may be up to two business days prior to the vote on the proposal to approve the initial

business combination. In addition, if we conduct redemptions in connection with a shareholder vote, we intend to require a public shareholder seeking redemption of its public shares to also submit a written request for redemption to our transfer agent two business days prior to the vote in which the name of the beneficial owner of such shares is included. The proxy materials or tender offer documents, as applicable, that we will furnish to holders of our public shares in connection with our initial business combination will indicate whether we are requiring public shareholders to satisfy such delivery requirements. We believe that this will allow our transfer agent to efficiently process any redemptions without the need for further communication or action from the redeeming public shareholders, which could delay redemptions and result in additional administrative cost. If the proposed initial business combination is not approved and we continue to search for a target company, we will promptly return any certificates or shares delivered by public shareholders who elected to redeem their shares. Given the relatively short period in which to exercise redemption rights, it is advisable for shareholders to use electronic delivery of their public shares.

There is a nominal cost associated with the above-referenced tendering process and the act of certificating the shares or delivering them through the DWAC System. The transfer agent will typically charge the tendering broker a fee of approximately \$80 and it would be up to the broker whether or not to pass this cost on to the redeeming holder. However, this fee would be incurred regardless of whether or not we require holders seeking to exercise redemption rights to tender their shares. The need to deliver shares is a requirement of exercising redemption rights regardless of the timing of when such delivery must be effectuated.

In order to perfect redemption rights in connection with their business combinations, many blank check companies would distribute proxy materials for the shareholders' vote on an initial business combination, and a holder could simply vote against a proposed business combination and check a box on the proxy card indicating such holder was seeking to exercise his or her redemption rights. After the business combination was approved, the company would contact such shareholder to arrange for him or her to deliver his or her certificate to verify ownership. As a result, the shareholder then had an "option window" after the completion of the business combination during which he or she could monitor the price of the company's shares in the market. If the price rose above the redemption price, he or she could sell his or her shares in the open market before actually delivering his or her shares to the company for cancellation. As a result, the redemption rights, to which shareholders were aware they needed to commit before the general meeting, would become "option" rights surviving past the completion of the business combination until the redeeming holder delivered its certificate. The requirement for physical or electronic delivery prior to the meeting ensures that a redeeming shareholder's election to redeem is irrevocable once the business combination is approved.

Any request to redeem such shares, once made, may be withdrawn at any time up to the date set forth in the tender offer materials or the date of the general meeting set forth in our proxy materials, as applicable. Furthermore, if a holder of a public share delivered its certificate in connection with an election of redemption rights and subsequently decides prior to the applicable date not to elect to exercise such rights, such holder may simply request that the transfer agent return the certificate (physically or electronically). It is anticipated that the funds to be distributed to holders of our public shares electing to redeem their shares will be distributed promptly after the completion of our initial business combination.

If our initial business combination is not approved or completed for any reason, then our public shareholders who elected to exercise their redemption rights would not be entitled to redeem their shares for the applicable pro rata share of the trust account. In such case, we will promptly return any certificates (if any) delivered by public holders who elected to redeem their shares.

If our initial proposed business combination is not completed, we may continue to try to complete a business combination with a different target until 24 months from the closing of this offering.

Redemption of Public Shares and Liquidation if No Initial Business Combination

Our amended and restated memorandum and articles of association provide that we will have only 24 months from the closing of this offering to complete our initial business combination. If we are unable to complete our initial business combination within such 24-month period, we will: (i) cease all operations except for the purpose of winding up; (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares and the Novator private placement shares, at a per-share price,

payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (less up to \$100,000 of interest to pay liquidation expenses and net of taxes payable), divided by the number of then outstanding public shares and Novator private placement shares, which redemption will completely extinguish public shareholders' and holders of Novator private placement shares' rights as shareholders (including the right to receive further liquidation distributions, if any); and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining shareholders and our board of directors, liquidate and dissolve, subject in each case to our obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law. There will be no redemption rights or liquidating distributions with respect to our warrants, which will expire worthless if we fail to complete our initial business combination within the 24-month time period.

Our initial shareholders, sponsor, directors and executive officers have entered into agreements with us, pursuant to which they have waived their rights to liquidating distributions from the trust account with respect to their founder shares if we fail to complete our initial business combination within 24 months from the closing of this offering. However, if our initial shareholders, sponsor, directors or executive officers acquire public shares in or after this offering, they will be entitled to liquidating distributions from the trust account with respect to such public shares if we fail to complete our initial business combination within the allotted 24-month time period. Further, our sponsor, directors and executive officers have not waived their rights to liquidating distributions from the trust account with respect to their Novator private placement shares if we fail to complete our initial business combination within 24 months from the closing of this offering.

Our sponsor, executive officers and directors have agreed, pursuant to a written agreement with us, that they will not propose any amendment to our amended and restated memorandum and articles of association to modify the substance or timing of our obligation to redeem 100% of our public shares and Novator private placement shares if we do not complete our initial business combination within 24 months from the closing of this offering, unless we provide our public shareholders with the opportunity to redeem their public shares upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (net of taxes payable), divided by the number of then outstanding public shares. However, we may not redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 (so that we are not subject to the SEC's "penny stock" rules). If this optional redemption right is exercised with respect to an excessive number of public shares such that we cannot satisfy the net tangible asset requirement, we would not proceed with the amendment or the related redemption of our public shares at such time and all public shares submitted for redemption would be returned to the holders thereof. In such an event, if sufficient time remains in the period in which we must complete our initial business combination pursuant to our amended and restated memorandum and articles of association to permit a new or revised proposal to be considered by our shareholders, we may determine to seek shareholder approval of a new or revised amendment. If sufficient time does not remain, we will cease all operations except for the purpose of winding up, redeem the public shares and undertake the process of liquidation, each as described herein.

We expect that all costs and expenses associated with implementing our plan of liquidation, as well as payments to any creditors, will be funded from amounts remaining out of the \$1,000,000 of proceeds held outside the trust account, although we cannot assure you that there will be sufficient funds for such purpose. We will depend on sufficient interest being earned on the proceeds held in the trust account to provide us with additional working capital we will need to identify one or more target businesses and to complete our initial business combination, as well as to pay any tax obligations that we may owe. However, if those funds are not sufficient to cover the costs and expenses associated with implementing our plan of liquidation, we may request the trustee to release to us an additional amount of up to \$100,000 of such accrued interest to pay those costs and expenses.

If we were to expend all of the net proceeds of this offering, the sale of the Novator private placement units and the private placement warrants, other than the proceeds deposited in the trust account, and without taking into account interest, if any, earned on the trust account, the per-share redemption amount received by shareholders upon our liquidation would be \$10.00. The proceeds deposited in the trust account could, however, become subject to the claims of our creditors which would have higher priority than the claims of our public shareholders and holders of Novator private placement shares. We cannot assure you that the

actual per-share redemption amount received by shareholders will not be less than \$10.00. While we intend to pay such amounts, if any, we cannot assure you that we will have funds sufficient to pay or provide for all creditors' claims.

Although we will seek to have all vendors, service providers, prospective target businesses and other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to any monies held in the trust account for the benefit of our public shareholders and holders of Novator private placement shares, there is no guarantee that they will execute such agreements or even if they execute such agreements that they would be prevented from bringing claims against the trust account including but not limited to fraudulent inducement, breach of fiduciary responsibility or other similar claims, as well as claims challenging the enforceability of the waiver, in each case in order to gain an advantage with respect to a claim against our assets, including the funds held in the trust account. If any third party refuses to execute an agreement waiving such claims to the monies held in the trust account, our management will perform an analysis of the alternatives available to it and will only enter into an agreement with a third party that has not executed a waiver if management believes that such third party's engagement would be significantly more beneficial to us than any alternative. Examples of possible instances where we may engage a third party that refuses to execute a waiver include the engagement of a third party consultant whose particular expertise or skills are believed by management to be significantly superior to those of other consultants that would agree to execute a waiver or in cases where management is unable to find a service provider willing to execute a waiver. In addition, there is no guarantee that such entities will agree to waive any claims they may have in the future as a result of, or arising out of, any negotiations, contracts or agreements with us and will not seek recourse against the trust account for any reason. In order to protect the amounts held in the trust account, our sponsor has agreed that it will be liable to us if and to the extent any claims by a vendor for services rendered or products sold to us, or a prospective target business with which we have entered into a transaction agreement, reduce the amounts in the trust account to below the lesser of (i) \$10.00 per public share and \$10.00 per Novator private placement share and (ii) the actual amount per share held in the trust account as of the date of the liquidation of the trust account if less than \$10.00 per share due to reductions in the value of the trust assets, in each case less taxes payable, provided that such liability will not apply to any claims by a third party who executed a waiver of any and all rights to seek access to the trust account nor will it apply to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. In the event that an executed waiver is deemed to be unenforceable against a third party, our sponsor will not be responsible to the extent of any liability for such third party claims. However, we have not asked our sponsor to reserve funds for such indemnification obligations, nor have we independently verified whether our sponsor has sufficient funds to satisfy its indemnity obligations. Therefore, we cannot assure you that our sponsor would be able to satisfy those obligations. None of our executive officers or directors will indemnify us for claims by third parties including, without limitation, claims by vendors and prospective target businesses.

In the event that the proceeds in the trust account are reduced below the lesser of (i) \$10.00 per public share and per Novator private placement share and (ii) the actual amount per public share and per Novator private placement share held in the trust account as of the date of the liquidation of the trust account if less than \$10.00 per share due to reductions in the value of the trust assets, in each case less taxes payable, and our sponsor asserts that it is unable to satisfy its indemnification obligations or that it has no indemnification obligations related to a particular claim, our independent directors would determine whether to take legal action against our sponsor to enforce its indemnification obligations. While we currently expect that our independent directors would take legal action on our behalf against our sponsor to enforce its indemnification obligations to us, it is possible that our independent directors in exercising their business judgment may choose not to do so in any particular instance. Accordingly, we cannot assure you that due to claims of creditors the actual value of the per-share redemption price will not be less than \$10.00 per public share and per Novator private placement share.

We will seek to reduce the possibility that our sponsor will have to indemnify the trust account due to claims of creditors by endeavoring to have all vendors, service providers, prospective target businesses or other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to monies held in the trust account. Our sponsor will also not be liable as to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. We will have access to up to \$1,000,000 from the proceeds of this offering, the sale of

the Novator private placement units and the sale of the private placement warrants with which to pay any such potential claims (including costs and expenses incurred in connection with our liquidation, currently estimated to be no more than approximately \$100,000). In the event that we liquidate and it is subsequently determined that the reserve for claims and liabilities is insufficient, shareholders who received funds from our trust account could be liable for claims made by creditors. In the event that our offering expenses exceed our estimate of \$1,000,000, we may fund such excess with funds from the funds not to be held in the trust account. In such case, the amount of funds we intend to be held outside the trust account would decrease by a corresponding amount. Conversely, in the event that the offering expenses are less than our estimate of \$1,000,000, the amount of funds we intend to be held outside the trust account would increase by a corresponding amount.

If we file a bankruptcy or winding-up petition or an involuntary bankruptcy or winding-up petition is filed against us that is not dismissed, the proceeds held in the trust account could be subject to applicable bankruptcy or insolvency law, and may be included in our bankruptcy estate and subject to the claims of third parties with priority over the claims of our shareholders. To the extent any bankruptcy claims deplete the trust account, we cannot assure you we will be able to return \$10.00 per share to our shareholders in respect of the public shares and Novator private placement shares. Additionally, if we file a bankruptcy or winding-up petition or an involuntary bankruptcy or winding-up petition is filed against us that is not dismissed, any distributions received by shareholders could be viewed under applicable debtor/creditor and/or bankruptcy or insolvency laws as either a “preferential transfer” or a “fraudulent conveyance.” As a result, a bankruptcy or insolvency court could seek to recover some or all amounts received by our shareholders. Furthermore, our board of directors may be viewed as having breached its fiduciary duty to our creditors and/or may have acted in bad faith, thereby exposing itself and our Company to claims of punitive damages, by paying public shareholders from the trust account prior to addressing the claims of creditors. We cannot assure you that claims will not be brought against us for these reasons.

Our public shareholders will be entitled to receive funds from the trust account only (i) in the event of the redemption of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering, which the private placement shares are eligible to participate in, (ii) in connection with a shareholder vote to amend our amended and restated memorandum and articles of association to modify the substance or timing of our obligation to redeem 100% of our public shares and Novator private placement shares if we do not complete our initial business combination within 24 months from the closing of this offering or (iii) if they redeem their respective shares for cash upon the completion of the initial business combination. In no other circumstances will a shareholder have any right or interest of any kind to or in the trust account. In the event we seek shareholder approval in connection with our initial business combination, a shareholder’s voting in connection with the business combination alone will not result in a shareholder’s redeeming its shares to us for an applicable pro rata share of the trust account. Such shareholder must have also exercised its redemption rights described above. These provisions of our amended and restated memorandum and articles of association, like all provisions of our amended and restated memorandum and articles of association, may be amended with a shareholder vote.

Comparison of Redemption or Purchase Prices in Connection with Our Initial Business Combination and If We Fail to Complete Our Initial Business Combination.

The following table compares the redemptions and other permitted purchases of public shares that may take place in connection with the completion of our initial business combination and if we are unable to complete our initial business combination within 24 months from the closing of this offering.

	Redemptions in Connection with our Initial Business Combination	Other Permitted Purchases of Public Shares by our Affiliates	Redemptions if We Fail to Complete an Initial Business Combination
Calculation of redemption price	Redemptions at the time of our initial business combination may be made pursuant to a tender offer or in connection with a	If we seek shareholder approval of our initial business combination, our sponsor, initial shareholders, directors, executive officers or their	If we are unable to complete our initial business combination within 24 months from the closing of this offering, we will redeem

	shareholder vote. The redemption price will be the same whether we conduct redemptions pursuant to a tender offer or in connection with a shareholder vote. In either case, our public shareholders may redeem their public shares for cash equal to the aggregate amount then on deposit in the trust account calculated as of two business days prior to the consummation of the initial business combination (which is initially anticipated to be \$10.00 per share), including interest (net of taxes payable), divided by the number of then outstanding public shares, subject to the limitation that no redemptions will take place if all of the redemptions would cause our net tangible assets to be less than \$5,000,001 and any limitations (including but not limited to cash requirements) agreed to in connection with the negotiation of terms of a proposed business combination. Holders of Novator private placement shares have agreed not to have such shares redeemed at the time of our initial business combination.	affiliates may purchase shares in privately negotiated transactions or in the open market either prior to or following completion of our initial business combination. There is no limit to the prices that our initial shareholders, directors, executive officers or their affiliates may pay in these transactions. If they engage in such transactions, they will not make any such purchases when they are in possession of any material nonpublic information not disclosed to the seller or if such purchases are prohibited by Regulation M under the Exchange Act. We do not currently anticipate that such purchases, if any, would constitute a tender offer subject to the tender offer rules under the Exchange Act or a going-private transaction subject to the going-private rules under the Exchange Act; however, if the purchasers determine at the time of any such purchases that the purchases are subject to such rules, the purchasers will comply with such rules.	all public shares and Novator private placement shares at a per-share price, payable in cash, equal to the aggregate amount, then on deposit in the trust account (which is initially anticipated to be \$10.00 per share), including interest (less up to \$100,000 of interest to pay liquidation expenses and net of taxes payable) divided by the number of then outstanding public shares and Novator private placement shares.
Impact to remaining shareholders	The redemptions in connection with our initial business combination will reduce the book value per share for our remaining shareholders, who will bear the burden of the	If the permitted purchases described above are made, there would be no impact to our remaining shareholders because the purchase price would not be paid by us. deferred underwriting commissions and taxes payable.		for the shares held by our initial shareholders in respect of our founder shares, who will be our only remaining shareholders after such redemptions.

Comparison of This Offering to Those of Blank Check Companies Subject to Rule 419

The following table compares the terms of this offering to the terms of an offering by a blank check company subject to the provisions of Rule 419. This comparison assumes that the gross proceeds, underwriting commissions and underwriting expenses of our offering would be identical to those of an offering undertaken by a company subject to Rule 419, and that the underwriters will not exercise their over-allotment option. None of the provisions of Rule 419 apply to our offering.

	Terms of Our Offering	Terms Under a Rule 419 Offering
Escrow of offering proceeds	\$235,000,000 of the net proceeds of this offering, the sale of the Novator private placement units and the sale of the private placement warrants will be deposited into a U.S.-based trust account with Continental Stock Transfer & Trust Company acting as trustee.	Approximately \$176,400,000 of the offering proceeds, representing the gross proceeds of this offering, would be required to be deposited into either an escrow account with an insured depository institution or in a separate bank account established by a broker-dealer in which the broker dealer acts as trustee for persons having the beneficial interests in the account.
Investment of net proceeds	\$235,000,000 of the net proceeds of this offering, the sale of the Novator private placement units and the sale of the private placement warrants held in trust will be invested only in U.S. government treasury obligations with a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations.	Proceeds could be invested only in specified securities such as a money market fund meeting conditions of the Investment Company Act or in securities that are direct obligations of, or obligations guaranteed as to principal or interest by, the United States.
Receipt of interest on escrowed funds	Interest on proceeds from the trust account to be paid to shareholders is reduced by (i) any taxes paid or payable and (ii) in the event of our liquidation for failure to complete our initial business combination within the allotted time, up to \$100,000 of net interest that may be released to us should we have no or insufficient working capital to fund the costs and expenses of our liquidation.	Interest on funds in escrow account would be held for the sole benefit of investors, unless and only after the funds held in escrow were released to us in connection with our completion of a business combination.

	Terms of Our Offering	Terms Under a Rule 419 Offering
Limitation on fair value or net assets of target business	We must complete one or more business combinations having an aggregate fair market value of at least 80% of our assets held in the trust account (excluding the deferred underwriting commissions and taxes payable on the income earned on the trust account) at the time of the agreement to enter into the initial business combination.	The fair value or net assets of a target business must represent at least 80% of the maximum offering proceeds.
Trading of securities issued	The units are expected to begin trading on or promptly after the date of this prospectus. The Class A ordinary shares and warrants comprising the units will begin separate trading on the 52nd day following the date of this prospectus unless the representative of the underwriters informs us of its decision to allow earlier separate trading, subject to our having filed the Current Report on Form 8-K described below and having issued a press release announcing when such separate trading will begin. We anticipate filing such Current Report on Form 8-K four business days from the closing of this offering. If the over-allotment option is exercised following the initial filing of such Current Report on Form 8-K, a second or amended Current Report on Form 8-K will be filed to provide updated financial information to reflect the exercise of the over-allotment option.	No trading of the units or the underlying Class A ordinary shares and warrants would be permitted until the completion of a business combination. During this period, the securities would be held in the escrow or trust account.
Exercise of the warrants	The warrants cannot be exercised until the later of 30 days after the completion of our initial business combination or 12 months from the closing of this offering.	The warrants could be exercised prior to the completion of a business combination, but securities received and cash paid in connection with the exercise would be deposited in the escrow or trust account.
Election to remain an investor	We will provide our public shareholders with the opportunity to redeem their public shares for cash at a per share price equal to the aggregate amount then on deposit in the trust account (excluding any amounts then on deposit in the trust account that are allocable to the Novator private placement shares) calculated as of two business days prior to the consummation of our initial business combination, including interest (net of taxes payable) (excluding any interest earned on the funds held in the trust	A prospectus containing information pertaining to the business combination required by the SEC would be sent to each investor. Each investor would be given the opportunity to notify the Company in writing, within a period of no less than 20 business days and no more than 45 business days from the effective date of a post-effective amendment to the Company's registration statement, to decide if he, she or it elects to remain a shareholder of the company or require the return of

	<u>Terms of Our Offering</u>	<u>Terms Under a Rule 419 Offering</u>
	account that are allocable to the Novator private placement shares), divided by the number of then outstanding public shares, upon the completion of our initial business combination, subject to the limitations described herein. We may not be required by law to hold a shareholder vote. If we are not required by law and do not otherwise decide to hold a shareholder vote, we will, pursuant to our amended and restated memorandum and articles of association, conduct the redemptions pursuant to the tender offer rules of the SEC and file tender offer documents with the SEC which will contain substantially the same financial and other information about the initial business combination and the redemption rights as is required under the SEC's proxy rules. If, however, we hold a shareholder vote, we will, like many blank check companies, offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. If we seek shareholder approval, we will complete our initial business combination only if we obtain the approval of an ordinary resolution under Cayman Islands law, which requires the affirmative vote of a majority of the shareholders who attend and vote at a general meeting of the Company. Additionally, each public shareholder may elect to redeem their public shares irrespective of whether they vote for or against the proposed transaction.	his, her or its investment. If the Company has not received the notification by the end of the 45th business day, funds and interest or dividends, if any, held in the trust or escrow account are automatically returned to the shareholder. Unless a sufficient number of investors elect to remain investors, all funds on deposit in the escrow account must be returned to all of the investors and none of the securities are issued.
Business combination deadline	If we are unable to complete an initial business combination within 24 months from the closing of this offering, we will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem 100% of the public shares and Novator private placement shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (less up to \$100,000 of interest to pay liquidation	If an initial business combination has not been completed within 24 months after the effective date of the Company's registration statement, funds held in the trust or escrow account are returned to investors.

	Terms of Our Offering	Terms Under a Rule 419 Offering
	expenses and net of taxes payable), divided by the number of then outstanding public shares and Novator private placement shares, which redemption will completely extinguish public shareholders' and holders of Novator private placement shares' rights as shareholders (including the right to receive further liquidation distributions, if any) and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining shareholders and our board of directors, liquidate and dissolve, subject in each case to our obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law.	
Release of funds	Except for the withdrawal of interest to pay our income taxes, if any, none of the funds held in trust will be released from the trust account until the earliest of (i) the completion of our initial business combination, (ii) the redemption of our public shares and Novator private placement shares if we are unable to complete our initial business combination within 24 months from the closing of this offering, subject to applicable law, or (iii) the redemption of our public shares properly submitted in connection with a shareholder vote to amend our amended and restated memorandum and articles of association (i) to modify the substance or timing of our obligation to provide for the redemption of our public shares in connection with an initial business combination or to redeem 100% of our public shares if we have not consummated an initial business combination within 24 months from the closing of this offering or (ii) with respect to any other provisions relating to shareholders' rights or pre-initial business combination activity.	The proceeds held in the escrow account are not released until the earlier of the completion of a business combination or the failure to effect a business combination within the allotted time.
Competition	In identifying, evaluating and selecting a target business for our initial business combination, we may encounter intense competition from other entities having a business objective similar to ours, including other blank check companies, private equity groups and leveraged buyout funds, public companies and operating businesses seeking strategic acquisitions. Many of these entities are well established and have extensive experience identifying and effecting business combinations directly or through affiliates. Moreover,	

many of these competitors possess greater financial, technical, human and other resources than us. Our ability to acquire larger target businesses will be limited by our available financial resources. This inherent limitation gives others an advantage in pursuing the acquisition of a target business. Furthermore, our obligation to pay cash in connection with our public shareholders who exercise their redemption rights may reduce the resources available to us for our initial business combination and our outstanding warrants, and the future dilution they potentially represent, may not be viewed favorably by certain target businesses. Either of these factors may place us at a competitive disadvantage in successfully negotiating an initial business combination.

Facilities

We currently maintain our executive offices at 20 North Audley Street, London, W1K 6LX, United Kingdom. The cost for our use of this space is included in the \$10,000 per month fee we will pay to our sponsor or an affiliate of our sponsor for office space, administrative and support services. We consider our current office space adequate for our current operations.

Employees

We currently have three executive officers. These individuals are not obligated to devote any specific number of hours to our matters but they intend to devote as much of their time as they deem necessary to our affairs until we have completed our initial business combination. The amount of time they will devote in any time period will vary based on whether a target business has been selected for our initial business combination and the stage of the business combination process we are in. We do not intend to have any full-time employees prior to the completion of this offering.

Periodic Reporting and Financial Information

We will register our units, Class A ordinary shares and warrants under the Exchange Act and have reporting obligations, including the requirement that we file annual, quarterly and current reports with the SEC. In accordance with the requirements of the Exchange Act, our annual reports will contain financial statements audited and reported on by our independent registered public accountants.

We will provide shareholders with audited financial statements of the prospective target business as part of the proxy solicitation or tender offer materials, as applicable, sent to shareholders. These financial statements may be required to be prepared in accordance with, or reconciled to, GAAP, or IFRS, depending on the circumstances, and the historical financial statements may be required to be audited in accordance with the standards of the PCAOB. These financial statement requirements may limit the pool of potential target businesses we may acquire because some targets may be unable to provide such statements in time for us to disclose such statements in accordance with federal proxy rules and complete our initial business combination within the prescribed time frame. We cannot assure you that any particular target business selected by us as a potential initial business combination candidate will have financial statements prepared in accordance with the requirements outlined above, or that the potential target business will be able to prepare its financial statements in accordance with the requirements outlined above. To the extent that these requirements cannot be met, we may not be able to acquire the proposed target business. While this may limit the pool of potential initial business combination candidates, we do not believe that this limitation will be material.

We will be required to evaluate our internal control procedures for the fiscal year ending December 31, 2021 as required by the Sarbanes-Oxley Act. Only in the event we are deemed to be a large accelerated filer or an accelerated filer will we be required to have our internal control procedures audited. A target business may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding adequacy of their internal controls. The development of the internal controls of any such entity to achieve compliance with the Sarbanes-Oxley Act may increase the time and costs necessary to complete any such initial business combination.

Prior to the date of this prospectus, we will file a Registration Statement on Form 8-A with the SEC to voluntarily register our Class A ordinary shares under Section 12 of the Exchange Act. As a result, we will be subject to the rules and regulations promulgated under the Exchange Act. We have no current intention of

filing a Form 15 to suspend our reporting or other obligations under the Exchange Act prior or subsequent to the consummation of our initial business combination.

We are a Cayman Islands exempted company. Exempted companies are Cayman Islands companies conducting business mainly outside the Cayman Islands and, as such, are exempted from complying with certain provisions of the Companies Law. As an exempted company, we have applied for and received a tax exemption undertaking from the Cayman Islands government that, in accordance with Section 6 of the Tax Concessions Law (2018 Revision) of the Cayman Islands, for a period of 20 years from the date of the undertaking, no law which is enacted in the Cayman Islands imposing any tax to be levied on profits, income, gains or appreciations will apply to us or our operations and, in addition, that no tax to be levied on profits, income, gains or appreciations or which is in the nature of estate duty or inheritance tax will be payable (i) on or in respect of our shares, debentures or other obligations or (ii) by way of the withholding in whole or in part of a payment of dividend or other distribution of income or capital by us to our shareholders or a payment of principal or interest or other sums due under a debenture or other obligation of us.

We are an “emerging growth company,” as defined in Section 2(a) of the Securities Act, as modified by the JOBS Act. As such, we are eligible to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not “emerging growth companies” including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a non-binding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved. If some investors find our securities less attractive as a result, there may be a less active trading market for our securities and the prices of our securities may be more volatile.

In addition, Section 107 of the JOBS Act also provides that an “emerging growth company” can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. In other words, an “emerging growth company” can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We intend to take advantage of the benefits of this extended transition period.

We will remain an emerging growth company until the earlier of: (1) the last day of the fiscal year (a) following the fifth anniversary of the completion of this offering, (b) in which we have total annual gross revenue of at least \$1.07 billion, or (c) in which we are deemed to be a “large accelerated filer,” which means the market value of our ordinary shares that are held by non-affiliates exceeds \$700 million as of the prior June 30; and (2) the date on which we have issued more than \$1.0 billion in non-convertible debt securities during the prior three-year period.

Legal Proceedings

There is no material litigation, arbitration or governmental proceeding currently pending against us or any members of our management team or directors in their capacity as such.

DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

The following table sets forth the name, age and position held by each of our executive officers and directors as of the date of this prospectus. Our board of directors is divided into three classes with only one class of directors being appointed in each year and each class (except for those directors appointed prior to our first annual general meeting) serving a three-year term.

Name	Age	Position
Thor Björgólfsson	53	Chairman of the Board and Director
Arnaud Massenet	55	Chief Executive Officer
Prabhu Narasimhan	40	Chief Investment Officer and Head of Legal
Caroline Harding	40	Chief Financial Officer and Director
Michael Edelstein	52	Director
Shravin Mittal	30	Director
Sangeeta Desai	44	Director

Thor Björgólfsson, 53, serves as our Chairman. Mr. Björgólfsson graduated from New York University's Stern School of Business with a Bachelor's degree in Finance. He is Iceland's first billionaire. In 1991, Mr. Björgólfsson went to Russia and founded the brewing company, Bravo Brewery in St Petersburg, Russia. He ultimately sold the company to Heineken in 2002. Over the next years, Mr. Björgólfsson invested in telecommunications, mostly in Eastern Europe, built up generic drugs company Actavis (now Allergan) and became a significant investor in one of Iceland's largest banks, Landsbanki. Mr. Björgólfsson continues to be an active investor in the emerging economies of Central and Eastern Europe and Latin America through his London-based private equity fund, Novator Partners. He is chairman of Novator and maintains a shareholding in companies including PLAY in Poland and WOM S.A. in Chile, as well as computer games company CCP, data center Verne Global and pharmaceutical company Xantis Pharma.

Arnaud Massenet, 55, serves as our Chief Executive Officer. Mr. Massenet holds a Bachelor of Arts from the Lincoln International School of Business in Paris, France and a Masters of Business Administration from the University of North Carolina. Mr. Massenet started his career in banking in 1994 at Morgan Stanley. He became the Head of Morgan Stanley's derivatives group in London, United Kingdom, in 1998. In 2003, Mr. Massenet started Lehman Brothers corporate derivatives Group (Capital Market) before exiting in 2007 to start South West Capital, a hedge fund focused on real asset investments. Mr. Massenet co-founded Net-a-Porter in 1999, largely financed by himself and the Richemont Group. He was an active board member for more than 10 years, involved in all important strategic decisions including creation of Outnet.com, Mr. Porter, Porter Magazine, finally culminating in a 2-step sale in 2010 and 2015 to the Richemont Group. Mr. Massenet is currently chairman of Grip, a subsidiary of Intros.at, an artificial intelligence company specialized in organizing virtual conferences for corporate and virtual meetings. He founded Grip in 2015 with Reed Elsevier and Founders Forum. Mr. Massenet also backed many successful tech companies, including Deliveroo, Care Wish, Houzz, Urban Massage, Highsnobiety, Invincible and NGM, Ozon, and serves on the board of directors of Ahalife, a large interior design platform based in New York, New York.

Prabhu Narasimhan, 40, serves as our chief investment officer and Head of Legal. Mr. Narasimhan has almost two decades of experience as a lawyer at three leading international law firms (Mayer Brown, White & Case and Baker & McKenzie), acting as a senior strategic advisor to multi-billion dollar family offices and private equity funds on multi-billion dollar mergers and acquisitions and equity and debt capital markets transactions worldwide. His re-structuring of ATP Media's tennis broadcasting rights and his crafting of fiscal stimulus laws in Europe have been widely recognized and commended, particularly by the FT Innovative Lawyers awards. In 2020, Mr. Narasimhan was appointed to the board of directors as a director of the media company, Prime Focus World N.V.

Caroline Harding, 40, has been our chief financial officer since our Company's inception and serves on our board of directors. Ms. Harding qualified as a chartered accountant with Ernst & Young LLP in 2007. Prior to relocating to the Cayman Islands in 2020, Ms. Harding was the chief financial officer for Weybourne, Sir James Dyson's family office, where she was a member of a team that oversaw a multi-billion pound

portfolio which included the James Dyson Group. During this time, Ms. Harding served as a director of eleven Weybourne Group related entities, which included the overall holding company responsible for strategy and investments. Ms. Harding was the senior accounting officer for Weybourne Group and the compliance and anti-money laundering officer for the Financial Conduct Authority regulated subsidiary. For the nine years prior to Weybourne, Ms. Harding was the chief financial officer and director of Exploration Capital Ltd. for five of her nine years with the company. Exploration Capital, manages a diversified global investment portfolio with a particular focus on agricultural and development land in Latin America. Ms. Harding was simultaneously chief financial officer of one of the portfolio companies, a high performance engineering business, Gilo, and successfully re-structured the accounting and reporting systems of the company.

Shravin Mittal, 30, serves on the Company's board of directors. Mr. Mittal received his undergraduate degree from the University of Bath in 2009 with a Bachelor of Science degree in accounting and finance and Masters of Business Administration from Harvard University in 2014. Mr. Mittal has held a series of positions with increasing seniority and responsibility, including as an investment banking professional with J. P. Morgan Chase & Co. from 2009 to 2010, Manager and managing director at Airtel in Africa and India from 2010 to 2012, assistant director at Better Capital from 2014 to 2016, and Founder of Unbound Ltd. since 2017, or Unbound, and a director of Bharti Global from 2017, the Bharti family office. Unbound is a globally focused long-term technology investment arm that aims to invest in and build technology companies. Select investments include Databricks, mPharma, and FreightHub.

Michael Edelstein, 52, serves on our Company's board of directors. Mr. Edelstein is a creative business leader, investor and producer who has developed hit television series and built an award-winning international content studio for NBCUniversal International. Mr. Edelstein received his undergraduate degree from the University of California at Los Angeles with a Bachelor of Arts degree in History and Art History. From 1998 to 2002, he was the director of current programs at CBS Corporation. From 2004 to 2006, Mr. Edelstein was the executive producer of the *Desperate Housewives*. From 2010 to 2017, he was the president of NBCUniversal International where he built the division into one of the most respected content players in the international marketplace. He is experienced in both the domestic and international television markets. Mr. Edelstein has demonstrated a breadth of skill in developing clear business strategies and financial management as well as being equally adept at communicating with writers, directors and producers in order to create global quality content.

Sangeeta Desai, 44, is an experienced investor and C-level executive, and currently serves on number of listed and private boards globally. She brings a unique combination of strategic, operating and financial experience, having spent her early career in investment banking and private equity before taking on leadership roles in global media businesses. She is currently the Chairman of Mopar Media Group AB, or Mopar Media (2020 to present) and is a non-executive director on the Boards of Orbit Showtime Network ("OSN") (2020 to present) and Ocean Outdoor Ltd. ("Ocean Outdoor") (2018 to present). During 2021, Ms. Desai was appointed to the board of directors of Boat Rocker Media. Her most recent executive experience was as Group Chief Operating Officer and Chief Executive Officer of Emerging Markets at FremantleMedia (2013 to 2018), and prior to that as Chief Operating Officer of Hit Entertainment (2009 to 2012). Prior to joining HIT, Sangeeta was a Principal at Apex Partners (2005 to 2009), where she invested in the media industry globally, and she started her career as an investment banker at The Goldman Sachs Group, Inc. (2004 to 2005) and JP Morgan (1998 to 2001). She holds a Bachelor of Science in Business Administration from the Haas School of Business, University of California at Berkeley and a Master of Business Administration from the Wharton School, University of Pennsylvania.

Director Independence

We have elected to use the definition for "director independence" under the Nasdaq listing standards, which defines an "independent director" as "a person other than an executive officer or employee of us or its subsidiaries or any other individual having a relationship, which in the opinion of our board, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director." The definition further provides that, among others, employment of a director by us (or any parent or subsidiary of ours) at any time during the past three years is considered a bar to independence regardless of the determination of our board.

Nasdaq listing standards require that a majority of our board of directors be independent. Our board of directors has determined that Mr. Mittal, Ms. Desai and Mr. Edelstein are “independent directors” of this company as defined in the Nasdaq listing standards and applicable SEC rules. Our independent directors will have regularly scheduled meetings at which only independent directors are present.

Executive Officer and Director Compensation

Aside from Ms. Harding, no other executive officers or directors have received any cash compensation for services rendered to us. With respect to Ms. Harding, our Company remunerates her for professional services rendered to our Company in her role as chief financial officer of at the rate of \$10,000 per month and for her service on our board of directors at the rate of \$15,000 per year, with an additional hourly fee at \$500 per hour for services outside of the ordinary course of business of our Company. Additionally, Ms. Harding will receive a \$50,000 payment on March 21, 2021 in contemplation of her services to our Company and a \$75,000 payment on the earlier of March 21, 2023 and the date in which our Company is liquidated. If we do not have sufficient funds to make the payments due to Ms. Harding as set forth herein professional services provided by her, we may borrow funds from our sponsor or an affiliate of the initial shareholders or certain of our directors and officers to enable us to make such payments. Commencing on the date that our securities are first listed on Nasdaq through the earlier of consummation of our initial business combination and our liquidation, we will pay our sponsor \$10,000 per month for office space, utilities, secretarial and administrative support services provided to members of our management team. We may elect to make payment of customary fees to members of our board of directors for director service. In addition, our initial shareholders, or any of their respective affiliates will be reimbursed for any out-of-pocket expenses incurred in connection with activities on our behalf such as identifying potential target businesses and performing due diligence on suitable business combinations. Our audit committee will review on a quarterly basis all payments that were made to our sponsor, executive officers or directors, or our or their affiliates. Any such payments prior to an initial business combination will be made from funds held outside the trust account. Other than quarterly audit committee review of such reimbursements, we do not expect to have any additional controls in place governing our reimbursement payments to our directors and executive officers for their out-of-pocket expenses incurred in connection with our activities on our behalf in connection with identifying and consummating an initial business combination. Other than these payments and reimbursements, no compensation of any kind, including finder’s and consulting fees, will be paid by our Company to our initial shareholders, or any of their respective affiliates, prior to completion of our initial business combination.

After the completion of our initial business combination, directors or members of our management team who remain with us may be paid consulting or management fees from the combined company. All of these fees will be fully disclosed to shareholders, to the extent then known, in the proxy solicitation materials or tender offer materials furnished to our shareholders in connection with a proposed initial business combination. We have not established any limit on the amount of such fees that may be paid by the combined company to our directors or members of management. It is unlikely the amount of such compensation will be known at the time of the proposed initial business combination, because the directors of the post-combination business will be responsible for determining executive officer and director compensation. Any compensation to be paid to our executive officers will be determined, or recommended to our board of directors for determination, either by a compensation committee constituted solely by independent directors or by a majority of the independent directors on our board of directors.

We do not intend to take any action to ensure that members of our management team maintain their positions with us after the consummation of our initial business combination, although it is possible that some or all of our executive officers and directors may negotiate employment or consulting arrangements to remain with us after our initial business combination. The existence or terms of any such employment or consulting arrangements to retain their positions with us may influence our management’s motivation in identifying or selecting a target business but we do not believe that the ability of our management to remain with us after the consummation of our initial business combination will be a determining factor in our decision to proceed with any potential business combination. We are not party to any agreements with our executive officers and directors that provide for benefits upon termination of employment.

Committees of our Board of Directors

Upon the effective date of the registration statement of which this prospectus forms a part, our board of directors will have three standing committees: an audit committee, a compensation committee and a nominating and corporate governance committee. Our audit committee, compensation committee and nominating and corporate governance committee will be composed solely of independent directors. Subject to phase-in rules, the rules of Nasdaq and Rule 10A-3 of the Exchange Act require that the audit committee of a listed company be comprised solely of independent directors, and the rules of Nasdaq require that the compensation committee and the nominating and corporate governance committee of a listed company be comprised solely of independent directors. Each committee will operate under a charter that will be approved by our board and will have the composition and responsibilities described below. The charter of each committee will be available on our website following the closing of this offering.

Audit Committee

Upon the effectiveness of the registration statement of which this prospectus forms a part, we will establish an audit committee of our board of directors. Ms. Desai, Mr. Mittal and Mr. Edelstein will serve as the members of the audit committee, and Ms. Desai will chair the audit committee. Under the Nasdaq listing standards and applicable SEC rules, we are required to have at least three members of the audit committee, all of whom must be independent. Each of Ms. Desai, Mr. Mittal and Mr. Edelstein meet the independent director standard under Nasdaq listing standards and under Rule 10-A-3(b)(1) of the Exchange Act.

Each member of the audit committee is financially literate and our board of directors has determined that Ms. Desai qualifies as an “audit committee financial expert” as defined in applicable SEC rules and has accounting or related financial management expertise.

We will adopt an audit committee charter, which will detail the principal functions of the audit committee, including:

- assisting board oversight of (1) the integrity of our financial statements, (2) our compliance with legal and regulatory requirements, (3) our independent registered public accounting firm’s qualifications and independence, and (4) the performance of our internal audit function and independent registered public accounting firm; the appointment, compensation, retention, replacement, and oversight of the work of the independent registered public accounting firm and any other independent registered public accounting firm engaged by us;
- pre-approving all audit and non-audit services to be provided by the independent registered public accounting firm or any other registered public accounting firm engaged by us, and establishing pre-approval policies and procedures; reviewing and discussing with the independent registered public accounting firm all relationships the firm has with us in order to evaluate their continued independence;
- setting clear policies for audit partner rotation in compliance with applicable law and regulations; obtaining and reviewing a report, at least annually, from the independent registered public accounting firm describing (1) the independent registered public accounting firm’s internal quality-control procedures and (2) any material issues raised by the most recent internal quality-control review, or peer review, of the audit firm, or by any inquiry or investigation by governmental or professional authorities, within the preceding five years respecting one or more independent audits carried out by the firm and any steps taken to deal with such issues;
- meeting to review and discuss our annual audited financial statements and quarterly financial statements with management and the independent registered public accounting firm’s, including reviewing our specific disclosures under “Management’s Discussion and Analysis of Financial Condition and Results of Operations”; reviewing and approving any related party transaction required to be disclosed pursuant to Item 404 of Regulation S-K promulgated by the SEC prior to us entering into such transaction; and
- reviewing with management, the independent registered public accounting firm, and our legal advisors, as appropriate, any legal, regulatory or compliance matters, including any correspondence

with regulators or government agencies and any employee complaints or published reports that raise material issues regarding our financial statements or accounting policies and any significant changes in accounting standards or rules promulgated by the Financial Accounting Standards Board, the SEC or other regulatory authorities.

Compensation Committee

Upon the effectiveness of the registration statement of which this prospectus forms a part, we will establish a compensation committee of our board of directors. Ms. Desai, Mr. Mittal and Mr. Edelstein will serve as the members of the compensation committee, and Ms. Desai will chair the compensation committee. Under the Nasdaq listing standards and applicable SEC rules, we are required to have at least two members of the compensation committee, all of whom must be independent. All members of our compensation committee are independent of and unaffiliated with our sponsor and our underwriters.

We will adopt a compensation committee charter, which will detail the principal functions of the compensation committee, including:

- reviewing and approving on an annual basis the corporate goals and objectives relevant to our Chief Executive Officer's compensation, evaluating our Chief Executive Officer's performance in light of such goals and objectives and determining and approving the remuneration (if any) of our Chief Executive Officer's based on such evaluation;
- reviewing and making recommendations to our board of directors with respect to the compensation, and any incentive compensation and equity based plans that are subject to board approval of all of our other executive officers;
- reviewing our executive compensation policies and plans;
- implementing and administering our incentive compensation equity-based remuneration plans;
- assisting management in complying with our proxy statement and annual report disclosure requirements;
- approving all special perquisites, special cash payments and other special compensation and benefit arrangements for our executive officers and employees;
- producing a report on executive compensation to be included in our annual proxy statement; and
- reviewing, evaluating and recommending changes, if appropriate, to the remuneration for directors.

Notwithstanding the foregoing, as indicated above, other than the payment of customary fees we may elect to make to members of our board of directors for director service and payment to our sponsor of \$10,000 per month, for up to 24 months, for office space, utilities and secretarial and administrative support and reimbursement of expenses, no compensation of any kind (except as related to Ms. Harding discussing immediately below), including finders, consulting or other similar fees, will be paid to any of our existing shareholders, executive officers, directors or any of their respective affiliates, prior to, or for any services they render in order to effectuate the consummation of an initial business combination. Accordingly, it is likely that prior to the consummation of an initial business combination, the compensation committee will only be responsible for the review and recommendation of any compensation arrangements to be entered into in connection with such initial business combination.

With respect to Ms. Harding, our Company remunerates her for professional services rendered to our Company in her role as chief financial officer of at the rate of \$10,000 per month and for her service on our board of directors at the rate of \$15,000 per year, with an additional hourly fee at \$500 per hour for services outside of the ordinary course of business of our Company. Additionally, Ms. Harding will receive a \$50,000 payment on March 21, 2021 in contemplation of her future services to our Company and a \$75,000 payment on the earlier of March 21, 2023 and the date in which our Company is liquidated. If we do not have sufficient funds to make the payments due to Ms. Harding as set forth herein professional services provided by her, we may borrow funds from our sponsor or an affiliate of the initial shareholders or certain of our directors and officers to enable us to make such payments.

In order to finance transaction costs in connection with a business combination or for other matters, our sponsor or an affiliate of the initial shareholders or certain of our directors and officers may, but are not obligated to, loan our company funds as may be required. If we complete a business combination, we would repay these loans, without interest, out of the proceeds of the trust account released to us, or at the lender's discretion, up to a total of \$1,500,000 of such loans may be convertible (including loans made in connection with a business combination, the payment of offering expenses or otherwise) into warrants of the post-business combination entity at a price of \$1.50 per warrant. These warrants would be identical to the private placement warrants. Otherwise, these loans would be repaid only out of funds held outside the trust account. In the event that a business combination does not close, we may use a portion of proceeds held outside the trust account to repay these loans, but no proceeds held in the trust account would be used to repay these loans. Except for the foregoing, the terms of such loans, if any, have not been determined and no written agreements exist with respect to such loans.

The charter will also provide that the compensation committee may, in its sole discretion, retain or obtain the advice of a compensation consultant, independent legal counsel or other adviser and will be directly responsible for the appointment, compensation and oversight of the work of any such adviser. However, before engaging or receiving advice from a compensation consultant, external legal counsel or any other adviser, the compensation committee will consider the independence of each such adviser, including the factors required by Nasdaq and the SEC.

Nominating and Corporate Governance Committee

Upon the effectiveness of the registration statement of which this prospectus forms a part, we will establish a nominating and corporate governance committee of our board of directors. The initial members of our nominating and corporate governance will be Ms. Desai, Mr. Edelstein and Mr. Mittal. Ms. Desai will serve as chair of the nominating and corporate governance committee. Under the Nasdaq listing standards and applicable SEC rules, each member of the nominating and corporate governance committee must be independent. All members of our nominating and corporate governance committee are independent of and unaffiliated with our sponsor and our underwriters.

We will adopt a nominating and corporate governance committee charter, which will detail the purpose and responsibilities of the nominating and corporate governance committee, including:

- identifying, screening and reviewing individuals qualified to serve as directors, consistent with criteria approved by the board, and recommending to our board of directors candidates for nomination for election at the annual general meeting or to fill vacancies on our board of directors;
- developing and recommending to our board of directors and overseeing implementation of our corporate governance guidelines;
- coordinating and overseeing the annual self-evaluation of our board of directors, its committees, individual directors and management in the governance of the Company; and
- reviewing on a regular basis our overall corporate governance and recommending improvements as and when necessary.

The charter will also provide that the nominating and corporate governance committee may, in its sole discretion, retain or obtain the advice of, and terminate, any search firm to be used to identify director candidates, and will be directly responsible for approving the search firm's fees and other retention terms.

We have not formally established any specific, minimum qualifications that must be met or skills that are necessary for directors to possess. In general, in identifying and evaluating nominees for director, our board of directors considers educational background, diversity of professional experience, knowledge of our business, integrity, professional reputation, independence, wisdom, and the ability to represent the best interests of our shareholders. Prior to our initial business combination, holders of our public shares will not have the right to recommend director candidates for nomination to our board of directors.

Compensation Committee Interlocks and Insider Participation

None of our executive officers currently serves, or in the past year has served, as a member of the compensation committee of any entity that has one or more executive officers serving on our board of directors.

Code of Business Conduct and Ethics

Prior to the consummation of this offering, we will have adopted a Code of Business Conduct and Ethics applicable to our directors, executive officers and employees. We will file a copy of our Code of Business Conduct and Ethics as an exhibit to the registration statement of which this prospectus is a part. You will be able to review this document by accessing our public filings at the SEC's web site at www.sec.gov. In addition, a copy of the Code of Business Conduct and Ethics and the charters of the committees of our board of directors will be provided without charge upon request from us. See the section of this prospectus entitled "Where You Can Find Additional Information." If we make any amendments to our Code of Business Conduct and Ethics other than technical, administrative or other non-substantive amendments, or grant any waiver, including any implicit waiver, from a provision of the Code of Business Conduct and Ethics applicable to our chief executive officer and chief financial officer or controller or persons performing similar functions requiring disclosure under applicable SEC or Nasdaq rules, we will disclose the nature of such amendment or waiver on our website. The information included on our website is not incorporated by reference into this registration statement or in any other report or document we file with the SEC, and any references to our website are intended to be inactive textual references only.

Conflicts of Interest

Under Cayman Islands law, directors and executive officers owe the following fiduciary duties:

- duty to act in good faith in what the director or executive officer believes to be in the best interests of the Company as a whole;
- duty to exercise powers for the purposes for which those powers were conferred and not for a collateral purpose;
- directors should not improperly fetter the exercise of future discretion;
- duty to exercise powers fairly as between different sections of shareholders;
- duty not to put themselves in a position in which there is a conflict between their duty to the Company and their personal interests; and
- duty to exercise independent judgment.

In addition to the above, directors also owe a duty of care which is not fiduciary in nature. This duty has been defined as a requirement to act as a reasonably diligent person having both the general knowledge, skill and experience that may reasonably be expected of a person carrying out the same functions as are carried out by that director in relation to the Company and the general knowledge skill and experience of that director.

As set out above, directors have a duty not to put themselves in a position of conflict and this includes a duty not to engage in self-dealing, or to otherwise benefit as a result of their position. However, in some instances what would otherwise be a breach of this duty can be forgiven and/or authorized in advance by the shareholders provided that there is full disclosure by the directors. This can be done by way of permission granted in the amended and restated memorandum and articles of association or alternatively by shareholder approval at general meetings.

Each of our executive officers and directors presently has, and any of them in the future may have additional, fiduciary or contractual obligations to at least one other entity pursuant to which such executive officer or director is or will be required to present a business combination opportunity to such entity. Accordingly, if any of our executive officers or directors becomes aware of a business combination opportunity which is suitable for an entity to which he or she has then- current fiduciary or contractual obligations, he or she will honor his or her fiduciary or contractual obligations to present such business combination opportunity to such entity, subject to their fiduciary duties under Cayman Islands law. Our amended and restated memorandum and articles of association provide that, to the fullest extent permitted by applicable law: (i) no individual serving as a director or an executive officer shall have any duty, except and to the extent expressly assumed by contract, to refrain from engaging directly or indirectly in the same or similar business activities or lines of business as us; and (ii) we renounce any interest or expectancy in, or in being offered an opportunity to participate in, any potential transaction or matter which may be a

corporate opportunity for any director or executive officer, on the one hand, and us, on the other. We do not believe, however, that the fiduciary duties or contractual obligations of our executive officers or directors will materially affect our ability to complete our initial business combination.

Below is a table summarizing the entities to which our executive officers and directors currently have fiduciary duties or contractual obligations:

Individual	Entity	Entity's Business	Affiliation
Thor Björgólfsson	Novator Partners LLP	Investment Firm	Founding Partner
	The Lost Explored Ltd.	Modern Adventure	Director
	V-Nova International	Lifestyle Software	Founding Partner
	Thunder Productions Ltd.	Media	
	Novator Capital Advisors LLP	Investment Firm	
Arnaud Massenet	Design Milk Co.	Design Industry	Board Member
	GRIP Ltd.	Artificial Intelligence	Chairman

In addition, our sponsor and our executive officers and directors may sponsor or form other special purpose acquisition companies similar to ours or may pursue other business or investment ventures during the period in which we are seeking an initial business combination. Any such companies, businesses or investments may present additional conflicts of interest in pursuing an initial business combination. However, we do not believe that any such potential conflicts would materially affect our ability to complete our initial business combination.

Potential investors should also be aware of the following other potential conflicts of interest:

- Our executive officers and directors are not required to, and will not, commit their full time to our affairs, which may result in a conflict of interest in allocating their time between our operations and

our search for a business combination and their other businesses. We do not intend to have any full-time employees prior to the completion of our initial business combination. Each of our executive officers is engaged in several other business endeavors for which he may be entitled to substantial compensation, and our executive officers are not obligated to contribute any specific number of hours per week to our affairs.

- Our initial shareholders, sponsor and certain of our directors and executive officers purchased founder shares prior to the date of this prospectus, and will purchase private placement warrants and the Novator private placement units in transactions that will close simultaneously with the closing of this offering. Our initial shareholders, sponsor, directors and executive officers have entered into a letter agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to their founder shares, public shares and Novator private placement shares in connection with the completion of our initial business combination. Additionally, our initial shareholders, sponsor, directors and executive officers have agreed to waive their rights to liquidating distributions from the trust account with respect to their founder shares if we fail to complete our initial business combination within the prescribed time frame. If we do not complete our initial business combination within the prescribed time frame, the private placement warrants and Novator private placement warrants will expire worthless. Furthermore, our initial shareholders have agreed not to transfer, assign or sell any of their founder shares and any Class A ordinary shares issuable upon conversion thereof until the earlier to occur of: (i) one year after the completion of our initial business combination or (ii) the date following the completion of our initial business combination on which we complete a liquidation, merger, share exchange or other similar transaction that results in all of our shareholders having the right to exchange their ordinary shares for cash, securities or other property. Notwithstanding the foregoing, if the closing price of our Class A ordinary shares equals or exceeds \$12.00 per share (as adjusted for share sub-divisions, share capitalizations, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, the founder shares will be released from the lockup. The private placement warrants and Novator private placement warrants (including the Class A ordinary shares issuable upon exercise of the private placement warrants) will not be transferable until 30 days following the completion of our initial business combination. Because each of our executive officers and director nominees will own ordinary shares or warrants directly or indirectly, they may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination.
- Our executive officers and directors may have a conflict of interest with respect to evaluating a particular business combination if the retention or resignation of any such executive officers and directors was included by a target business as a condition to any agreement with respect to our initial business combination.

We are not prohibited from pursuing an initial business combination with a business combination target that is affiliated with our sponsor, executive officers or directors or completing the business combination through a joint venture or other form of shared ownership with our sponsor, executive officers or directors. In the event we seek to complete our initial business combination with a business combination target that is affiliated with our sponsor, executive officers or directors, we, or a committee of independent directors, would obtain an opinion from an independent investment banking which is a member of FINRA or a valuation or appraisal firm, that such initial business combination is fair to our Company from a financial point of view. We are not required to obtain such an opinion in any other context. Furthermore, in no event will our sponsor or any of our existing executive officers or directors, or any of their respective affiliates, be paid by the Company any finder's fee, consulting fee or other compensation prior to, or for any services they render in order to effectuate, the completion of our initial business combination. Further, commencing on the date our securities are first listed on Nasdaq, we will also pay our sponsor \$10,000 per month for office space, utilities, secretarial and administrative services provided to members of our management team.

In addition, in order to finance transaction costs in connection with a business combination or for other matters, our sponsor or an affiliate of the initial shareholders or certain of our directors and officers may, but are not obligated to, loan our company funds as may be required. If we complete a business combination, we would repay these loans, without interest, out of the proceeds of the trust account released to us, or at the lender's discretion, up to a maximum of \$1,500,000 of such loans may be convertible

including loans made in connection with a business combination, the payment of offering expenses or otherwise) into warrants of the post-business combination entity at a price of \$1.50 per warrant. These warrants would be identical to the private placement warrants. Otherwise, these loans would be repaid only out of funds held outside the trust account. In the event that a business combination does not close, we may use a portion of proceeds held outside the trust account to repay these loans, but no proceeds held in the trust account would be used to repay these loans. Except for the foregoing, the terms of such loans, if any, have not been determined and no written agreements exist with respect to such loans.

We cannot assure you that any of the above mentioned conflicts will be resolved in our favor.

In the event that we submit our initial business combination to our public shareholders for a vote, our initial shareholders, sponsor, directors and executive officers have agreed to vote their founder shares, Novator private placement shares and any shares purchased during or after the offering in favor of our initial business combination.

Limitation on Liability and Indemnification of Executive Officers and Directors

Cayman Islands law does not limit the extent to which a company's amended and restated memorandum and articles of association may provide for indemnification of executive officers and directors, except to the extent any such provision may be held by the Cayman Islands courts to be contrary to public policy, such as to provide indemnification against willful default, fraud or the consequences of committing a crime. Our amended and restated memorandum and articles of association provide for indemnification of our executive officers and directors to the maximum extent permitted by law, including for any liability incurred in their capacities as such, except through their own actual fraud, willful default or willful neglect. We expect to purchase a policy of directors' and executive officers' liability insurance that insures our executive officers and directors against the cost of defense, settlement or payment of a judgment in some circumstances and insures us against our obligations to indemnify our executive officers and directors.

Our executive officers and directors have agreed to waive any right, title, interest or claim of any kind in or to any monies in the trust account, and have agreed to waive any right, title, interest or claim of any kind they may have in the future as a result of, or arising out of, any services provided to us and will not seek recourse against the trust account for any reason whatsoever. Accordingly, any indemnification provided will only be able to be satisfied by us if (i) we have sufficient funds outside of the trust account or (ii) we consummate an initial business combination.

Our indemnification obligations may discourage shareholders from bringing a lawsuit against our executive officers or directors for breach of their fiduciary duty. These provisions also may have the effect of reducing the likelihood of derivative litigation against our executive officers and directors, even though such an action, if successful, might otherwise benefit us and our shareholders. Furthermore, a shareholder's investment may be adversely affected to the extent we pay the costs of settlement and damage awards against our executive officers and directors pursuant to these indemnification provisions. We believe that these provisions, the insurance and the indemnity agreements are necessary to attract and retain talented and experienced executive officers and directors.

PRINCIPAL SHAREHOLDERS

The following table sets forth information regarding the beneficial ownership of our ordinary shares as of the date of this prospectus, and as adjusted to reflect the sale of our Class A ordinary shares included in the units offered by this prospectus and the Novator private placement units, and assuming no purchase of units in this offering, by:

- each person known by us to be the beneficial owner of more than 5% of our issued and outstanding ordinary shares;
- each of our executive officers, directors and director nominees; and
- all our executive officers and directors as a group.

Unless otherwise indicated, we believe that all persons named in the table have sole voting and investment power with respect to all of our ordinary shares beneficially owned by them. The following table does not reflect record or beneficial ownership of the private placement warrants or the Novator private placement warrants as these warrants are not exercisable within 60 days of the date of this prospectus.

On December 9, 2020, our sponsor paid \$25,000, or approximately \$0.004 per share, to cover certain of our offering and formation costs in exchange for 5,750,000 founder shares. During February 2021, we effectuated a share dividend of 1,006,250 Class B ordinary and subsequently issued a cancellation for 131,250 Class B ordinary shares resulting in an aggregate of 6,625,000 founder shares being issued and outstanding. The number of founder shares outstanding was determined based on the expectation that the total size of this offering would be a maximum of 26,500,000 units if the underwriters' over-allotment option is exercised in full, and therefore that such founder shares would represent 20% of the outstanding shares after this offering. Up to 750,000 of the founder shares will be surrendered for no consideration depending on the extent to which the underwriters' over-allotment is exercised. The post-offering percentages in the following table assume that the underwriters do not exercise their over-allotment option, that 750,000 founder shares have been surrendered to us for no consideration, and that there are 20,000,000 ordinary shares issued and outstanding after this offering and the Novator private placement units.

Concurrently with the closing of this offering, our sponsor, and certain of our directors and executive officers have agreed to purchase 3,500,000 units at a price of \$10.00 per unit in a private placement of units that consists of one Class A ordinary share and one-third of one warrant per unit, for an aggregate purchase price of \$35,000,000. The gross proceeds of the Novator private placement will be deposited into the trust account. The Novator private placement units are identical to the units being sold in this offering, subject to certain limited exceptions described in this prospectus. Our sponsor, as well as our directors and executive officers, have agreed to waive their redemption rights with respect to the shares of Class A ordinary shares included in the Novator private placement units in connection with the completion of our initial business combination.

-
- (1) Data above includes beneficial ownership of 6,625,000 Class B ordinary shares which are convertible on a share for share basis, subject to adjustment, into our Class A ordinary shares.
 - (2) Data above includes 3,500,000 Class A ordinary shares to be issued by us to Novator Capital Sponsor Ltd. and our directors and officers named above in connection with the Novator private placement, (assuming our sponsor would be the only party to acquire such shares (and based on the assumptions set forth above the table in this section of this prospectus), and that our sponsor, executive officers, directors and director nominees do not acquire any of the units being offered by this prospectus). From and after the date of this prospectus and at or prior to the consummation of the offering contemplated by this prospectus, we expect that certain Class B ordinary shares reported herein as beneficially owned by our sponsor will be transferred to certain of our executive officers, directors and director nominees.
 - (3) Shares reported above as beneficially owned by our sponsor are also reported above as beneficially owned by Mr. Bjorgolfsson as Mr. Bjorgolfsson may have dispositive and voting control over those shares. Our sponsor is wholly owned by BB Trustees SA, as trustee of the irrevocable discretionary trust known as The Future Holdings Trust for which BB Trustees SA acts as trustee; the directors of such trust are Nicolas Killen, Jan Rottiers and Arnaud Cywies. Mr. Bjorgolfsson disclaims beneficial ownership of the shares owned by our sponsor.
 - (4) The mailing address for each of the parties named in the above table is c/o Aurora Acquisition Corp, 20 North Audley Street, London W1K 6LX, United Kingdom.

Immediately after this offering, our initial shareholders and holders of Novator private placement shares will beneficially own 30.57% of the then issued and outstanding ordinary shares (assuming they do not purchase any units in this offering). Only holders of Class B ordinary shares will have the right to appoint directors to our board in any election held prior to or in connection with the completion of our initial business combination. Holders of our public shares and Novator private placement shares will not have the right to appoint any directors to our board of directors prior to our initial business combination. Because of this ownership block, our initial shareholders may be able to effectively influence the outcome of all other matters requiring approval by our shareholders, including amendments to our amended and restated memorandum and articles of association and approval of significant corporate transactions including our initial business combination.

Our sponsor has committed, pursuant to a written agreement, to purchase an aggregate of 4,000,000 private placement warrants (or 4,400,000 warrants if the underwriters' over-allotment option is exercised in full), each exercisable to purchase one Class A ordinary share at \$11.50 per share, at a price of \$1.50 per warrant, or \$6,000,000 in the aggregate (or \$6,600,000 if the underwriters' over-allotment option is exercised in full), in a private placement that will occur simultaneously with the closing of this offering. Our sponsor, and certain of our directors and executive officers, pursuant to the sale of Novator private placement units for an aggregate purchase price of \$35,000,000, will receive 3,500,000 Novator private placement warrants concurrently with the closing of this offering. The private placement warrants and Novator private placement warrants will be identical to the warrants sold in this offering except that the private placement warrants and Novator private placement warrants, so long as they are held by our sponsor, (i) will not be redeemable by us, (ii) may not (including the Class A ordinary shares issuable upon exercise of these warrants), subject to certain limited exceptions, be transferred, assigned or sold by the holders until 30 days after the completion of our initial business combination, (iii) may be exercised by the holders on a cashless basis and (iv) will be entitled to registration rights. A portion of the purchase price of the private placement warrants and Novator private placement warrants will be added to the proceeds from this offering to be held in the trust account such that at the time of closing of this offering \$235 million (or \$265 million if the underwriters exercise their over-allotment option in full) will be held in the trust account. If we do not complete our initial business combination within 24 months from the closing of this offering, the private placement warrants and Novator private placement warrants will expire worthless. The private placement warrants and Novator private placement warrants are subject to the transfer restrictions described below.

Our sponsor and our executive officers and directors are deemed to be our "promoters" as such term is defined under the federal securities laws.

Transfers of Founder Shares, Private Placement Warrants, Novator Private Placement Shares and Novator Private Placement Warrants

Our initial shareholders, sponsor, directors and executive officers have agreed not to transfer, assign or sell any of their founder shares, any Class A ordinary shares issuable upon conversion thereof and any, Novator private placement shares until the earlier of: (i) one year after the completion of our initial business combination, and (ii) the date following the completion of our initial business combination on which we complete a liquidation, merger, share exchange or other similar transaction that results in all of our shareholders having the right to exchange their ordinary shares for cash, securities or other property. Notwithstanding the foregoing, if the closing price of our Class A ordinary shares equals or exceeds \$12.00 per share (as adjusted for share sub-divisions, share capitalizations, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, the founder shares will be released from the lockup and (iii) at a price of \$0.10 per warrant, provided that the closing price of our Class A ordinary shares equals or exceeds \$18.00 per share (as adjusted for share sub-divisions, share capitalizations, reorganizations, recapitalizations and the like) for any 20 trading days within a 30 trading-day period ending on the third trading day prior to the date on which we give proper notice of such redemption to the warrants holders and provided certain other conditions are met.

The private placement warrants and Novator private placement warrants (including the Class A ordinary shares issuable upon exercise of such warrants) will not be transferable, assignable or salable until 30 days after the completion of our initial business combination (except, among other limited exceptions as described under “Principal Shareholders—Transfers of Founder Shares, Novator Private Placement Warrants and Private Placement Warrants,” to our executive officers and directors and other persons or entities affiliated with our sponsor or its permitted transferee) and they will not be redeemable by us so long as they are held by our sponsor or its permitted transferee. Our sponsor and certain of our directors and executive officers or their or its permitted transferees have the option to exercise the Novator private placement warrants and the private placement warrants on a cashless basis.

Registration Rights

Our sponsor, directors and executive officers will have rights to require us to register any of our securities held by them for resale under the Securities Act pursuant to a registration and shareholder rights agreement to be signed prior to or on the effective date of this offering. These holders will be entitled to make up to three demands, excluding short form registration demands, that we register such securities for sale under the Securities Act. In addition, the holders of the founder shares, private placement warrants, Novator private placement shares, and warrants that may be issued upon conversion of working capital loans (and any shares of Class A common shares issuable upon the exercise of the private placement warrants, Novator private placement warrants and warrants that may be issued upon conversion of working capital loans and upon conversion of the founder shares) will have certain “piggy-back” registration rights with respect to registration statements filed subsequent to our completion of our initial business combination and rights to require us to register for resale such securities pursuant to Rule 415 under the Securities Act. We will bear the expenses incurred in connection with the filing of any such registration statements.

DESCRIPTION OF SECURITIES

We are a Cayman Islands exempted Company (company number 366813) and our affairs are governed by our amended and restated memorandum and articles of association, the Companies Law and the common law of the Cayman Islands. Pursuant to our amended and restated memorandum and articles of association which will be adopted upon the consummation of this offering, we will be authorized to issue 500,000,000 Class A ordinary shares, \$0.0001 par value each, 50,000,000 Class B ordinary shares, \$0.0001 par value each, and 5,000,000 preference shares, \$0.0001 par value each. The following description summarizes certain terms of our shares as set out more particularly in our memorandum and articles of association. Because it is only a summary, it may not contain all the information that is important to you.

Units

Each unit has an offering price of \$10.00 and consists of one Class A ordinary share and one-third of one warrant. Each whole warrant entitles the holder thereof to purchase one Class A ordinary share at a price of \$11.50 per share, subject to adjustment as described in this prospectus. Pursuant to the warrant agreement, a warrant holder may exercise its warrants only for a whole number of the Company's Class A ordinary shares. This means only a whole warrant may be exercised at any given time by a warrant holder.

The Class A ordinary shares and warrants comprising the units are expected to begin separate trading on the 52nd day following the date of this prospectus unless the representative of the underwriters inform us of its decision to allow earlier separate trading, subject to our having filed the Current Report on Form 8-K described below and having issued a press release announcing when such separate trading will begin. Once the Class A ordinary shares and warrants commence separate trading, holders will have the option to continue to hold units or separate their units into the component securities. Holders will need to have their brokers contact our transfer agent in order to separate the units into Class A ordinary shares and warrants. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. Accordingly, unless you purchase at least two units, you will not be able to receive or trade a whole warrant.

In no event will the Class A ordinary shares and warrants be traded separately until we have filed with the SEC a Current Report on Form 8-K which includes an audited balance sheet reflecting our receipt of the gross proceeds of this offering. We anticipate filing such Current Report on Form 8-K four business days from the closing of the offering. If the underwriters' over-allotment option is exercised following the initial filing of such Current Report on Form 8-K, a second or amended Current Report on Form 8-K will be filed to provide updated financial information to reflect the exercise of the underwriters' over-allotment option.

Ordinary Shares

Prior to the date of this prospectus, there were 6,625,000 Class B ordinary shares issued and outstanding, all of which were held of record by our initial shareholders. Upon the closing of this offering, 29,375,000 ordinary shares including the Novator private placement shares will be outstanding (assuming no exercise of the underwriters' over-allotment option) including:

- 20,000,000 Class A ordinary shares underlying the units issued as part of this offering;
- 3,500,000 Class A ordinary shares included in the Novator private placement to our sponsor, and certain of our directors and executive officers concurrently with the closing of this offering; and
- 5,875,000 Class B ordinary shares held by our initial shareholders.

If we decrease the size of this offering, or if the underwriters do not exercise their over-allotment option in full, our sponsor will forfeit an amount of Class B ordinary shares to maintain the ownership of our sponsor (together with any permitted transferees of our founder shares), on an as-converted basis, at 20% of the sum of (i) the number of public shares (including any such shares issued following the exercise of the over-allotment option), (ii) the number of founder shares held by our sponsor (together with any permitted transferees of such founder shares) following such forfeiture and (iii) number of Novator private placement shares underlying the Novator private placement units. Up to 750,000 founder shares are subject to forfeiture by our sponsor depending on the extent to which the underwriters' over-allotment option is exercised.

Holders of Class A ordinary shares and holders of Class B ordinary shares are entitled to one vote for each share held on all matters to be voted on by shareholders and will vote together as a single class on all matters submitted to a vote of our shareholders, except as provided below and required by law. Unless specified in our amended and restated memorandum and articles of association, or as required by applicable provisions of the Companies Law or applicable stock exchange rules, the affirmative vote of a majority of the Class A ordinary shares and Class B ordinary shares that are voted is required to approve any such matter voted on by our shareholders. Approval of certain actions will require a special resolution under Cayman Islands law, being the affirmative vote of at least two-thirds of our Class A ordinary shares and Class B ordinary shares that are voted, and pursuant to our amended and restated memorandum and articles of association; such actions include amending our amended and restated memorandum and articles of association and approving a statutory merger or consolidation with another company. Our board of directors is divided into three classes with only one class of directors being up for election in each year and each class (except for those directors appointed prior to our first annual general meeting) serving a three-year term. There is no cumulative voting with respect to the appointment of directors, with the result that the holders of more than 50% of the shares voted for the appointment of directors can appoint all of the directors. However, only holders of Class B ordinary shares will have the right to vote for directors in any election held prior to or in connection with the completion of our initial business combination, meaning that holders of Class A ordinary shares will not have the right to elect any directors until after the completion of our initial business combination. Our shareholders are entitled to receive ratable dividends when, as and if declared by our board of directors out of funds legally available therefor.

Because our amended and restated memorandum and articles of association authorize the issuance of up to 500,000,000 Class A ordinary shares, if we were to enter into a business combination, we may (depending on the terms of such a business combination) be required to increase the number of Class A ordinary shares which we are authorized to issue at the same time as our shareholders vote on the business combination to the extent we seek shareholder approval in connection with our initial business combination.

Our board of directors will be divided into three classes, each of which will generally serve for a term of three years with only one class of directors being elected in each year. Class 1 of our board of directors will initially consist of Michael Edelstein and Sangeeta Desai, with a term expiring at our annual meeting of shareholders to be held during 2022; Class 2 of our board of directors will initially consist of Shravin Mittal and Caroline Harding, with a term expiring at our annual meeting of shareholders to be held during 2023; and Class 3 of our board of directors will initially consist of Thor Björgólfsson with a term expiring at our annual meeting of shareholders to be held during 2024. In accordance with Nasdaq corporate governance requirements, we are required to hold an annual general meeting no later than one year after our first fiscal year end following our listing on Nasdaq. There is no requirement under the Companies Law for us to hold annual or extraordinary general meetings or appoint directors. We may not hold an annual general meeting to appoint new directors prior to the consummation of our initial business combination.

We will provide our public shareholders with the opportunity to redeem all or a portion of their public shares upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account calculated (excluding any amounts then on deposit in the trust account that are allocable to the Novator private placement shares) as of two business days prior to the consummation of our initial business combination, including interest (net of taxes payable), divided by the number of then outstanding public shares and Novator private placement shares, subject to the limitations described herein. The amount in the trust account is initially anticipated to be \$10.00 per public share and per Novator private placement share. The per share amount we will distribute to investors who properly redeem their shares will not be reduced by the deferred underwriting commissions we will pay to the underwriters. There will be no redemption rights upon the completion of our initial business combination with respect to our warrants. Our initial shareholders, sponsor, directors and executive officers have entered into agreements with us, pursuant to which they have agreed to waive their redemption rights with respect to their founder shares, Novator private placement shares and any public shares they may acquire during or after this offering in connection with the completion of our initial business combination. The other members of our management team have entered into agreements similar to the one entered into by our sponsor with respect to any public shares acquired by them in or after this offering. Unlike many blank check companies that hold shareholder votes and conduct proxy solicitations in conjunction with their initial business combinations and provide for related redemptions of public shares for cash upon completion of

such initial business combinations even when a vote is not required by law, if a shareholder vote is not required by law and we do not decide to hold a shareholder vote for business or other legal reasons, we will, pursuant to our amended and restated memorandum and articles of association, conduct the redemptions pursuant to the tender offer rules of the SEC, and file tender offer documents with the SEC prior to completing our initial business combination. Our amended and restated memorandum and articles of association require these tender offer documents to contain substantially the same financial and other information about the initial business combination and the redemption rights as is required under the SEC's proxy rules. If, however, a shareholder approval of the transaction is required by law, or we decide to obtain shareholder approval for business or other legal reasons, we will, like many blank check companies, offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. If we seek shareholder approval, we will complete our initial business combination only if a majority of the ordinary shares voted are voted in favor of the initial business combination. However, the participation of our sponsor, executive officers, directors or their affiliates in privately-negotiated transactions (as described in this prospectus), if any, could result in the approval of our initial business combination even if a majority of our public shareholders vote, or indicate their intention to vote, against such initial business combination. For purposes of seeking approval of the majority of our outstanding ordinary shares, non-votes will have no effect on the approval of our initial business combination once a quorum is obtained. Our amended and restated memorandum and articles of association require that at least five days' notice will be given of any general meeting. We expect that a final proxy statement would be mailed to public shareholders at least 5 days prior to the general meeting.

If we seek shareholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated memorandum and articles of association provide that a public shareholder, together with any affiliate of such shareholder or any other person with whom such shareholder is acting in concert or as a "group" (as defined under Section 13 of the Exchange Act), will be restricted from redeeming its shares with respect to more than an aggregate of 20% of the public shares without our prior consent. However, we would not be restricting our shareholders' ability to vote all of their shares (including Excess Shares) for or against our initial business combination. Our shareholders' inability to redeem the Excess Shares will reduce their influence over our ability to complete our initial business combination, and such shareholders could suffer a material loss in their investment if they sell such Excess Shares on the open market. Additionally, such shareholders will not receive redemption distributions with respect to the Excess Shares if we complete our initial business combination. And, as a result, such shareholders will continue to hold that number of shares exceeding 20% and, in order to dispose such shares would be required to sell their shares in open market transactions, potentially at a loss.

If we seek shareholder approval in connection with our initial business combination, pursuant to the letter agreement, our initial shareholders, sponsor, directors and executive officers have agreed to vote their founder shares and Novator private placement shares in favor of our initial business combination, and our initial shareholders have also agreed to vote any public shares purchased during or after this offering in favor of our initial business combination. As a result, in addition to our initial shareholders' founder shares and the Novator private placement shares, we would need 5,312,501 or approximately 26.6%, of the 20,000,000 public shares sold in this offering to be voted in favor of an initial business combination in order to have our initial business combination approved (assuming all outstanding shares are voted and the over-allotment option is not exercised). The members of our management team have entered into agreements similar to the one entered into by our sponsor with respect to any public shares acquired by them in or after this offering. Additionally, each public shareholder may elect to redeem their public shares irrespective of whether they vote for or against the proposed transaction.

Pursuant to our amended and restated memorandum and articles of association, if we are unable to complete our initial business combination within 24 months from the closing of this offering, we will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but no more than ten business days thereafter, redeem the public shares and Novator private placement shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (less up to \$100,000 of interest to pay liquidation expenses and net of taxes payable), divided by the number of then outstanding public shares, which redemption will completely extinguish public shareholders' rights as shareholders (including the right to receive further liquidation distributions, if any),

subject to applicable law and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining shareholders and our board of directors, liquidate and dissolve, subject in each case to our obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law. Our initial shareholders have entered into agreements with us, pursuant to which they have agreed to waive their rights to liquidating distributions from the trust account with respect to their founder shares if we fail to complete our initial business combination within 24 months from the closing of this offering. However, if our initial shareholders, sponsor, directors or executive officers acquire public shares in or after this offering or in respect to the Novator private placement shares, they will be entitled to liquidating distributions from the trust account with respect to such public shares or Novator private placement shares if we fail to complete our initial business combination within 24 months from the closing of this offering. Our amended and restated memorandum and articles of association provide that, in the event we commence a liquidation and all public shares have been redeemed, all founder shares not held by the sponsor shall be surrendered to the Company for no consideration, such that only the founder shares held by the sponsor share in any assets in liquidation.

In the event of a winding up, liquidation or dissolution of the Company after a business combination, our shareholders are entitled to share ratably in all assets remaining available for distribution to them after payment of liabilities and after provision is made for each class of shares, if any, having preference over the ordinary shares. Our shareholders have no preemptive or other subscription rights. There are no sinking fund provisions applicable to the ordinary shares, except that we will provide our public shareholders with the opportunity to redeem their public shares for cash at a per share price equal to the aggregate amount then on deposit in the trust account, including interest (net of taxes payable), divided by the number of then outstanding public shares, upon the completion of our initial business combination, subject to the limitations described herein.

Founder Shares

The founder shares are designated as Class B ordinary shares, except as described below, are identical to the Class A ordinary shares included in the units being sold in this offering and the Novator private placement, and holders of founder shares and Novator private placement shares have the same shareholder rights as public shareholders, except that (i) the founder shares and Novator private placement shares are subject to certain transfer restrictions, as described in more detail below, (ii) our initial shareholders, sponsor, director and executive officers have entered into agreements with us, pursuant to which they have agreed (A) to waive their redemption rights with respect to their founder shares, Novator private placement shares and any public shares in connection with the completion of our initial business combination, (B) to waive their redemption rights with respect to their founder shares, Novator private placement shares and public shares in connection with a shareholder vote to approve an amendment to our amended and restated memorandum and articles of association to modify the substance or timing of our obligation to redeem 100% of our public shares and Novator private placement shares if we have not consummated an initial business combination within 24 months from the closing of this offering and (C) with respect to only the founder shares, to waive their rights to liquidating distributions from the trust account with respect to such founder shares if we fail to complete our initial business combination within 24 months from the closing of this offering, although they will be entitled to liquidating distributions from the trust account with respect to any public shares and Novator private placement shares they hold if we fail to complete our initial business combination within such time period, (iii) the founder shares are automatically convertible into Class A ordinary shares at the time of our initial business combination as described herein, and (iv) prior to the completion of our initial business combination, only holders of Class B ordinary shares will have the right to appoint directors in any election.

If we submit our initial business combination to our public shareholders for a vote, our initial shareholders, sponsor, directors and executive officers have agreed to vote their founder shares, Novator private placement shares and any public shares purchased during or after this offering in favor of our initial business combination. The members of our management team have entered into agreements similar to the one entered into by our sponsor with respect to the Novator private placement shares and any public shares acquired by them in or after this offering.

The founder shares will automatically convert into Class A ordinary shares on the first business day following the consummation of our initial business combination at a ratio such that the total number of

Class A ordinary shares issuable upon conversion of all founder shares will equal, in the aggregate, on an as-converted basis, 20% of the sum of (i) the total number of Class A ordinary shares (including any such shares issued following the exercise of the over-allotment option) and Novator private placement shares, plus (ii) the sum of (a) the total number of Class A ordinary shares issued or deemed issued or issuable upon conversion or exercise of any equity-linked securities or rights issued or deemed issued, by us in connection with or in relation to the consummation of our initial business combination, excluding any Class A ordinary shares or equity-linked securities exercisable for or convertible into Class A ordinary shares issued, or to be issued, to any seller in the initial business combination and any warrants issued in a private placement to our sponsor or an affiliate of our sponsor upon conversion of working capital loans, minus (b) the number of public shares redeemed by public shareholders in connection with our initial business combination. In no event will any founder shares convert into Class A ordinary shares at a ratio that is less than one-for-one.

Our sponsor, directors and executive officers have agreed not to transfer, assign or sell any of its founder shares and any Class A ordinary shares issued upon conversion thereof and Novator private placement shares until the earliest of (a) one year after the completion of our initial business combination and (b) the date on which we complete a liquidation, merger, share exchange or other similar transaction after our initial business combination that results in all of our shareholders having the right to exchange their Class A ordinary shares for cash, securities or other property (except to certain permitted transferees and under certain circumstances as described herein under “Principal Shareholders—Transfers of Founder Shares, Private Placement Warrants and Novator Private Placement Warrants”). Any permitted transferees will be subject to the same applicable restrictions and other agreements of our initial shareholders with respect to any founder shares and Novator private placement shares. We refer to such transfer restrictions throughout this prospectus as the lock-up. Notwithstanding the foregoing, if the closing price of our Class A ordinary shares equals or exceeds \$12.00 per share (as adjusted for share sub-divisions, share dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, the founder shares and Novator private placement shares held by our sponsor, directors and the members of our management team will be released from the lock-up. See “Principal Shareholders—Transfers of Founder Shares, Private Placement Warrants, Novator Private Placement Shares and Novator Private Placement Warrants.”

Register of Members

Under Cayman Islands law, we must keep a register of members and there will be entered therein:

- the names and addresses of the members, a statement of the shares held by each member, and of the amount paid or agreed to be considered as paid, on the shares of each member and the voting rights of shares of each member;
- whether voting rights are attached to the share in issue;
- the date on which the name of any person was entered on the register as a member; and
- the date on which any person ceased to be a member.

Under Cayman Islands law, the register of members of our Company is prima facie evidence of the matters set out therein (i.e. the register of members will raise a presumption of fact on the matters referred to above unless rebutted) and a member registered in the register of members will be deemed as a matter of Cayman Islands law to have legal title to the shares as set against its name in the register of members. Upon the closing of this public offering, the register of members will be immediately updated to reflect the issue of shares by us. Once our register of members has been updated, the shareholders recorded in the register of members will be deemed to have legal title to the shares set against their name. However, there are certain limited circumstances where an application may be made to a Cayman Islands court for a determination on whether the register of members reflects the correct legal position. Further, the Cayman Islands court has the power to order that the register of members maintained by a company should be rectified where it considers that the register of members does not reflect the correct legal position. If an application for an order for rectification of the register of members were made in respect of our ordinary shares, then the validity of such shares may be subject to re-examination by a Cayman Islands court.

Preference Shares

Our amended and restated memorandum and articles of association authorize 5,000,000 preference shares and provide that preference shares may be issued from time to time in one or more series. Our board of directors will be authorized to fix the voting rights, if any, designations, powers, preferences, the relative, participating, optional or other special rights and any qualifications, limitations and restrictions thereof, applicable to the shares of each series. Our board of directors will be able to, without shareholder approval, issue preference shares with voting and other rights that could adversely affect the voting power and other rights of the holders of the ordinary shares and could have anti-takeover effects. The ability of our board of directors to issue preference shares without shareholder approval could have the effect of delaying, deferring or preventing a change of control of us or the removal of existing management. We have no preference shares outstanding at the date hereof. Although we do not currently intend to issue any preference shares, we cannot assure you that we will not do so in the future. No preference shares are being issued or registered in this offering.

Warrants

Public Shareholders' Warrants

Each whole warrant entitles the registered holder to purchase one Class A ordinary share at a price of \$11.50 per share, subject to adjustment as discussed below, at any time commencing on the later of 12 months from the closing of this offering or 30 days after the completion of our initial business combination, provided in each case that we have an effective registration statement under the Securities Act covering the Class A ordinary shares issuable upon exercise of the warrants and a current prospectus relating to them is available (or we permit holders to exercise their warrants on a cashless basis under the circumstances specified in the warrant agreement) and such shares are registered, qualified or exempt from registration under the securities, or blue sky, laws of the state of residence of the holder. Pursuant to the warrant agreement, a warrant holder may exercise its warrants only for a whole number of Class A ordinary shares. This means only a whole warrant may be exercised at a given time by a warrant holder. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. Accordingly, unless you purchase at least two units, you will not be able to receive or trade a whole warrant. The warrants will expire five years after the completion of our initial business combination, at 5:00 p.m., New York City time, or earlier upon redemption or liquidation.

We will not be obligated to deliver any Class A ordinary shares pursuant to the exercise of a warrant and will have no obligation to settle such warrant exercise unless a registration statement under the Securities Act with respect to the Class A ordinary shares underlying the warrants is then effective and a prospectus relating thereto is current, subject to our satisfying our obligations described below with respect to registration. No warrant will be exercisable and we will not be obligated to issue a Class A ordinary share upon exercise of a warrant unless the Class A ordinary share issuable upon such warrant exercise has been registered, qualified or deemed to be exempt under the securities laws of the state of residence of the registered holder of the warrants. In the event that the conditions in the two immediately preceding sentences are not satisfied with respect to a warrant, the holder of such warrant will not be entitled to exercise such warrant and such warrant may have no value and expire worthless. In no event will we be required to net cash settle any warrant. In the event that a registration statement is not effective for the exercised warrants, the purchaser of a unit containing such warrant will have paid the full purchase price for the unit solely for the Class A ordinary share underlying such unit.

We have agreed that as soon as practicable, but in no event later than thirty (30) business days after the closing of our initial business combination, we will use our best efforts to file with the SEC a registration statement for the registration, under the Securities Act, of the Class A ordinary shares issuable upon exercise of the warrants. We will use our best efforts to cause the same to become effective and to maintain the effectiveness of such registration statement, and a current prospectus relating thereto, until the expiration of the warrants in accordance with the provisions of the warrant agreement; provided that if our Class A ordinary shares are at the time of any exercise of a warrant not listed on a national securities exchange such that they satisfy the definition of a "covered security" under Section 18(b)(1) of the Securities Act, we may, at our option, require holders of public warrants who exercise their warrants to do so on a "cashless basis" in accordance with Section 3(a)(9) of the Securities Act and, in the event we so elect, we will not be

required to file or maintain in effect a registration statement, but we will use our commercially reasonable efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available. If a registration statement covering the Class A ordinary shares issuable upon exercise of the warrants is not effective by the sixtieth (60th) day after the closing of the initial business combination, warrant holders may, until such time as there is an effective registration statement and during any period when we will have failed to maintain an effective registration statement, exercise warrants on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act or another exemption, but we will use our commercially reasonable efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available.

Redemption of warrants when the price per Class A ordinary share equals or exceeds \$18.00.

Once the warrants become exercisable, we may call the warrants for redemption:

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon not less than 30 days’ prior written notice of redemption (the “30-day redemption period”) to each warrant holder; and if, and only if, the reported last sales price of our Class A ordinary shares equals or exceeds \$18.00 per share (as adjusted for share sub-divisions, share dividends, reorganizations, recapitalizations and the like) for any 20 trading days within a 30-trading day period ending on the third trading day prior to the date on which we send the notice of redemption to the warrant holders.

We will not redeem the warrants as described above unless a registration statement under the Securities Act covering the issuance of the Class A ordinary shares issuable upon exercise of the warrants is then effective and a current prospectus relating to those Class A ordinary shares is available throughout the 30-day redemption period. If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws.

We have established the last of the redemption criterion discussed above to prevent a redemption call unless there is at the time of the call a significant premium to the warrant exercise price. If the foregoing conditions are satisfied and we issue a notice of redemption of the warrants, each warrant holder will be entitled to exercise his, her or its warrant prior to the scheduled redemption date. However, the price of the public shares may fall below the \$18.00 redemption trigger price (as adjusted for share sub-divisions, share dividends, reorganizations, recapitalizations and the like) as well as the \$11.50 warrant exercise price after the redemption notice is issued.

Redemption of warrants when the price per Class A ordinary share equals or exceeds \$10.00

Once the warrants become exercisable, we may redeem the outstanding warrants:

- in whole and not in part;
- at \$0.10 per warrant upon a minimum of 30 days’ prior written notice of redemption provided that holders will be able to exercise their warrants on a cashless basis prior to redemption and receive that number of shares determined by reference to the table below, based on the redemption date and the “fair market value” of our Class A ordinary shares (as defined below) except as otherwise described below; and
- if, and only if, the closing price of our Class A ordinary shares equals or exceeds \$10.00 per public share (as adjusted for adjustments to the number of shares issuable upon exercise or the exercise price of a warrant as described under the heading “—Warrants—Public Shareholders’ Warrants”—Anti-dilution Adjustments) for any 20 trading days within the 30-trading day period ending three trading days before we send the notice of redemption to the warrant holders.

Beginning on the date the notice of redemption is given until the warrants are redeemed or exercised, holders may elect to exercise their warrants on a cashless basis. The numbers in the table below represent the number of Class A ordinary shares that a warrant holder will receive upon such cashless exercise in

connection with a redemption by us pursuant to this redemption feature, based on the “fair market value” of our Class A ordinary shares on the corresponding redemption date (assuming holders elect to exercise their warrants and such warrants are not redeemed for \$0.10 per warrant), determined for these purposes based on volume weighted average price of our Class A ordinary shares during the 10 trading days immediately following the date on which the notice of redemption is sent to the holders of warrants, and the number of months that the corresponding redemption date precedes the expiration date of the warrants, each as set forth in the table below. We will provide our warrant holders with the final fair market value no later than one business day after the 10-trading day period described above ends.

Pursuant to the warrant agreement, references above to Class A ordinary shares shall include a security other than Class A ordinary shares into which the Class A ordinary shares have been converted or exchanged for in the event we are not the surviving company in our initial business combination. The numbers in the table below will not be adjusted when determining the number of Class A ordinary shares to be issued upon exercise of the warrants if we are not the surviving entity following our initial business combination.

The share prices set forth in the column headings of the table below will be adjusted as of any date on which the number of shares issuable upon exercise of a warrant or the exercise price of a warrant is adjusted as set forth under the heading “—Anti-dilution Adjustments” below. If the number of shares issuable upon exercise of a warrant is adjusted, the adjusted share prices in the column headings will equal the share prices immediately prior to such adjustment, multiplied by a fraction, the numerator of which is the number of shares deliverable upon exercise of a warrant immediately prior to such adjustment and the denominator of which is the number of shares deliverable upon exercise of a warrant as so adjusted. The number of shares in the table below shall be adjusted in the same manner and at the same time as the number of shares issuable upon exercise of a warrant. If the exercise price of a warrant is adjusted, (a) in the case of an adjustment pursuant to the fifth paragraph under the heading “—Anti-dilution Adjustments” below, the adjusted share prices in the column headings will equal the unadjusted share price multiplied by a fraction, the numerator of which is the higher of the Market Value and the Newly Issued Price as set forth under the heading “—Anti-dilution Adjustments” and the denominator of which is \$10.00 and (b) in the case of an adjustment pursuant to the second paragraph under the heading “—Anti-dilution Adjustments” below, the adjusted share prices in the column headings will equal the unadjusted share price less the decrease in the exercise price of a warrant pursuant to such exercise price adjustment.

Redemption Date (period to expiration of warrants)	Fair Market Value of Class A Ordinary Shares								
	≤ \$10.00	11.00	12.00	13.00	14.00	15.00	16.00	17.00	≥ 18.00

3 months	0.034	0.065	0.104	0.150	0.197	0.243	0.286	0.326	0.361
0 months	—	—	0.042	0.115	0.179	0.233	0.281	0.323	0.361

The exact fair market value and redemption date may not be set forth in the table above, in which case, if the fair market value is between two values in the table or the redemption date is between two redemption dates in the table, the number of Class A ordinary shares to be issued for each warrant exercised will be determined by a straight-line interpolation between the number of shares set forth for the higher and lower fair market values and the earlier and later redemption dates, as applicable, based on a 365 or 366-day year, as applicable. For example, if the volume weighted average price of our Class A ordinary shares during the 10 trading days immediately following the date on which the notice of redemption is sent to the holders of the warrants is \$11.50 per share, and at such time there are 57 months until the expiration of the warrants, holders may choose to, in connection with this redemption feature, exercise their warrants for [0.277] Class A ordinary shares for each whole warrant. For an example where the exact fair market value and redemption date are not as set forth in the table above, if the volume weighted average price of our Class A ordinary shares during the 10 trading days immediately following the date on which the notice of redemption is sent to the holders of the warrants is \$13.50 per share, and at such time there are 38 months until the expiration of the warrants, holders may choose to, in connection with this redemption feature, exercise their warrants for [0.298] Class A ordinary shares for each whole warrant. In no event will the warrants be exercisable on a cashless basis in connection with this redemption feature for more than [0.361] Class A ordinary shares per warrant (subject to adjustment). Finally, as reflected in the table above, if the warrants are out of the money and about to expire, they cannot be exercised on a cashless basis in connection with a redemption by us pursuant to this redemption feature, since they will not be exercisable for any Class A ordinary shares.

This redemption feature differs from the typical warrant redemption features used in some other blank check offerings, which only provide for a redemption of warrants for cash (other than the private placement warrants) when the trading price for the Class A ordinary shares exceeds \$18.00 per share for a specified period of time. This redemption feature is structured to allow for all of the outstanding warrants to be redeemed when the Class A ordinary shares are trading at or above \$10.00 per public share, which may be at a time when the trading price of our Class A ordinary shares is below the exercise price of the warrants. We have established this redemption feature to provide us with the flexibility to redeem the warrants without

the warrants having to reach the \$18.00 per share threshold set forth above under “—Redemption of warrants when the price per Class A ordinary share equals or exceeds \$18.00.” Holders choosing to exercise their warrants in connection with a redemption pursuant to this feature will, in effect, receive a number of shares for their warrants based on an option pricing model with a fixed volatility input as of the date of this prospectus. This redemption right provides us with an additional mechanism by which to redeem all of the outstanding warrants, and therefore have certainty as to our capital structure as the warrants would no longer be outstanding and would have been exercised or redeemed. We will be required to pay the applicable redemption price to warrant holders if we choose to exercise this redemption right and it will allow us to quickly proceed with a redemption of the warrants if we determine it is in our best interest to do so. As such, we would redeem the warrants in this manner when we believe it is in our best interest to update our capital structure to remove the warrants and pay the redemption price to the warrant holders.

As stated above, we can redeem the warrants when the Class A ordinary shares are trading at a price starting at \$10.00, which is below the exercise price of \$11.50, because it will provide certainty with respect to our capital structure and cash position while providing warrant holders with the opportunity to exercise their warrants on a cashless basis for the applicable number of shares. If we choose to redeem the warrants when the Class A ordinary shares are trading at a price below the exercise price of the warrants, this could result in the warrant holders receiving fewer Class A ordinary shares than they would have received if they had chosen to wait to exercise their warrants for Class A ordinary shares if and when such Class A ordinary shares were trading at a price higher than the exercise price of \$11.50.

No fractional Class A ordinary shares will be issued upon exercise. If, upon exercise, a holder would be entitled to receive a fractional interest in a share, we will round down to the nearest whole number of the number of Class A ordinary shares to be issued to the holder. If, at the time of redemption, the warrants are exercisable for a security other than the Class A ordinary shares pursuant to the warrant agreement (for instance, if we are not the surviving company in our initial business combination), the warrants may be exercised for such security. At such time as the warrants become exercisable for a security other than the Class A ordinary shares, the Company (or surviving company) will use its commercially reasonable efforts to register under the Securities Act the security issuable upon the exercise of the warrants.

Redemption procedures

A holder of a warrant may notify us in writing in the event it elects to be subject to a requirement that such holder will not have the right to exercise such warrant, to the extent that after giving effect to such exercise, such person (together with such person’s affiliates), to the warrant agent’s actual knowledge, would beneficially own in excess of 9.8% (or such other amount as a holder may specify) of the Class A ordinary shares issued and outstanding immediately after giving effect to such exercise.

Anti-dilution adjustments

If the number of outstanding Class A ordinary shares is increased by a share capitalization, a share dividend payable in Class A ordinary shares, a split-up of ordinary shares or other similar event, then, on the effective date of such share capitalization, dividend, split-up or similar event, the number of Class A ordinary shares issuable on exercise of each warrant will be increased in proportion to such increase in the outstanding ordinary shares. A rights offering to holders of ordinary shares entitling holders to purchase Class A ordinary shares at a price less than the fair market value will be deemed a share dividend of a number of Class A ordinary shares equal to the product of (i) the number of Class A ordinary shares actually sold in such rights offering (or issuable under any other equity securities sold in such rights offering that are convertible into or exercisable for Class A ordinary shares) and (ii) the quotient of (x) the price per Class A ordinary share paid in such rights offering and (y) the fair market value. For these purposes, (i) if the rights offering is for securities convertible into or exercisable for Class A ordinary shares, in determining the price payable for Class A ordinary shares, there will be taken into account any consideration received for such rights, as well as any additional amount payable upon exercise or conversion and (ii) fair market value means the volume weighted average price of Class A ordinary shares as reported during the ten (10) trading day period ending on the trading day prior to the first date on which the Class A ordinary shares trade on the applicable exchange or in the applicable market, regular way, without the right to receive such rights.

In addition, if we, at any time while the warrants are outstanding and unexpired, pay a dividend or make a distribution in cash, securities or other assets to all or substantially all of the holders of the Class A ordinary shares on account of such Class A ordinary shares (or other securities into which the warrants are convertible), other than (a) as described above, (b) any cash dividends or cash distributions which, when combined on a per share basis with all other cash dividends and cash distributions paid on the Class A ordinary shares during the 365-day period ending on the date of declaration of such dividend or distribution does not exceed \$0.50 (as adjusted to appropriately reflect any other adjustments and excluding cash dividends or cash distributions that resulted in an adjustment to the exercise price or to the number of Class A ordinary shares issuable on exercise of each warrant) but only with respect to the amount of the aggregate cash dividends or cash distributions equal to or less than \$0.50 per share, (c) to satisfy the redemption rights of the holders of Class A ordinary shares in connection with a proposed initial business combination, (d) to satisfy the redemption rights of the holders of Class A ordinary shares in connection with a shareholder vote to amend our amended and restated memorandum and articles of association (A) to modify the substance or timing of our obligation to provide holders of our Class A ordinary shares the right to have their shares redeemed in connection with our initial business combination or to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (B) with respect to any other provision relating to the rights of holders of our Class A ordinary shares, or (e) in connection with the redemption of our public shares upon our failure to complete our initial business combination, then the warrant exercise price will be decreased, effective immediately after the effective date of such event, by the amount of cash and/or the fair market value of any securities or other assets paid on each Class A ordinary share in respect of such event.

If the number of outstanding Class A ordinary shares is decreased by a consolidation, combination, or reclassification of Class A ordinary shares or other similar event, then, on the effective date of such consolidation, combination, reclassification or similar event, the number of Class A ordinary shares issuable on exercise of each warrant, as applicable, will be decreased in proportion to such decrease in outstanding Class A ordinary shares, as applicable.

Whenever the number of Class A ordinary shares purchasable upon the exercise of the warrants is adjusted, as described above, the warrant exercise price will be adjusted by multiplying the warrant exercise price immediately prior to such adjustment by a fraction (x) the numerator of which will be the number of Class A ordinary shares purchasable upon the exercise of the warrants immediately prior to such adjustment, as applicable, and (y) the denominator of which will be the number of Class A ordinary shares so purchasable immediately thereafter, as applicable.

In addition, if (x) we issue additional Class A ordinary shares or equity-linked securities for capital raising purposes in connection with the closing of our initial business combination at an issue price or effective issue price of less than \$9.20 per Class A ordinary share (with such issue price or effective issue price to be determined in good faith by our board of directors) and, in the case of any such issuance to our initial shareholders or their affiliates, without taking into account any founder shares held by our initial shareholders or such affiliates, as applicable, prior to such issuance, or the Newly Issued Price, (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of our initial business combination, and (z) the volume weighted average trading price of our Class A ordinary shares during the 10 trading day period starting on the trading day after the day on which we consummate our initial business combination (such price, or the Market Value, is below \$9.20 per share, the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the Newly Issued Price, and the \$18.00 per share redemption trigger price described under “Redemption of warrants when the price per Class A ordinary share equals or exceeds \$18.00” will be adjusted (to the nearest cent) to be equal to 180% of the higher of the Market Value and the Newly Issued Price, and the \$10.00 per share redemption trigger price described adjacent to the caption “Redemption of warrants when the price per Class A ordinary share equals or exceeds \$10.00” will be adjusted (to the nearest cent) to be equal to the higher of the Market Value and the Newly Issued Price).

In case of any reclassification or reorganization of the outstanding Class A ordinary shares (other than those described above or that solely affects the par value of such Class A ordinary shares), or in the case of any merger or consolidation of us with or into another corporation (other than a consolidation or merger in

which we are the continuing corporation and that does not result in any reclassification or reorganization of our outstanding Class A ordinary shares), or in the case of any sale or conveyance to another corporation or entity of the assets or other property of us as an entirety or substantially as an entirety in connection with which we are dissolved, the holders of the warrants will thereafter have the right to purchase and receive, upon the basis and upon the terms and conditions specified in the warrants and in lieu of the Class A ordinary shares immediately theretofore purchasable and receivable upon the exercise of the rights represented thereby, the kind and amount of Class A ordinary shares or other securities or property (including cash) receivable upon such reclassification, reorganization, merger or consolidation, or upon a liquidation following any such sale or transfer, that the holder of the warrants would have received if such holder had exercised their warrants immediately prior to such event. If less than 70% of the consideration receivable by the holders of Class A ordinary shares in such a transaction is payable in the form of ordinary shares in the successor entity that is listed for trading on a national securities exchange or is quoted in an established over-the-counter market, or is to be so listed for trading or quoted immediately following such event, and if the registered holder of the warrant properly exercises the warrant within thirty days following public disclosure of such transaction, the warrant exercise price will be reduced as specified in the warrant agreement based on the Black-Scholes value (as defined in the warrant agreement) of the warrant. The purpose of such exercise price reduction is to provide additional value to holders of the warrants when an extraordinary transaction occurs during the exercise period of the warrants pursuant to which the holders of the warrants otherwise do not receive the full potential value of the warrants.

The warrants will be issued in registered form under a warrant agreement between Continental Stock Transfer & Trust Company, as warrant agent, and us. The warrant agreement provides that the terms of the warrants may be amended without the consent of any holder to cure any ambiguity or correct any defective provision, but requires the approval by the holders of at least 65% of the then outstanding public warrants, private placement warrants and Novator private placement warrants to make any change that adversely affects the interests of the registered holders. You should review a copy of the warrant agreement, which will be filed as an exhibit to the registration statement of which this prospectus is a part, for a complete description of the terms and conditions applicable to the warrants.

The warrants may be exercised upon surrender of the warrant certificate on or prior to the expiration date at the offices of the warrant agent, with the exercise form on the reverse side of the warrant certificate completed and executed as indicated, accompanied by full payment of the exercise price (or on a cashless basis, if applicable), by certified or official bank check payable to us, for the number of warrants being exercised. The warrant holders do not have the rights or privileges of holders of ordinary shares and any voting rights until they exercise their warrants and receive Class A ordinary shares. After the issuance of Class A ordinary shares upon exercise of the warrants, each holder will be entitled to one vote for each share held of record on all matters to be voted on by shareholders.

No fractional shares will be issued upon exercise of the warrants. If, upon exercise of the warrants, a holder would be entitled to receive a fractional interest in a share, we will, upon exercise, round down to the nearest whole number the number of Class A ordinary shares to be issued to the warrant holder.

We have agreed that, subject to applicable law, any action, proceeding or claim against us arising out of or relating in any way to the warrant agreement will be brought and enforced in the courts of the State of New York or the United States District Court for the Southern District of New York, and we irrevocably submit to such jurisdiction, which jurisdiction will be the exclusive forum for any such action, proceeding or claim. See “Risk Factors—Our warrant agreement will designate the courts of the State of New York or the United States District Court for the Southern District of New York as the sole and exclusive forum for certain types of actions and proceedings that may be initiated by holders of our warrants, which could limit the ability of warrant holders to obtain a favorable judicial forum for disputes with our Company.” This provision applies to claims under the Securities Act but does not apply to claims under the Exchange Act or any claim for which the federal district courts of the United States of America are the sole and exclusive forum.

Private Placement Warrants and Novator Private Placement Warrants

The private placement warrants (including the Class A ordinary shares issuable upon exercise of the private placement warrants) and Novator private placement warrants (including the Class A ordinary

shares issuable upon exercise of the Novator private placement warrants) will not be transferable, assignable or salable until 30 days after the completion of our initial business combination (except, among other limited exceptions as described under “Principal Shareholders—Transfers of Founder Shares, Private Placement Warrants, Novator Private Placement Shares and Novator Private Placement Warrants,” to our executive officers and directors and other persons or entities affiliated with our sponsor or its permitted transferee) and they will not be redeemable by us so long as they are held by such persons or their respective permitted transferee. Our sponsor, directors and officers or their permitted transferees have the option to exercise the private placement warrants and Novator private placement warrants (other than in the circumstances described in “Principal Shareholders—Transfers of Founder Shares, Private Placement Warrants, Novator Private Placement Shares and Novator Private Placement Warrants”) on a cashless basis. Except as described herein, the private placement warrants and Novator private placement warrants have terms and provisions that are identical to those of the warrants being sold as part of the units in this offering. If the private placement warrants or Novator private placement warrants are held by a holder other than our sponsor or its permitted transferees, such warrants will be redeemable by us and exercisable by the holders on the same basis as the warrants included in the units being sold in this offering. The private placement warrants and Novator private placement warrants are each entitled to registration rights as further described under the section titled “Registration Rights.”

If holders of the private placement warrants or Novator private placement warrants elect to exercise them on a cashless basis, they would pay the exercise price by surrendering his, her or its warrants for that number of Class A ordinary shares equal to the quotient obtained by dividing (x) the product of the number of Class A ordinary shares underlying the warrants, multiplied by the excess of the “fair market value” (defined below) over the exercise price of the warrants by (y) the fair market value. The “fair market value” will mean the average reported closing price of the Class A ordinary shares for the 10 trading days ending on the third trading day prior to the date on which the notice of warrant exercise is sent to the warrant agent. The reason that we have agreed that these warrants will be exercisable on a cashless basis and be entitled to registration rights so long as they are held by our sponsor (and directors and officers) or their permitted transferees is because it is not known at this time whether they will be affiliated with us following a business combination. If they remain affiliated with us, their ability to sell our securities in the open market will be significantly limited. We expect to have policies in place that prohibit insiders from selling our securities except during specific periods of time. Even during such periods of time when insiders will be permitted to sell our securities, an insider cannot trade in our securities if he or she is in possession of material non-public information. Accordingly, unlike public shareholders who could exercise their warrants and sell the Class A ordinary shares received upon such exercise freely in the open market in order to recoup the cost of such exercise, the insiders could be significantly restricted from selling such securities. As a result, we believe that allowing the holders to exercise such warrants on a cashless basis and providing them with registration rights is appropriate.

Our sponsor has agreed not to transfer, assign or sell any of the private placement warrants and Novator private placement warrants (including the Class A ordinary shares issuable upon exercise of any of these warrants) until the date that is 30 days after the date we complete our initial business combination, except that, among other limited exceptions as described under “Principal Shareholders—Transfers of Founder Shares, Private Placement Warrants, Novator Private Placement Shares and Novator Private Placement Warrants,” transfers can be made to our executive officers and directors and other persons or entities affiliated with our sponsor.

Dividends

We have not paid any cash dividends on our ordinary shares to date and do not intend to pay cash dividends prior to the completion of a business combination. The payment of cash dividends in the future will be dependent upon our revenues and earnings, if any, capital requirements and general financial condition subsequent to completion of a business combination. The payment of any cash dividends subsequent to a business combination will be within the discretion of our board of directors at such time. If we decrease the size of this offering, or if the underwriters do not exercise their over-allotment option in full, our sponsor will forfeit an amount of Class B ordinary shares to maintain the ownership of our founder shares, on an as-converted basis, at 20% of the sum of (i) the number of public shares (including any such shares issued following the exercise of the over-allotment option) and Novator private placement shares and (ii) the number

of founder shares held by our sponsor (together with any permitted transferees of such founder shares) following such forfeiture. Further, if we incur any indebtedness, our ability to declare dividends may be limited by restrictive covenants we may agree to in connection therewith.

Our Transfer Agent and Warrant Agent

The transfer agent for our ordinary shares and warrant agent for our warrants is Continental Stock Transfer & Trust Company. We have agreed to indemnify Continental Stock Transfer & Trust Company in its roles as transfer agent and warrant agent, its agents and each of its shareholders, directors, executive officers and employees against all claims and losses that may arise out of acts performed or omitted for its activities in that capacity, except for any claims and losses due to any gross negligence or intentional misconduct of the indemnified person or entity.

Continental Stock Transfer & Trust Company has agreed that it has no right of set-off or any right, title, interest or claim of any kind to, or to any monies in, the trust account, and has irrevocably waived any right, title, interest or claim of any kind to, or to any monies in, the trust account that it may have now or in the future. Accordingly, any indemnification provided will only be able to be satisfied, or a claim will only be able to be pursued, solely against us and our assets outside the trust account and not against the any monies in the trust account or interest earned thereon.

Certain Differences in Corporate Law

Cayman Islands companies are governed by the Companies Law. The Companies Law is modeled on English Law but does not follow recent English Law statutory enactments, and differs from laws applicable to United States corporations and their shareholders. Set forth below is a summary of the material differences between the provisions of the Companies Law applicable to us and the laws applicable to companies incorporated in the United States and their shareholders.

Mergers and Similar Arrangements.

In certain circumstances, the Companies Law allows for mergers or consolidations between two Cayman Islands companies, or between a Cayman Islands exempted company and a company incorporated in another jurisdiction (provided that is facilitated by the laws of that other jurisdiction).

Where the merger or consolidation is between two Cayman Islands companies, the directors of each company must approve a written plan of merger or consolidation containing certain prescribed information. That plan or merger or consolidation must then be authorized by either (a) a special resolution (usually a majority of 66 2/3% in value of the voting shares voted at a general meeting) of the shareholders of each company; or (b) such other authorization, if any, as may be specified in such constituent company's articles of association. No shareholder resolution is required for a merger between a parent company (i.e., a company that owns at least 90% of the issued shares of each class in a subsidiary company) and its subsidiary company. The consent of each holder of a fixed or floating security interest of a constituent company must be obtained, unless the court waives such requirement. If the Cayman Islands Registrar of Companies is satisfied that the requirements of the Companies Law (which includes certain other formalities) have been complied with, the Registrar of Companies will register the plan of merger or consolidation.

Where the merger or consolidation involves a foreign company, the procedure is similar, save that with respect to the foreign company, the directors of the Cayman Islands exempted company are required to make a declaration to the effect that, having made due enquiry, they are of the opinion that the requirements set out below have been met: (i) that the merger or consolidation is permitted or not prohibited by the constitutional documents of the foreign company and by the laws of the jurisdiction in which the foreign company is incorporated, and that those laws and any requirements of those constitutional documents have been or will be complied with; (ii) that no petition or other similar proceeding has been filed and remains outstanding or order made or resolution adopted to wind up or liquidate the foreign company in any jurisdictions; (iii) that no receiver, trustee, administrator or other similar person has been appointed in any jurisdiction and is acting in respect of the foreign company, its affairs or its property or any part thereof; and (iv) that no scheme, order, compromise or other similar arrangement has been entered into or made in any jurisdiction whereby the rights of creditors of the foreign company are and continue to be suspended or restricted.

Where the surviving company is the Cayman Islands exempted company, the directors of the Cayman Islands exempted company are further required to make a declaration to the effect that, having made due enquiry, they are of the opinion that the requirements set out below have been met: (i) that the foreign company is able to pay its debts as they fall due and that the merger or consolidated is bona fide and not intended to defraud unsecured creditors of the foreign company; (ii) that in respect of the transfer of any security interest granted by the foreign company to the surviving or consolidated company (a) consent or approval to the transfer has been obtained, released or waived; (b) the transfer is permitted by and has been approved in accordance with the constitutional documents of the foreign company; and (c) the laws of the jurisdiction of the foreign company with respect to the transfer have been or will be complied with; (iii) that the foreign company will, upon the merger or consolidation becoming effective, cease to be incorporated, registered or exist under the laws of the relevant foreign jurisdiction; and (iv) that there is no other reason why it would be against the public interest to permit the merger or consolidation.

Where the above procedures are adopted, the Companies Law provides for a right of dissenting shareholders to be paid a payment of the fair value of his shares upon their dissenting to the merger or consolidation if they follow a prescribed procedure. In essence, that procedure is as follows: (i) the shareholder must give his written objection to the merger or consolidation to the constituent company before the vote on the merger or consolidation, including a statement that the shareholder proposes to demand payment for his shares if the merger or consolidation is authorized by the vote; (ii) within 20 days following the date on which the merger or consolidation is approved by the shareholders, the constituent company must give written notice to each shareholder who made a written objection; (iii) a shareholder must within 20 days following receipt of such notice from the constituent company, give the constituent company a written notice of his intention to dissent including, among other details, a demand for payment of the fair value of his shares; (iv) within seven days following the date of the expiration of the period set out in paragraph (b) above or seven days following the date on which the plan of merger or consolidation is filed, whichever is later, the constituent company, the surviving company or the consolidated company must make a written offer to each dissenting shareholder to purchase his shares at a price that the Company determines is the fair value and if the Company and the shareholder agree the price within 30 days following the date on which the offer was made, the Company must pay the shareholder such amount; and (v) if the Company and the shareholder fail to agree a price within such 30 day period, within 20 days following the date on which such 30 day period expires, the Company (and any dissenting shareholder) must file a petition with the Cayman Islands Grand Court to determine the fair value and such petition must be accompanied by a list of the names and addresses of the dissenting shareholders with whom agreements as to the fair value of their shares have not been reached by the Company. At the hearing of that petition, the court has the power to determine the fair value of the shares together with a fair rate of interest, if any, to be paid by the Company upon the amount determined to be the fair value. Any dissenting shareholder whose name appears on the list filed by the Company may participate fully in all proceedings until the determination of fair value is reached. These rights of a dissenting shareholder are not available in certain circumstances, for example, to dissenters holding shares of any class in respect of which an open market exists on a recognized stock exchange or recognized interdealer quotation system at the relevant date or where the consideration for such shares to be contributed are shares of any company listed on a national securities exchange or shares of the surviving or consolidated company.

Moreover, Cayman Islands law has separate statutory provisions that facilitate the reconstruction or amalgamation of companies in certain circumstances, schemes of arrangement will generally be more suited for complex mergers or other transactions involving widely held companies, commonly referred to in the Cayman Islands as a “scheme of arrangement” which may be tantamount to a merger. In the event that a merger was sought pursuant to a scheme of arrangement (the procedures for which are more rigorous and take longer to complete than the procedures typically required to consummate a merger in the United States), the arrangement in question must be approved by a majority in number of each class of shareholders and creditors with whom the arrangement is to be made and who must in addition represent three-fourths in value of each such class of shareholders or creditors, as the case may be, that are present and voting either in person or by proxy at an annual general meeting, or extraordinary general meeting summoned for that purpose. The convening of the meetings and subsequently the terms of the arrangement must be sanctioned by the Grand Court of the Cayman Islands. While a dissenting shareholder would have the right to express to the court the view that the transaction should not be approved, the court can be expected to approve the arrangement if it satisfies itself that:

- we are not proposing to act illegally or beyond the scope of our corporate authority and the statutory provisions as to majority vote have been complied with;
- the shareholders have been fairly represented at the meeting in question;
- the arrangement is such as a businessman would reasonably approve; and
- the arrangement is not one that would more properly be sanctioned under some other provision of the Companies Law or that would amount to a “fraud on the minority.”

If a scheme of arrangement or takeover offer (as described below) is approved, any dissenting shareholder would have no rights comparable to appraisal rights (providing rights to receive payment in cash for the judicially determined value of the shares), which would otherwise ordinarily be available to dissenting shareholders of United States corporations.

Squeeze-out Provisions.

When a takeover offer is made and accepted by holders of 90% of the shares to whom the offer relates is made within four months, the offeror may, within a two-month period, require the holders of the remaining shares to transfer such shares on the terms of the offer. An objection can be made to the Grand Court of the Cayman Islands, but this is unlikely to succeed unless there is evidence of fraud, bad faith, collusion or inequitable treatment of the shareholders.

Further, transactions similar to a merger, reconstruction and/or an amalgamation may in some circumstances be achieved through means other than these statutory provisions, such as a share capital exchange, asset acquisition or control, or through contractual arrangements of an operating business.

Shareholders' Suits.

Maples and Calder, our Cayman Islands legal counsel is not aware of any reported class action having been brought in a Cayman Islands court. Derivative actions have been brought in the Cayman Islands courts, and the Cayman Islands courts have confirmed the availability for such actions. In most cases, we will be the proper plaintiff in any claim based on a breach of duty owed to us, and a claim against (for example) our executive officers or directors usually may not be brought by a shareholder. However, based both on Cayman Islands authorities and on English authorities, which would in all likelihood be of persuasive authority and be applied by a court in the Cayman Islands, exceptions to the foregoing principle apply in circumstances in which:

- a company is acting, or proposing to act, illegally or beyond the scope of its authority;
- the act complained of, although not beyond the scope of the authority, could be effected if duly authorized by more than the number of votes which have actually been obtained; or
- those who control the Company are perpetrating a “fraud on the minority.”

A shareholder may have a direct right of action against us where the individual rights of that shareholder have been infringed or are about to be infringed.

Enforcement of Civil Liabilities.

The Cayman Islands has a different body of securities laws as compared to the United States and provides less protection to investors. Additionally, Cayman Islands companies may not have standing to sue before the Federal courts of the United States.

We have been advised by Maples and Calder, our Cayman Islands legal counsel, that the courts of the Cayman Islands are unlikely (i) to recognize or enforce against us judgments of courts of the United States predicated upon the civil liability provisions of the federal securities laws of the United States or any state; and (ii) in original actions brought in the Cayman Islands, to impose liabilities against us predicated upon the civil liability provisions of the federal securities laws of the United States or any state, so far as the liabilities imposed by those provisions are penal in nature. In those circumstances, although there is no statutory enforcement in the Cayman Islands of judgments obtained in the United States, the courts of the Cayman

Islands will recognize and enforce a foreign money judgment of a foreign court of competent jurisdiction without retrial on the merits based on the principle that a judgment of a competent foreign court imposes upon the judgment debtor an obligation to pay the sum for which judgment has been given provided certain conditions are met. For a foreign judgment to be enforced in the Cayman Islands, such judgment must be final and conclusive and for a liquidated sum, and must not be (i) in respect of taxes, a fine or penalty, (ii) inconsistent with a Cayman Islands judgment in respect of the same matter, (iii) impeachable on the grounds of fraud or (iv) obtained in a manner, or be of a kind the enforcement of which is, contrary to natural justice or the public policy of the Cayman Islands (awards of punitive or multiple damages may well be held to be contrary to public policy). A Cayman Islands Court may stay enforcement proceedings if concurrent proceedings are being brought elsewhere.

Special Considerations for Exempted Companies.

We are an exempted company with limited liability under the Companies Law. The Companies Law distinguishes between ordinary resident companies and exempted companies. Any company that is registered in the Cayman Islands but conducts business mainly outside of the Cayman Islands may apply to be registered as an exempted company. The requirements for an exempted company are essentially the same as for an ordinary company except for the exemptions and privileges listed below:

- an exempted company does not have to file an annual return of its shareholders with the Registrar of Companies;
- an exempted company's register of members is not open to inspection;
- an exempted company does not have to hold an annual general meeting;
- an exempted company may issue shares with no par value;
- an exempted company may obtain an undertaking against the imposition of any future taxation (such undertakings are usually given for 20 years in the first instance);
- an exempted company may register by way of continuation in another jurisdiction and be deregistered in the Cayman Islands;
- an exempted company may register as a limited duration company; and
- an exempted company may register as a segregated portfolio company.

"Limited liability" means that the liability of each shareholder is limited to the amount unpaid by the shareholder on the shares of the Company (except in exceptional circumstances, such as involving fraud, the establishment of an agency relationship or an illegal or improper purpose or other circumstances in which a court may be prepared to pierce or lift the corporate veil).

Amended and Restated Memorandum and Articles of Association

The Business Combination Article of our amended and restated memorandum and articles of association contains provisions designed to provide certain rights and protections relating to this offering that will apply to us until the completion of our initial business combination. These provisions cannot be amended without a special resolution. As a matter of Cayman Islands law, a resolution is deemed to be a special resolution where it has been approved by either (i) at least two-thirds (or any higher threshold specified in a company's articles of association) of a company's shareholders at a general meeting for which notice specifying the intention to propose the resolution as a special resolution has been given; or (ii) if so authorized by a company's articles of association, by a unanimous written resolution of all of the Company's shareholders. Our amended and restated memorandum and articles of association provide that special resolutions must be approved either by at least two-thirds of our shareholders (i.e., the lowest threshold permissible under Cayman Islands law), or by a unanimous written resolution of all of our shareholders.

Our initial shareholders, sponsor, directors, executive officers and holders of Novator private placement shares, who will collectively beneficially own 20% of our ordinary shares upon the closing of this offering (assuming they do not purchase any units in this offering) and Novator private placement, will participate in any vote to amend our amended and restated memorandum and articles of association and will have the

discretion to vote in any manner they choose. Specifically, our amended and restated memorandum and articles of association provide, among other things, that:

- If we are unable to complete our initial business combination within 24 months from the closing of this offering, we will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but no more than ten business days thereafter, redeem the public shares and Novator private placement shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account (less taxes payable and up to \$100,000 of interest to pay liquidation expenses), divided by the number of then outstanding public shares and Novator private placement shares, which redemption will completely extinguish public shareholders' rights as shareholders (including the right to receive further liquidation distributions, if any) and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining shareholders and our board of directors, liquidate and dissolve, subject in each case to our obligations under Cayman Islands law to provide for claims of creditors and in all cases subject to the other requirements of applicable law;
- Prior to our initial business combination (other than pursuant to the Novator private placement), we may not issue additional securities that would entitle the holders thereof to (i) receive funds from the trust account or (ii) vote on our initial business combination;
- Although we do not intend to enter into a business combination with a target business that is affiliated with our sponsor, our directors or our executive officers, we are not prohibited from doing so. In the event we enter into such a transaction, we, or a committee of independent directors, will obtain an opinion from an independent investment banking firm or a valuation or appraisal firm that such a business combination is fair to our Company from a financial point of view;
- If a shareholder vote on our initial business combination is not required by law and we do not decide to hold a shareholder vote for business or other legal reasons, we will offer to redeem our public shares pursuant to Rule 13e-4 and Regulation 14E of the Exchange Act, and will file tender offer documents with the SEC prior to completing our initial business combination which contain substantially the same financial and other information about our initial business combination and the redemption rights as is required under Regulation 14A of the Exchange Act;
- If our shareholders approve an amendment to our amended and restated memorandum and articles of association (A) to modify the substance or timing of our obligation to allow redemption in connection with our initial business combination or to redeem 100% of our public shares and Novator private placement shares if we do not complete our initial business combination within 24 months from the closing of this offering or (B) with respect to any other material provisions relating to shareholders' rights or pre-initial business combination activity, we will provide our public shareholders with the opportunity to redeem all or a portion of their Class A ordinary shares upon such approval at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account (excluding any amounts then on deposit in the trust account that are allocable to the Novator private placement shares), including interest earned on the funds held in the trust account (excluding any interest earned on the funds held in the trust account that are allocable to the Novator private placement shares) and not previously released to us to pay our taxes, divided by the number of then outstanding public shares, subject to the limitations and on the conditions described herein; and
- We will not effectuate our initial business combination with another blank check company or a similar company with nominal operations.

In addition, our amended and restated memorandum and articles of association provide we will not redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001. We may, however, raise funds through the issuance of equity-linked securities or through loans, advances or other indebtedness in connection with our initial business combination, including pursuant to private placement agreements or backstop arrangements we may enter into following consummation of this offering, in order to, among other reasons, satisfy such net tangible assets requirement.

The Companies Law permits a company incorporated in the Cayman Islands to amend its amended and restated memorandum and articles of association with the approval of a special resolution. A company's articles of association may specify that the approval of a higher majority is required but, provided the

approval of the required majority is obtained, any Cayman Islands exempted company may amend its amended and restated memorandum and articles of association regardless of whether its amended and restated memorandum and articles of association provides otherwise. Accordingly, although we could amend any of the provisions relating to our proposed offering, structure and business plan which are contained in our amended and restated memorandum and articles of association, we view all of these provisions as binding obligations to our shareholders and neither we, nor our executive officers or directors, will take any action to amend or waive any of these provisions unless we provide dissenting public shareholders with the opportunity to redeem their public shares.

Anti-Money Laundering—Cayman Islands

If any person in the Cayman Islands knows or suspects or has reasonable grounds for knowing or suspecting that another person is engaged in criminal conduct or money laundering or is involved with terrorism or terrorist financing and property and the information for that knowledge or suspicion came to their attention in the course of business in the regulated sector, or other trade, profession, business or employment, the person will be required to report such knowledge or suspicion to (i) the Financial Reporting Authority of the Cayman Islands, pursuant to the Proceeds of Crime Law (2020 Revision) of the Cayman Islands if the disclosure relates to criminal conduct or money laundering, or (ii) a police officer of the rank of constable or higher, or the Financial Reporting Authority, pursuant to the Terrorism Law (2018 Revision) of the Cayman Islands, if the disclosure relates to involvement with terrorism or terrorist financing and property. Such a report shall not be treated as a breach of confidence or of any restriction upon the disclosure of information imposed by any enactment or otherwise.

Cayman Islands Data Protection

We have certain duties under the Data Protection Law, 2017 of the Cayman Islands, or the DPL, based on internationally accepted principles of data privacy.

Privacy Notice

Introduction

This privacy notice puts our shareholders on notice that through your investment in the Company you will provide us with certain personal information which constitutes personal data within the meaning of the DPL, or personal data.

In the following discussion, the “company” refers to us and our affiliates and/or delegates, except where the context requires otherwise.

Investor Data

We will collect, use, disclose, retain and secure personal data to the extent reasonably required only and within the parameters that could be reasonably expected during the normal course of business. We will only process, disclose, transfer or retain personal data to the extent legitimately required to conduct our activities of on an ongoing basis or to comply with legal and regulatory obligations to which we are subject. We will only transfer personal data in accordance with the requirements of the DPL, and will apply appropriate technical and organizational information security measures designed to protect against unauthorized or unlawful processing of the personal data and against the accidental loss, destruction or damage to the personal data.

In our use of this personal data, we will be characterized as a “data controller” for the purposes of the DPL, while our affiliates and service providers who may receive this personal data from us in the conduct of our activities may either act as our “data processors” for the purposes of the DPL or may process personal information for their own lawful purposes in connection with services provided to us.

We may also obtain personal data from other public sources. Personal data includes, without limitation, the following information relating to a shareholder and/or any individuals connected with a shareholder as an investor: name, residential address, email address, contact details, corporate contact information, signature,

nationality, place of birth, date of birth, tax identification, credit history, correspondence records, passport number, bank account details, source of funds details and details relating to the shareholder's investment activity.

Who this Affects

If you are a natural person, this will affect you directly. If you are a corporate investor (including, for these purposes, legal arrangements such as trusts or exempted limited partnerships) that provides us with personal data on individuals connected to you for any reason in relation your investment in the Company, this will be relevant for those individuals and you should transmit the content of this Privacy Notice to such individuals or otherwise advise them of its content.

How the Company May Use Your Personal Data

The Company, as the data controller, may collect, store and use personal data for lawful purposes, including, in particular:

- where this is necessary for the performance of our rights and obligations under any purchase agreements;
- where this is necessary for compliance with a legal and regulatory obligation to which we are subject (such as compliance with anti-money laundering and FATCA/CRS requirements); and/or
- where this is necessary for the purposes of our legitimate interests and such interests are not overridden by your interests, fundamental rights or freedoms.

Should we wish to use personal data for other specific purposes (including, if applicable, any purpose that requires your consent), we will contact you.

Why We May Transfer Your Personal Data

In certain circumstances, we may be legally obliged to share personal data and other information with respect to your shareholding with the relevant regulatory authorities such as the Cayman Islands Monetary Authority or the Tax Information Authority. They, in turn, may exchange this information with foreign authorities, including tax authorities.

We anticipate disclosing personal data to persons who provide services to us and their respective affiliates (which may include certain entities located outside the U.S., the Cayman Islands or the European Economic Area), who will process your personal data on our behalf.

The Data Protection Measures We Take

Any transfer of personal data by us or our duly authorized affiliates and/or delegates outside of the Cayman Islands shall be in accordance with the requirements of the DPL.

We and our duly authorized affiliates and/or delegates shall apply appropriate technical and organizational information security measures designed to protect against unauthorized or unlawful processing of personal data, and against accidental loss or destruction of, or damage to, personal data.

We shall notify you of any personal data breach that is reasonably likely to result in a risk to your interests, fundamental rights or freedoms or those data subjects to whom the relevant personal data relates.

Certain Anti-Takeover Provisions of our Amended and Restated Memorandum and Articles of Association

Our amended and restated memorandum and articles of association provide that our board of directors will be classified into three classes of directors. As a result, in most circumstances, a person can gain control of our board only by successfully engaging in a proxy contest at two or more annual general meetings.

Our authorized but unissued Class A ordinary shares and preference shares are available for future issuances without shareholder approval and could be utilized for a variety of corporate purposes, including

future offerings to raise additional capital, acquisitions and employee benefit plans. The existence of authorized but unissued and unreserved Class A ordinary shares and preference shares could render more difficult or discourage an attempt to obtain control of us by means of a proxy contest, tender offer, merger or otherwise.

Securities Eligible for Future Sale

Immediately after this offering, the issuance of “at-risk capital” warrants and the issuance of the Novator private placement units, which includes both the Novator private placement shares and Novator private placement warrants, we will have 29,375,000 (or 33,125,000 if the underwriters’ over-allotment option is exercised in full) ordinary shares outstanding. Of these shares, the Class A ordinary shares sold in this offering (20,000,000 Class A ordinary shares if the underwriters’ over-allotment option is not exercised and 23,000,000 shares if the underwriters’ over-allotment option is exercised in full) will be freely tradable without restriction or further registration under the Securities Act, except for any Class A ordinary shares purchased by one of our affiliates within the meaning of Rule 144 under the Securities Act. All of the outstanding founder shares (5,875,000 founder shares if the underwriters’ over-allotment option is not exercised and 6,625,000 founder shares if the underwriters’ over-allotment option is exercised in full), all of the outstanding private placement warrants (4,000,000 warrants if the underwriters’ over-allotment option is not exercised and 4,400,000 warrants if the underwriters’ over-allotment option is exercised in full) and 3,500,000 Novator private placement units comprising 3,500,000 Class A ordinary shares will be restricted securities under Rule 144, in that they were issued in private transactions not involving a public offering.

Rule 144

Pursuant to Rule 144, a person who has beneficially owned restricted shares or warrants for at least six months would be entitled to sell their securities provided that (i) such person is not deemed to have been one of our affiliates at the time of, or at any time during the three months preceding, a sale and (ii) we are subject to the Exchange Act periodic reporting requirements for at least three months before the sale and have filed all required reports under Section 13 or 15(d) of the Exchange Act during the 12 months (or such shorter period as we were required to file reports) preceding the sale.

Persons who have beneficially owned restricted shares or warrants for at least six months but who are our affiliates at the time of, or at any time during the three months preceding, a sale, would be subject to additional restrictions, by which such person would be entitled to sell within any three-month period only a number of securities that does not exceed the greater of:

- 1% of the total number of ordinary shares then outstanding, which will equal 293,750 shares immediately after this offering (or 331,250 if the underwriters exercise in full their over-allotment option); or
- the average weekly reported trading volume of the Class A ordinary shares during the four calendar weeks preceding the filing of a notice on Form 144 with respect to the sale.

Sales by our affiliates under Rule 144 are also limited by manner of sale provisions and notice requirements and to the availability of current public information about us.

Restrictions on the Use of Rule 144 by Shell Companies or Former Shell Companies

Rule 144 is not available for the resale of securities initially issued by shell companies (other than business combination related shell companies) or issuers that have been at any time previously a shell company. However, Rule 144 also includes an important exception to this prohibition if the following conditions are met:

- the issuer of the securities that was formerly a shell company has ceased to be a shell company;
- the issuer of the securities is subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act;
- the issuer of the securities has filed all Exchange Act reports and material required to be filed, as applicable, during the preceding 12 months (or such shorter period that the issuer was required to file such reports and materials), other than Current Reports on Form 8-K; and

- at least one year has elapsed from the time that the issuer filed current Form 10 type information with the SEC reflecting its status as an entity that is not a shell company.

As a result, our initial shareholders, sponsor, directors and executive officers will be able to sell their founder shares, Novator private placement shares, Novator private placement warrants and private placement warrants, as applicable, pursuant to Rule 144 without registration one year after we have completed our initial business combination.

Registration Rights

Our sponsor, directors and executive officers will have rights to require us to register any of our securities held by them for resale under the Securities Act pursuant to a registration and shareholder rights agreement to be signed prior to or on the effective date of this offering. These holders will be entitled to make up to three demands, excluding short form registration demands, that we register such securities for sale under the Securities Act. In addition, the holders of the founder shares, private placement warrants, Novator private placement shares, and warrants that may be issued upon conversion of working capital loans (and any shares of Class A common shares issuable upon the exercise of the private placement warrants, Novator private placement warrants and warrants that may be issued upon conversion of working capital loans and upon conversion of the founder shares) will have certain “piggy-back” registration rights with respect to registration statements filed subsequent to our completion of our initial business combination and rights to require us to register for resale such securities pursuant to Rule 415 under the Securities Act. We will bear the expenses incurred in connection with the filing of any such registration statements.

Listing of Securities

We intend to apply to have our units listed on Nasdaq under the symbol “AURC.U” commencing on or promptly after the date of this prospectus. We cannot guarantee that our securities will be approved for listing on Nasdaq. Once the securities comprising the units begin separate trading, we expect that the Class A ordinary shares and warrants will be listed on Nasdaq under the symbols “AURC” and “AURC WS,” respectively.

TAX CONSIDERATIONS

The following summary of certain Cayman Islands and United States federal income tax consequences of an investment in our units, each consisting of one Class A ordinary share and one-third of one warrant, which we refer to collectively as our securities, is based upon laws and relevant interpretations thereof in effect as of the date of this prospectus, all of which are subject to change. This summary does not deal with all possible tax consequences relating to an investment in our Class A ordinary shares and warrants, such as the tax consequences under state, local and other tax laws.

Prospective investors should consult their advisors on the possible tax consequences of investing in our securities under the laws of their country of citizenship, residence or domicile.

Cayman Islands Tax Considerations

The following is a discussion on certain Cayman Islands income tax consequences of an investment in the securities of the Company. The discussion is a general summary of present law, which is subject to prospective and retroactive change. It is not intended as tax advice, does not consider any investor's particular circumstances, and does not consider tax consequences other than those arising under Cayman Islands law.

Under Existing Cayman Islands Laws:

Payments of dividends and capital in respect of our securities will not be subject to taxation in the Cayman Islands and no withholding will be required on the payment of a dividend or capital to any holder of the securities nor will gains derived from the disposal of the securities be subject to Cayman Islands income or corporate tax. The Cayman Islands currently has no income, corporate or capital gains tax and no estate duty, inheritance tax or gift tax.

No stamp duty is payable in respect of the issue of the warrants. An instrument of transfer in respect of a warrant is stampable if executed in or brought into the Cayman Islands.

No stamp duty is payable in respect of the issue of our Class A ordinary shares or on an instrument of transfer in respect of such shares.

The Company has been incorporated under the laws of the Cayman Islands as an exempted company with limited liability and, as such, has applied for and received an undertaking from the Financial Secretary of the Cayman Islands in the following form:

The Tax Concessions Law (2018 Revision)

Undertaking as to Tax Concessions

In accordance with the provision of Section 6 of The Tax Concessions Law (2018 Revision), the Financial Secretary undertakes with Aurora Acquisition Corp.:

1. That no law which is hereafter enacted in the Cayman Islands imposing any tax to be levied on profits, income, gains or appreciations shall apply to the Company or its operations; and
2. In addition, that no tax to be levied on profits, income, gains or appreciations or which is in the nature of estate duty or inheritance tax shall be payable:
 - 2.1 On or in respect of the shares, debentures or other obligations of the Company; or
 - 2.2 by way of the withholding in whole or part, of any relevant payment as defined in the Tax Concessions Law (2018 Revision).

These concessions shall be for a period of twenty years from the date hereof.

United States Federal Income Tax Considerations

The following is a summary of certain material U.S. federal income tax considerations that may be relevant to the ownership and disposition of our Units (each consisting of one Class A ordinary share and

one-third of a warrant), excluding the Novator Private Placement Units and the components thereof. This description addresses only the U.S. federal income tax considerations to beneficial owners that will purchase our Units in this offering and hold our Units and the components thereof as capital assets within the meaning of Section 1221 of the U.S. Internal Revenue Code of 1986, as amended, or the Code. This description does not address any considerations that may be relevant to the ownership and disposition of the Novator Private Placement Units or the components thereof, or the Private Placement Warrants. Holders of Novator Private Placement Units or the components thereof, or the Private Placement Warrants, should consult their own tax advisors regarding the U.S. federal income tax considerations that may be relevant to their ownership and disposition of such Novator Private Placement Units or the components thereof, or of such Private Placement Warrants. This description does not address all of the tax considerations applicable to particular investors in light of their individual circumstances, including holders that may be subject to special tax rules, including, but not limited to:

- certain financial institutions, banks, thrifts or insurance companies;
- real estate investment trusts;
- regulated investment companies;
- brokers, dealers or traders in securities;
- a trader in securities who elects to use a mark-to-market method of accounting for its securities holdings;
- investors subject to special tax accounting rules as a result of any item of gross income with respect to our ordinary shares being taken into account in an applicable financial statement;
- partnerships and their partners;
- tax-exempt entities;
- individual retirement and other tax-deferred accounts;
- persons that will hold our ordinary shares as part of a “straddle,” “hedging,” “constructive sale,” “conversion” or other integrated transaction or as a position in a “straddle” for U.S. federal income tax purposes;
- persons who acquire our ordinary shares pursuant to the exercise of options or warrants or in other compensatory transactions;
- persons that may be liable for the alternative minimum tax;
- certain former citizens or long-term residents of the United States;
- persons that have a “functional currency” other than the U.S. dollar; or
- persons that own or are deemed to own directly, indirectly, or constructively 10% or more, by voting power or value, of our Class A ordinary shares.

Moreover, this description does not address the U.S. federal estate, gift or alternative minimum tax consequences or any state, local or non-U.S. tax consequences, of the acquisition, ownership and disposition of our Units and the components thereof, or the U.S. federal Medicare tax on net investment income. This description is for general information purposes only and does not purport to be a complete analysis or summary of all potential U.S. federal income tax consequences that may apply as a result of the ownership and disposition of our Units or the components thereof. Each U.S. Holder (as defined below) is urged to consult its own tax advisor regarding the U.S. federal, state, local and non-U.S. income and other tax considerations of their investment in our Units.

This description is based on the Code, and existing, proposed and temporary U.S. Treasury regulations, and judicial and administrative interpretations thereof, in each case as of the date hereof. The U.S. tax laws and the interpretation thereof are subject to change, which change could apply retroactively and could affect the tax consequences described below.

For purposes of this description, a “U.S. Holder” is a beneficial owner of our Units and the components thereof, excluding the Novator Private Placement Units and the components thereof, and the Private Placement Warrants, that is, for U.S. federal income tax purposes:

- a citizen or individual resident of the United States;
- a corporation, created or organized in or under the laws of the United States, any state thereof, or the District of Columbia;
- an estate the income of which is subject to U.S. federal income taxation regardless of its source; or
- a trust (A) the administration of which is subject to the primary supervision of a court within the United States and which has one or more U.S. persons who have the authority to control all of the substantial decisions of such trust or (B) that has otherwise validly elected to be treated as a U.S. person under applicable U.S. Treasury regulations.

If an entity or arrangement treated as a partnership for U.S. federal income tax purposes holds our Units or the components thereof, the tax treatment of the partnership and a partner in such partnership will generally depend on the status of the partner (or other interest holder) and the activities of the partnership. Such a partnership or partner in such a partnership should consult its own tax advisor as to its own tax consequences of acquiring, holding, or disposing of our ordinary shares.

A “Non-U.S. Holder” is a beneficial owner (other than an entity or arrangement treated as a partnership for U.S. federal income tax purposes) of our Units and the components thereof, excluding the Novator Private Placement Units and the components thereof, that is not a U.S. Holder (described above).

Prospective purchasers should consult their own tax advisors concerning the U.S. federal, state, local, foreign and other tax consequences of acquiring, owning and disposing of our Units and the components thereof, excluding the Novator Private Placement Units and the components thereof, in light of their particular circumstances.

Characterization of Units and Allocation of Purchase Price

No statutory, administrative or judicial authority directly addresses the treatment of a unit or any instrument similar to a unit for U.S. federal income tax purposes, and therefore, that treatment is not entirely clear. Our Company intends to take the position that the acquisition of a unit is treated for U.S. federal income tax purposes as the acquisition of one Class A ordinary share and one-third of one warrant. By purchasing a unit, you will agree to adopt such treatment for U.S. federal income tax purposes. For U.S. federal income tax purposes, each beneficial owner of a unit must allocate the purchase price paid by such holder for such unit between the one Class A ordinary share and the one-third of one warrant based on the relative fair market value of each at the time of issuance. Under U.S. federal income tax law, each investor must make his or her own determination of such value based on all the relevant facts and circumstances. Therefore, we strongly urge each investor to consult his or her tax advisor regarding the determination of value for these purposes. The price allocated to each Class A ordinary share and the one-third of one warrant should be the shareholder’s initial tax basis in such share or warrant. Any disposition of a unit should be treated for U.S. federal income tax purposes as a disposition of the Class A ordinary share and one-third of one warrant comprising the unit, and the amount realized on the disposition should be allocated between the Class A ordinary share and one-third of one warrant based on their respective fair market values (as determined by each such unit holder based on all the relevant facts and circumstances) at the time of disposition. Our Company also intends to take the position that the separation of the Class A ordinary share and the one-third of one warrant constituting a unit and the combination of two halves of warrants into a single warrant is not a taxable event for U.S. federal income tax purposes.

The foregoing treatment of the Units, Class A ordinary shares and warrants and a holder’s purchase price allocation are not binding on the IRS or the courts. Because there are no authorities that directly address instruments that are similar to the Units, no assurance can be given that the IRS or the courts will agree with the characterization described above or the discussion below. Accordingly, each prospective investor is urged to consult its tax advisors regarding the tax consequences of an investment in a unit (including alternative characterizations of a unit). The remainder of this discussion assumes that the characterization of the Units described above will be respected for U.S. federal income tax purposes.

Consequences to U.S. Holders**Distributions**

Subject to the discussion below under “—Passive Foreign Investment Company Considerations,” any distributions, other than certain pro rata distributions of Class A ordinary shares to all shareholders, will be treated as dividends to the extent paid out of our Company’s current or accumulated earnings and profits, as determined under U.S. federal income tax principles. Distributions in excess of current and accumulated earnings and profits will be treated as a non-taxable return of capital to the extent of the U.S. Holder’s basis in the ordinary shares and thereafter as capital gain. Our Company does not plan to compute earnings and profits under U.S. federal income tax principles, however, and as a result, U.S. Holders should expect that all distributions made with respect to Class A ordinary shares will generally be treated as dividends. U.S. Holders should consult their own tax advisors with respect to the appropriate U.S. federal income tax treatment of any distribution received from our Company.

Dividends paid by our Company will not be eligible for the dividends received deduction generally allowed to U.S. corporate shareholders in respect of dividends received from other U.S. corporations.

Subject to certain holding period requirements and other limitations, dividends received from a “qualified foreign corporation” by a non-corporate U.S. Holder, including an individual, generally are eligible for preferential rates of taxation if the dividends are “qualified dividends” for U.S. federal income tax purposes. Our Company will be a qualified foreign corporation only if (1) our Class A ordinary shares are readily tradable on an established securities market in the United States and (2) our Company is not a PFIC (as discussed below) for either the taxable year in which the dividend was paid or the preceding taxable year. U.S. Holders should consult their tax advisors regarding the availability of such preferential rates of taxation.

Sale or Exchange of Class A Ordinary Shares and Warrants

A U.S. Holder generally will recognize gain or loss on the sale or exchange of its Class A ordinary shares and warrants equal to the difference between the amount realized on such sale or exchange and the U.S. Holder’s adjusted tax basis in the Class A ordinary shares and warrants. Subject to the discussion below under “—Passive Foreign Investment Company Considerations,” such gain or loss will generally be capital gain or loss, and will generally be long-term capital gain or loss if the U.S. Holder’s holding period for the Class A ordinary shares and warrants exceeds one year. It is unclear, however, whether certain redemption rights described in this prospectus may suspend the running of the applicable holding period for this purpose. If the running of the holding period for the Class A ordinary shares is suspended, then non-corporate U.S. Holders may not be able to satisfy the one-year holding period requirement for long-term capital gain treatment, in which case any gain on a sale or taxable disposition of the Class A ordinary shares or warrants would be subject to short-term capital gain treatment and would be taxed at regular ordinary income tax rates. Long-term capital gains of non-corporate U.S. Holders, including individuals, are generally eligible for preferential rates of taxation. The deductibility of capital losses is subject to limitations.

A U.S. Holder’s adjusted tax basis in the Class A ordinary shares and warrants will generally equal the U.S. Holder’s acquisition costs for such Class A ordinary shares and warrants as discussed above under “—Characterization of Units and Allocation of Purchase Price”, reduced by, in the case of Class A ordinary shares, and distributions constituting a return of capital as discussed above under “—Distributions.”

Redemption of Class A Ordinary Shares

Subject to the discussion below under “—Passive Foreign Investment Company Considerations,” if a U.S. Holder’s Class A ordinary shares are redeemed pursuant to the redemption provisions described under “—Description of Securities—Ordinary Shares” or if our Company purchases a U.S. Holder’s Class A ordinary shares in an open market transaction, the treatment of such redemption or purchase will depend on whether such redemption or purchase qualifies as a sale or exchange under Section 302 of the Code. If the redemption or purchase by our Company is treated as a sale or exchange under Section 302 of the Code, the U.S. federal income tax consequences to the U.S. Holder disposing of the Class A ordinary shares will be treated as described above under “—Sale or Exchange of Class A Ordinary Shares and Warrants.” If the redemption or purchase by our Company is not treated as a sale or exchange, the U.S. Holder will be

treated as receiving a distribution and the U.S. federal income tax consequences to the U.S. Holder disposing of the Class A ordinary shares will be treated as described above under “—Distributions.” The redemption or purchase by our Company of Class A ordinary shares will be treated as a sale under Section 302 of the Code if such redemption or purchase is (i) “not essentially equivalent” to a dividend, (ii) a “substantially disproportionate” redemption of shares (generally defined as a greater than 20 percent reduction in a U.S. Holder’s voting shares), or (iii) in complete termination of the U.S. Holder’s interest.

In determining whether any of the foregoing tests are satisfied, a U.S. Holder takes into account not only Class A ordinary shares actually owned by the U.S. Holder, but also Class A ordinary shares that are constructively owned by such holder. A U.S. Holder may constructively own, in addition to shares owned directly, shares owned by certain related individuals and entities in which the U.S. Holder has an interest or that have an interest in such U.S. Holder, as well as any shares the U.S. Holder has a right to acquire by exercise of an option, which would generally include Class A ordinary shares which could be acquired pursuant to the exercise of the warrants. In order to meet the substantially disproportionate test, the percentage of our Company’s outstanding voting shares actually and constructively owned by the U.S. Holder immediately following the redemption of Class A ordinary shares must, among other requirements, be less than 80 percent of the percentage of our Company’s outstanding voting shares actually and constructively owned by the U.S. Holder immediately before the redemption. Prior to the Company’s initial business combination, the Class A ordinary shares may not be voting shares for this purpose and, consequently, this substantially disproportionate test may not be applicable. There will be a complete termination of a U.S. Holder’s interest if either (i) all of our Company’s shares actually and constructively owned by the U.S. Holder are redeemed or (ii) all of our Company’s shares actually owned by the U.S. Holder are redeemed and the U.S. Holder is eligible to waive, and effectively waives in accordance with specific rules, the attribution of shares owned by certain family members and the U.S. Holder does not constructively own any other shares of our Company. The redemption of the Class A ordinary shares will not be essentially equivalent to a dividend if a U.S. Holder’s redemption results in a “meaningful reduction” of the U.S. Holder’s proportionate interest in us. Whether the redemption will result in a meaningful reduction in a U.S. Holder’s proportionate interest in us will depend on the particular facts and circumstances. However, the IRS has indicated in a published ruling that even a small reduction in the proportionate interest of a small minority shareholder in a publicly held corporation who exercises no control over corporate affairs may constitute such a “meaningful reduction.” A U.S. Holder should consult with and rely solely upon its own tax advisors as to the tax consequences of a redemption.

If none of the foregoing tests are satisfied, then the redemption will be treated as a corporate distribution and the tax effects will be as described under “—Distributions” above. After the application of those rules, any remaining tax basis of the U.S. Holder in the redeemed Class A ordinary shares will be added to the U.S. Holder’s adjusted tax basis in its remaining shares, or, if it has none, to the U.S. Holder’s adjusted tax basis in its warrants or possibly in other shares constructively owned by it.

U.S. Holders who actually or constructively own five percent (or, if the Company’s Class A ordinary shares are not then publicly traded, one percent) or more of our Company’s shares (by vote or value) may be subject to special reporting requirements with respect to a redemption of Class A ordinary shares, and such holders should consult with and rely solely upon their own tax advisors with respect to their reporting requirements.

Exercise, Lapse, or Redemption of Warrants

Subject to the discussion below under “—Passive Foreign Investment Company Considerations,” and except as discussed below with respect to the cashless exercise of a warrant, a U.S. Holder generally will not recognize gain or loss upon the acquisition of a Class A ordinary share on the exercise of a warrant for cash. A U.S. Holder’s tax basis in a Class A ordinary share received upon exercise of the warrant generally will equal the sum of the U.S. Holder’s initial investment in the warrant (that is, the portion of the U.S. Holder’s purchase price for the Units that is allocated to the warrant, as described above under “—Characterization of Units and Allocation of Purchase Price”) and the exercise price. It is unclear whether a U.S. Holder’s holding period for the Class A ordinary share received will commence on the date of exercise of the warrant or the day following the date of exercise of the warrant; in either case, the holding

period will not include the period during which the U.S. Holder held the warrant. If a warrant is allowed to lapse unexercised, a U.S. Holder generally will recognize a capital loss equal to such holder's tax basis in the warrant.

The tax consequences of a cashless exercise of a warrant are not clear under current law. Subject to the discussion below under “—Passive Foreign Investment Company Considerations,” a cashless exercise may not be taxable, either because the exercise is not a realization event or because the exercise is treated as a recapitalization for U.S. federal income tax purposes. In either situation, a U.S. Holder's tax basis in the Class A ordinary shares received generally should equal the U.S. Holder's tax basis in the warrants exercised therefor. If the cashless exercise was not a realization event, it is unclear whether a U.S. Holder's holding period for the Class A ordinary shares received would be treated as commencing on the date of exercise of the warrant or the day following the date of exercise of the warrant; in either case, the holding period will not include the period during which the U.S. Holder held the warrant. If the cashless exercise were treated as a recapitalization, the holding period of the Class A ordinary shares received would include the holding period of the warrants.

It is also possible that a cashless exercise may be treated as a taxable exchange in which gain or loss would be recognized. In such event, a U.S. Holder may be deemed to have surrendered a number of warrants equal to the number of Class A ordinary shares having a value equal to the exercise price for the total number of warrants to be exercised. Subject to the discussion below under “—Passive Foreign Investment Company Considerations,” the U.S. Holder would recognize capital gain or loss in an amount equal to the difference between the fair market value of the Class A ordinary shares received in respect of the warrants deemed surrendered and the U.S. Holder's tax basis in the warrants deemed surrendered. In this case, a U.S. Holder's tax basis in the Class A ordinary shares received would equal the sum of the fair market value of the Class A ordinary shares received in respect of the warrants deemed surrendered and the U.S. Holder's tax basis in the warrants exercised. It is unclear whether a U.S. Holder's holding period for the Class A ordinary shares would commence on the date of exercise of the warrant or the day following the date of exercise of the warrant; in either case, the holding period will not include the period during which the U.S. Holder held the warrant.

Due to the absence of authority on the U.S. federal income tax treatment of a cashless exercise, including when a U.S. Holder's holding period would commence with respect to the Class A ordinary share received, there can be no assurance which, if any, of the alternative tax consequences and holding periods described above would be adopted by the IRS or a court of law. Accordingly, U.S. Holders should consult their tax advisors regarding the tax consequences of a cashless exercise.

Subject to the discussion below under “—Passive Foreign Investment Company Considerations,” if we redeem warrants for cash pursuant to the redemption provisions described in the section of this prospectus entitled “Description of Securities—Warrants—Public Shareholders' Warrants” or if we purchase warrants in an open market transaction, such redemption or purchase generally will be treated as a taxable disposition to the U.S. Holder, taxed as described above under “—Sale or Exchange of Class A Ordinary Shares and Warrants.”

Potential Constructive Distributions

The terms of each warrant provide for an adjustment to the number of Class A ordinary shares for which the warrant may be exercised or to the exercise price of the warrant in certain events, as discussed in the section of this prospectus entitled “Description of Securities—Warrants—Public Shareholders' Warrants.” An adjustment made pursuant to a bona fide, reasonable, adjustment formula that has the effect of preventing dilution is generally not taxable. The U.S. Holders of the warrants would, however, be treated as receiving a constructive distribution from us if, for example, the adjustment increases such U.S. Holders' proportionate interest in the Company's assets or earnings and profits (e.g., through an increase in the number of Class A ordinary shares that would be obtained upon exercise or through a decrease in the exercise price of the warrant), which adjustment may be made as a result of a distribution of cash or other property to the holders of the Company's Class A ordinary shares. Such constructive distribution to a U.S. Holder of warrants would be treated as if such U.S. Holder had received a cash distribution from us generally equal to the fair market value of such increased interest (taxed as described above under “—Distributions”).

Passive Foreign Investment Company Considerations

A non-U.S. corporation will be a PFIC for U.S. federal income tax purposes for any taxable year if either:

- (a) 75 percent or more of its gross income for such year is “passive income” which for this purpose generally includes certain (i) dividends, (ii) interest, (iii) royalties, (iv) rents and (v) gains from commodities and securities transactions and certain gains from assets that produce passive income, or the Income Test; or
- (b) 50 percent or more of the value of its gross assets (based on an average of the quarterly values of the gross assets) during such year is attributable to assets that produce passive income or are held for the production of passive income, or the Asset Test.

Because our Company is a blank check company, with no current active business, we believe that it is likely that our Company will meet either the Income Test or Asset Test for periods prior to the acquisition of a company or assets in a business combination. However, pursuant to a startup exception, a corporation will not be a PFIC for the first taxable year the corporation has gross income, or the start-up year, if (1) no predecessor of the corporation was a PFIC; (2) the corporation satisfies the IRS that it will not be a PFIC for either of the first two taxable years following the start-up year; and (3) the corporation is not in fact a PFIC for either of those years. The applicability of the start-up exception to our Company will not be known, at the earliest, until after the close of our Company’s current taxable year ending December 31, 2020 and might not be known until after the close of our Company’s start-up year and the first two taxable years following our Company’s start-up year (within the meaning of the start-up exception). After the acquisition of a company or assets in a business combination, our Company may still meet one of the PFIC tests depending on the timing of the acquisition and the amount of our Company’s passive income and assets as well as the passive income and assets of the acquired business. If the company that our Company acquires in a business combination is a PFIC, then our Company will likely not qualify for the start-up exception. Our Company’s actual PFIC status for our Company’s current taxable year or any subsequent taxable year, however, will not be determinable until after the end of such taxable year and, in the case of the start-up exception to our current taxable year, perhaps until after the end of our two taxable years following our start-up year. Accordingly, there can be no assurance with respect to our Company’s status as a PFIC for our Company’s current taxable year ending December 31, 2020 or any future taxable year.

Although PFIC status is determined annually, an initial determination that our Company is a PFIC generally will apply for subsequent years to a U.S. Holder who held Class A ordinary shares or warrants while our Company was a PFIC, whether or not our Company meets either the Income Test or Asset Test for PFIC status in those subsequent years. If our Company is determined to be a PFIC for any taxable year (or portion thereof) that is included in the holding period of a U.S. Holder of our Company’s Class A ordinary shares or warrants and, in the case of our Company’s Class A ordinary shares, the U.S. Holder did not make either a timely mark-to-market election or a qualified electing fund, or QEF, election for our Company’s first taxable year as a PFIC in which the U.S. Holder held (or was deemed to hold) Class A ordinary shares, as described below, such U.S. Holder generally would be subject to special rules with respect to “excess distributions” made by us on the Class A ordinary shares and with respect to gain from a U.S. Holder’s disposition of the Class A ordinary shares or warrants. An “excess distribution” generally is defined as the excess of the distributions a U.S. Holder has received with respect to the Class A ordinary shares in any taxable year over 125% of the average annual distributions such U.S. Holder has received from our Company during the shorter of the three preceding years or such U.S. Holder’s holding period for the Class A ordinary shares or warrants. Generally, a U.S. Holder would be required to allocate any excess distribution or gain from the disposition of the Class A ordinary shares or warrants ratably over such U.S. Holder’s holding period for the Class A ordinary shares or warrants. The portion of the excess distribution or gain allocated to a prior taxable year, other than a year prior to the first year in which our Company became a PFIC, would be taxed at the highest U.S. federal income tax rate on ordinary income in effect for such taxable year, and such U.S. Holder would be subject to an interest charge (at the rate generally applicable to an underpayment of tax) on the resulting tax liability, determined as if the tax liability had been due with respect to such particular taxable year. The portion of the excess distribution or gain that is not allocated to prior taxable years, together with the portion allocated to the years prior to the first year in which our Company

became a PFIC, would be included in such U.S. Holder's gross income for the taxable years of the excess distribution or disposition and taxed as ordinary income.

In general, if our Company is determined to be a PFIC, a U.S. Holder may be able to avoid the PFIC tax consequences described above with respect to Class A ordinary shares (but not with respect to warrants) by making a timely and valid QEF election (if eligible to do so) to include in income its pro rata share of our company's net capital gains (as long-term capital gain) and other earnings and profits (as ordinary income), on a current basis, in each case whether or not distributed, in the taxable year of the U.S. Holder in which or with which the company's taxable year ends. A U.S. Holder generally may make a separate election to defer the payment of taxes on undistributed income inclusions under the QEF rules, but if deferred, any such taxes will be subject to an interest charge.

It is not entirely clear how various aspects of the PFIC rules apply to the warrants. However, a U.S. Holder may not make a QEF election with respect to the warrants. As a result, if a U.S. Holder sells or otherwise disposes of such warrants (other than upon exercise of such warrants) and our Company was a PFIC at any time during the U.S. Holder's holding period of such warrants, any gain recognized generally will be treated as an excess distribution, taxed as described above. If a U.S. Holder that exercises such warrants properly makes and maintains a QEF election with respect to the newly acquired Class A ordinary shares (or has previously made a QEF election with respect to Class A ordinary shares), the QEF election will apply to the newly acquired Class A ordinary shares. Notwithstanding such QEF election, the rules relating to "excess distributions" discussed above, adjusted to take into account the current income inclusions resulting from the QEF election, will continue to apply with respect to such newly acquired Class A ordinary shares (which generally will be deemed to have a holding period for purposes of the PFIC rules that includes the period the U.S. Holder held the warrants), unless the U.S. Holder makes a purging election under the PFIC rules. Under the purging election, the U.S. Holder will be deemed to have sold such shares at their fair market value and any gain recognized on such deemed sale will be treated as an excess distribution, as described above. As a result of the purging election, the U.S. Holder will have a new basis and holding period in the Class A ordinary shares acquired upon the exercise of the warrants for purposes of the PFIC rules. U.S. Holders are urged to consult their tax advisors as to the application of the rules governing purging elections to their particular circumstances.

The QEF election is made on a shareholder-by-shareholder basis and, once made, can be revoked only with the consent of the IRS. A U.S. Holder generally makes a QEF election by attaching a completed IRS Form 8621 (Information Return by a Shareholder of a Passive Foreign Investment Company or Qualified Electing Fund) to a timely filed U.S. federal income tax return for the tax year to which the election relates. Retroactive QEF elections generally may be made only by filing a protective statement with such return and if certain other conditions are met or with the consent of the IRS. U.S. Holders should consult their tax advisors regarding the availability and tax consequences of a retroactive QEF election under their particular circumstances.

In order to comply with the requirements of a QEF election, a U.S. Holder must receive a PFIC annual information statement from our Company. If our Company determines that it is a PFIC for any taxable year, upon written request, our Company will endeavor to provide to a U.S. Holder such information as the IRS may require, including a PFIC annual information statement, in order to enable the U.S. Holder to make and maintain a QEF election, but there is no assurance that our Company will timely provide such required information. There is also no assurance that our Company will have timely knowledge of its status as a PFIC in the future or of the required information to be provided.

If a U.S. Holder has made a QEF election with respect to Class A ordinary shares, and the excess distribution rules discussed above do not apply to such shares (because of a timely QEF election for our Company's first taxable year as a PFIC in which the U.S. Holder holds (or is deemed to hold) such shares or a purge of the PFIC taint pursuant to a purging election, as described above), any gain recognized on the sale of Class A ordinary shares generally will be taxable as capital gain and no additional interest charge will be imposed under the PFIC rules. As discussed above, if our Company is a PFIC for any taxable year, a U.S. Holder of Class A ordinary shares that has made a QEF election will be currently taxed on its pro rata share of our Company's earnings and profits, whether or not distributed for such year. A subsequent distribution of such earnings and profits that were previously included in income generally should not be taxable when distributed to such U.S. Holder. The tax basis of a U.S. Holder's shares in a QEF will be

increased by amounts that are included in income, and decreased by amounts distributed but not taxed as dividends, under the above rules. In addition, if we are not a PFIC for any taxable year, such U.S. Holder will not be subject to the QEF inclusion regime with respect to our Class A ordinary shares for such a taxable year.

Alternatively, if a U.S. Holder, at the close of its taxable year, owns shares in a PFIC that are treated as marketable stock, the U.S. Holder may make a mark-to-market election with respect to such shares for such taxable year. If the U.S. Holder makes a valid mark-to-market election for the first taxable year of the U.S. Holder in which the U.S. Holder holds (or is deemed to hold) Class A ordinary shares and for which we are determined to be a PFIC, such U.S. Holder generally will not be subject to the PFIC rules described above in respect to its Class A ordinary shares. Instead, in general, the U.S. Holder will include as ordinary income in each taxable year the excess, if any, of the fair market value of its Class A ordinary shares at the end of its taxable year over its adjusted basis in its Class A ordinary shares. These amounts of ordinary income would not be eligible for the favorable tax rates applicable to qualified dividend income or long-term capital gains. The U.S. Holder also will recognize an ordinary loss in respect of the excess, if any, of its adjusted basis in its Class A ordinary shares over the fair market value of its Class A ordinary shares at the end of its taxable year (but only to the extent of the net amount of previously included income as a result of the mark-to-market election). The U.S. Holder's basis in its Class A ordinary shares will be adjusted to reflect any such income or loss amounts, and any further gain recognized on a sale or other taxable disposition of its Class A ordinary shares will be treated as ordinary income. Currently, a mark-to-market election may not be made with respect to warrants.

The mark-to-market election is available only for stock that is regularly traded on a national securities exchange that is registered with the SEC, including Nasdaq (on which the Company intends to list the Class A ordinary shares), or on a foreign exchange or market that the IRS determines has rules sufficient to ensure that the market price represents a legitimate and sound fair market value. If made, a mark-to-market election would be effective for the taxable year for which the election was made and for all subsequent taxable years unless the Class A ordinary shares ceased to qualify as "marketable stock" for purposes of the PFIC rules or the IRS consented to the revocation of the election. U.S. Holders are urged to consult their own tax advisors regarding the availability and tax consequences of a mark-to-market election in respect to Class A ordinary shares under their particular circumstances.

If our Company is a PFIC and, at any time, has a foreign subsidiary that is classified as a PFIC, U.S. Holders generally would be deemed to own a portion of the shares of such lower-tier PFIC, and generally could incur liability for the deferred tax and interest charge described above if our Company receives a distribution from, or disposes of all or part of its interest in, the lower-tier PFIC or the U.S. Holders otherwise were deemed to have disposed of an interest in the lower-tier PFIC. Upon written request, we will endeavor to cause any lower-tier PFIC to provide to a U.S. Holder the information that may be required to make or maintain a QEF election with respect to the lower-tier PFIC. There can be no assurance that we will have timely knowledge of the status of any such lower-tier PFIC. In addition, our Company may not hold a controlling interest in any such lower-tier PFIC and thus there can be no assurance our Company will be able to cause the lower-tier PFIC to provide such required information. A mark-to-market election generally would not be available with respect to such lower-tier PFIC, unless such lower-tier PFIC's are themselves publicly traded. U.S. Holders are urged to consult their tax advisors regarding the tax issues raised by lower-tier PFICs.

A U.S. Holder that owns (or is deemed to own) shares in a PFIC during any taxable year of the U.S. Holder, may have to file an IRS Form 8621 (whether or not a QEF or mark-to-market election is made) and such other information as may be required by the U.S. Treasury Department. Failure to do so, if required, will extend the statute of limitations until such required information is furnished to the IRS.

The rules dealing with PFICs and with the QEF, purging, and mark-to-market elections are very complex and are affected by various factors in addition to those described above. Accordingly, U.S. Holders of Class A ordinary shares and warrants should consult their own tax advisors concerning the application of the PFIC rules to our Class A ordinary shares and warrants in light of their particular circumstances.

Backup Withholding Tax and Information Reporting Requirements

U.S. backup withholding tax and information reporting requirements generally apply to payments to non-corporate holders of Class A ordinary shares. Information reporting will apply to payments of dividends

on Class A ordinary shares, and to proceeds from the disposition of Class A ordinary shares or warrants, by a paying agent within the United States to a U.S. holder, other than U.S. holders that are exempt from information reporting and properly certify their exemption. A paying agent within the United States will be required to withhold at the applicable statutory rate, currently 24%, payments of dividends on Class A ordinary shares, and to proceeds from the disposition of Class A ordinary shares or warrants, within the United States to a U.S. Holder (other than U.S. Holders that are exempt from backup withholding and properly certify their exemption) if the U.S. Holder fails to furnish its correct taxpayer identification number or otherwise fails to comply with applicable backup withholding requirements. U.S. Holders who are required to establish their exempt status generally must provide a properly completed IRS Form W-9.

Backup withholding is not an additional tax. Amounts withheld as backup withholding may be credited against a U.S. Holder's U.S. federal income tax liability. A U.S. Holder generally may obtain a refund of any amounts withheld under the backup withholding rules in excess of such holder's U.S. federal income tax liability by filing the appropriate claim for refund with the IRS in a timely manner and furnishing any required information.

Foreign Financial Asset Reporting

Certain U.S. Holders that own "specified foreign financial assets" with an aggregate value in excess of \$50,000 are generally required to file an information statement along with their U.S. federal tax returns, currently on IRS Form 8938, with respect to such assets. "Specified foreign financial assets" include any financial accounts held at a non-U.S. financial institution, as well as securities issued by a non-U.S. issuer that are not held in accounts maintained by financial institutions. If a U.S. Holder does not include in such holder's gross income an amount relating to one or more specified foreign financial assets, and the amount such U.S. holder omits is more than \$5,000, any tax such U.S. Holder owes for the tax year can be assessed at any time within 6 years after the filing of such U.S. Holder's federal tax return. U.S. Holders who fail to report the required information could be subject to substantial penalties. Prospective investors are encouraged to consult with their own tax advisors regarding the possible application of the foregoing to an investment in Class A ordinary shares or warrants in light of their particular circumstances.

Consequences to Non-U.S. Holders

Dividends (including transactions treated as dividends for U.S. federal income tax purposes, such as certain redemptions of Class A ordinary treated as dividends, as described in—Consequences to U.S. Holders—Redemption of Class A Ordinary Shares or, potentially, certain constructive distributions, as described in "—Consequences to U.S. Holders—Potential Constructive Distributions") with respect to our Class A ordinary shares and gains (including gains from redemptions treated as sales, as described in "—Consequences to U.S. Holders—Redemption of Class A Ordinary Shares") with respect to our Class A ordinary shares and warrants that are effectively connected with the Non-U.S. Holder's conduct of a trade or business in the United States (and, if required by an applicable income tax treaty, are attributable to a permanent establishment or fixed base in the United States) generally will be subject to U.S. federal income tax at the same regular U.S. federal income tax rates applicable to a comparable U.S. Holder and, in the case of a Non-U.S. Holder that is a corporation for U.S. federal income tax purposes, also may be subject to an additional branch profits tax at a 30% rate or a lower applicable tax treaty rate. The U.S. federal income tax treatment of gains recognized by Non-U.S. Holders that are subject to U.S. federal income tax generally will correspond to the U.S. federal income tax treatment of gains recognized by U.S. Holders as described in "—Consequences to U.S. Holders—Sale or Exchange of Class A Ordinary Shares and Warrants."

The U.S. federal income tax treatment of a Non-U.S. Holder's receipt of any Class A ordinary share upon the exercise, or the lapse, of a warrant held by a Non-U.S. Holder generally will correspond to the U.S. federal income tax treatment of the receipt of a Class A ordinary share upon exercise, or lapse, of a warrant by a U.S. Holder, as described under "—Consequences to U.S. Holders—Exercise, Lapse or Redemption of Warrants" above, although to the extent a cashless exercise results in a taxable exchange, the consequences would be similar to those described in the preceding paragraphs above for a Non-U.S. Holder's gain on the sale or other disposition of our Class A ordinary shares and warrants.

The characterization for U.S. federal income tax purposes of the redemption of the Non-U.S. Holder's warrants generally will correspond to the U.S. federal income tax treatment of such a redemption of a U.S.

Holder's warrants, as described under "—Consequences to U.S. Holders—Exercise, Lapse or Redemption of Warrants" above, and the consequences of the redemption to the Non-U.S. Holder will be as described in the paragraphs above based on such characterization.

Dividend payments with respect to our Class A ordinary shares and proceeds from the sale, exchange or redemption of our Class A ordinary shares and warrants may be subject to information reporting to the IRS and possible United States backup withholding. Backup withholding will not apply, however, to a U.S. Holder who furnishes a correct taxpayer identification number and makes other required certifications, or who is otherwise exempt from backup withholding and establishes such exempt status. A Non-U.S. Holder generally will eliminate the requirement for information reporting and backup withholding by providing certification of its foreign status, under penalties of perjury, on a duly executed applicable IRS Form W-8 or by otherwise establishing an exemption.

Backup withholding is not an additional tax. Amounts withheld as backup withholding may be credited against a Non-U.S. Holder's U.S. federal income tax liability. A Non-U.S. Holder generally may obtain a refund of any amounts withheld under the backup withholding rules in excess of such holder's U.S. federal income tax liability by filing the appropriate claim for refund with the IRS in a timely manner and furnishing any required information.

The discussion above is a general summary only. It is not intended to constitute a complete analysis of all tax considerations applicable to an investment in Units, Class A ordinary shares, or warrants. You should consult with your own tax advisor concerning the U.S. federal, state, local and non-U.S. tax consequences to you of an investment in Units, Class A ordinary shares, or warrants in light of your particular circumstances.

UNDERWRITING

Barclays Capital Inc. is acting as the representative of the underwriters and the sole book-running manager of this offering. Under the terms of an underwriting agreement, which will be filed as an exhibit to the registration statement, each of the underwriters named below has severally agreed to purchase from us the respective number of units shown opposite its name below:

Underwriters	Number of Units
Barclays Capital Inc.	
Total	20,000,000

The underwriting agreement provides that the underwriters' obligation to purchase the units depends on the satisfaction of the conditions contained in the underwriting agreement including:

- the obligation to purchase all of the units offered hereby (other than those units covered by their over-allotment option as described below), if any of the units are purchased;
- the representations and warranties made by us to the underwriters are true;
- there is no material change in our business or the financial markets; and
- we deliver customary closing documents to the underwriters.

Commissions and Expenses

The following table summarizes the underwriting discounts and commissions we will pay to the underwriters. These amounts are shown assuming both no exercise and full exercise of the underwriters' over-allotment option.

	Paid by Aurora Acquisition Corp.	
	No Exercise	Full Exercise
Per Unit ⁽¹⁾	\$ 0.55	\$ 0.55
Total ⁽¹⁾	\$ 11,000,000	\$ 12,650,000

- (1) \$0.20 per unit, or \$4,000,000 in the aggregate (or \$4,600,000 if the underwriters' over-allotment option is exercised in full), is payable upon the closing of this offering. Includes \$0.35 per unit, or \$7,000,000 in the aggregate (or up to \$8,050,000 in the aggregate if the underwriters' over-allotment option is exercised in full), payable to the underwriters for deferred underwriting commissions to be placed in a trust account located in the United States as described herein and released to the underwriters only upon the consummation of an initial business combination. Up to \$0.10 per unit of the deferred underwriting commissions may be paid at the sole discretion of the Company's management to the underwriters in allocations determined by the Company's management and/or to third parties not participating as underwriters in this offering (but who are members of FINRA) that assist the Company in consummating an initial business combination.

If we do not complete our initial business combination and subsequently liquidate, the underwriters have agreed that (i) they will forfeit any rights or claims to its deferred underwriting discounts and commissions, including any accrued interest thereon, then in the trust account upon liquidation, and (ii) that the deferred underwriters' discounts and commissions will be distributed on a pro rata basis, including interest earned on the funds held in the trust account and not previously released to us to pay our taxes to the public shareholders and holders of Novator private placement shares. Barclays Capital Inc. has advised us that the underwriters propose to offer the units directly to the public at the public offering price on the cover of this prospectus and to selected dealers, which may include the underwriters, at such offering price less a selling concession not in excess of \$ per unit. After the offering, the representative may change the offering price and other selling terms.

The expenses of the offering that are payable by us are estimated to be approximately \$1,000,000 (excluding underwriting discounts and commissions). We have agreed to pay for the FINRA-related fees and expenses of the underwriters' legal counsel, not to exceed \$.

Option to Purchase Additional Shares

We have granted the underwriters an option exercisable for 45 days after the date of this prospectus to purchase, from time to time, in whole or in part, up to an aggregate of 3,000,000 units from us at the public offering price less underwriting discounts and commissions. This option may be exercised to the extent the underwriters sell more than 20,000,000 units in connection with this offering. To the extent that this option is exercised, each underwriter will be obligated, subject to certain conditions, to purchase its pro rata portion of these additional units based on the underwriters' percentage underwriting commitment in the offering as indicated in the table at the beginning of this Underwriting section.

Lock-Up Agreements

We, our sponsor and our executive officers and directors, and their respective affiliates have agreed that, for a period of 180 days from the date of this prospectus, we and they will not, without the prior written consent of Barclays Capital Inc., offer, sell, contract to sell, pledge or otherwise dispose of, directly or indirectly, any units, warrants, Class A ordinary shares or any other securities convertible into, or exercisable, or exchangeable for Class A ordinary shares, subject to certain exceptions. Barclays Capital Inc. in its sole discretion may release any of the securities subject to these lock-up agreements at any time without notice, other than in the case of the executive officers and directors, which shall be with notice. Our sponsor, executive officers, and directors are also subject to separate transfer restrictions on their founder shares pursuant to the letter agreement as described herein.

Our initial shareholders, sponsor, directors and executive officers have agreed not to transfer, assign or sell any of their founder shares or Novator private placement shares until the earlier to occur of (A) twelve months after the completion of our initial business combination or (B) subsequent to our initial business combination, (x) if the last sale price of our Class A ordinary shares equals or exceeds \$12.00 per share (as adjusted for share sub-divisions, share capitalizations, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, or (y) the date on which we complete a liquidation, merger, share exchange, reorganization or other similar transaction that results in all of our shareholders having the right to exchange their shares for cash, securities or other property (except with respect to permitted transferees as described herein under the section of this prospectus entitled "Principal Shareholders—Transfers of Founder Shares, Private Placement Warrants and Novator Private Placement Warrants").

The private placement warrants (including the Class A ordinary shares issuable upon exercise of the private placement warrants) and the Novator private placement warrants will not be transferable, assignable or salable until 30 days after the completion of our initial business combination (except with respect to permitted transferees as described herein under the section of the prospectus entitled "Principal Shareholders—Transfers of Founder Shares, Private Placement Warrants and Novator Private Placement Warrants").

Offering Price Determination

Prior to this offering, there has been no public market for our securities. Consequently, the initial public offering price for the units was determined by negotiations between us and the underwriters. Among the factors considered in determining the initial public offering price were the history and prospects of companies whose principal business is the acquisition of other companies, prior offerings of those companies, our management, our capital structure, and currently prevailing general conditions in equity securities markets, including current market valuations of publicly traded companies considered comparable to our Company. We cannot assure you, however, that the price at which the units, Class A ordinary shares or warrants will sell in the public market after this offering will not be lower than the initial public offering price or that an active trading market in our units, Class A ordinary shares or warrants will develop and continue after this offering.

Indemnification

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, and to contribute to payments that the underwriters may be required to make for these liabilities.

Stabilization, Short Positions and Penalty Bids

The representative may engage in stabilizing transactions, short sales and purchases to cover positions created by short sales, and penalty bids or purchases for the purpose of pegging, fixing or maintaining the price of the units, in accordance with Regulation M under the Exchange Act:

- Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum.
- A short position involves a sale by the underwriters of units in excess of the number of units the underwriters are obligated to purchase in the offering, which creates the syndicate short position. This short position may be either a covered short position or a naked short position. In a covered short position, the number of units involved in the sales made by the underwriters in excess of the number of units they are obligated to purchase is not greater than the number of units that they may purchase by exercising their over-allotment option. In a naked short position, the number of units involved is greater than the number of units in their over-allotment option. The underwriters may close out any short position by either exercising their over-allotment option and/or purchasing units in the open market. In determining the source of units to close out the short position, the underwriters will consider, among other things, the price of units available for purchase in the open market as compared to the price at which they may purchase units through their over-allotment option. A naked short position is more likely to be created if the underwriters are concerned that there could be downward pressure on the price of the units in the open market after pricing that could adversely affect investors who purchase in the offering.
- Syndicate covering transactions involve purchases of the units in the open market after the distribution has been completed in order to cover syndicate short positions.
- Penalty bids permit the representative to reclaim a selling concession from a syndicate member when the units originally sold by the syndicate member is purchased in a stabilizing or syndicate covering transaction to cover syndicate short positions.

These stabilizing transactions, syndicate covering transactions and penalty bids may have the effect of raising or maintaining the market price of our units or preventing or retarding a decline in the market price of the units. As a result, the price of the units may be higher than the price that might otherwise exist in the open market. These transactions may be effected on Nasdaq or otherwise and, if commenced, may be discontinued at any time.

Neither we nor any of the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the units. In addition, neither we nor any of the underwriters make any representation that the representative will engage in these stabilizing transactions or that any transaction, once commenced, will not be discontinued without notice.

Electronic Distribution

A prospectus in electronic format may be made available on the Internet sites or through other online services maintained by one or more of the underwriters and/or selling group members participating in this offering, or by their affiliates. In those cases, prospective investors may view offering terms online and, depending upon the particular underwriter or selling group member, prospective investors may be allowed to place orders online. The underwriters may agree with us to allocate a specific number of units for sale to online brokerage account holders. Any such allocation for online distributions will be made by the representative on the same basis as other allocations.

Other than the prospectus in electronic format, the information on any underwriter's or selling group member's web site and any information contained in any other web site maintained by an underwriter or selling group member is not part of the prospectus or the registration statement of which this prospectus forms a part, has not been approved and/or endorsed by us or any underwriters or selling group member in its capacity as underwriters or selling group member and should not be relied upon by investors.

Listing on the Nasdaq Capital Market

We intend to apply to have our units listed on Nasdaq under the symbol “AURC.U” Once the securities comprising the units begin separate trading, we expect that the Class A ordinary shares and warrants will be listed on the Nasdaq under the symbols “AURC” and “AURC WS,” respectively.

Stamp Taxes

If you purchase units offered in this prospectus, you may be required to pay stamp taxes and other charges under the laws and practices of the country of purchase, in addition to the offering price listed on the cover page of this prospectus.

Other Relationships

We have granted the representative a right of first refusal to arrange or lead any future financings and provide certain advisory services for the Company or the Company’s successor (the “ROFR”). The ROFR will not have a duration of more than three years, in accordance with FINRA Rule 5110(g)(6)(A). Otherwise, we are not under any contractual obligation to engage the underwriters to provide any services for us after this offering, but may do so in the future at our discretion. However, the underwriters may introduce us to potential target businesses or assist us in raising additional capital in the future. If the underwriters provide services to us after this offering, we may pay the underwriters fair and reasonable fees that would be determined at that time in an arm’s length negotiation; provided that no agreement will be entered into with the underwriters and no fees for such services will be paid to the underwriters prior to the date that is 60 days from the date of this prospectus, unless FINRA determines that such payment would not be deemed underwriters’ compensation in connection with this offering, and we may pay the underwriters of this offering or any entity with which they are affiliated, a finder’s fee or other compensation for services rendered to us in connection with the completion of a business combination. If any of the underwriters provide services to us after this offering, we may pay such underwriter fair and reasonable fees that would be determined at that time in an arm’s length negotiation, and we may pay the underwriters of this offering or any entity with which they are affiliated, a finder’s fee or other compensation for services rendered to us in connection with the completion of a business combination.

The underwriters and certain of their affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. The underwriters and certain of their affiliates have, from time to time, performed, and may in the future perform, various commercial and investment banking and financial advisory services for the issuer and its affiliates, for which they received or may in the future receive customary fees and expenses.

In the ordinary course of their various business activities, the underwriters and certain of their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and such investment and securities activities may involve securities and/or instruments of the issuer or its affiliates. If the underwriters or their affiliates have a lending relationship with us, certain of those underwriters or their affiliates routinely hedge, and certain other of the underwriters or their affiliates may hedge, their credit exposure to us consistent with their customary risk management policies. Typically, the underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities or the securities of our affiliates, including potentially the ordinary shares offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the units offered hereby. The underwriters and certain of their affiliates may also communicate independent investment recommendations, market color or trading ideas and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Selling Restrictions

This prospectus does not constitute an offer to sell to, or a solicitation of an offer to buy from, anyone in any country or jurisdiction (i) in which such an offer or solicitation is not authorized, (ii) in which any

person making such offer or solicitation is not qualified to do so or (iii) in which any such offer or solicitation would otherwise be unlawful. No action has been taken that would, or is intended to, permit a public offer of the units or possession or distribution of this prospectus or any other offering or publicity material relating to the units in any country or jurisdiction (other than the United States) where any such action for that purpose is required. Accordingly, each underwriter has undertaken that it will not, directly or indirectly, offer or sell any units or have in its possession, distribute or publish any prospectus, form of application, advertisement or other document or information in any country or jurisdiction except under circumstances that will, to the best of its knowledge and belief, result in compliance with any applicable laws and regulations and all offers and sales of units by it will be made on the same terms.

Notice to Prospective Investors in European Economic Area

In relation to each member state of the European Economic Area, each a Relevant State, no units have been offered or will be offered to the public in that Relevant State prior to the publication of a prospectus in relation to the units which has been approved by the competent authority in that Relevant State or, where appropriate, approved in another Relevant State and notified to the competent authority in that Relevant State, all in accordance with the Prospectus Regulation, except that offers of units may be made to the public in that Relevant State at any time under the following exemptions under the Prospectus Regulation:

- to any legal entity which is a qualified investor as defined under the Prospectus Regulation;
- to fewer than 150 natural or legal persons (other than qualified investors as defined under the Prospectus Regulation), subject to obtaining the prior consent of the Representative for any such offer; or
- in any other circumstances falling within Article 1(4) of the Prospectus Regulation,

provided that no such offer of units shall require us or the underwriters to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation.

For the purposes of this provision, the expression an “offer to the public” in relation to any units in any Relevant State means the communication in any form and by any means of sufficient information on the terms of the offer and any units to be offered so as to enable an investor to decide to purchase or subscribe for any units, and the expression “Prospectus Regulation” means Regulation (EU) 2017/1129.

We have not authorized and do not authorize the making of any offer of units through any financial intermediary on their behalf, other than offers made by the underwriters with a view to the final placement of the units as contemplated in this prospectus. Accordingly, no purchaser of the units, other than the underwriters, is authorized to make any further offer of the units on behalf of us or the underwriters.

Notice to Prospective Investors in United Kingdom

In relation to the United Kingdom, no units have been offered or will be offered pursuant to this offering to the public in the United Kingdom prior to the publication of a prospectus in relation to the units that either (i) has been approved by the Financial Conduct Authority, or (ii) is to be treated as if it had been approved by the Financial Conduct Authority in accordance with the transitional provision in Regulation 74 of the Prospectus (Amendment etc.) (EU Exit) Regulations 2019, except that offers of units may be made to the public in the United Kingdom at any time under the following exemptions under the UK Prospectus Regulation:

- to any legal entity which is a qualified investor as defined under Article 2 of the UK Prospectus Regulation;
- to fewer than 150 natural or legal persons (other than qualified investors as defined under Article 2 of the UK Prospectus Regulation), subject to obtaining the prior consent of representatives for any such offer; or
- in any other circumstances falling within Section 86 of the Financial Services and Markets Act 2000 (the “FSMA”),

provided that no such offer of the units shall require us or the underwriters to publish a prospectus pursuant to Section 85 of the FSMA or supplement a prospectus pursuant to Article 23 of the UK Prospectus Regulation.

For the purposes of this provision, the expression an “offer to the public” in relation to any units in the United Kingdom means the communication in any form and by any means of sufficient information on the terms of the offer and any units to be offered so as to enable an investor to decide to purchase or subscribe for any units and the expression “UK Prospectus Regulation” means Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018.

We have not authorized and do not authorize the making of any offer of units through any financial intermediary on their behalf, other than offers made by the underwriters with a view to the final placement of the units as contemplated in this prospectus. Accordingly, no purchaser of the units, other than the underwriters, is authorized to make any further offer of the units on behalf of us or the underwriters.

In addition, this prospectus is only being distributed to, and is only directed at, and any investment or investment activity to which this prospectus relates is available only to, and will be engaged in only with, persons who are outside the United Kingdom or persons in the United Kingdom (i) having professional experience in matters relating to investments who fall within the definition of “investment professionals” in Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (the “Order”); or (ii) who are high net worth entities falling within Article 49(2)(a) to (d) of the Order (all such persons together being referred to as “relevant persons”). Persons who are not relevant persons should not take any action on the basis of this prospectus and should not act or rely on it.

Notice to Prospective Investors in the Cayman Islands

No offer or invitation, whether directly or indirectly, may be made to the public in the Cayman Islands to subscribe for our securities.

Notice to Prospective Investors in France

Neither this prospectus nor any other offering material relating to the units described in this prospectus has been submitted to the clearance procedures of the Autorité des Marchés Financiers or of the competent authority of another member state of the European Economic Area and notified to the Autorité des Marchés Financiers. The units have not been offered or sold and will not be offered or sold, directly or indirectly, to the public in France. Neither this prospectus nor any other offering material relating to the units has been or will be:

- released, issued, distributed or caused to be released, issued or distributed to the public in France; or
- used in connection with any offer for subscription or sale of the units to the public in France.

Such offers, sales and distributions will be made in France only:

- To qualified investors (investisseurs qualifiés) and/or to a restricted circle of investors (cercle restreint d’investisseurs), in each case investing for their own account, all as defined in, and in accordance with, articles L.411-2, D.411-1, D.411-2, D.734-1, D.744-1, D.754-1 and D.764-1 of the French Code monétaire et financier;
- to investment services providers authorized to engage in portfolio management on behalf of third parties; or
- in a transaction that, in accordance with article L.411-2-II-1° -or-2° -or 3° of the French Code monétaire et financier and article 211-2 of the General Regulations (Règlement Général) of the Autorité des Marchés Financiers, does not constitute a public offer (appel public à l’épargne).

The units may be resold directly or indirectly, only in compliance with articles L.411-1, L.411-2, L.412-1 and L.621-8 through L.621-8-3 of the French Code monétaire et financier.

Notice to Prospective Investors in Hong Kong

The units have not been offered or sold and will not be offered or sold in Hong Kong, by means of any document, other than (a) to “professional investors” as defined in the Securities and Futures Ordinance

(Cap. 571) of Hong Kong and any rules made under that Ordinance; or (b) in other circumstances which do not result in the document being a “prospectus” as defined in the Companies Ordinance (Cap. 32) of Hong Kong or which do not constitute an offer to the public within the meaning of that Ordinance. No advertisement, invitation or document relating to the units has been or may be issued or has been or may be in the possession of any person for the purpose of issue, whether in Hong Kong or elsewhere, which is directed at, or the contents of which are likely to be accessed or read by, the public of Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to units which are or are intended to be disposed of only to persons outside Hong Kong or only to “professional investors” as defined in the Securities and Futures Ordinance and any rules made under that Ordinance.

Notice to Prospective Investors in Japan

The units have not been and will not be registered under the Financial Instruments and Exchange Law of Japan (Law No. 25 of 1948, as amended) and, accordingly, will not be offered or sold, directly or indirectly, in Japan, or for the benefit of any Japanese Person or to others for re-offering or resale, directly or indirectly, in Japan or to any Japanese Person, except in compliance with all applicable laws, regulations and ministerial guidelines promulgated by relevant Japanese governmental or regulatory authorities in effect at the relevant time. For the purposes of this paragraph, “Japanese Person” shall mean any person resident in Japan, including any corporation or other entity organized under the laws of Japan.

Notice to Prospective Investors in Singapore

This prospectus has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this prospectus and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the units may not be circulated or distributed, nor may the units be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (i) to an institutional investor under Section 274 of the Securities and Futures Act, Chapter 289 of Singapore, or the SFA, (ii) to a relevant person pursuant to Section 275(1), or any person pursuant to Section 275(1A), and in accordance with the conditions specified in Section 275 of the SFA or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA, in each case subject to compliance with conditions set forth in the SFA.

Where our units are subscribed or purchased under Section 275 by a relevant person which is:

- (a) a corporation (which is not an accredited investor (as defined in Section 4A of the SFA)) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor; or
- (b) a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary of the trust is an individual who is an accredited investor,

shares, debentures and units of shares and debentures of that corporation or the beneficiaries’ rights and interest (howsoever described) in that trust shall not be transferred within six months after that corporation or that trust has acquired the shares pursuant to an offer made under Section 275 of the SFA except:

- (1) to an institutional investor (for corporations, under Section 274 of the SFA) or to a relevant person defined in Section 275(2) of the SFA, or to any person arising from an offer referred to in Section 275(1A) or Section 276(4)(i)(B) of the SFA;
- (2) where no consideration is or will be given for the transfer;
- (3) where the transfer is by operation of law;
- (4) as specified in Section 276(7) of the SFA; or
- (5) as specified in Regulation 32 of the Securities and Futures (Offers of Investments) (Shares and Debentures) Regulations 2005 of Singapore.

Solely for the purposes of its obligations pursuant to Section 309B of the SFA, we have determined, and hereby notify all relevant persons (as defined in the CMP Regulations 2018), that the units are “prescribed capital markets products” (as defined in the CMP Regulations 2018) and Excluded Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

Notice to Prospective Investors in Canada

The shares may be sold only to purchasers purchasing, or deemed to be purchasing, as principal that are accredited investors, as defined in National Instrument 45-106 Prospectus Exemptions or subsection 73.3(1) of the Securities Act (Ontario), and are permitted clients, as defined in National Instrument 31-103 Registration Requirements, Exemptions and Ongoing Registrant Obligations. Any resale of the shares must be made in accordance with an exemption from, or in a transaction not subject to, the prospectus requirements of applicable securities laws.

Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if this prospectus (including any amendment thereto) contains a misrepresentation, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser’s province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser’s province or territory for particulars of these rights or consult with a legal advisor.

Pursuant to section 3A.3 of National Instrument 33-105 Underwriting Conflicts (“NI 33-105”), the underwriters are not required to comply with the disclosure requirements of NI 33-105 regarding underwriter conflicts of interest in connection with this offering.

Notice to Prospective Investors in the Dubai International Financial Centre

This prospectus relates to an Exempt Offer in accordance with the Offered Securities Rules of the Dubai Financial Services Authority, or DFSA. This prospectus is intended for distribution only to persons of a type specified in the Offered Securities Rules of the DFSA. It must not be delivered to, or relied on by, any other person.

The DFSA has no responsibility for reviewing or verifying any documents in connection with Exempt Offers. The DFSA has not approved this prospectus nor taken steps to verify the information set forth herein and has no responsibility for the prospectus. The securities to which this prospectus relates may be illiquid and/or subject to restrictions on their resale.

Prospective purchasers of the securities offered should conduct their own due diligence on the securities. If you do not understand the contents of this prospectus you should consult an authorized financial advisor.

Notice to Prospective Investors in Australia

No placement document, prospectus, product disclosure statement or other disclosure document has been lodged with the Australian Securities and Investments Commission, or ASIC, in relation to the offering. This prospectus does not constitute a prospectus, product disclosure statement or other disclosure document under the Corporations Act 2001, or the Corporations Act, and does not purport to include the information required for a prospectus, product disclosure statement or other disclosure document under the Corporations Act. Any offer in Australia of the securities may only be made to persons (the “Exempt Investors”) who are “sophisticated investors” (within the meaning of section 708(8) of the Corporations Act), “professional investors” (within the meaning of section 708(11) of the Corporations Act) or otherwise pursuant to one or more exemptions contained in section 708 of the Corporations Act so that it is lawful to offer the securities without disclosure to investors under Chapter 6D of the Corporations Act.

The securities applied for by Exempt Investors in Australia must not be offered for sale in Australia in the period of 12 months after the date of allotment under the offering, except in circumstances where disclosure to investors under Chapter 6D of the Corporations Act would not be required pursuant to an exemption under section 708 of the Corporations Act or otherwise or where the offer is pursuant to a disclosure document which complies with Chapter 6D of the Corporations Act. Any person acquiring

securities must observe such Australian on-sale restrictions. This prospectus contains general information only and does not take account of the investment objectives, financial situation or particular needs of any particular person. It does not contain any securities recommendations or financial product advice. Before making an investment decision, investors need to consider whether the information in this prospectus is appropriate to their needs, objectives and circumstances, and, if necessary, seek expert advice on those matters.

Notice to Prospective Investors in Switzerland

This prospectus supplement is not intended to constitute an offer or solicitation to purchase or invest in the units. The units may not be publicly offered, directly or indirectly, in Switzerland within the meaning of the Swiss Financial Services Act, or FinSA, and no application has or will be made to admit the units to trading on any trading venue (exchange or multilateral trading facility) in Switzerland. Neither this prospectus supplement nor any other offering or marketing material relating to the units constitutes a prospectus pursuant to the FinSA, and neither this prospectus supplement nor any other offering or marketing material relating to the units may be publicly distributed or otherwise made publicly available in Switzerland.

LEGAL MATTERS

Baker & McKenzie LLP will pass upon the validity of the securities offered in this prospectus with respect to the units and warrants. Maples and Calder, Cayman Islands, will pass upon the validity of the securities offered in this prospectus with respect to the ordinary shares and matters of Cayman Islands law. In connection with this offering, Davis Polk & Wardwell LLP is acting as legal counsel to the underwriters.

EXPERTS

The financial statements of Aurora Acquisition Corp. as of December 31, 2020 and for the period from October 7, 2020 (inception) through December 31, 2020, appearing in this prospectus have been audited by Marcum LLP, an independent registered public accounting firm, as set forth in their report thereon (which contains an explanatory paragraph relating to substantial doubt about the ability of Aurora Acquisition Corp. to continue as a going concern as described in Note 1 to the financial statements) appearing elsewhere herein, and are included in reliance upon such report given on the authority of such firm as experts in accounting and auditing.

WHERE YOU CAN FIND MORE INFORMATION

We have filed a registration statement on Form S-1 under the Securities Act with the SEC with respect to this offering. This prospectus was filed as a part of that registration statement but does not contain all of the information contained in the registration statement and exhibits. Reference is thus made to the omitted information. Statements made in this prospectus are summaries of the material terms of contracts, agreements and documents and are not necessarily complete; however, all information we considered material has been disclosed. Reference is made to each exhibit for a more complete description of the matters involved and these statements are qualified in their entirety by the reference. The SEC also maintains a web site (<http://www.sec.gov>) that contains this filed registration statement, reports and other information regarding us that we have filed electronically with the SEC. For more information pertaining to our Company and this offering, reference is made to the registration statement.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholder and the Board of Directors of
Aurora Acquisition Corp.

Opinion on the Financial Statements

We have audited the accompanying balance sheet of Aurora Acquisition Corp. (the “Company”) as of December 31, 2020 and the related statements of operations, changes in shareholder’s equity and cash flows for the period from October 7, 2020 (inception) through December 31, 2020 and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2020 and the results of its operations and its cash flows for the period from October 7, 2020 (inception) through December 31, 2020, in conformity with accounting principles generally accepted in the United States of America.

Explanatory Paragraph—Going Concern

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As more fully described in Note 1 to the financial statements, the Company’s ability to execute its business plan is dependent upon its completion of the proposed initial public offering described in Note 3 to the financial statements. The Company has a working capital deficiency as of December 31, 2020 and lacks the financial resources it needs to sustain operations for a reasonable period of time, which is considered to be one year from the issuance date of the financial statements. These conditions raise substantial doubt about the Company’s ability to continue as a going concern. Management’s plans about these matters are also described in Notes 1 and 3. The financial statements do not include any adjustments that might become necessary should the Company be unable to continue as a going concern.

Basis for Opinion

These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on the Company’s financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (the “PCAOB”) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audit, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

/s/ Marcum LLP

Marcum LLP

We have served as the Company’s auditor since 2020.

**AURORA ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS**

NOTE 1—ORGANIZATION AND PLAN OF BUSINESS OPERATIONS

Aurora Acquisition Corp. (the “Company”) is a blank check company incorporated as a Cayman Islands exempted company on October 7, 2020. The Company was formed for the purpose of effecting a merger, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses (“Business Combination”).

Although the Company is not limited to a particular industry or geographic region for purposes of completing a Business Combination. The Company is an early stage and emerging growth company and, as such, the Company is subject to all of the risks associated with early stage and emerging growth companies.

As of December 31, 2020, the Company had not commenced any operations. All activity for the period from October 7, 2020 (inception) through December 31, 2020 relates to the Company’s formation and the proposed initial public offering (“Proposed Public Offering”), which is described below. The Company will not generate any operating revenues until after the completion of a Business Combination, at the earliest. The Company will generate non-operating income in the form of interest income from the proceeds derived from the Proposed Public Offering. The Company has selected December 31 as its fiscal year end.

The Company’s ability to commence operations is contingent upon obtaining adequate financial resources through a Proposed Public Offering of 20,000,000 units (the “Units” and, with respect to the Class A ordinary shares included in the Units being offered, the “Public Shares”) at \$10.00 per Unit (or 3,000,000 Units if the underwriters’ over-allotment option is exercised in full), which is discussed in Note 3, the sale of 3,500,000 private placement units (the “Novator Private Placement Units”) for \$35,000,000 to the sponsor, directors and executive officers of the Company and the sale of 4,000,000 warrants (or 4,400,000 warrants if the underwriters’ over-allotment option is exercised on full) (the “Private Placement Warrants”) at a price of \$1.50 per Private Placement Warrant in a private placement to Novator Capital Sponsor Ltd., or Novator, an affiliate of Novator Capital (Guernsey) Ltd. (the “Sponsor”), that will close simultaneously with the Proposed Public Offering.

The Company’s management has broad discretion with respect to the specific application of the net proceeds of the Proposed Public Offering, the sale of the Novator Private Placement Units and the sale of the Private Placement Warrants, although substantially all of the net proceeds are intended to be applied generally toward completing a Business Combination. The Company must complete its initial Business Combination with one or more target businesses that together have a fair market value equal to at least 80% of the net assets held in the Trust Account (as defined below) (excluding deferred underwriting commissions and taxes payable on the interest earned on the Trust Account) at the time of the agreement to enter into a Business Combination. The Company will only complete a Business Combination if the post-Business Combination company owns or acquires 50% or more of the issued and outstanding voting securities of the target or otherwise acquires a controlling interest in the target business sufficient for it not to be required to register as an investment company under the Investment Company Act of 1940, as amended (the “Investment Company Act”). There is no assurance that the Company will be able to successfully effect a Business Combination. Upon the closing of the Proposed Public Offering and Novator Private Placement, management has agreed that \$10.00 per Unit sold in the Proposed Public Offering, including proceeds of the sale of the Private Placement Warrants and Novator Private Placement Units will be held in a trust account (“Trust Account”) and invested in U.S. government securities, within the meaning set forth in Section 2(a)(16) of the Investment Company Act, with a maturity of 185 days or less, or in any open-ended investment company that holds itself out as a money market fund meeting certain conditions of Rule 2a-7 of the Investment Company Act, as determined by the Company, until the earlier of: (i) the completion of a Business Combination and (ii) the distribution of the funds in the Trust Account to the Company’s shareholders, as described below.

The Company will provide its shareholders with the opportunity to redeem all or a portion of their Public Shares, with the exception of the founder shares and Novator private placement shares, upon the completion of a Business Combination either (i) in connection with a shareholder meeting called to approve the Business Combination or (ii) by means of a tender offer. The decision as to whether the Company will

**AURORA ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS**

seek shareholder approval of a Business Combination or conduct a tender offer will be made by the Company. The shareholders will be entitled to redeem their shares for a pro rata portion of the amount held in the Trust Account (initially \$10.00 per share), calculated as of two business days prior to the completion of a Business Combination, including any pro rata interest earned on the funds held in the Trust Account and not previously released to the Company to pay its tax obligations. There will be no redemption rights upon the completion of a Business Combination with respect to the Company's warrants. The Class A ordinary shares will be recorded at redemption value and classified as temporary equity upon the completion of the Proposed Public Offering, in accordance with Accounting Standards Codification ("ASC") Topic 480 "Distinguishing Liabilities from Equity."

If the Company seeks shareholder approval in connection with a Business Combination, it receives an ordinary resolution under Cayman Islands law approving a Business Combination, which requires the affirmative vote of a majority of the shareholders who vote at a general meeting of the Company. If a shareholder vote is not required under applicable law or stock exchange listing requirements and the Company does not decide to hold a shareholder vote for business or other reasons, the Company will, pursuant to its Amended and Restated Memorandum and Articles of Association, conduct the redemptions pursuant to the tender offer rules of the Securities and Exchange Commission ("SEC"), and file tender offer documents containing substantially the same information as would be included in a proxy statement with the SEC prior to completing a Business Combination. If the Company seeks shareholder approval in connection with a Business Combination, the Sponsor, Directors and Officers have agreed to vote their Founder Shares (as defined in Note 5), Novator Private Placement Shares and any Public Shares purchased in or after the Proposed Public Offering in favor of approving a Business Combination and to waive its redemption rights with respect to any such shares in connection with a shareholder vote to approve a Business Combination. However, in no event will the Company redeem its Public Shares in an amount that would cause its net tangible assets to be less than \$5,000,001. Additionally, each public shareholder may elect to redeem its Public Shares, without voting, and if they do vote, irrespective of whether they vote for or against a proposed Business Combination.

Notwithstanding the foregoing, if the Company seeks shareholder approval of a Business Combination and it does not conduct redemptions pursuant to the tender offer rules, the Company's Amended and Restated Memorandum and Articles of Association provides that a public shareholder, together with any affiliate of such shareholder or any other person with whom such shareholder is acting in concert or as a "group" (as defined under Section 13 of the Securities Exchange Act of 1934, as amended (the "Exchange Act")), will be restricted from redeeming its shares with respect to more than an aggregate of 20% of the Public Shares without the Company's prior written consent.

The Sponsor, Directors and Officers have agreed (a) to waive their redemption rights with respect to any Founder Shares, Novator Private Placement Shares and Public Shares held by them in connection with the completion of a Business Combination and (b) not to propose an amendment to the Amended and Restated Memorandum and Articles of Association (i) to modify the substance or timing of the Company's obligation to redeem 100% of the Public Shares if the Company does not complete a Business Combination within the Combination Period (as defined below) or (ii) with respect to any other provision relating to shareholders' rights or pre-initial business combination activity, unless the Company provides the public shareholders with the opportunity to redeem their Public Shares in conjunction with any such amendment.

The Company will have until 24 months from the closing of the Proposed Public Offering (the "Combination Period") to complete a Business Combination. If the Company is unable to complete a Business Combination within the Combination Period, the Company will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but no more than 10 business days thereafter, redeem 100% of the outstanding Public Shares and Novator Private Placement Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest earned (less up to \$100,000 of interest to pay dissolution expenses and net of taxes payable), divided by the number of then outstanding Public Shares and Novator Private Placement Shares, which redemption will completely extinguish public shareholders' rights as shareholders (including the right to receive further

**AURORA ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS**

liquidation distributions, if any), and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the remaining shareholders and the Company's board of directors, dissolve and liquidate, subject in each case to its obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law.

The Sponsor, Director and Officers have agreed to waive their liquidation rights with respect to the Founder Shares if the Company fails to complete a Business Combination within the Combination Period. However, if the Sponsor, Director and Officers have acquired Public Shares in or after the Proposed Public Offering, such Public Shares will be entitled to liquidating distributions from the Trust Account if the Company fails to complete a Business Combination within the Combination Period. The underwriters have agreed to waive their rights to their deferred underwriting commission (see Note 6) held in the Trust Account in the event the Company does not complete a Business Combination within the Combination Period and, in such event, such amounts will be included with the funds held in the Trust Account that will be available to fund the redemption of the Public Shares and Novator Private Placement Shares. In the event of such distribution, it is possible that the per share value of the assets remaining available for distribution will be less than the Proposed Public Offering price per Unit (\$10.00).

The Sponsor has agreed that it will be liable to the Company, if and to the extent any claims by a third party for services rendered or products sold to the Company, or by a prospective target business with which the Company has discussed entering into a transaction agreement, reduce the amount of funds in the Trust Account to below (1) \$10.00 per Public Share or (2) such lesser amount per Public Share held in the Trust Account as of the date of the liquidation of the Trust Account due to reductions in the value of trust assets, in each case net of the amount of interest which may be withdrawn to pay taxes. This liability will not apply with respect to any claims by a third party who executed a waiver of any and all rights to seek access to the Trust Account nor will it apply to any claims under the Company's indemnity of the underwriters of the Proposed Public Offering against certain liabilities, including liabilities under the Securities Act of 1933, as amended (the "Securities Act"). Moreover, in the event that an executed waiver is deemed to be unenforceable against a third party, the Sponsors will not be responsible to the extent of any liability for such third-party claims. The Company will seek to reduce the possibility that the Sponsors will have to indemnify the Trust Account due to claims of creditors by endeavoring to have all vendors, service providers (other than the Company's independent public accountants), prospective target businesses or other entities with which the Company does business, execute agreements with the Company waiving any right, title, interest or claim of any kind in or to monies held in the Trust Account.

Risks and Uncertainties

Management is currently evaluating the impact of the COVID-19 pandemic and has concluded that while it is reasonably possible that the virus could have a negative effect on the Company's financial position, results of its operations and/or search for a target company, the specific impact is not readily determinable as of the date of these financial statements. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Going Concern Consideration

At December 31, 2020, the Company had no cash and a working capital deficit of \$552,663. The Company has incurred and expects to continue to incur significant costs in pursuit of its financing and acquisition plans. These conditions raise substantial doubt about the Company's ability to continue as a going concern within one year after the date that the financial statements are issued. Management plans to address this uncertainty through a Proposed Public Offering as discussed in Note 3. There is no assurance that the Company's plans to raise capital or to consummate a Business Combination will be successful within the Combination Period. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

**AURORA ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS**

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

The accompanying financial statements are presented in conformity with accounting principles generally accepted in the United States of America (“GAAP”) and pursuant to the rules and regulations of the SEC.

Emerging growth company

The Company is an “emerging growth company,” as defined in Section 2(a) of the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012 (the “JOBS Act”), and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act of 2002, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of the Company’s financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

Use of estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of expenses during the reporting period.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statements, which management considered in formulating its estimate, could change in the near term due to one or more future confirming events. Accordingly, the actual results could differ significantly from those estimates.

Cash and cash equivalents

The Company considers all short-term investments with an original maturity of three months or less when purchased to be cash equivalents. The Company did not have any cash equivalents as of December 31, 2020.

Deferred offering costs

Deferred offering costs consist of legal, accounting and other expenses incurred through the balance sheet date that are directly related to the Proposed Public Offering and that will be charged to shareholder’s

**AURORA ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS**

equity upon the completion of the Proposed Public Offering. Should the Proposed Public Offering prove to be unsuccessful, these deferred costs, as well as additional expenses incurred, will be charged to operations.

Income taxes

The Company accounts for income taxes under ASC 740, “Income Taxes” (“ASC 740”). ASC 740 requires the recognition of deferred tax assets and liabilities for both the expected impact of differences between the financial statement and tax basis of assets and liabilities and for the expected future tax benefit to be derived from tax loss and tax credit carry forwards. ASC 740 additionally requires a valuation allowance to be established when it is more likely than not that all or a portion of deferred tax assets will not be realized.

ASC 740 also clarifies the accounting for uncertainty in income taxes recognized in an enterprise’s financial statements and prescribes a recognition threshold and measurement process for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. There were no unrecognized tax benefits and no amounts accrued for interest and penalties as of December 31, 2020. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position. The Company is subject to income tax examinations by major taxing authorities since inception.

The Company is considered an exempted Cayman Islands Company and is presently not subject to income taxes or income tax filing requirements in the Cayman Islands or the United States. As such, the Company’s tax provision was zero for the period presented.

Net loss per share

Net loss per share is computed by dividing net loss by the weighted average number of ordinary shares outstanding during the period, excluding ordinary shares subject to forfeiture. Weighted average shares were reduced for the effect of an aggregate of 750,000 Class B ordinary shares that are subject to forfeiture if the over-allotment option is not exercised by the underwriters (see Note 7). At December 31, 2020, the Company did not have any dilutive securities and other contracts that could, potentially, be exercised or converted into ordinary shares and then share in the earnings of the Company. As a result, diluted loss per share is the same as basic loss per share for the period presented.

Concentration of credit risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist of a cash account in a financial institution, which, at times, may exceed the Federal Depository Insurance Coverage of \$250,000. The Company has not experienced losses on this account and management believes the Company is not exposed to significant risks on such account.

Recently issued accounting standards

Management does not believe that any recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on the Company’s financial statements.

NOTE 3—PROPOSED PUBLIC OFFERING

Pursuant to the Proposed Public Offering, the Company will offer for sale up to 20,000,000 Units (or 23,000,000 Units if the underwriters’ over-allotment option is exercised in full) at a purchase price of \$10.00 per Unit. Each Unit will consist of one Class A ordinary share and one-third of one redeemable warrant (“Public Warrant”). Each whole Public Warrant will entitle the holder to purchase one Class A ordinary share at an exercise price of \$11.50 per share, subject to adjustment (see Note 7).

**AURORA ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS**

NOTE 4—PRIVATE PLACEMENTS

The Sponsor, and certain Directors and Officers have committed to purchase an aggregate of 4,000,000 Private Placement Warrants (or 4,400,000 Private Placement Warrants if the underwriters' over-allotment is exercised in full) at a price of \$1.50 per Private Placement Warrant, for an aggregate purchase price of \$6,000,000 (or \$6,600,000, if the underwriters' over-allotment option is exercised in full) from the Company in a private placement that will occur simultaneously with the closing of the Proposed Public Offering. Each Private Placement Warrant is exercisable for one Class A ordinary share at a price of \$11.50 per share, subject to adjustment (see Note 7). The proceeds from the sale of the Private Placement Warrants will be added to the net proceeds from the Proposed Public Offering held in the Trust Account. If the Company does not complete a Business Combination within the Combination Period, the proceeds from the sale of the Private Placement Warrants held in the Trust Account will be used to fund the redemption of the Public Shares (subject to the requirements of applicable law) and the Private Placement Warrants will expire worthless.

The Sponsor, and certain of our directors, and executive officers have agreed to purchase 3,500,000 Novator Private Placement Units at a price of \$10.00 per Private Placement Unit for an aggregate purchase price of \$35,000,000 in a private placement that will occur simultaneously with the closing of the Proposed Public Offering. Each Private Placement Unit will consist of one Novator Private Placement Share and one-third of one redeemable warrant ("Private Placement Warrant"). Each whole Private Placement Warrant will entitle the holder to purchase one share of Class A common stock at a price of \$11.50 per share, subject to adjustment (see Note 7). If the Company seeks shareholder approval in connection with a Business Combination, the Sponsor, directors, and executive officers have agreed to vote its Founder Shares, Novator Private Placement Shares and any Public Shares purchased during or after the Proposed Public Offering in favor of approving a Business Combination.

NOTE 5—RELATED PARTY TRANSACTIONS

Founder Shares

On December 9, 2020, the Sponsor paid \$25,000 to cover certain offering and formation costs of the Company in consideration for 5,750,000 shares of Class B ordinary shares (the "Founder Shares"). During February 2021, the Company effectuated a share dividend of 1,006,250 Class B ordinary shares and subsequently being issued a cancellation for 131,250 Class B ordinary shares, resulting in an aggregate of 6,625,000 founder shares issued and outstanding. The Founder Shares include an aggregate of up to 750,000 shares subject to forfeiture by the Sponsor to the extent that the underwriters' over-allotment is not exercised in full or in part, so that the number of Founder Shares will collectively represent 20% of the Company's issued and outstanding shares upon the completion of the Proposed Public Offering and Novator Private Placement. All share and per-share amounts have been retroactively restated to reflect the share dividend and related cancellation.

The Sponsor has agreed, subject to limited exceptions, not to transfer, assign or sell any of its Founder Shares (or Novator Private Placement Shares) until the earlier to occur of: (A) one year after the completion of a Business Combination; and (B) subsequent to a Business Combination, (x) if the closing price of the Class A ordinary shares equals or exceeds \$12.00 per share (as adjusted for share splits, share capitalizations, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after a Business Combination, or (y) the date on which the Company completes a liquidation, merger, share exchange, reorganization or other similar transaction that results in all of the Company's shareholders having the right to exchange their Class A ordinary shares for cash, securities or other property.

Administrative Services Agreement

The Company intends to enter into an agreement, commencing on the date of this Proposed Public Offering through the earlier of the Company's consummation of a Business Combination and its liquidation, to pay the Sponsor a total of up to \$10,000 per month for office space, secretarial and administrative services.

AURORA ACQUISITION CORP. NOTES TO FINANCIAL STATEMENTS

Promissory Note—Related Party

On November 23, 2020, the Company issued an unsecured promissory note to the Sponsor (the “Promissory Note”), pursuant to which the Company may borrow up to an aggregate principal amount of \$300,000. The Promissory Note is non-interest bearing and payable on the earlier of (i) December 31, 2021 or (i) the consummation of the Proposed Public Offering. As of December 31, 2020, there was an aggregate amount of \$25,716 outstanding under the Promissory Note.

Related Party Loans

In order to finance transaction costs in connection with a Business Combination, the Sponsor or an affiliate of the initial shareholders or certain of the Company’s directors and officers may, but are not obligated to, loan the Company funds as may be required (“Working Capital Loans”). If the Company completes a Business Combination, the Company would repay the Working Capital Loans out of the proceeds of the Trust Account released to the Company. Otherwise, the Working Capital Loans would be repaid only out of funds held outside the Trust Account. In the event that a Business Combination does not close, the Company may use a portion of proceeds held outside the Trust Account to repay the Working Capital Loans, but no proceeds held in the Trust Account would be used to repay the Working Capital Loans. Except for the foregoing, the terms of such Working Capital Loans, if any, have not been determined and no written agreements exist with respect to such loans. The Working Capital Loans would either be repaid upon consummation of a Business Combination, without interest, or, at the lender’s discretion, up to a maximum of \$1,500,000 of such Working Capital Loans (including loans made in connection with a business combination, the payment of offering expenses or otherwise) may be convertible into warrants of the post-Business Combination entity at a price of \$1.50 per warrant. The warrants would be identical to the Private Placement Warrants.

NOTE 6—COMMITMENTS

Registration Rights

Our sponsor, directors and executive officers will have rights to require us to register any of our securities held by them for resale under the Securities Act pursuant to a registration and shareholder rights agreement to be signed prior to or on the effective date of this offering. These holders will be entitled to make up to three demands, excluding short form registration demands, that we register such securities for sale under the Securities Act. In addition, the holders of the founder shares, private placement warrants, Novator private placement shares, and warrants that may be issued upon conversion of working capital loans (and any shares of Class A common stock issuable upon the exercise of the private placement warrants, Novator private placement warrants and warrants that may be issued upon conversion of working capital loans and upon conversion of the founder shares) will have certain “piggy-back” registration rights with respect to registration statements filed subsequent to our completion of our initial business combination and rights to require us to register for resale such securities pursuant to Rule 415 under the Securities Act. We will bear the expenses incurred in connection with the filing of any such registration statements.

Underwriting Agreement

The Company will grant the underwriters a 45-day option to purchase up to 3,000,000 additional Units to cover over-allotments at the Proposed Public Offering price, less the underwriting discounts and commissions.

The underwriters will be entitled to a cash underwriting discount of \$0.20 per Unit, or \$4,000,000 in the aggregate (or \$4,600,000 if the underwriters’ over-allotment is exercised in full), payable upon the closing of the Proposed Public Offering. In addition, the underwriters will be entitled to a deferred fee of \$0.35 per Unit, or \$7,000,000 in the aggregate (or \$8,050,000 if the underwriters’ over-allotment is exercised in full). The deferred fee will become payable to the underwriters from the amounts held in the Trust Account

**AURORA ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS**

solely in the event that the Company completes a Business Combination, subject to the terms of the underwriting agreement.

NOTE 7—SHAREHOLDER’S EQUITY

Preference Shares — The Company is authorized to issue 5,000,000 preference shares with a par value of \$0.0001 per share, with such designations, voting and other rights and preferences as may be determined from time to time by the Company’s board of directors. At December 31, 2020, there were no preference shares issued or outstanding.

Class A Ordinary Shares — The Company is authorized to issue 500,000,000 Class A ordinary shares, with a par value of \$0.0001 per share. Holders of Class A ordinary shares are entitled to one vote for each share. At December 31, 2020, there were no Class A ordinary shares issued or outstanding.

Class B Ordinary Shares — The Company is authorized to issue 50,000,000 Class B ordinary shares, with a par value of \$0.0001 per share. Holders of the Class B ordinary shares are entitled to one vote for each share. At December 31, 2020, there were 6,625,000 Class B ordinary shares issued and outstanding, of which an aggregate of up to 750,000 shares are subject to forfeiture to the extent that the underwriters’ over-allotment option is not exercised in full or in part so that the number of Founder Shares will equal 20% of the Company’s issued and outstanding ordinary shares after the Proposed Public Offering.

Only holders of the Class B ordinary shares will have the right to vote on the election of directors prior to the Business Combination. Holders of Class A ordinary shares and holders of Class B ordinary shares will vote together as a single class on all other matters submitted to a vote of the Company’s shareholders except as otherwise required by law.

The Founder Shares will automatically convert into Class A ordinary shares on the day of the closing of an initial Business Combination, or earlier at the option of the holders thereof, at a ratio such that the number of Class A ordinary shares issuable upon conversion of all Founder Shares will equal, in the aggregate, on an as-converted basis, 20% of the sum of (i) the total number of ordinary shares issued and outstanding upon completion of this offering and the Novator Private Placement, plus (ii) the total number of Class A ordinary shares issued or deemed issued or issuable upon conversion or exercise of any equity-linked securities or rights issued or deemed issued, by the Company in connection with or in relation to the consummation of the initial Business Combination, excluding any Class A ordinary shares or equity-linked securities exercisable for or convertible into Class A ordinary shares issued, deemed issued, or to be issued, to any seller in the initial Business Combination and any Private Placement Warrants issued to the Sponsor, members of the Company’s management team or any of the Company’s affiliates upon conversion of Working Capital Loans. In no event will the Class B ordinary shares convert into Class A ordinary shares at a rate of less than one to one. On the first business day following the consummation of the Business Combination at a ratio such that the total number of Class A ordinary shares issuable upon conversion of all Founder Shares will equal, in the aggregate, on an as-converted basis, 20% of the sum of (i) the total number of Class A ordinary shares (including any such shares issued following the exercise of the over-allotment option), plus (ii) the sum of (a) the total number of Class A ordinary shares issued or deemed issued or issuable upon conversion or exercise of any equity-linked securities or rights issued or deemed issued, by the Company in connection with or in relation to the consummation of the Business Combination, excluding any Class A ordinary shares or equity-linked securities exercisable for or convertible into Class A ordinary shares issued, or to be issued, to any seller in the Business Combination and any warrants issued in a private placement to the Sponsor or an affiliate of the Sponsor upon conversion of Working Capital Loans, minus (b) the number of Public Shares redeemed by public shareholders in connection with the Business Combination. In no event will any Founder Shares convert into Class A ordinary shares at a ratio that is less than one-for-one.

Warrants — Public Warrants may only be exercised for a whole number of shares. No fractional shares will be issued upon exercise of the Public Warrants. The Public Warrants will become exercisable on the later of (a) 30 days after the completion of a Business Combination and (b) 12 months from the closing of the

**AURORA ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS**

Proposed Public Offering. The Public Warrants will expire five years from the completion of a Business Combination or earlier upon redemption or liquidation.

The Company will not be obligated to deliver any Class A ordinary shares pursuant to the exercise of a Public Warrant and will have no obligation to settle such Public Warrant exercise unless a registration statement under the Securities Act covering the issuance of the Class A ordinary shares issuable upon exercise of the warrants is then effective and a current prospectus relating thereto is available, subject to the Company satisfying its obligations with respect to registration, or a valid exemption from registration is available. No warrant will be exercisable and the Company will not be obligated to issue a Class A ordinary share upon exercise of a warrant unless the Class A ordinary share issuable upon such warrant exercise has been registered, qualified or deemed to be exempt under the securities laws of the state of residence of the registered holder of the warrants.

The Company has agreed that as soon as practicable, but in no event later than 30 business days, after the closing of a Business Combination, the Company will use its best efforts to file with the SEC a registration statement for the registration, under the Securities Act, of the Class A ordinary shares issuable upon exercise of the warrants. The Company will use its best efforts to cause the same to become effective and to maintain the effectiveness of such registration statement, and a current prospectus relating thereto, until the expiration of the warrants in accordance with the provisions of the warrant agreement provided that if the Class A ordinary shares are at the time of any exercise of a warrant not listed on a national securities exchange such that they satisfy the definition of a “covered security” under Section 18(b)(1) of the Securities Act, the Company may, at its option, require holders of Public Warrants who exercise their warrants to do so on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act and, in the event the Company so elect, it will not be required to file or maintain in effect a registration statement, but the Company will use its commercially reasonable efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available.

Redemption of Warrants for Cash When the Price per Class A Ordinary Share Equals or Exceeds \$18.00— Once the warrants become exercisable, the Company may redeem the outstanding Public Warrants:

- in whole and not in part;
- at a price of \$0.01 per Public Warrant;
- upon not less than 30 days’ prior written notice of redemption to each warrant holder; and
- if, and only if, the reported last sales price of the Class A ordinary shares equals or exceeds \$18.00 per share (as adjusted) for any 20 trading days within a 30-trading day period ending on third trading day prior to the date on which the Company sends the notice of redemption to the warrant holders.

If and when the warrants become redeemable by the Company, the Company may exercise its redemption right even if the Company are unable to register or qualify the underlying securities for sale under all applicable state securities laws.

Redemption of Warrants for Class A Ordinary Shares When the Price per Class A Ordinary Share Equals or Exceeds \$10.00—Commencing 90 days after the warrants become exercisable, the Company may redeem the outstanding warrants:

- in whole and not in part;
- at \$0.10 per warrant
- upon a minimum of 30 days’ prior written notice of redemption provided that holders will be able to exercise their warrants on a cashless basis prior to redemption and receive that number of shares based on the redemption date and the fair market value of the Class A ordinary shares;
- if, and only if, the closing price of the Class A ordinary shares equals or exceeds \$10.00 per public share (as adjusted for share splits, share capitalizations, reorganizations, recapitalizations and the like)

**AURORA ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS**

for any 20 trading days within the 30-trading day period ending three trading days before the Company sends the notice of redemption to the warrant holders.

- There will be no redemption rights upon the completion of our initial business combination with respect to our warrants. Our initial shareholders, directors and officers have entered into agreements with us, pursuant to which they have agreed to waive their redemption rights with respect to their founder shares, Novator private placement shares and any public shares they may acquire during or after this offering in connection with the completion of our initial business combination.

The exercise price and number of ordinary shares issuable upon exercise of the Public Warrants may be adjusted in certain circumstances including in the event of a share dividend, extraordinary dividend or recapitalization, reorganization, merger or consolidation. However, except as described below, the Public Warrants will not be adjusted for issuances of ordinary shares at a price below its exercise price. Additionally, in no event will the Company be required to net cash settle the Public Warrants. If the Company is unable to complete a Business Combination within the Combination Period and the Company liquidates the funds held in the Trust Account, holders of Public Warrants will not receive any of such funds with respect to their Public Warrants, nor will they receive any distribution from the Company's assets held outside of the Trust Account with respect to such Public Warrants. Accordingly, the Public Warrants may expire worthless.

In addition, if (x) the Company issues additional Class A ordinary shares or equity-linked securities for capital raising purposes in connection with the closing of a Business Combination at an issue price or effective issue price of less than \$9.20 per Class A ordinary share (with such issue price or effective issue price to be determined in good faith by the Company's board of directors and, in the case of any such issuance to the Sponsor or its affiliates, without taking into account any Founder Shares held by the Sponsor or such affiliates, as applicable, prior to such issuance) (the "Newly Issued Price"), (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of a Business Combination on the date of the consummation of a Business Combination (net of redemptions), and (z) the volume weighted average trading price of its Class A ordinary shares during the 10 trading day period starting on the trading day prior to the day on which the Company consummates its Business Combination (such price, the "Market Value") is below \$9.20 per share, the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the Newly Issued Price, and the \$18.00 per share redemption trigger price will be adjusted (to the nearest cent) to be equal to 180% of the higher of the Market Value and the Newly Issued Price, and the \$10.00 per share redemption trigger price will be adjusted (to the nearest cent) to be equal to the higher of the Market Value and the Newly Issued Price.

The Private Placement Warrants and Novator Private Placement Warrants will be identical to the Public Warrants underlying the Units being sold in the Proposed Public Offering, except that the Private Placement Warrants and the Novator Private Placement Warrants and the Class A ordinary shares issuable upon the exercise of the Warrants will not be transferable, assignable or salable until 30 days after the completion of a Business Combination, subject to certain limited exceptions. Additionally, the Private Placement Warrants and Novator Private Placement Warrants will be exercisable on a cashless basis and be non-redeemable, so long as they are held by the initial purchasers, directors and officers or their permitted transferees. If the Private Placement Warrants are held by someone other than the initial purchasers, directors and officers or their permitted transferees, the Private Placement Warrants and the Novator Private Placement Warrants will be redeemable by the Company and exercisable by such holders on the same basis as the Public Warrants. The holders of the Founder Shares (and any Class A ordinary shares issuable upon conversion of the Founder Shares), Novator Private Placement Shares, Novator Private Placement Warrants and Private Placement Warrants (and any Class A ordinary shares issuable upon the exercise of the private placement warrants) and warrants that may be issued upon conversion of working capital loans will be entitled to registration rights pursuant to a registration rights agreement to be entered into concurrently with the closing of this offering.

**AURORA ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS**

NOTE 8—SUBSEQUENT EVENTS

The Company evaluated subsequent events and transactions that occurred after the balance sheet date the date that the financial statements were issued. Based upon this review, other than as described below or in these financial statements, the Company did not identify any subsequent events that would have required adjustment or disclosure in the financial statements.

During February 2021, the Company effectuated a share dividend of 1,006,250 Class B ordinary shares and subsequently issued a cancellation for 131,250 Class B ordinary shares resulting in an aggregate of 6,625,000 founder shares being issued and outstanding. All per share amounts have been retroactively restated to reflect the share transactions (see Note 5).

Preliminary Prospectus
, 2021

Barclays

Until , 2021 (25 days after the date of this prospectus), all dealers that buy, sell or trade our units, Class A ordinary shares or public warrants, whether or not participating in this offering, may be required to deliver a prospectus. This is in addition to the dealers' obligation to deliver a prospectus when acting as underwriters and with respect to their unsold allotments or subscriptions.

PART II

INFORMATION NOT REQUIRED IN PROSPECTUS

ITEM 6. INDEMNIFICATION OF DIRECTORS AND EXECUTIVE OFFICERS

Cayman Islands law does not limit the extent to which a company's amended and restated memorandum and articles of association may provide for indemnification of executive officers and directors, except to the extent any such provision may be held by the Cayman Islands courts to be contrary to public policy, such as to provide indemnification against willful default, willful neglect, civil fraud or the consequences of committing a crime. Our amended and restated memorandum and articles provide for indemnification of our executive officers and directors to the maximum extent permitted by law, including for any liability incurred in their capacities as such, except through their own actual fraud, willful default or willful neglect. We may purchase a policy of directors' and executive officers' liability insurance that insures our executive officers and directors against the cost of defense, settlement or payment of a judgment in some circumstances and insures us against our obligations to indemnify our executive officers and directors.

Our executive officers and directors have agreed to waive any right, title, interest or claim of any kind in or to any monies in the trust account, and have agreed to waive any right, title, interest or claim of any kind they may have in the future as a result of, or arising out of, any services provided to us and will not seek recourse against the trust account for any reason whatsoever. Accordingly, any indemnification provided will only be able to be satisfied by us if (i) we have sufficient funds outside of the trust account or (ii) we consummate an initial business combination.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, executive officers or persons controlling us pursuant to the foregoing provisions, we have been informed that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

ITEM 7. RECENT SALES OF UNREGISTERED SECURITIES

On December 9, 2020, our Sponsor paid \$25,000, or approximately \$0.004 per share, to cover certain of our offering costs in exchange for 5,750,000 Class B ordinary shares. During February 2021, we effectuated a share dividend of 1,006,250 Class B ordinary shares and subsequently issued a cancellation for 131,250 Class B ordinary shares resulting in an aggregate of 6,625,000 founder shares being issued and outstanding. All per share amounts have been retroactively restated to reflect the share transactions. Such securities were issued in connection with our organization pursuant to the exemption from registration contained in Section 4(a)(2) of the Securities Act. The number of founder shares outstanding was determined based on the expectation that the total size of this offering would be a maximum of 23,000,000 units if the underwriters' over-allotment option is exercised in full and therefore that such founder shares would represent 20% of the outstanding shares after this offering. Up to 750,000 of these shares will be surrendered for no consideration depending on the extent to which the underwriters' over-allotment is exercised.

Our Sponsor is an accredited investor for purposes of Rule 501 of Regulation D. Each of the equity holders in our Sponsor is an accredited investor under Rule 501 of Regulation D. The sole business of our Sponsor is to act as the Company's Sponsor in connection with this offering. The limited liability company agreement of our Sponsor, respectively, provides that membership interests may only be transferred to our executive officers or directors or other persons affiliated with our Sponsor, or in connection with estate planning transfers.

Our Sponsor has committed to, pursuant to a written agreement, to purchase from us an aggregate of 4,000,000 private placement warrants (or 4,400,000 warrants if the underwriters' over-allotment option is exercised in full) at \$1.50 per warrant (for an aggregate purchase price of \$6,000,000 (or \$6,600,000 if the underwriters' over-allotment option is exercised in full)). This purchase will take place on a private placement basis simultaneously with the completion of our initial public offering. This issuance will be made pursuant to the exemption from registration contained in Section 4(a)(2) of the Securities Act.

Our Sponsor, as well as certain of our directors and executive officers, have agreed to purchase 3,500,000 units, at a price of \$10.00 per unit in a private placement of units that consists of one Class A

ordinary share and one-third of one warrant, to occur concurrently with the closing of this offering for an aggregate purchase price of \$35,000,000. The gross proceeds of the Novator private placement will be deposited into the trust account, resulting in a total trust account balance of \$235,000,000 (or \$265,000,000 if the underwriters' over-allotment option is exercised in full) when combined with the proceeds from the offering. The Novator private placement units are identical to the units being sold in this offering, subject to certain limited exceptions described in the prospectus included in this Registration Statement. Our Sponsor, as well as directors and executive officers of our Company, have agreed to waive their redemption rights with respect to the founder shares and shares of Class A ordinary shares included in the Novator private placement units in connection with the completion of our initial business combination.

No underwriting discounts or commissions were paid with respect to such sales.

ITEM 8. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES

(a) Exhibits

The following exhibits are filed with this registration statement:

Exhibit Number	Exhibit Description
1.1	Form of Underwriting Agreement.*
3.1	Articles of Association.*
3.2	Form of Amended and Restated Memorandum and Articles of Association.*
4.1	Specimen Unit Certificate.*
4.2	Specimen Class A Ordinary Share Certificate.*

99.8	<u>Consent of Sangeeta Desai.</u>
99.9	<u>Consent of Arnaud Massenet.</u>
99.10	<u>Consent of Prabhu Narasimhan.</u>

* To be filed by amendment.

(a) Financial Statement Schedules

See the Index to Financial Statements included on page F-1 for a list of the financial statements included in this prospectus.

ITEM 9. UNDERTAKINGS

- (a) The undersigned registrant hereby undertakes to provide to the underwriters at the closing specified in the underwriting agreements, certificates in such denominations and registered in such names as required by the underwriters to permit prompt delivery to each purchaser.
- (b) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.
- (c) The undersigned registrant hereby undertakes that:
 - (1) For purposes of determining any liability under the Securities Act of 1933, the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act shall be deemed to be part of this registration statement as of the time it was declared effective.
 - (2) For the purpose of determining any liability under the Securities Act of 1933, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

SIGNATURES

Pursuant to the requirements of the Securities Act of 1933, the registrant has duly caused this registration statement to be signed on its behalf by the undersigned, thereunto duly authorized, in London, England on February 12, 2021.

By: /s/ Arnaud Massenet

Cayman Islands

12 February 2021

Aurora Acquisition Corp.

We have acted as counsel as to Cayman Islands law to Aurora Acquisition Corp. (the “**Company**”) in connection with the Company’s registration statement on Form S-1, including all amendments or supplements thereto, filed with the United States Securities and Exchange Commission (the “**Commission**”) under the United States Securities Act of 1933, as amended (the “**Act**”) (including its exhibits, the “**Registration Statement**”) for the purposes of, registering with the Commission under the Act, the offering and sale to the public of:

- (a) up to 23,000,000 units (including 3,000,000 units, which the several underwriters (“**Underwriters**”), for whom Barclays Capital Inc. is acting as representative (“**Representative**”), will have a 45-day option to purchase from the Company to cover over-allotments, if any) (“**Units**”) at an offering price of US\$10 per Unit, each Unit consisting of:
 - (i) one Class A ordinary share of a par value of US\$0.0001 of the Company (“**Class A Ordinary Shares**”); and
 - (ii) one-third of one redeemable warrant, each whole warrant exercisable to purchase one Class A Ordinary Share at a price of US\$11.50 per Class A Ordinary Share (“**Warrants**”);
- (b) all Class A Ordinary Shares and Warrants issued as part of the Units.

This opinion letter is given in accordance with the terms of the Legal Matters section of the Registration Statement.

1 Documents Reviewed

We have reviewed originals, copies, drafts or conformed copies of the following documents:

Maples and Calder

PO Box 309 Ugland House Grand Cayman KY1-1104 Cayman Islands
Tel +1 345 949 8066 Fax +1 345 949 8080 maples.com

- 1.1 The certificate of incorporation dated 7 October 2020, the certificate of incorporation on change of name dated 7 January 2021 and the amended and restated memorandum and articles of association of the Company as registered or adopted on 15 December 2020 (the “**Memorandum and Articles**”).
- 1.2 The written resolutions of the board of directors of the Company dated 9 December 2020 and 9 February 2021 (together, the “**Resolutions**”) and the corporate records of the Company maintained at its registered office in the Cayman Islands.
- 1.3 A certificate of good standing with respect to the Company issued by the Registrar of Companies (the “**Certificate of Good Standing**”).
- 1.4 A certificate from a director of the Company a copy of which is attached to this opinion letter (the “**Director’s Certificate**”).
- 1.5 The Registration Statement.
- 1.6 A draft of the form of the unit certificate representing the Units (the “**Unit Certificate**”).
- 1.7 A draft of the form of the warrant agreement and the warrant certificate constituting the Warrants (the “**Warrant Documents**”).
- 1.8 A draft of the underwriting agreement between the Company and the Representative.

The documents listed in paragraphs 1.6 to 1.8 inclusive above shall be referred to collectively herein as the “**Documents**”.

2 Assumptions

The following opinions are given only as to, and based on, circumstances and matters of fact existing and known to us on the date of this opinion letter. These opinions only relate to the laws of the Cayman Islands which are in force on the date of this opinion letter. In giving the following opinions, we have relied (without further verification) upon the completeness and accuracy, as at the date of this opinion letter, of the Director’s Certificate and the Certificate of Good Standing. We have also relied upon the following assumptions, which we have not independently verified:

- 2.1 The Documents have been or will be authorised and duly executed and unconditionally delivered by or on behalf of all relevant parties in accordance with all relevant laws (other than, with respect to the Company, the laws of the Cayman Islands).
- 2.2 The Documents are, or will be, legal, valid, binding and enforceable against all relevant parties in accordance with their terms under the laws of the State of New York (the “**Relevant Law**”) and all other relevant laws (other than, with respect to the Company, the laws of the Cayman Islands).
- 2.3 The choice of the Relevant Law as the governing law of the Documents has been made in good faith and would be regarded as a valid and binding selection which will be upheld by the courts of the State of New York and any other relevant jurisdiction (other than the Cayman Islands) as a matter of the Relevant Law and all other relevant laws (other than the laws of the Cayman Islands).
- 2.4 Copies of documents, conformed copies or drafts of documents provided to us are true and complete copies of, or in the final forms of, the originals.

- 2.5 All signatures, initials and seals are genuine.
- 2.6 The capacity, power, authority and legal right of all parties under all relevant laws and regulations (other than, with respect to the Company, the laws and regulations of the Cayman Islands) to enter into, execute, unconditionally deliver and perform their respective obligations under the Documents.
- 2.7 No invitation has been or will be made by or on behalf of the Company to the public in the Cayman Islands to subscribe for any of the Units, the Warrants or the Class A Ordinary Shares.
- 2.8 There is no contractual or other prohibition or restriction (other than as arising under Cayman Islands law) binding on the Company prohibiting or restricting it from entering into and performing its obligations under the Documents.
- 2.9 No monies paid to or for the account of any party under the Documents or any property received or disposed of by any party to the Documents in each case in connection with the Documents or the consummation of the transactions contemplated thereby represent or will represent proceeds of criminal conduct or criminal property or terrorist property (as defined in the Proceeds of Crime Act (As Revised) and the Terrorism Act (As Revised), respectively).
- 2.10 There is nothing under any law (other than the laws of the Cayman Islands) which would or might affect the opinions set out below. Specifically, we have made no independent investigation of the Relevant Law.
- 2.11 The Company will receive money or money's worth in consideration for the issue of the Class A Ordinary Shares and none of the Class A Ordinary Shares were or will be issued for less than par value.

Save as aforesaid we have not been instructed to undertake and have not undertaken any further enquiry or due diligence in relation to the transaction the subject of this opinion letter.

3 Opinions

Based upon, and subject to, the foregoing assumptions and the qualifications set out below, and having regard to such legal considerations as we deem relevant, we are of the opinion that:

- 3.1 The Company has been duly incorporated as an exempted company with limited liability and is validly existing and in good standing with the Registrar of Companies under the laws of the Cayman Islands.
- 3.2 The Class A Ordinary Shares to be offered and issued by the Company as contemplated by the Registration Statement have been duly authorised for issue, and when issued by the Company against payment in full of the consideration as set out in the Registration Statement and in accordance with the terms set out in the Registration Statement, such Class A Ordinary Shares will be validly issued, fully paid and non-assessable. As a matter of Cayman Islands law, a share is only issued when it has been entered in the register of members (shareholders).
- 3.3 The execution, delivery and performance of the Unit Certificate and the Warrant Documents have been authorised by and on behalf of the Company and, once the Unit Certificate and the Warrant Documents have been executed and delivered by any director or officer of the Company, the Unit Certificate and the Warrant Documents will be duly executed and delivered on behalf of the Company and will constitute the legal, valid and binding obligations of the Company enforceable in accordance with their terms.

4 Qualifications

The opinions expressed above are subject to the following qualifications:

- 4.1 The term “**enforceable**” as used above means that the obligations assumed by the Company under the Documents are of a type which the courts of the Cayman Islands will enforce. It does not mean that those obligations will necessarily be enforced in all circumstances in accordance with their terms. In particular:
- (a) enforcement may be limited by bankruptcy, insolvency, liquidation, reorganisation, readjustment of debts or moratorium or other laws of general application relating to or affecting the rights of creditors;
 - (b) enforcement may be limited by general principles of equity. For example, equitable remedies such as specific performance may not be available, *inter alia*, where damages are considered to be an adequate remedy;
 - (c) where obligations are to be performed in a jurisdiction outside the Cayman Islands, they may not be enforceable in the Cayman Islands to the extent that performance would be illegal under the laws of that jurisdiction; and
 - (d) some claims may become barred under relevant statutes of limitation or may be or become subject to defences of set off, counterclaim, estoppel and similar defences.
- 4.2 To maintain the Company in good standing with the Registrar of Companies under the laws of the Cayman Islands, annual filing fees must be paid and returns made to the Registrar of Companies within the time frame prescribed by law.
- 4.3 Under Cayman Islands law, the register of members (shareholders) is *prima facie* evidence of title to shares and this register would not record a third party interest in such shares. However, there are certain limited circumstances where an application may be made to a Cayman Islands court for a determination on whether the register of members reflects the correct legal position. Further, the Cayman Islands court has the power to order that the register of members maintained by a company should be rectified where it considers that the register of members does not reflect the correct legal position. As far as we are aware, such applications are rarely made in the Cayman Islands and for the purposes of the opinion given in paragraph 3.2, there are no circumstances or matters of fact known to us on the date of this opinion letter which would properly form the basis for an application for an order for rectification of the register of members of the Company, but if such an application were made in respect of the Class A Ordinary Shares, then the validity of such shares may be subject to re-examination by a Cayman Islands court.
- 4.4 Except as specifically stated herein, we make no comment with respect to any representations and warranties which may be made by or with respect to the Company in any of the documents or instruments cited in this opinion letter or otherwise with respect to the commercial terms of the transactions the subject of this opinion letter.
- 4.5 In this opinion letter, the phrase “non-assessable” means, with respect to shares in the Company, that a shareholder shall not, solely by virtue of its status as a shareholder, be liable for additional assessments or calls on the shares by the Company or its creditors (except in exceptional circumstances, such as involving fraud, the establishment of an agency relationship or an illegal or improper purpose or other circumstances in which a court may be prepared to pierce or lift the corporate veil).

We hereby consent to the filing of this opinion letter as an exhibit to the Registration Statement and to the references to our firm under the headings “Legal Matters”, “Risk Factors”, “Shareholders’ Suits” and “Enforcement of Civil Liabilities” in the prospectus included in the Registration Statement. In providing our consent, we do not thereby admit that we are in the category of persons whose consent is required under Section 7 of the Act or the Rules and Regulations of the Commission thereunder.

This opinion letter is addressed to you and may be relied upon by you, your counsel and purchasers of Units pursuant to the Registration Statement. This opinion letter is limited to the matters detailed herein and is not to be read as an opinion with respect to any other matter.

Yours faithfully

/s/ Maples and Calder

12 February 2021

To: Maples and Calder
PO Box 309, Ugland House
Grand Cayman
KY1-1104
Cayman Islands

Aurora Acquisition Corp. (the “**Company**”)

I, the undersigned, being a director of the Company, am aware that you are being asked to provide an opinion letter (the “**Opinion**”) in relation to certain aspects of Cayman Islands law. Unless otherwise defined herein, capitalised terms used in this certificate have the respective meanings given to them in the Opinion. I hereby certify that:

- 1 The Memorandum and Articles remain in full force and effect and are unamended.
- 2 The Company has not entered into any mortgages or charges over its property or assets other than those entered in the register of mortgages and charges of the Company.
- 3 Each of the Resolutions were duly passed in the manner prescribed in the Memorandum and Articles (including, without limitation, with respect to the disclosure of interests (if any) by directors of the Company) and have not been amended, varied or revoked in any respect.
- 4 The authorised share capital of the Company is US\$55,500 divided into 500,000,000 Class A ordinary shares of a par value of US\$0.0001 each, 50,000,000 Class B ordinary shares of a par value of US\$0.0001 each and 5,000,000 preference shares of a par value of US\$0.0001 each. The issued share capital of the Company is 6,625,000 Class B ordinary shares, which have been duly authorised and are validly issued as fully-paid and non-assessable.
- 5 The shareholders of the Company (the “**Shareholders**”) have not restricted the powers of the directors of the Company in any way.
- 6 The sole director of the Company at the date of each of the Resolutions and at the date of this certificate was and is as follows: Caroline Harding.
- 7 The minute book and corporate records of the Company as maintained at its registered office in the Cayman Islands and made available to you are complete and accurate in all material respects, and all minutes and resolutions filed therein represent a complete and accurate record of all meetings of the Shareholders and directors (or any committee thereof) of the Company (duly convened in accordance with the Memorandum and Articles) and all resolutions passed at the meetings or passed by written resolution or consent, as the case may be.
- 8 Prior to, at the time of, and immediately following the approval of the transactions contemplated by the Registration Statement, the Company was, or will be, able to pay its debts as they fell, or fall, due and has entered, or will enter, into the transactions contemplated by the Registration Statement for proper value and not with an intention to defraud or wilfully defeat an obligation owed to any creditor or with a view to giving a creditor a preference.

- 9 Each director of the Company considers the transactions contemplated by the Registration Statement to be of commercial benefit to the Company and has acted in good faith in the best interests of the Company, and for a proper purpose of the Company, in relation to the transactions which are the subject of the Opinion.
- 10 To the best of my knowledge and belief, having made due inquiry, the Company is not the subject of legal, arbitral, administrative or other proceedings in any jurisdiction. Nor have the directors or Shareholders taken any steps to have the Company struck off or placed in liquidation, nor have any steps been taken to wind up the Company. Nor has any receiver been appointed over any of the Company's property or assets.
- 11 To the best of my knowledge and belief, having made due inquiry, there are no circumstances or matters of fact existing which may properly form the basis for an application for an order for rectification of the register of members of the Company.
- 12 The Registration Statement has been, or will be, authorised and duly executed and delivered by or on behalf of all relevant parties in accordance with all relevant laws.
- 13 No invitation has been made or will be made by or on behalf of the Company to the public in the Cayman Islands to subscribe for any of the Class A Ordinary Shares.
- 14 The Class A Ordinary Shares to be issued pursuant to the Registration Statement have been, or will be, duly registered, and will continue to be registered, in the Company's register of members (shareholders).
- 15 The Company is not a central bank, monetary authority or other sovereign entity of any state and is not a subsidiary, direct or indirect, of any sovereign entity or state.
- 16 There is no contractual or other prohibition or restriction (other than as arising under Cayman Islands law) binding on the Company prohibiting or restricting it from entering into and performing its obligations under the Documents.

(Signature Page follows)

I confirm that you may continue to rely on this certificate as being true and correct on the day that you issue the Opinion unless I shall have previously notified you in writing personally to the contrary.
